

# Message from the Meadows

...a weekly update from Mrs. Battaglia

December 11, 2020

Happy Friday, South Meadows' Families,

I hope all of you are doing well.

## Virtual Learning Update and Information

We continue to work hard to assure that all of our students are engaged and learning using this digital platform. We recognize that it is easier for some than others and we know the weeks leading up to a break are always tricky; but, daily attendance and engagement is still the expectation.

We cannot do this alone. We are absolutely relying on you, parents and guardians, to help your child through this unparalleled time of learning. Ways to help:

- Have conversations with your child about their learning each day.
- Check in on your child's Seesaw account; look at their assignments and activities.
- Ask your child if he/she is keeping their camera on during lessons.
- Encourage your child to ask for teacher support during "office hours"

## Social Emotional Support

Thank you to Elementary School Psychologist, Mrs. Joyce, for sharing this article regarding students handling feelings during difficult times: [Managing Feelings](#)

## Powerschool

We understand that some of you when trying to reset your Parent Portal password are not receiving the required message back from Powerschool. Our Tech Department has determined that many of the response emails from Powerschool are being sent to Spam. They suggest that you add the following email to your contacts list which should allow those messages to come through:

**PowerSchool@chelsea.k12.mi.us**

Have a good weekend,

Stacie
