Canton Academy offers a strong academic program for students who will benefit from review within a small group environment. For students in grades 1-4, all classes last 90 minutes for the full five weeks. Students are encouraged to add a 90 minute creative, enrichment course to supplement the academic classes. In order to ensure that the teacher meets the students’ needs, it is advisable to register early so that we can obtain results from the most recent academic assessments. All classes will have a limit of 10 students to maximize individual instruction.

**STUDENTS CAN DO ALL 5 WEEKS OR A PORTION.**

**COST WILL BE PRO RATED ($60.00 PER WEEK)**

**Language Arts-Grades 1-4**

9-10:30 AM

Janet Rigdon

Students will review phonics and challenge themselves to read “just right” books, as well as building their ability to express themselves in writing.

**Math Enrichment-Grades 1-4**

10:30 -12 PM

Janet Rigdon

The mathematics program will be reinforced to improve student’s arithmetic skills. No matter what skills the child possesses, individual attention will be given to each student so that they may build upon their yearlong instruction in math knowledge.
COURSE DESCRIPTIONS

3 D Sculpture Workshop – Damian Stanfa
This workshop puts Michelangelo to shame, giving students a wide variety of sculptural techniques, materials, and projects to work from. If students love working with their hands to create sculptures, crafts and works of art in 3D form, this program is for them. If you love creativity, sculpture and fun, then sign up for this exciting academy offering.

Afro Dance Fitness – Naomi Adagboyi
Much like Zumba Fitness, Afro Dance Fitness will be fast paced, energetic, loud and fun! Students will be introduced to diverse dance fitness routines and styles. Each dance technique will be taught with Afro pop music and a choreographed routine will be performed at the end of each session.

Around the World – Courtney Song
No passport needed for this week of worldwide fun! We will learn all about Countries all around the world. Play native games, learn traditions, and make a souvenir to remember each country by! Travel with us and learn about the cool cultures of near and far!

Arrghh You Ready to be a Pirate? – Courtney Song
A week full of buried treasure and fun! Learn about the history of pirates, as well as learning some pirate slang! We will make our own maps, treasure chests, telescopes, and more! Play games like shipwreck, capture the treasure, and end the week with a scavenger hunt fit for a perfect pirate and his mateys!

Awesome Astronauts – Courtney Song
Blast off to outer space this week as we discover the Solar System and beyond! Learn all about the planets and stars, make moon rocks, marshmallow constellations and more super space crafts, and even play some Alien Tag!

Babysitter Training plus First Aid/CPR certification – Maryellen McNally
In this class student will learn babysitting basics about caring for young children- how to feed/diaper/ and interact appropriately. Students will also cover First Aid topics, learn and practice CPR techniques including choking relief, use of an epi-pen for allergic reactions and AED machine. AMERICAN RED CROSS CPR CERTIFICATION IS INCLUDED for successful completion of the class.

Basketball Skills – Devin Beck
This class will work on the fundamental basketball skills such as dribbling, shooting, passing, rebounding, and defense. Fun semi-competitive games will take place towards the end of each day ranging from 2v2 to 5v5.

Big Top Circus Fun – Courtney Song
Run away to the circus this week, while you’ll get to experience being a clown, acrobat, ringmaster, all while creating crafts and playing our very own circus games!

Blast From the Past! – Courtney Song
Join us as we travel back in time! Each day we will travel to a different decade and learn some games, some fun facts, do a craft, and listen to music that was top hits of the time! In the 50s we’ll have a sock hop and decorate records and poodles! In the 60s we’ll tie-dye and make paper flowers! In the 80s we’ll play rock and roll games and decorate our crazy guitars! Join us in our time machine and get ready to have fun!
Computer Art Workshop – Damian Stanfa
A workshop that introduces the student to new ways to use the computer as a creative learning tool, as well as an unlimited resource for design, art and self expression. Using Adobe Photoshop and Illustrator, this program offers a wide array of other digital art tools and techniques. All are welcome, beginners and experienced alike, to come join this exciting class.

Creative Writing – Abigail Kopel
Have you ever wanted to make your own picture book? Write an article for a newspaper or magazine? In this class we will use our imaginations to do all sorts of artistic writing pieces.

Cupcakes – Elayne Farinella
Everyday should be cupcake day!! Come have some fun learning how to make and decorate cupcakes. Each day your child will come home with a different kind of creation. If you love cooking then come join us. We will also make some cookie creations and add in some crafts and games to add to the fun.

