## EVALUATION OF INSTRUCTIONAL PROGRAMS

The evaluation of the instructional program shall be a major responsibility of the Superintendent and his/her staff with periodic reports being presented to the RSU #16 School Board to enable judgments to be made on the success of the program. No instructional program should be considered as the final answer, and all school programs shall be under continuous study by the staff. It should be borne in mind that instruction is the primary responsibility of the schools, and all other activities are merely subsidiary. Evaluation and changes in the instructional program will be reviewed and brought to the attention of the full school board by the RSU #16 Curriculum Committee.

Moreover, the Superintendent is expected to lead the staff, community and Board in the development and on-going review of Board-adopted criteria and standards by which to measure the results of the instructional program.
