A. Call to Order

B. Public Comments/Questions

C. Superintendent’s Report  Dr. Fischer-Mueller will report on a variety of events going on throughout the district.

D. New Business

1. Recognitions: The Committee will thank Jennifer Henderson and Dr. William Conard for their contributions and dedication on behalf of the Canton Public Schools.

2. School Improvement Plans:
   a. Bill Conard: Galvin Middle School
   b. Donna Kilday: Rodman Early Childhood Center
   c. Derek Folan: Canton High School

3. Policies: Debra Bromfield will present policies for review.
   a. All policies in Section K presented for 1st read.
   b. Library Collections policy IJL for 1st read.

4. District Brochure: Patricia Kinsella will provide an update on the progress toward creating a district brochure for CPS.

5. Canton Community Preservation Committee Fund Extension: Barry Nectow will present a request for a one year extension to the CPA grant funding for the restroom/storage facility at JFK field complex.

E. Old Business

F. Business Manager’s Report  Barry Nectow will present the Business Manager’s Report.

G. Routine Matters

1. Approve Minutes dated May 24, 2018
2. Approve Executive Minutes dated May 24, 2018
3. Approve Bill Schedule dated June 21, 2018
H. Sub-Committee Reports

1. CPC – Nichola Gallagher
2. BRC – Mike Loughran
3. Wellness - Meg Gannon
4. Finance - Reuki Schutt/Meg Gannon
5. Policy - Kristin Mirliani
6. PRHC – Nichola Gallagher

I. Future Business – Next School Committee Meeting will be held Thursday, July 19, 2018 @ 7:00.

J. Other Business

K. Adjournment
Superintendent’s Report
School Committee Meeting of Thursday, June 14, 2018

Jennifer Fischer-Mueller, Ed.D.
Superintendent of Schools

Superintendent Activities Highlights

CHS Graduation: Thanks to everyone who made this evening most memorable. Further in my report you will see a list of schools students will be attending along with students’ future plans. Congratulations to the class of 2018. Best of luck in all you do!

Step Up Day: On Tuesday, June 12, CHS staff and Link Leaders welcomed the Class of 2022 to the high school. Each year, all 8th grade students walk to Canton High School to have a tour and meet with upperclassman as their first introduction to life at Canton High School.
Safety and Security Committee:
Officer Chuck Rae was pleased with our lockdown drill at the Rodman Building last week. Our after-drill debriefing included details from Lt. Rae. He felt that we knew our options (shelter in place, barricade, or leave the building) and demonstrated this by exercising our choices during the drill. He also liked that he could not see staff or children when he looked in windows. Lights in rooms were off and shades were pulled as they should be. Overall, he commended the staff’s response in the drill.

Greater detail was provided to the Evacuation Team, including for example: attention to the double doors at the pre-school; an empty room left unlocked; the need for an external intercom; and great attention paid to the preparation for families of young children and the follow-up.

Math Team Celebration: Thanks to Boston Mutual for hosting the annual Math Team celebration for the 40th year!

Updates
Coordinated Program Review: The district received on June 11, 2018, a draft report of the Coordinator Program Review findings. The Department of Elementary and Secondary Education asks that the district comment on the factual accuracy of the report within 10 business days. Although the district is still in process of reviewing the draft report, we want to share the following details. In the area of Special Education there were no issues identified for the criteria's reviewed. In the area of Civil Rights there were three very minor issues identified. For English Language Learning, there were four issues identified. The corrective actions necessary to be in 100% compliance are easily addressed with, for example, a change to an absence letter, a partition for a classroom, and more clearly articulated screening procedure for English Language Learners. In August/September, a more formal reporting on all seven (7) of the identified criterion needing correction, as well as the proposed corrective action plan, will be shared with the School Committee and school community.
Indicators of Excellence

NCTA Awards: On Tuesday, June 8th and Award dinner was held at Lombardo’s in Randolph in honor of this year’s NCTA Award recipients. The Norfolk County Teachers Association honors two people from each district every year to show appreciation for all they do for public education. The Honor Award is given to an educator in the district for their significant contribution to Educational Service, Community Service and Association Service. The Service Award is given to an individual layperson or group who has demonstrated support and interest in education in the community. NCTA also honors one student from each district with the Harland L. Cook Book Award ($1,500.00). This year’s award winners are:

Honor Award: Margaret Clifford  Galvin Middle School
Service Award: Anne Murray  Canton High School
Harland L. Cook Book Award: William Amico  Canton High School Senior

Senior Outcomes: Every year Dr. Chamberland, Director of Guidance, compiles the list of post-secondary plans for graduates of CHS, including colleges, universities, military service and the work force. It is the second year in a row we are above 90% of students pursuing higher education. Student plans breakout and a list of schools where students will be attending are as follows:

80% 4 year colleges
12 % 2 year colleges
2% military
6% gap year, work, or other

**Mock Trial:** The attorney coach of the Newton South High School Mock Trial team invited the Canton High School Mock Trial Team to the Garden City Invitational tournament. This pre-season Mock Trial tournament at Newton South High School helps to get Teams ready for the State Tournament.

The Garden City Invitational is very competitive, and is designed to re-acclimate the returning kids to Mock Trial and to give potential new players an opportunity to see what Mock Trial is about and to possibly participate. The tournament has been extremely successful. The tournament this year will be held on October 20/21, 2018.

The participants invited back include:

- Holy Name Central Catholic HS
- Arlington HS
- Newton North HS
- The Winsor School
- Brookline HS
- Malden Catholic
- Newton South HS
CHS Externships: Ninety two seniors participated in this year’s externship program. This is the largest number since the start of the program ten years ago. Thank you to Ed Amico for all his work with coordinating and overseeing this program. Also, a big thank you for all the business/mentors that worked with our students, they are the backbone of this program. The time and energy that they give to the students is very much appreciated.

Senior externship is an opportunity for students to learn real life skills as they end their high school career and start the next phase of their life. The externship program culminates with a ceremony where the participants present impressive displays of their work and share insightful and powerful speeches about their experiences.

Project SAVE: Project SAVE (Substance Abuse Victim Empowerment) team from Canton High School won second place for "community problem solving competition" in the Senior division at the recently concluded FPS International competition. International competition was held from 6th to 10th June at University of Wisconsin.

Students who attended the conference include:
Avitha Addanki – grade 10
Sydney Weng – grade 10
Dusu Sidibay – grade 10
Ciara O’Connor – grade 10
Sinead Qui – grade 10
Sylvia Chin – grade 10
Sarah Hernandez – grade 10
Jenny Mazzola – grade 10
Harshitha Valluri – grade 9

Curriculum Unit Development based on the New Science and Technology Standards: The final two sessions to review the new science "living docs" curriculum took place on May 30th and June 13th for grades K, 1, 2 and 3. These grade level teachers met with Katie Clarke, Teachers 21 Educational Consultant to review standards, essential questions, and new units and to make plans for the final work to be done with Katie over the summer. In fall, 2018, the science curriculum PreK-8 will be entirely consistent with the new standards.

Summary 2017-18

Demographic Information
- 739 students and 110 staff
- Student mobility: 28 students moved out of GMS and 26 students moved in
- 1.5% of students are English Language Learners
- 13.3% of students receive specialized instruction for identified disabilities
- 20.3% of students qualify for free or reduced lunch
- 95.8% average student attendance
Student Learning Outcomes
2017 MCAS SUMMARY
Overall, we saw significant achievement and growth in 2017 in all three subject areas as well as across all grade levels. There are no 2017 CPI data for the school or subgroups in Math or ELA, as 2017 was the first year of the new Next Generation MCAS assessment in these subjects.

