## COVID Safety Update

### 1. **No coffee / drinks / food is permitted in classrooms.**

As stated last week, with the increase of vaccinations, opening up of school, work and social restrictions and warm weather it is easy to think things are getting back to normal and easy to let down our diligence with continued safety precautions. With this in mind this is a reminder that during our current conditions **No coffee / drinks / food are permitted in classrooms.**

If a student requires water then they should discuss with their teacher and work within classroom expectations and safety requirements. However, adding food, coffee and other beverages only add an unneeded potential to put others at risk as these would require removing masks.

Food is to be eaten in the Cafeteria or alternative areas when directed.

Please note that this policy is, as are all of our related COVID safety policies, aimed at supporting and maintaining a safe learning environment that most supports our ability to maintain in person learning and extracurricular events and activities.

- Now is the time to contact your child's pediatrician.
