November 4th.

For this Parent Education Series presentation, we are partnering with MAF and ACMH. Join us to learn how mental health challenges and trauma can affect children and youth in the school setting and examine strategies and supports that can help them to be more successful.

This training includes:
* Overview of common mental health disorders in children and youth
* Implications of exposure to trauma
* Discuss why this matters in schools and most importantly what we can do about it!
* Connect with resources for children’s mental health and trauma

**Dinner snack and childcare provided.
