

Message From The Principal

Welcome to the 2020-2021 school year! I am extremely excited to be back in school and I am looking forward to a great year. Each year brings on many challenges and this year is no different as we are faced with many circumstances that are unique to us. As a school, we will strive to do the best possible job we can with whatever situations we face. We will also strive to challenge students to become lifelong learners while building positive relationships with them, as well as parents and fellow community members.

One of the main reasons I love LaVille so much is because of the simple fact that we have great people living in our community. Our staff is an extension of our community and I have been incredibly blessed to have an outstanding team of teachers who deeply care for the well being of the students who attend LaVille. Our teachers have the right mindset and truly believe that all students can be successful. The entire staff at LaVille works exceptionally hard and is willing to do whatever it takes to give all students the opportunities they deserve.

I commit to doing the best possible job to ensure that our students are equipped to be productive members of our society. It is my goal to see every student that goes through LaVille Jr-Sr High School experience success. I will work every day to make sure this becomes a reality for all students.

Mr. Michael Edison
