## COVID-19 NEWS UPDATE

To effectively address the COVID-19 outbreak, HTRS is doing everything possible to keep our students and staff healthy. It is our goal to keep our school open unless the State of Nebraska government agencies issue a mandatory closure. However, to address health concerns, we will be implementing the following guidelines.

- All vendors and delivery persons will be screened by our school nurse before entering the building.
- Parent drop off and pick up will happen outside the main entrance. HTRS staff will be present to assist in this process.
- The Fitness Center will be closed to the public until further notice.

HTRS has implemented these guidelines and will continually evaluate and communicate updates. We want to be proactive rather than reactive when it comes to the safety of each of our communities and those at risk. We appreciate your understanding and helping with our mission.