World Language National Exams
Over 100 World Language students in grades 7 and 8 participated in the Spanish and French National Exams, which are taken by students across the United States. GMS is proud of all our students who participated in these voluntary examinations, including the 51 students below who earned distinctions.

### Student School Experience

#### School Community Survey Results

173 families responded to our School-Community Survey last spring. Distribution was equal across all three grades 68, 57 and 63 families, respectively. The complete survey responses will be shared in early fall with the faculty and School Council. In analyzing the survey responses, many areas received positive recognition while other areas showed a need for improvement.

#### Strengths

Over 85% of families responded positively to the following statements:

- GMS is a welcoming community.
- The communication from GMS administration is sufficient to keep me informed.
- School programs and practices demonstrate an appreciation for diversity, race, religion, gender and abilities.
- I feel my child is safe and comfortable in the classroom and in the school.
- My child has opportunities for positive recognition.
- School curriculum is distinguished by learning activities that appeal to young adolescents.
- I understand the grading system and feel that grading is fair and accurate.
- I am satisfied with the extra-curricular opportunities available at GMS.

#### Areas for improvement

Fewer than 85% of families responded positively to the following statements:

- Communication from my child’s teachers is sufficient to keep me informed when the situation calls for it.
- I feel my child is safe and comfortable on the bus.
- I feel that teachers coordinate together to balance the student workload.
- My child’s time spent on homework is in line with the guidelines as specified in the Family Handbook.
- I feel that my input and involvement is sought with regard to school policy and practices.
During school year 2018-19, we will work to improve in these areas through our School Improvement Plan. The School Council will also use these results to determine areas of focus.

2018 Pilot Team Student Survey
Team Silver, Galvin’s 7th grade pilot team, was implemented in 2017-18 to increase student engagement, growth, and achievement. This pilot team would then support similar work and development with all other teams by emphasizing an approach that maximizes interdisciplinary and relevant learning opportunities in support of student academic, social, and emotional needs. The rationale for the pilot team is that students benefit from a sense of belonging when they are members of an inclusive community. Students also need a variety of relevant, integrated, and rich learning experiences to connect with their peers, staff, school and community. Finally, students benefit when educators develop an array of strategies in order to address the individual needs of students reflecting a continuum of development.

Strengths
Over 80% of students responded positively to the following survey statements:
- When I feel like giving up, my teachers will support me to keep trying.
- My teachers are excited to teach our classes.
- Before you start a challenging project, I think about the best way to approach the project.
- When you get stuck learning something new, how likely are you to try a different strategy.
- If you fail to reach an important goal, how likely are you to try again.
- How possible is it to change your level of intelligence.
- Overall, how high are your teachers’ expectations for you.
- Overall, how much do you feel that you belong on your team.
- If you came back to visit your teachers in three years, how excited would they be to see you.

Areas for improvement
Fewer than 80% of students responded positively to the following survey statements:
- How often do you use ideas from school in your daily life.
- How useful do you think school will be to you in the future.
- How likely is it that you can stay focused on an important task and not get distracted.
- How possible is it to change how much you liking the subjects you are studying in school.

8th Grade School Climate Survey
Our 8th grade students took a DESE School Climate Survey in spring 2017. DESE has structured the survey to focus on three dimensions of school climate: engagement, safety, and environment.

Strengths
Over 90% of students responded positively to the following statements:
● My teachers care about my academic success.
● Teachers encourage students to respect different points of view when expressed in class.
● Adults working at this school treat all students respectfully.
● If I tell a teacher or other adult that someone is being bullied, the teacher/adult will do something to help.
● My teachers believe that all students can do well in their learning.
● My teachers set high expectations for my work.

Areas for improvement
Fewer than 90% of students responded positively to the following statements:
● School staff are consistent when enforcing rules in school.
● I have a choice in how I show my learning (e.g. write a paper, prepare presentation, make a video, etc).
● I am not scared to make mistakes in my teachers’ classes.
● My textbooks or other class materials include people and examples that reflect my race, cultural background and/or identity.

Bulldog Block Student Survey
GMS implemented the Bulldog Block period for the first time in 2016-17. This advisory-type period occurs once per cycle for 30 minutes for homeroom teachers and and their students. A planning committee created activities and lessons for Bulldog Block that focused on interdisciplinary enrichment and strengthening relationships between adults and students and students with students. The table below details some of our survey results from the end-of-year 2018 survey.

<table>
<thead>
<tr>
<th>Bulldog Block: % Students Responding Positively to 2018 Survey</th>
<th>Gr. 6</th>
<th>Gr. 7</th>
<th>Gr. 8</th>
</tr>
</thead>
<tbody>
<tr>
<td>I feel more comfortable working with a variety of peers as a result of Bulldog Block.</td>
<td>83</td>
<td>78</td>
<td>55</td>
</tr>
<tr>
<td>I feel like my problem solving skills have improved.</td>
<td>72</td>
<td>61</td>
<td>39</td>
</tr>
<tr>
<td>I became friends with new people as a result of spending time with them in Bulldog Block.</td>
<td>75</td>
<td>64</td>
<td>38</td>
</tr>
<tr>
<td>Overall, Bulldog Block was fun</td>
<td>80</td>
<td>75</td>
<td>43</td>
</tr>
<tr>
<td>My Bulldog Block teacher is someone I would talk to if I needed help</td>
<td>67</td>
<td>82</td>
<td>47</td>
</tr>
</tbody>
</table>

The survey included three open response questions which gave students an opportunity to share recommendations for improving Bulldog Block. Based on the survey results, we developed grade-level activities this year (as opposed to school-wide activities in year one) and also worked with team teachers, leaders, and students to give these three groups more input into the activities implemented in each grade. In our last Bulldog Block period of 2017-18, students will take the end-of-the-year survey to determine the strengths and areas for improvement for next year’s program.
Additional Student School Experiences
There are many other positive and exciting school experiences for GMS students at all grade levels. Below are brief descriptions of some of these opportunities.

Expansion of after school clubs: The number of clubs offered and the number of students participating in these clubs has skyrocketed in the past two years. Below are the numbers of clubs and participating students.

Partnerships: Our partnership with Facing History and Ourselves continued this year as they supported our 8th grade Facing History Day, a full day of events culminating with a Holocaust survivor presentation for students. We will be deepening our partnership with FHO next year as they will provide Professional Development for our faculty. For the second year, our school participated in the School to Careers STEM day. This partnership allows 25 interested girls to participate in tech and engineering activities with other schools and professionals in the field and culminates with a day long series of workshops and presentations. Our partnership with Sigma Gamma Rho Sorority, Inc. sponsors our Girls’ Youth Symposium Day. Chess Scholars partnered with GMS to offer a coding and chess class for all students after school.

