Dear Canton Public Schools

We believe in each and every one of our students, and we are inspired by their ability to learn and grow. We find joy in their personal stories, and we cherish their personalized path to success in the Canton Public Schools.

Students are the center of our work.

As we embarked on developing a new 5-year Strategic Plan for the Canton Public Schools, the student experience served as a foundational focus area. We committed to being an inclusive, student-centered learning community with a rigorous and equitable approach for every student.

We emphasized the importance of community, with each student, staff and family having a sense of belonging -- being known and valued -- so everyone can be their best and thrive in a culture of partnerships and support. Our community is valued and sets the tone for a safe, welcoming and equitable school environment.

We believe in our talented educators, knowing their daily instruction and caring relationships with students serve as the most impactful element of a student’s learning. As such, we remain deeply committed to high quality teaching, learning and leading, and we will continually support and emphasize the importance of professional learning, continuous improvement and best practices in the field of education.

Our goal is to be #ChampionsofExcellence. We aim to be a champion for every student, every family, and every staff member. We are champions for learning, and excellence is our standard. A lofty statement and aspirational.

Canton Public Schools can achieve these bold goals -- and reach another level -- through a strategic approach, a student-centered belief system and a growth mindset. Thus, the 2023-2028 Strategic Plan sets our path to success and outlines our key commitments, priority areas and key actions. It was developed by a collaborative group of stakeholders, and it represents hundreds of voices through focus groups, surveys and data sets. We are so thankful for the help.
Community,

The Strategic Plan process provided our District the opportunity to update our Mission, Vision and Core Values, which will guide us and serve as pillars moving forward. Our theory of action outlines the tenets of our work and what we can achieve. And the actual Strategic Plan is the roadmap for our goals and improvement, our planning, our decisions -- and, most importantly -- our commitment for achieving an exceptional student learning experience.

We are excited to do the work. Thank you for being part of our team and community. Canton is pretty special. We are proud to stand with you as

#ChampionsofExcellence. Go Bulldogs!

Sincerely,

Derek Folan,

Summary of the Strategic Planning Process

The strategic plan is a powerful tool that can assist a district in staying focused on what it is, what it wants to be, and how it can achieve its goals. It represents “the set of actions an organization chooses to pursue in order to achieve its objectives. These deliberate actions are puzzle pieces that fit together to create a clear picture of how the people, activities, and resources of an organization can work effectively to accomplish a collective purpose.” (Curtis & City, 2010, p. 20). The strategic planning process affords the opportunity to seek feedback from constituents that comprise the school district: students, parents, staff, administrators, school committee, and the community, in order to best serve the educational community in the future.

In the Spring of 2023, members of the Canton Public Schools and community came together to develop a strategic plan that would serve as a road map for improvement for the 2023-24 through 2027-28 school year. The following three-step strategic planning process was employed to help guide the planning process:

Phase 1
Building the Foundation

Phase 2
Building the Plan

Phase 3
Implementing the Plan
Phase One represented an important step in beginning the building of a strong foundation in the strategic planning process. In this phase, relevant data representing the performance of the Canton Public Schools was collected and community input and feedback was solicited. A series of forums were conducted with parents, community, school committee, staff, and leadership. Ex-post facto data about the Canton Public Schools was also collected to be used in Phase Two of the process. This data guided the work of the Strategic Planning Committee in Phase Two of the process.

In Phase Two, a Strategic Planning Committee was established to begin the important work of analyzing internal and external data to guide the work in establishing a mission, core values, and a vision. The current strategic plan was also assessed to inform the development of a new plan. During Phase Two work, members of the Strategic Planning Committee analyzed internal and external data collected in order to identify common themes, referred to in the plan as priorities. The Strategic Planning Committee established strategic objectives for each priority, key actions for each objective, and identified outcomes for each strategic objective. The Strategic Planning Committee also revisited the vision in this phase to ensure it represented the mission of the Canton Public Schools. A theory of action was also developed.

