

Matching Gifts Program

Many companies offer their employees, spouses, and retirees an opportunity to financially support a favorite charity and at the same time receive a matching contribution from their employer through their Matching Gift program. We encourage you to:

- Consult with your Human Resources Department to see if your company has a designated Matching Gift program, what program areas they will support, and what is the maximum amount they will match each year
- Investigate your company's procedure for requesting matching gifts, as some procedures are now limited to online form submission by employees
- If required, submit the appropriate matching gift form to Mater Dei Catholic School and we will complete the necessary information on behalf of Mater Dei and return it to your company for processing of their gift

Companies that have matched gifts for Mater Dei in the past are:

- Prudential
- GSK
- Merck
- Marsh and McLennan Companies
- Henderson
- Pfizer Foundation
- United Technologies