Annual events:
- Transition events are important markers of the student school experience and include Unity Day and Tour Night for all entering 6th grade students and families; an ice-cream social for incoming sixth grade students and parents/guardians in September; 5th grade orientation for all parents/guardians; and 5th grade transition night exclusively for those parents/guardians with students with an IEP. A variety of activities, including Step-Up day in June, support our 8th graders transitioning to high school.
- Our third annual Girls’ Youth Symposium was held in March, with 60 girls in attendance, the highest number of girls yet.
- Our 2nd annual Cultural Heritage Night brought together over 350 students, staff, families, and community members in celebration of our diversity and the end of the school year.
- CAPT programs once again enriched our students school experiences with the Mad Scientist at the 6th grade, Rob Surette, the Amazing Hero Artist at 7th grade, and Facing History and Ourselves for 8th.
- A variety of field trips gave students real-word learning experiences that connect with both our academic and social/emotional learning: 8th grade Washington/New York; 7th grade Montreal; TreeTop Adventure Course; STEM Gillette Stadium; Maplewood Camp; and the State House.
- A variety of school spirit activities including Fit-4-Funds assembly; Student-Teacher Volleyball and Basketball games; Spirit Week; Pawsitivity Week; World Language Week; Winter and Spring Concerts; three school dances’ and one movie night.
- Volunteer and donation drives included Toys for Tots, Puerto Rico, the Canton Food Pantry, and Project 351 which supported the Cradle to Classroom.

Summary of Progress Toward 2017-18 School Priorities

Three main priorities for GMS include:
1. School Culture and the Student Experience
2. Transformational Teaching and Learning
3. The Pilot Team

We are pleased to report meaningful progress during 2017-18 towards each of our three school priorities. For the first priority, significant progress was made in deepening our commitment to the school vision, grade level teams, and the Bulldog Block program. With our second priority, our Teacher Expose PD day was a tremendous success, with much accomplished in Project-Based Learning, Teaching and Learning Expectations, and Professional Learning Communities. Finally, the first year of our pilot team was a success, and we will be collaborating next year on how to implement many of these strategies across all teams.

GMS 2017-18 School Priority #1: School Culture and the Student Experience
Create a school culture that places students at its center, with an emphasis on the development of positive, healthy relationships that promote students’ well-being and growth.

Rationale: Students who are understood and valued by staff are more likely to be engaged in their learning. Social/Emotional well-being is directly tied to students’ ability to fully access school/curriculum, make forward progress and growth, and reach their full potential. Holding all students in high esteem empowers them to advocate, lead, and contribute to their school and greater communities.

Strategic Areas of Focus:
1.2 Educational Excellence and Continuous Improvement
2.1 Social Emotional Learning
2.3 Professional Culture

<table>

<td>● Agendas and feedback from faculty and other meetings</td>
<td>● Faculty spent time discussing vision and core values at faculty, department and team meetings ● Administration and Team Leaders began process of identifying indicators of excellence that will confirm vision has been successfully implemented</td>
</tr>
</tbody>
</table>
- Research and implement developmentally appropriate strategies in areas of Social-Emotional Learning
- Principal
- Dean of Students
- Consultant
- Faculty, Department and Team Meetings
- GMS participated in district-wide exSEL committee
- Committee received training from exSEL and will help lead district and school training in 18-19

- Implement Bulldog Block periods by grade level to better meet students’ social and emotional needs
- Principal
- BB Planning Committee
- Team Leaders
- Teacher Survey
- Student Survey
- Successfully modified Bulldog Block with distinct programming for each grade
- End-of-year survey given in June
- Results will be analyzed over summer to determine areas of success and opportunities for growth

- Review purpose and work of grade level teams to clarify shared expectations about how we best educate and support students
- Asst. Principal
- Team Leaders
- Time
- MS org. & Resources
- Agendas and minutes of team and faculty meetings
- Team members took survey to identify team strengths, areas for improvement, and suggestions for action steps
- Results will be analyzed over summer to plan PD for 2018-19

- Increase social awareness and empathy amongst 7th grade students by creating and implementing a new course -- Leadership, Culture, Community
- Dean of Students
- School Year 2017-18
- Planning time
- Course Syllabi and Lessons
- New course developed and implemented
- All Gr. 7 students participated in new course
- Student work/projects indicate greater student awareness of and empathy toward school and community

---

### GMS 2017-18 School Priority #2: Transformational Teaching and Learning

Strengthen and broaden the repertoire of instructional strategies used by GMS educators through consistent, focused professional collaboration that promotes collective accountability for the success of all students.

**Rationale:** The greatest impact on student achievement is the quality of instruction. Full engagement in learning results in increased student growth and achievement. Purposeful collaboration around data improves staff practice and student performance, and allows staff to take collective ownership of all of our students.

**Strategic Areas of Focus**

- 1.3 Excellent Educators for Every Student Every Day
- 1.4 Equitable Access to High Quality Instruction
- 3.1 Designing Student Learning and Growth

**GMS 2017-18 School Priority #3: The Pilot Team**
Increase student engagement, growth and achievement by supporting the development of Team Silver as they pilot an approach that maximizes interdisciplinary and relevant learning opportunities that support the academic, social, and emotional needs of their students

**Rationale:** Students benefit from a sense of belonging when they are members of an inclusive community. Students need a variety of relevant, integrated and rich learning experiences to connect with their peers, staff, school and community. Students benefit when educators develop an array of strategies in order to address the individual needs of students reflecting a continuum of development.
### Strategic Areas of Focus:

1. **Educational Equity**
2. **Students’ Ownership of Learning and Demonstrations of Learning and Growth**
3. **Educators’ Creativity and Innovation**

Galvin Middle School Improvement Plan, 2018-19
CANTON PUBLIC SCHOOLS

Submitted to the Canton School Committee
June 14, 2018
School Improvement Priorities 2018-19

Upon review of the student, staff, and community surveys, along with an analysis of progress toward our 2017-18 priorities, we have chosen to remain focused for the coming school year on the first two priorities from last year’s plan: **School Culture and the Student Experience** and **Transformational Teaching and Learning**. We will adapt our third priority slightly from a focus on just the pilot team to a focus on all teams: **Deepen Knowledge of Teams and Supports**.

Specifically, our **School Culture and Climate** priority is to create a school culture that places students at its center, with an emphasis on the development of positive, healthy relationships that promote students’ well-being and growth. Our **Transformational Teaching and Learning** priority is to strengthen and broaden the repertoire of instructional strategies used by GMS educators through consistent, focused professional collaboration that promotes collective accountability for the success of all students. Finally, our third priority, **Deepen Knowledge of Teams and Supports**, takes what we have learned and accomplished via our pilot team this year and begin to implement these ideas, strategies and activities with all of our teams. Specifically, we want to increase student engagement, growth and achievement through an approach that maximizes interdisciplinary and relevant learning opportunities.

Action steps in this plan will fall into one of three categories: a continuation of an action step from last year, an action step that is new this school year but will cover two school years, or an action step that is new this school year and should be completed by the end of the school year.
**GMS 2018-19 School Priority #1: School Culture and the Student Experience**

Create a school culture that places students at its center, with an emphasis on development of positive, healthy relationships that promote students’ well-being and growth.

**Rationale:** Students who are understood and valued by staff are more likely to be engaged in their learning. Social and emotional well-being is directly tied to students’ ability to fully access the curriculum, make forward progress and growth, and reach their full potential. Holding all students in high esteem empowers them to advocate, lead, and contribute to their school and greater communities.