In the final phase of the strategic planning process, the Strategic Planning Committee discussed how the newly developed contents of the strategic plan could be implemented both vertically and horizontally in the organization to guide the change process over the next five years. Strategies were highlighted that would be employed to ensure that district improvement would focus on the identified compass points.
Mission Statement

The Mission Statement explains who we are and highlights our fundamental reason for existing. When others read the mission statement they should understand what our core role is as a district. The mission creates fundamental questions for all organizations to ask:

- What is it that we do?
- Who benefits from our work?
- What are the results of our work?

The Strategic Planning Committee reviewed all collected data from parents, community, and staff and then engaged in a great deal of conversation regarding the aforementioned questions and developed the following mission statement:

We are an inclusive, student-centered learning community that fosters academic growth, resilience, and achievement while ensuring that every member experiences a sense of belonging, embraces challenge, and positively impacts their world.

Vision Statement

A Vision Statement represents an aspirational description of what an organization would like to achieve or accomplish in the mid-term or long-term future. It is intended to serve as a clear guide for choosing current and future courses of action. It is intended to be our compass – our North Star. The vision statement should be a brief, but concise statement that clearly exemplifies the district’s vision for those it serves.

An exceptional education that develops innovative thinkers, curious and empowered learners, and compassionate citizens
Core Values

The Canton Public Schools’ Core Values should remain constant in an ever-changing world. These values provide the foundation for our work and influence how we conduct ourselves and engage with others. The following set of core values were established:

- **R** Respectful and Collaborative Relationships
- **E** Educational Equity
- **A** Academic and Personal Excellence
- **C** Community Engagement
- **H** High-quality Teaching, Learning, and Leading

Theory of Action

An organization’s theory of action represents a set of actions that will be implemented in order to improve the organization and help it reach its mission. The theory of action is closely related to the strategic objectives and how their implementation will lead to organizational improvement.

Through rigorous, relevant, and culturally and linguistically responsive learning experiences, state-of-the-art operational systems that assure access to high-quality resources aligned to our educational vision; effective communication, engagement, and partnerships between home, school, and community; school climate and culture that supports a rich educational environment for all students and staff, we will inspire achievement, growth, and resilience so that all members embrace challenge, experience a sense of belonging, and positively impact their world!
Priorities & Strategies
2023 - 2028

After developing a mission, core values, and a vision, the Strategic Planning Committee began the work of developing the priorities that will serve as the core focus of district improvement for the next five years. Each priority is highlighted in an action plan that includes multiple strategies and key actions for each priority, evaluation / indicators, timeline, and person(s) responsible. The following four priorities emerged from the process:

1. Teaching, Learning, and Leading for All

2. Management and Operations

3. Communication and Community Engagement

4. Safe, Inclusive and Equitable Environments
1

Priority #1
Teaching, Learning, and Leading for All

Strategic Objective

To create rigorous, relevant, and culturally and linguistically responsive learning experiences so that the PreK-12 journey supports student development and prepares every student for the future.

Focus and Rationale

Public education exists not only within the context of our local Canton community but also within the larger context of our global society. As the world experiences rapid and dramatic changes in technology, the economy, and society, the traditional paradigm of teaching and learning is also changing. More than ever, we must teach our students to collaborate skillfully, to maintain a growth mindset, and to seek and make use of new knowledge. Educational excellence is our expectation that every student will demonstrate high levels of growth and achievement. We foster educational excellence through high-quality teaching, learning and leading, strong systems of support and enrichment, and aligned, culturally and linguistically responsive curricula.
## Priority #1: Teaching, Learning, and Leading for All

### Strategic Initiative
Develop a District-wide tiered system of supports to meet students’ academic and social-emotional needs

### Outcome
Close the achievement gaps for historically marginalized and/or underserved populations in the Canton Public Schools

Priority #4
Safe, Inclusive, and Equitable Environments

Strategic Objective
To create and sustain a culturally and linguistically responsive school climate and culture that supports an equitable educational environment for every student and staff member.

Focus and Rationale
As student learning is inextricably linked to a school's social environment, adults have a collective responsibility to build a positive climate and culture in all of our schools. We must pay careful attention to, model, and provide explicit instruction in social-emotional, multicultural, and culturally and linguistically responsive practices that contribute to a healthy climate and culture and support overall student well-being while also disrupting inequitable student and staff experiences.
