

Transportation Update

Tom Kelly - Transportation Director

October, 2017

Staff

- 2 bus monitor positions open- advertising has been on-going
- Need for driver substitutes - advertising has been on-going
- 1 van driver position open for out of district - advertising has been on-going

Fleet Update

- 1 new van has been delivered and in service.
- Two way radios for communications and cameras have been installed in the new buses and now in service.
- Out-of-district and homeless services are still necessary and always changing.

Bus Garage

- Having 2 mechanics, we have not had to send out any work to outside services.
- Space is still a concern. Current situation has 2 mechanics working in one bay on one bus at a time. If weather cooperates we work on buses outdoors. Two bays would be more effective.