**Strategic Areas of Focus:**
- 1.2 Educational Excellence and Continuous Improvement
- 2.1 Social Emotional Learning
- 2.3 Professional Culture

• 7th and 8th grade students and advisors trained at ADL summer and school year workshops  
• 6th grade ADL activities created and implemented  
• Survey results confirm increased sense of community among Gr. 6 students |
GMS 2018-19 School Priority #2: Transformational Teaching and Learning
Strengthen and broaden the repertoire of instructional strategies used by GMS educators through consistent, focused professional collaboration that promotes collective accountability for the success of all students.

Rationale: The greatest impact on student achievement is the quality of instruction. Full engagement in learning results in increased student growth and achievement. Purposeful collaboration around data improves staff practice and student performance, and allows staff to take collective ownership of all of our students.

Strategic Areas of Focus
1.3 Excellent Educators for Every Student Every Day
1.4 Equitable Access to High Quality Instruction
3.1 Designing Student Learning and Growth

**GMS 2018-19 School Priority #3: Deepen Knowledge of Team Teaching and Supports**

Increase student engagement, growth and achievement by supporting the development of all teams based on the experiences of last year’s pilot team, which emphasized an approach that maximizes interdisciplinary and relevant learning opportunities that support the academic, social, and emotional needs of their students.

**Rationale:** Students benefit from a sense of belonging when they are members of an inclusive community. Students need a variety of relevant, integrated and rich learning experiences to connect with their peers, staff, school and community. Students benefit when educators develop an array of strategies in order to address the individual needs of students reflecting a continuum of development.

**Strategic Areas of Focus:**

- 1.1 Educational Equity
- 3.2 Students’ Ownership of Learning and Demonstrations of Learning and Growth
- 3.3 Educators’ Creativity and Innovation

### School Demographics
- 112 students currently enrolled
- 4 full-week classrooms and 4 partial-week classrooms
- 52 children serviced on IEPs
- 28% families report more than one language in household
- 53% students on an IEP have second language at home
- 19% receive free or reduced lunch
- Racial/ethnic backgrounds as reported by families:
  - 68% White
  - 10% Black or African American
  - 10% Asian
  - 12% Hispanic or Latino
- Staff:
  - Classrooms: 6 Special Education teachers, 7 Educational Assistants, 8 ABA Tutors
  - Service providers & support staff: 1 Speech and Language Specialist, 1 speech and language assistant, 1 physical therapist, 1 occupational therapist, 1 occupational therapist assistant (.4), 1 board certified behavior analyst (.5), secretary (.5), nurse (.8)
  - Administrators-Early Childhood Coordinator (.5), Student Services Coordinator (.5)

### Student Learning Outcomes
**Social and emotional:** This is a major focus of development at this age and our students are progressing in this area.
- 100% of students have access to the social thinking curriculum, The Incredible Flexible You.
● 100% have access to Calm Classroom mindfulness training
● 10% of students have moderate to significant behavioral/emotional need. Of these 10%:
  ○ 2 are supported by staff outside of the classroom setting
  ○ 8 are diagnosed as having a disability
  ○ 3 of those 8 have an autism spectrum diagnosis
  ○ 9 out of 10 are males

**Literacy:** We have begun a long-term initiative to improve the early literacy skills of our students. We identified early literacy as an area of focus after reviewing how our graduates (students who have left the preschool for kindergarten) performed on early reading assessments in kindergarten in the fall of 2017. After reviewing research on the early literacy skills most predictive of reading success, we chose to focus on three specific skills: the ability to rhyme, to discriminate the initial sound in spoken words, and to identify uppercase letters of the alphabet.

Of students transitioning to Kindergarten in September of 2018:
● 90% meet the standard for identifying some uppercase letter
● 63% meet the standard for recognizing and producing rhyming words
● 63% meet the standard for identifying the initial sound of a spoken word

**Math:** Based on progress monitoring data collected in the spring and the fall, our students continue to excel in this area. Of students transitioning to Kindergarten in September of 2018:
● 81% meet the standard for recognizing and naming numbers 1-10
● 94% meet the standard for counting objects using one to one correspondence
● 88% meet the standard for rote counting to 10
● 70% meet the standard for understanding the relationship between numerals and quantities

**Science:** Through a review of pre- and post-curriculum based assessments we are able to report that our students are accessing all of the new science standards and developing skills conducive for problem solving and higher level thinking. Our students demonstrate understanding of the following concepts:
● five senses help us learn about the world around us
● animals have habitats in which they live and there are reasons why specific animals live in specific places
● animals prepare for seasonal changes in unique ways
● seasons and weather affect our lives
● matter can change form
● the difference between living and non living
● patterns and cycles in nature are common occurrences
● living things follow a predictable life cycle
Student School Experience
The Rodman Early Childhood Program continues to offer a quality, play-based, developmentally-appropriate, inclusive preschool experience that reflects criteria put forth by the National Association for the Education of Young Children (NAEYC).

Staff
○ Implemented Calm Classroom mindfulness strategies with children
○ Read and discussed The Behavior Code by Jessica Minahan
○ Created a new family lending library
○ Held a Spring Fling Family event
○ Participated in monthly full faculty conversations focused on growth mindset
○ Accessed additional professional development in the area of social and emotional learning

Families
○ Celebrated Rodman Reads Family Literacy Initiative and family event with a growth mindset focus
○ Formed a preschool CAPT who then sponsored family events such as Preschoolers at the Park, Music and Pizza evening of fun, Coats for Kids
○ Attended Coffee with Coordinator parent meetings. Topics included finding summer resources, school safety, challenging behaviors and Kindergarten transition

Students
○ Experienced Spanish with Seniorita Olsen
○ Enjoyed music with Miss Pabon

School Climate and Culture Survey Results
Areas of strength:
● 92% staff believe students capable of high achievement and growth
● 90% feel that the school sets high standards for student work and educators are committed to supporting students’ achievement
● 96% are committed to helping every child learn.
● 92% believe the principal uses our core values to set the tone of the school.
● 99% like working in this school.
● 90% feel valued.

Areas of focus:
● Educators are looking for opportunities to talk about their teaching practices with peers in order to improve.
● Staff are interested in regular opportunities to collaborate and discuss curriculum.
● Staff would benefit from additional avenues of communication to ensure that information is shared in a timely and clear way within and across schools.
● Staff are asking for greater recognition of their accomplishments.
Family Survey Results
Areas of strength:

- 95% feel welcome in our program
- 95% feel they have been invited to help plan program events and participate in decisions and leadership opportunities. This is a 30% increase from last year!
- 95% feel have a good relationship with their child’s teacher
- 98% feel their child’s teacher takes good care of their child and helps them to grow and learn
- 98% report receiving information about program mission and philosophy
- 98% of families feel respected by program staff
- 88% feel invited to take part in classroom activities and events
- 80% feel the program supports them in getting to know other families
- 67% completed survey; increase from 50% last year

Areas of focus:

- 62% report their child’s teacher asks about things that are important to their family and then uses that information to help their child grow
- 65% report they are able to talk about their child with their child’s teacher at least once per week, which is a NAEYC criterion.

School Council: In spring 2017, the School Committee requested that the Rodman Early Childhood Program form a School Council for the coming school year. We are pleased to report that we have established the School Council with three parent representatives and that the School Council has reviewed various data sets about our program, including survey results mentioned above. Discussion among Council members has generated the following insights:

Communication: Parents are looking for timely information and access to their child’s teacher. Although all families enter the building during arrival and dismissal this time is not conducive to personal conversations. They spoke of a remind app one of our teachers used this year to provide two way communication with the families in her classroom. This allowed them to extend the learning which had occurred previously in the day. Families felt valued as partners in their child’s learning.

