

Looking Back at the 2018/2019 School Year!

As the current school year draws to a close here are some steps we took toward our ultimate goal:

- Indiana State Police Surveillance Camera Access.
 - We set up access for the ISP so that they can direct first responders in the event of any emergency.

- Additional Surveillance Camera.
 - We added camera at both schools to cover the blind spots that were discovered during routine security walk throughs.

- Out of District Bus Stops.
 - We added personnel to monitor and direct traffic at all sites during the morning and afternoon drop offs. We continue to closely watch these sites.

- Indiana State Police K-9 Search.
 - A thorough search of our buildings was conducted by ISP K-9 officers this spring.
