

GCCAE – PROFESSIONAL STAFF VISITATIONS & CONFERENCES

Professional staff attending school visitations or out-of-state conventions/conferences shall share their experiences and knowledge upon their return with school administrators and professional colleagues. This shall be in the form of a written summary, report, or a presentation (with an audio or video recording) at a regular staff meeting or professional development event. A package including copies of relevant materials obtained at the original event will be submitted to the Principal, Superintendent, or School Board as applicable for recording and filing. Compliance or noncompliance with this follow-up reporting will be a future determinant of additional off site professional staff development events. The Superintendent shall be copied or notified of special presentations.
