

Keeping Up with the Kennedy

Student Learning.....

Mr. Sasin's 3rd Grade students were exploring balance and coordination. The noodle tag activity focused on balancing an object (bean bag) while moving at various speeds to improve coordination. Students had to focus on keeping their head up to move safely as well as balancing the object.

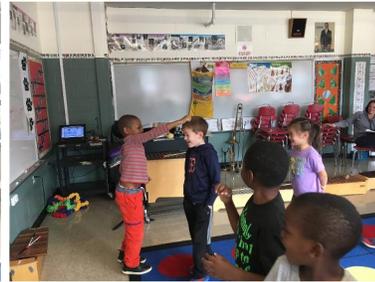

Mrs. Oshry's 1st Graders and Mrs. Donaghey's 5th Graders collaborated on a stem activity. Pairs were asked to make a structure that could stand with 3 ft of tin foil. They needed to make a plan first and then create it.

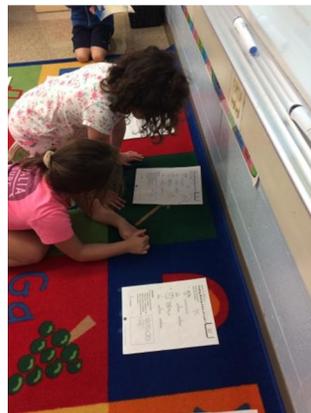

Miss Wolf's 4th Graders have been working on a song with steps and skips. This week they transferred their knowledge from singing the song to mallets, specifically working on using both hands while playing.

Kindergarten students played a game with a song about an apple tree after their apple picking field trip. They practiced following the leader, as well as stopping at the end of the song.

Students in Mrs. Dunlap's 1st Grade created a homework gallery during snack time. Students got to see the many different ways their classmates solved math problems.

Students in Mrs. Myerson's and Mrs. Paciokowski's 1st Grade learned about nonfiction text features and read the fable *City Mouse and Country Mouse*. Students read the story through Readers Theatre, and had a chance to act as the different characters.

YOU ARE PAWSOME

These students are recognized for modeling our school wide expectations.

Winners for this week are: Eddie Sykes, Rose Doherty, Maya Tribuna,
Matthew Zendejas, JJ Faulk, Kevin Brophy, and Lazaro McCarthy