Diversity: Our council also spoke at length about the diversity present in our student population. We reviewed data that compared the number of students considered to be dual language learners and the number of dual language learners on an IEP. There is a significant discrepancy in these numbers. It is clear that students with more than one language are identified as being disabled at a disproportionate rate when compared to the population overall. All Council members, as well as educator and service providers, are concerned about these data. This will be a priority area for the 2018-19 school year.

Early literacy: Our focus on early literacy was apparent to Council members, who affirmed their support for continuing this work.

Family and community engagement: Finally, the need to engage families and the community more in our work was strongly suggested. Our school improvement plan for the 2018-19 school year therefore includes a focus on engagement and partnerships among school, family, and community.
Summary of Progress Toward 2017-18 School Priorities

1. Meeting the emotional and behavioral needs of all students.
2. Increasing rigor in science units.
3. Using data to inform decision-making and affect student achievement.

We are pleased to report meaningful progress towards each of our three goals during 2017-18. For the first goal, focusing on the emotional and behavioral needs of all students, our staff have increased their capacity to meet diverse student needs, which has resulted in a significant decrease in the number of instances in which students need behavioral support outside the classroom. In science, we developed units that both reflected the new science standards and provided additional challenge for students. Finally, our analysis of student data resulted in adjustments to curriculum and instruction focusing on those early literacy skills that are most predictive of reading proficiency in the third grade.
### 2017-18 Rodman Early Childhood School Priority #1

Through a series of professional development opportunities, all Rodman educators will increase their capacity to better meet the social, emotional and behavioral needs of students in the inclusive setting.

**Rationale:** “Positive social and emotional development provides a critical foundation for lifelong development and learning. In early childhood, social and emotional well-being predicts favorable social, behavioral, and academic adjustment into middle childhood and adolescence. It helps children navigate new environments, facilitates the development of supportive relationships with peers and adults, and supports their ability to participate in learning activities.” (U.S. Department of Health & Human Services, 2010: Head Start Child Development and Early Learning Framework, Social & Emotional Development)

### Strategic Areas of Focus:

2.1 Social and Emotional Learning  
2.2 Behavioral Intervention  
2.3 Professional Culture  
3.2 Student Ownership of Learning and Demonstration of Learning and Growth

● Data | ● Adjustments to instructional and behavioral strategies implemented by classroom staff reflecting increased time on learning and peer interactions.  
● Data related to time students spent away from group learning experiences in order to regulate themselves collected and analyzed.  
● Patterns of triggers (behavioral antecedents) identified; review of match between student needs and instructional practices. | ● Student data show increased growth and time on learning, leading to positive student outcomes.  
● Only two children regularly required support outside of the classroom for emotional challenges; this represents a significant decrease from the prior year, when nine students regularly required such support. |
| ● Promote growth mindset in students. | ● Rodman Staff  
PD Days Bi-monthly 30-min. mtgs. | 2017-2019  
PD Days Bi-monthly 30-min. mtgs. | ● Time  
● Resources:  
○ The Growth Mindset Coach  
○ Mindset in the Classroom | ● EC Director developed and implemented PD based on The Growth Mindset Coach.  
● All staff participated in monthly professional learning opportunities around strategies to promote a growth mindset.  
● Increased intentionality and awareness of strategies that promote growth mindset in classroom. | ● Number of students with moderate to significant emotional and behavioral challenges decreased from 13 last year to 10 this year.  
● Decrease reflects not only efficacy of work on growth mindset, but also increased capacity of classroom staff to meet student needs within classroom.  
● Classroom observations confirm staff use of strategies and
Parents and guardians report interest in and appreciated for growth mindset materials made available to them.

**Purchase and train all staff on *Calm Classroom Curriculum* to foster self awareness and compassion in students.**

| All Rodman Staff | 2017-2018 Bi-monthly faculty meetings  
| PD opportunities | *Calm Classroom Curriculum & Training*  
| Classroom support  
| Training opportunities | Staff trained by January 2018 with gradual implementation throughout remainder of school year.  

- Data confirm increased ability among students to self-regulate.  
- 75% decrease in student restraints this school year compared to last.  
- Decisions to use physical restraints made this year by BCBA, compared with classroom staff last year; further evidence that classroom staff have increased repertoire of behavioral support skills.
**2017-18 Rodman Early Childhood School Priority #2**

Rodman educators will foster critical thinking and problem solving skills in all students by designing science units which support the school values of academic rigor, inclusive opportunities and accessibility for all students.

**Rationale:** Critical thinking and problem solving skills are necessary for students to extend learning and access higher order thinking. These skills also assess mastery of concept knowledge as application of material is required rather than memorization. Through a hands on, experiential approach this curriculum is accessible to all learners.

**Strategic Areas of Focus:**

● EC Coordinator and classroom teacher attended vertical alignment and created new unit, Amazing Animals, reflective of the new science standards |
| ● Professional development for staff on integrating the design process and technology in the early childhood classroom | ● Classroom Teachers | 2017-18 | ● Professional development resources | ● PD to be offered by March of 2018 | ● Staff provided resources on design process in early childhood  
● More than half of classroom teachers integrated design challenges into curriculum |
2017-18 Rodman Early Childhood School Priority #3
Rodman staff will engage in data analysis of every student in order to adapt instruction and interventions to allow for increased growth and learning.

**Rationale:** Thorough data analysis of the student’s current performance educators are able to make informed decisions and adjust instructional strategies and interventions to positively affect student learning outcomes. Analysis that takes a broader view allows for the identification of trends and patterns within the school learning environment. This knowledge is essential in making changes in programming and curriculum to further enhance student learning outcomes.

School Improvement Priorities for 2018-19

Upon review of the school community and staff professional climate surveys, school council meeting discussion, progress toward our 2017-18 goals, and current student learning data we have chosen three priority areas for the coming school year. These include; ensuring educational equity for our dual-language learners, increasing achievement in key early literacy skills, and increasing opportunities for teacher collaboration and learning.
2018-19 Rodman Early Childhood Program School Priority #1: Transforming Teaching & Learning
Increase student achievement in early literacy skills.

Rationale: As early literacy skills are foundational for student success in the elementary years, we must provide effective and explicit literacy instruction in the preschool years. There is a direct correlation between strong early literacy skills and third grade reading proficiency.

Strategic Areas of Focus:
1.2 Educational Excellence and Continuous Improvements
3.1 Designing student learning and growth

### 2018-19 Rodman Early Childhood Program Priority #2: Achieving Educational Excellence & Ensuring Educational Equity

Ensure educational equity for dual-language learners by eliminating inadvertent misidentification of these learners as having special learning needs.

**Rationale:** It is important to respect and understand the process of acquiring a second language so that we are not erroneously identifying students as having disabilities when none are present, as this could be prejudicial to their school experience over many years.

#### Strategic Areas of Focus:
1. **Educational equity.**
2. **Equitable access to high quality instruction.**

**Student Learning Outcomes**

Canton High School had an extraordinary year in the realm of student achievement. As a school community, we achieved a long-standing goal to earn Level 1 status. The Level 1 status represented the meeting or exceeding of target goals for MCAS achievement and growth across the entire school and within subgroups, while also examining MCAS participation, the graduation rate and the dropout rate. The Level 1 status exemplifies the hard work of the students and the commitment of the educators to examine data, improve instruction and curriculum and enhance the overall school culture.
Our Class of 2018 graduating class experienced a wonderful ceremony on June 1, 2018. In the senior class, 91 percent are headed to post-secondary higher education, while 6 members of the class are headed into the military. A record-number 92 students seniors participated in the Senior Externship Program and presented to community members at the annual Senior Externship Expo.

