December 16, 2019

Dear Sixth Grade Parents and Guardians:

The sixth grade class will be participating in Nature’s Classroom, a five-day, four-night field trip at Grotonwood Camp in Groton, MA from May 18 - May 22, 2020. An overview of the program as well as permission slips, registration and medical information forms are included in this packet.

The total cost per student will be $460.00. We will collect this in two payments of $230 each. **The first payment and forms will be due by January 31, 2020.** Checks should be made out to **Town of Littleton**. Please note in the memo section of your check if the last name on the check differs from that of the student. Payments and forms may be given to your child’s flex block teacher.

This trip is a long-standing tradition and a highlight of the 6th grade. We are looking forward to an exciting and memorable learning experience again this year!

**Payment Schedule:**

$230  January 31, 2020
$230  April 3, 2020

Sincerely,

The 6th Grade Teachers

It is the policy of the Littleton Public Schools not to discriminate on the basis of race, gender, religion, national origin, color, homelessness, sexual orientation, gender identity, age or disability in its educational programs, services, activities or employment practices. Further information may be obtained by contacting Justine Muir, District Equity Coordinator at 978-540-2500, jmuir@littletonps.org or 33 Shattuck Street, P.O. Box 1486, Littleton, MA 01460.

Our mission is to foster a community of learners who strive for excellence and prepare each student to be a successful, contributing citizen in a global society.
OVERVIEW OF NATURE'S CLASSROOM

Nature’s Classroom offers a unique educational experience to students and their teachers. The goal of the program is to create an educational community that integrates social development, student-driven exploration and interdisciplinary study. Students are under adult supervision at all times both during the day and at night. Small student to teacher ratios are maintained to promote personal growth and provide individualized attention to each student. The Nature’s Classroom staff is comprised of professional staff with a wide variety of academic backgrounds and interests. Nature’s Classroom encourages students to cooperate as a community, strengthen their self-concept and gain an appreciation of curiosity and learning. Working closely with your student’s classroom teachers, Nature’s Classroom develops a program that dovetails with the classroom curriculum and reinforces key concepts.

A typical day at Nature’s Classroom features a morning Field Group, afternoon Special Interest Classes, and a Large Group Activity in the evening.

Field Group is generally the first activity of the day. Students are assigned by their classroom teachers to a field group; each field group is assigned to a single Nature’s Classroom teacher. During field group, a strong emphasis is placed on working and learning as a team. Each day with their field group, students have the opportunity to explore in natural surroundings while studying important ecological concepts and their connection to the world and its life support systems. Students are encouraged to use critical thinking skills and work together to investigate a wide variety of natural phenomena and relationships.

Special Interest Classes occur primarily in the afternoon. Students have an opportunity to choose classes from a wide range of interests and disciplines. Nature’s Classroom prides itself in presenting hands-on classes that are planned in conjunction with your student’s classroom teachers. Classes are selected to reinforce and build upon your school’s curriculum and explore the relationships between various academic disciplines. In order to provide students with the maximum opportunity for discovery and growth, a new selection of classes are available each day.

Large Group Activities and evening programs are selected by the classroom teachers to best suit the needs and goals of the students. With subjects ranging from science to leadership, traditional living to theatre, and everything in between, large group activities are a great way to create shared experiences for all Nature’s Classroom participants.

Breakfast, lunch and dinner are provided, as well as an evening snack at the close of each day. Meals provide an opportunity to interact with other members of the community and share personal triumphs and discoveries. The diversity of subject matter covered within field groups, classes and other activities encourages students and teachers alike to share their excitement and engage in meaningful conversation around the table. Medications and first aid are administered by an RN, EMT or other medical personnel who is always available. Lodging is dormitory styled.

Students return from Nature’s Classroom with newfound interests, lasting memories, and a greater sense of independence. Relationships formed and strengthened among both students and their teachers carry over into the classroom and beyond. The real life experience, both social and academic, inspires an increased understanding and a deeper appreciation of community, education and curiosity. We look forward to providing your child with a unique opportunity to learn and play in a safe and supportive environment.

</tbody>
</table>

Comments (reason for taking medications, special considerations):

____________________________________________________________________________________

____________________________________________________________________________________

____________________________________________________________________________________

Your child will not be allowed to keep any medication in his/her cabin. Prescribed medications must be in original container with pharmacy label containing Rx number, the name of the medication, the dosage, directions for administration, and the child's name. Whenever possible, a copy of the doctor's prescription or letter may be sent to clarify any discrepancies. All non-prescription medication must be in their original containers, clearly labeled with the child's name, name of the medication and direction for use.

HOME AND HEALTH INFORMATION QUESTIONNAIRE

Child's Name: ___________________________________________ Date of Session: ______________________

The questions below are provided to give you a framework within which to provide that needed information to us. Please feel free to add whatever information you think will be helpful – attach additional sheets if necessary. We will share this information with your child's classroom teachers prior to his/her arrival at camp. Thank you for your cooperation.

1. Is this your child’s first prolonged stay away from home? _____________________________________________

2. Is this your child’s first sleep away experience? _________________________________________________

3. Has your child ever had a problem with homesickness? If yes, please explain briefly. ____________________________

4. Does your child have a bed wetting problem? _____________________________________________________

5. Date of last tetanus booster shot (not a tetanus shot given after an injury). ____________________

6. Are there any restrictions on your child’s activities? Please include any special health concerns, e.g., special diet, recent hospitalizations, fractured bones, etc. _____________________________________________________________

7. List any allergies, e.g., food, environmental, medication, and explain degrees of severity and current treatment.

______________________________________________________________________________________________

______________________________________________________________________________________________

8. Does your child have any sensory, physical or cognitive disabilities? □ Yes □ No If yes, explain. __________________________________________________________________

______________________________________________________________________________________________

______________________________________________________________________________________________

9. Has anything happened recently in your child’s life that may affect him/her emotionally or physically while at camp? If yes, please explain.

______________________________________________________________________________________________

______________________________________________________________________________________________
