PickUp Patrol is Coming to Your School!

Tired of writing notes and calling the school when plans change?

Now you can send dismissal messages by computer or smartphone.

How It Works

1. Choose a DATE.
2. Choose your CHILD.
3. Choose a PLAN OPTION.
4. Click SUBMIT. That's it!

Helpful Tips

- To log in, look for a PickUp Patrol link on the school website or go to https://app.pickuppatrol.net. Bookmark the site for easy access.
- IMPORTANT: For plans to process correctly, select each calendar date in which a change occurs. (Don’t just click one date and add the rest in the notes section.)
- If a plan repeats over and over, use the Repeat Tool to speed things up. Here’s how: Make a plan change, but before submitting it, click the clock button, and then select each date that the change affects. Then click Submit.
- If you make a change and then plans change again, no problem! PickUp Patrol will use the last change entered.
- For added security, each time a change is made, you’ll receive a confirmation email.
- Make plan changes at your convenience and submit them days, weeks, or even months in advance.