Dance - Abigail Kopel
This dance class would include dance warm ups and a new style of dance and a new combination taught each day. We would explore different styles from hip hop one day to musical theatre the next.

Drawing/Illustration Workshop – Damian Stanfa
Students will concentrate on the concepts, skills, and fun of drawing and design. Open to all levels to help build illustration, drawing and sketching skills in a fun and creative environment. Students will use a wide variety of material including pencils, pens, and paint. Projects will range from cartooning, comics/comic books, self portraits and other illustrating crafts. If you love drawing and illustration, sign up for this Cool Canton workshop.

Improv Comedy – Abigail Kopel
Do you love to make people laugh? Are you good at thinking quickly on your feet? If so, then improv might be just the thing for you!! In Improv class we will work on different games that you might see in an improv show. Through teamwork and different improvisational strategies, you will learn about how to perform without a script.

Introduction to American Sign Language (ASL) – Claire Grogan
Students will learn the basics skills and knowledge needed to communicate in (ASL). Students will know and understand the alphabet, numbers and everyday vocabulary signs. Students will also be able to participate in conversations using ASL. Additional skills that will be practiced are presentation skills, group work, listening and understanding differences among us to learn and grow. An added bonus to this course is your child’s phonic skills will deepen as ASL is a great tool to use to strengthen phonic knowledge.

Coding – Eamonn Kelly
Students will learn to create their own unique games and programs through block-based coding apps such as Scratch and Code.org. We will start with understanding fundamental concepts of coding such as conditionals, loops, variables etc. through a series of coding “puzzles” and lessons. Students will then continually work to apply those concepts to creating their own original games and programs.

Introduction to Spanish – Claire Grogan
Students will learn the basic skills and knowledge needed to communicate using the Spanish language. They will know and understand the alphabet, numbers and everyday vocabulary words. They will also be able to participate in conversations using Spanish. Additional skills that will be practiced are presentation skills, group work, listening and understanding Spanish culture.
Jammin’ Jungle – Courtney Song
Sign up for a safari of fun this week as we learn all about animal life in the rainforest. Make rain sticks, snakes, safari hats & vests, monkeys, jungle dioramas. Go through obstacle courses, jungle games, and more!

Party in the USA! – Courtney Song
Learn about the states and have some fun while doing it! Travel down to Texas and learn to trick rope and line dance! Head to Hawaii for some hula dancing, a luau, and a limbo! Make your own Hollywood walk of fame star in California! Learn all about the great states while having fun and playing games!

Storybook Art – Molly Newman
Young artists will use picture books to inspire hands-on, multi-media art activities. Art making will include collage, stamping, watercolor, clay, oil pastels, assemblage and construction. Reading and books will take on a new meaning for a child when integrated with creative arts.

Super STEAM – Courtney Song
Ready for a hands on week of STEAM challenges and projects? Build a battery out of pennies, balloon car races, the 100 cup challenge, dancing raisins, bubble wands, DIY kaleidoscope, and MORE! A week full of discovering, creating, teamwork, and FUN!

Survivor - Laurie Zwicker
Do you have what it takes to be a Survivor? During this fun packed week, kids will participate in activities, games, and challenges by themselves, with a partner, small groups and whole groups settings. Kids will work cooperatively with one another to achieve personal success throughout the week. Different activities will be provided for each Survivor week. Take one week or take them all! A Canton Academy Classic and favorite for 14 YEARS!!!!

Theatre Class - Abigail Kopel
The theatre class will incorporate theatre games and strategies for performing. Students will make up their own scenes, rehearse them and will work on scenes from real established plays.

Video Game Design - Damian Stanfa
Back again and offered for the 5th consecutive year, this workshop is geared to students interested in playing video games and video game design building. Using Gamestar Mechanic and Sploder (game based digital learning platforms), these online based systems are geared towards students learning the guiding principles of game design and play and have students thinking and participating in an engaging and creative environment. No matter what level of interest in video games you might have; design, storytelling, game adventure or game playing, this workshop had it coveted. Hope to see you there!

Web Design – Justin Martin
There are presently over 1.8 BILLION websites on the Internet, and they serve many different purposes, ranging from providing information or entertainment to selling products. Children who know how to build their own websites can perform a wide range of useful tasks in the future such as starting online businesses and creating information gateways to educate others about a certain interest. We will learn basic web design elements utilizing HTML, CSS, and JavaScript code as well as using Google Sites.
Will you child be staying for extended day at the LUCE? Yes ___ No___