- The Robotics Team earned the top award in the State and earned a trip to the World Championships in Detroit.
- The Mock Trial team earned a spot in the Elite Eight for the third straight year.
- The Math Team finished second at the New England Championships.
- The Drama Club sold out four shows of Beauty in the Beauty, capping one of the most impressive and involved showcases of costume, acting, singing, tech work and choreography.
- For a third straight year, a student from performing arts qualified for the All State Music Festival.
- A student with a passion for science placed in the top of the state Science Fair for the second straight year.
- The Girls Hockey team made a return visit to the Boston Garden for a State Final appearance, and the boys basketball team earned a Hockomock League Championship for the first time in 26 years.
- Field hockey, Girls Hockey, Boys Hockey, Boys Basketball and Golf won Hockomock League Championships.

Class of 2018 High School Post-Secondary Plans
92.6% of the Class of 2018 has enrolled in higher education

**Student School Experience**

Students engaged in many experiences that deepened their learning and growth, both academic and social. For most, student involvement deepened their connection with Canton High School, while other experiences provided insight into college and careers, sparked a passion, or provided leadership opportunities. The experiences were authentic and transformative and allowed students to use their voices in powerful ways.

**Project-Based Learning (PB) and Academics**

- Hundreds of students engaged in PBL units and presented work publicly.
- Protest Poems read to classmates and then to faculty. Selected students presented Protest Poems at PBL work session.
- Three students presented Ted Talk on how to improve inclusion at CHS; also coordinated half-day PD workshop with students as teachers around identities.
- Bulldog Bistro, a coffee shop run in mornings by CHS students with high needs, created and quickly became key feature of CHS culture.
- Students in Leadership Class worked with Athletic Sub Committees to address four areas of improvement and will present recommendations in June.
- Visual arts students worked with local Water Conservation group to paint and raffle off Water Barrels. Money raised will support modern water-filtering refill station at CHS.
- Students served on committee that implemented recycling in CHS cafeteria.
- Wellness implemented new experiential, collaborative, and challenge-based Grade 9 curriculum.
- Three students received National Merit Scholarship Commendation; one student earned Putnam Scholarship for overall school experience and scores on PSAT.

**Community-Based and Leadership Work**

- Students organized two voter registration drives.
- Hundreds of students participated in Making Strides Walk for Breast Cancer. One student honored at State House for raising thousands of dollars for this cause.
- Character Crew ran workshops at MIAA Wellness Summit, YMCA Leadership Conference, and Unity Day.
- Link Leaders once again created welcoming environment for students transitioning from Galvin Middle School and transferring from other schools.
- National Honor Society members participated in many community service projects, including making black and orange ribbons for Stoughton.
- Students in AP Psychology and Student Council wrote letters to students in Parkland.
● Many student leaders organized and coordinated Walk Out in March to stand in solidarity with Parkland’s community and to call for action to prevent violence.

● Captains and leaders of athletic teams and extra-curriculars ran CHS Showcase to illustrate many experiences at CHS.

● Captains also participated in Captains’ Leadership workshops, presented by Hockomock League.

● Students created CSED (Canton Students Embracing Diversity) and participated in Black History Month presentation.

College and Career Readiness
- Students participated in over 10 school-to-career field trips to learn about professional careers.
- Over 30 colleges and universities visited CHS to meet students.
- Guidance offered bus trips in April to six local colleges
- Staff ran a trip to local community colleges as well.
- Seniors had opportunity to listen to panel discussions from recent CHS graduates in December

Summary of Progress Toward 2017-18 School Priorities
Canton High School made significant progress in many of its priority areas. Student voice and engagement played a major role in the professional development for cultivating a strong school climate and culture. This element will always need work and will always be a priority; there is no finish line. Regarding transformational teaching and learning, nearly half of the staff is trained in project-based learning and shared their successes and thinking. To fully achieve this goal, this priority needs great attention in 2018-19, especially in the realm of teacher planning and designed learning experiences. The Advanced Placement goal, meanwhile, received deep attention through data analysis and readiness development -- for students and teachers. The AP work will continue, with an emphasis on teacher training. Finally, the BYOD and technology priorities did not meet adequate progress, so the actionable items will be a focus in 2018-19.
**CHS 2017-18 School Priority #1: Cultivating School Climate and Culture**

Cultivation of a school culture that features a safe, welcoming, inclusive learning environment that ensures rigorous and equitable opportunities for high achievement for all students

**Rationale:** A positive school culture and climate are inextricably linked to student achievement; staff and students members of a true learning community thrive in a school.

**Strategic Areas of Focus:**
- 1.1 Educational Equity
- 1.2 Educational Excellence and Continuous Improvement
- 1.3 Excellent educators for every student every day
- 2.1 Social Emotional Learning

### CHS 2017-18 School Priority #2: Transforming Teaching and Learning

Design transformative, authentic student learning experiences through teacher collaboration and the cultivation of a strong professional culture.

**Rationale, from CPS Strategic Framework:** *Our world is experiencing rapid and dramatic change. The traditional teaching and learning paradigm needs to change to serve all students well and prepare them for their futures in our ever-changing world.*

### Strategic Areas of Focus
- 2.3 Professional Culture
- 3.1 Designing student learning and growth
- 3.3 Educators’ creativity and innovation
- 4.4 Mission-Driven Organization and Operations

**CHS 2017-18 School Priority #4: Achieving District Excellence**

Expand technology use through a bring-your-own-device (BYOD) program to promote authentic, student-centered learning and to showcase transformative, high-level learning experiences at Canton High School.

**Rationale:** Technology can spark student learning in many ways and serve as a platform to make their learning visible and meaningful. Learning within the context of technology replicates the experiences and needs of the current workplace.

**Strategic Areas of Focus:**
- 1.4 Equitable Access to High Quality Instruction
- 3.1 Designing student learning and growth
- 4.1 Indicators of Excellence

Canton High School
Improvement Plan, 2018-19
CANTON PUBLIC SCHOOLS

Submitted to the Canton School Committee
June 14, 2018
School Improvement Priorities for 2018-19

Upon review of student feedback and staff professional climate surveys, along with review of progress toward our 2017-18 goals, CHS has chosen to focus on the same four priorities, with modifications to the action steps for each one. While we accomplished a great deal during school year 17-18, we are looking forward to building on those focus areas and deepening our impact on the school and the students.
## CHS 2017-18 School Priority #1: Cultivating School Climate and Culture

Cultivation of a school culture that features a safe, welcoming, inclusive learning environment that ensures rigorous and equitable opportunities for high achievement for all students

**Rationale:** *A positive school culture and climate are inextricably linked to student achievement; staff and students members of a true learning community thrive in a school.*

### Strategic Areas of Focus:

- **1.1 Educational Equity**
- **1.2 Educational Excellence and Continuous Improvement**
- **1.3 Excellent educators for every student every day**
- **2.1 Social Emotional Learning**

