

The Apex Advantage

Digital curriculum designed to actively engage students in learning—combining embedded supports and scaffolds to meet diverse student needs, actionable data to inform instruction, and success management—ensures you get the outcomes you’re expecting.

Proven — More Learning Happens

The measure of an effective curriculum is student achievement. Our digital curriculum is designed to support all students in achieving their potential, from those struggling with grade-level content to those capable of accelerating their learning.

Opt-in Supports for Struggling Students

- Vocabulary assistance
- Support cards
- Frequent self-checks
- Study assistance
- Formative feedback
- Embedded multi-language translation and text-to-speech
- Transcripts
- Closed captioning
