Delay in MA DPH data by town

COVID-19 Weekly Public Health Report

Updated each Thursday by 5 p.m.

PLEASE NOTE: The COVID-19 Weekly Public Health Report published today (Thursday, November 5) does not include the town by town information, including the weekly listing of city and town risk levels. We will publish updated data on Friday, November 6.

Daily Confirmed Cases (Past 6 Weeks)

Confirmed COVID-19 Cases by Date Individual Tested

Data Sources: COVID-19 Data provided by the Bureau of Infectious Disease and Laboratory Sciences; Tables and Figures created by the Office of Population Health.
Note: all data are current as of 8:00am on the date at the top of the page. Due to lag in reporting by laboratories, counts for most recent dates are likely to be incomplete.

	Case Count (last 14 days)	Average Daily Incidence Rate per 100,000 (last 14 days)	Percent Positivity (last 14 days)
State	14,944	15.3 (Higher)	1.84% (Higher)
Middlesex County	2,742	12.0 (Higher)	1.29% (Higher)

LAYER UP, LITTLETON

Help Slow the Spread of COVID-19

Anytime you are near people you don't live with:

- Wear a **mask** when not eating and drinking
- **Wash** your hands
- Stay at least **6 feet** apart
- Meet outside or **improve ventilation** by opening windows and doors
- Take extra precautions around someone at higher risk for severe illness from Covid-19

THE SWISS CHEESE RESPIRATORY VIRUS DEFENCE
RECOGNISING THAT NO SINGLE INTERVENTION IS PERFECT AT PREVENTING SPREAD

EACH INTERVENTION (LAYER) HAS IMPERFECTIONS (HOLES).
MULTIPLE LAYERS IMPROVE SUCCESS.

MASK UP, MASSACHUSETTS

**All Residents
Required To Wear
Masks In Public**

mass.gov/coveryourface

New mask order goes into effect Friday, November 6

Thanksgiving During COVID-19

Keep it Small

- Members of household or small group with regular contact
- **Virtual dinner with extended family is safest**
- Remember current gathering limits (max 10 indoors, 25 outdoors)
- Avoid in-person gatherings with people at higher risk for severe illness from COVID-19 (older adults, certain medical conditions)

Improve ventilation

- Outdoors is safer
- Open doors and windows

Wear a mask

- When not eating and drinking
- When preparing food

Wash your hands

- Before eating
- While cooking

Keep visits short

- Share the meal, not the day

When not to go

People diagnosed with, has symptoms of, or exposed to COVID-19 should avoid attending any in-person gathering

Higher levels of COVID-19 cases and community spread increase the risk of spread among attendees

Quarantine or get tested

- Stay home for 14 days before and after holiday gatherings
- Obtain a negative COVID-19 molecular test within 72 hours before and a separate test 72 hours after the celebration
- Follow your destination and MA travel guidances