### Key Action | Person(s) Responsible | Timeline | Resources Needed | Process Benchmarks | Indicators of Progress/Success
---|---|---|---|---|---
Increase student voice around issues of diversity, equity, and school culture | Principal, CSED advisors/staff, Dean of Students | Sept. 2017-June 2019 | Models of successful student diversity groups, Staff advisors, CSED resources and contacts | Updated flags in the main hallway and installation of plaque, Established meeting schedule with CFED to review culture and identify barriers of equity, Align and implement activities and events with CSED and other student activities | Updated flags in the main hallway and installation of plaque, Established meeting schedule with CFED to review culture and identify barriers of equity, Align and implement activities and events with CSED and other student activities

Promote equitable and respectful school culture by providing PD to increase staff awareness of implicit bias and range of student experience in CPS; support staff implementation of their learning in this area | Principal, Central Office Consultant | Sept. 2017-June 2019 | Consultant plan for PD, Models for successful implementation of PD | PD consultant secured, Students shared “voice” and CHS experiences at PD and school-wide event, Time provided for staff to share implementation of PD learning, School culture survey conducted with students | PD consultant secured, Students shared “voice” and CHS experiences at PD and school-wide event, Time provided for staff to share implementation of PD learning, School culture survey conducted with students

Analyze data related to student achievement and participation in order to identify possible patterns among multiple subgroups of students | CHS Admin., Dept. Coord. | Sept. 2017-June 2020 | Data for the metrics of analysis | Data metrics for stdt. subgroups identified, Data compiled, analyzed, and patterns identified, Action steps to address patterns identified, Action steps implemented, New data compiled and analyzed after action steps implemented | Data metrics for stdt. subgroups identified, Data compiled, analyzed, and patterns identified, Action steps to address patterns identified, Action steps implemented, New data compiled and analyzed after action steps implemented
CHS 2017-18 School Priority #2: Transforming Teaching and Learning
Design transformative, authentic student learning experiences through teacher collaboration and the cultivation of a strong professional culture

**Rationale, from CPS Strategic Framework:** Our world is experiencing rapid and dramatic change. The traditional teaching and learning paradigm needs to change to serve all students well and prepare them for their futures in our ever-changing world.

### Strategic Areas of Focus

2.3 Professional Culture
- 3.1 Designing student learning and growth
- 3.3 Educators’ creativity and innovation
- 4.4 Mission-Driven Organization and Operations

### CHS 2017-18 School Priority #3: Achieving Educational Excellence & Ensuring Equity

Increase achievement on Advanced Placement (AP) exams so that 80% of exam scores are 3 or above, while also ensuring the AP participation reflects the demographic breakdown of Canton High School.

**Rationale, from CPS Strategic Framework:** Educational excellence is our expectation that every student will demonstrate high levels of growth.

CHS 2017-18 School Priority #4: Achieving District Excellence
Expand technology use through a bring-your-own-device (BYOD) program to promote authentic, student-centered learning and to showcase transformative, high-level learning experiences at Canton High School

**Rationale:** Technology can spark student learning in many ways and serve as a platform to make their learning visible and meaningful. Learning within the context of technology replicates the experiences and needs of the current workplace.

**Strategic Areas of Focus:**
- 1.4 Equitable Access to High Quality Instruction
- 3.1 Designing student learning and growth
- 4.1 Indicators of Excellence

TO: Canton School Committee  
FROM: Barry S. Nectow  
SUBJECT: CPA Funds Extension  
DATE: June 8, 2018

The Canton Community Preservation Committee is asking the School Committee request a one (1) year extension to the CPA grant funding for the Restroom/Storage facility at the Kennedy School Field complex. The grant funds requiring extension are the grant funds approved at the 2017 town meeting. The extension would be in form and substance similar to the language below.

I have discussed the extension request with Canton Little League and they are in favor of the extension.

I will be meeting with Canton Little League in the near future to find out the status of their fund raising and map out a timeline for the project.

The project will be under the control of the Canton Building Renovations Committee.

The Canton School Committee is seeking a one-year extension to the CPA grant funding for the Restroom/Storage facility at the Kennedy School Field complex. Funds for this project were awarded in May of 2017. The initial funding for this project covered approximately 50% of the CPA eligible portions of the project. The Canton Little League organization raised significant funds for the proposed project; however, those funds were earmarked for the project elements that were not eligible expenses under CPA. A second CPA application was submitted in November of 2017 to cover the unfunded portion of the building project and Annual Town Meeting approved the additional funding in May of this year. The Building Renovation Committee will be putting the project out to bid shortly and the expectation is that construction will commence in the fall in a manner that does not interfere with the use of fields by the various sports teams that utilize this space. The project is expected to be completed by Spring 2019.

We respectfully request that the CCPC grant a one-year extension to complete the approved project.
TO: Dr. Jennifer Fischer-Mueller, Superintendent of Schools

A. **Call to Order:** The meeting of the School Committee is called to order by Chair Kristin Mirliani at 7:01PM.

B. **Open Session:**
   Present are:
   - Kristin Mirliani
   - Michael Loughran
   - Meg Gannon
   - Nichola Gallagher

   Also Present:
   - Dr. Jennifer Fischer-Mueller, Superintendent
   - Barry Nectow, Business Manager
   - Colleen Hutchinson, Recording Secretary
   - Public
   - Staff
   - Press

C. **Public Comments/Questions:** None

D. **Superintendent’s Report:** Superintendent Jennifer Fischer-Mueller reported on the following events: (A complete copy of the Superintendent’s report is available on the website)

   **Superintendent Activity Highlights:**
   - **Tabletop Drill:** District staff and school Emergency Management Teams participated in the second Medical Emergency Response Program (MERP) Tabletop Drill, in collaboration with the Canton Police and Fire Departments on Wednesday, May 23rd. Chief Doody presented an ever-evolving emergency, and each team discussed possible next steps at multiple stages of the emergency.
   - **State Fire Marshal Emergency Planning and Preparedness:** Chief Doody shared a memo with Superintendent Fischer-Mueller from Peter Ostroskey, State Fire Marshal. The memo dealt with recommendations related to classroom and egress doors. On May 16th, Superintendent Fischer-Mueller, Chief Doody, Lt. Rae, Mr. Ed Walsh (Canton Building Commissioner), Mr. Brian Lynch (Director of Facilities) and Mr. Barry Nectow (School Business Administrator) met to discuss the Fire Marshall’s recommendations. Mr. Lynch and Mr. Nectow are reviewing system-wide needs, including the proper installation of interior door locks. In addition, Mr. Walsh distributed a memo outlining his recommendations following the school building walkthroughs.
   - **Safety and Security Committee:** The May Safety and Security Committee meeting included updates on a visitor identification system, the tracking of the completion of issues identified in the school walkthroughs, language to use with young children for
“active shooter” drills, and the beginning of a detailed review of school security manuals. The next meeting is scheduled for Thursday, June 7, 2018.

Updates
Director of Teaching and Learning, PreK-8: The new Director of Teaching and Learning, PreK-8, is Ms. Deborah Rooney. Ms. Rooney comes to Canton from the Boston Public Schools, where she has served as Principal of the Mary Lyon School for the past fourteen years.

Indicators of Excellence
There were many STEAM and PLC’s reported on in district i.e. Girls STEM Meet Up, STEAM Programming, Elementary Standards Based Report PLC, Educator Evaluation Administrators PLC, Elementary Science Unit Professional Development, Annual Visual Arts Show, New Educator Induction and Mentoring Program and a GMS Parent Meeting where discussion was centered on plans for the band programs and the hiring process for new Performing Arts positions. The complete superintendent’s report is available online for more information on each activity listed above.

