

GCH - PROFESSIONAL STAFF ORIENTATION

The Superintendent, or his/her designee, will provide for an annual orientation of all professional staff members. The orientation of returning personnel will focus on the changes which have occurred during the previous year, and the general goals for the coming year.

Orientation of personnel new to the school system may extend over a longer period of time and will provide a wide range of information and background details to enhance the new professional staff member's understanding of the District's framework -- including policy, rules and regulations, and the instructional program.

The School Principal or the immediate supervisor shall orient all professional staff members regarding the evaluation process and procedures.

All professional staff will also receive orientation in school safety procedures and crisis management. The Superintendent or his/her designee will be responsible for providing the orientation.