The Canton High School Performing Arts department entertained the Canton community with the Cabaret on Thursday, May 24 and the Pops Concert on Friday, May 25. Each night was well attended with incredible audience participation and enthusiasm. Finally, Learning from Each Other, which is a sharing of successes between some third and fourth grade teams from the Luce and JFK and the GMS seventh grade team, Team Silver, occurred on May 22. The visit provided the perfect opportunity for sharing innovative instructional practices across grade levels.

Important Dates and Events
May 24  **GMS Memorial Day/Revolutionary War Reenactment, 12:30pm - 2:00pm**
            Rain Date is Friday, May 25th
May 28  **No School: Memorial Day**
May 29  **Performing Arts Gala, 6pm CHS Auditorium- High school celebration of student achievements**
May 30  **GMS Spring Concert, Public Welcome, 6:30pm CHS Auditorium**
June 1   **CHS Class of 2018 Graduation**
June 4   **GMS Small Ensemble Concert, Public Welcome, 7:00pm CHS Auditorium**
June 5 - 8  **Grade 8 Trip to Washington/New York**
June 5   **Artists Reception - Probate & Family Court, 4:30pm - 6:00pm**

June 7   **Unity Day**
June 7   **Concert, All Welcome- CHS Auditorium, 6:30pm - 8:00pm**
June 11  **End of 3rd Trimester for Grades K-5**
June 12   **(Rain Day for Unity Day)**
June 12  Elementary Band and Strings Concert, All Welcome- CHS Auditorium,
7:00pm - 8:30pm

June 13  GMS Cultural Heritage Night #CHN2018 , 6:00pm - 8:00pm

June 13  Kindergarten screening information meeting , Hansen and Luce 6:30pm -
7:30pm  JFK  6:00-7:00

E. New Business

1. Out of State Travel Request: Susan Crespi requested approval, in writing, to take
19 students to the Future Problem Solving International Conference at the
University of Wisconsin from June 6th - June 10th, 2018.
Move:  Mike Loughran
Second:  Meg Gannon
Vote:  4-0

2. Policies:
a. Debra Bromfield presented policy DKC for 1st read. Debra explained
that we adopted the Town of Canton expense policy. There were no
comments or questions.
Move to waive 2nd read:  Meg Gannon
Second:  Nichola Gallagher
Vote:  4-0
Move to accept policy DKC:  Meg Gannon
Second:  Nichola Gallagher
Vote:  4-0

b. Danny Erickson, Teresa Saunders, Kristin Sasonoff and Maureen
Campbell presented policy JJIF for 1st read. It was reported that the
school physician, Dr. Dan Muse has reviewed the changes. Mr. Erickson
explained that most of the changes were language changes and
improvements to practices. Ms. Sasonoff explained that the changes allow
for better communication amongst staff so that students’ return to learn
time is quicker.
Move to waive 2nd read:  Meg Gannon
Second:  Nichola Gallagher
Vote:  4-0
Move to accept policy JJIF:  Meg Gannon
Second:  Mike Loughran
Vote:  4-0

3. School Improvement Plans:
All elementary schools have identified three priority goals to focus on for the
2018-2019 school year. They are: achieving educational excellence and ensuring
equity, transforming teaching and learning and transforming teaching and learning
with an emphasis on science. The complete report of each 2018-2019 School
Improvement Plan can be found on the website. Each report lists the key action,
person responsible, timeline, resources needed and anticipated indicator of
progress and success.
a. David Brauninger for Lt. Peter M. Hansen spoke about the 2017-2108 year-end report. He reported on the school demographics, student learning outcomes and student school experiences. A complete copy of the report may be found on the website. Nichola Gallagher asked about how and when parents are notified about a child who has accessed the Student Support Center (SSC). Mr. Brauninger explained that a staff member at the SSC reaches out to the family on the same day that the student accessed the SCC to provide relevant information.

b. Christine McMahon for John F. Kennedy spoke about the 2017-2108 year-end report. She reported on the school demographics, student learning outcomes and student school experiences. A complete copy of the report may be found on the website.

c. Robie Peter for Dean S. Luce spoke about the 2017-2108 year-end report. She reported on the school demographics, student learning outcomes and student school experiences. A complete copy of the report may be found on the website.

Chair Mirliani shared that she like the readability of the School Improvement Plans, and she liked seeing the reporting of demographics. Overall, she felt that the reports were a great way for school committee members to learn about the schools and get a more in depth picture of successes and areas in need of improvement.

Mr. Loughran suggested that in future School Improvement Plans we may want to consider adding a safety section.

4. **Every Student Succeeds Act**: Jen Henderson shared updates on changes to DESE accountability. She explained the shift from NCLB to ESSA. The accountability reports will be published for each district and school in the fall with all MCAS numbers. The focus is on raising the performance of each school’s lowest performing students. There will be a discontinuation of accountability and assistance levels 1-5. These will be replaced with accountability categories that define the progress that school are making then the type of support they may receive form the Department. For Canton, our Indicators of Excellence will be important because DESE will be looking at student opportunities beyond test scores. The complete presentation can be found on the website.

5. **FY18 Budget**: Barry Nectow presented the FY18 3rd Quarter Report. Mr. Nectow said we are exactly where we thought we would be with the 4th quarter report shaping up to be almost identical. Mike Loughran asked about $495K on page 2 that we returned to the Town of Canton. Barry explained that last fiscal year we gave back the money because we got additional Chapter 7 $ for FDK. The complete FY18 3rd quarter report may be found on line.

F. **Old Business**: None

G. **Business Manager’s Report**: 1.) Safety and security: the district is continuing to look at doors and entry points and possibly using Raptor as the new visitor management system.
The project will start at CHS then roll out to other schools if it is determined that the product worked well for CHS. 2.) There is a signed contract with Dore & Whittier for the feasibility study, the contract came in a little lower than expected. 3.) There is a new registration office for all incoming and outgoing registrations, room 26 of the Rodman building. 4.) Transportation: Friday, 5/25 is the last day to sign up for bus without incurring a late fee. Applications will be taken until June 15th with a late fee added. After June 15th, all applications will be put on a wait list until October. All students must return the form even if not using transportation. Mike Loughran asked if we are looking into an online version of transportation and enrollment forms. Mr. Nectow said we will be migrating to an online version. At this time, we continue to demo products.

H. Routine Matters

   Move: Mike Loughran
   Second: Meg Gannon
   Vote: 4-0

2. Approve Minutes dated May 14, 2018, with change to next meeting date to read Wednesday, not Monday.
   Move: Mike Loughran
   Second: Meg Gannon
   Vote: 4-0

3. Approve Minutes dated May 16, 2018, with change to next meeting date to read Thursday, not Monday
   Move: Mike Loughran
   Second: Meg Gannon
   Vote: 4-0

4. Approve Executive Minutes dated May 16, 2018. Chair Mirliani shared that Ms. Sarah Shannon’s contract was approved with a salary of $136,500 plus benefits. Ms. Shannon will begin work on July 1, 2018. Ms. Shannon will attend the next School Committee meeting on June 14, 2018.
   Move to Approve minutes dated May 16, 2018: Mike Loughran
   Second: Meg Gannon
   Vote: 4-0
