

Transportation Update

Tom Kelly - Transportation Director

December, 2017

Staff

- 1 bus monitor position open- advertising has been on-going
- Need for driver substitutes - advertising has been on-going
- 1 van driver position open for out-of-district - advertising has been on-going
- 1 driver is back to work from heart complications and another just went out for heart surgery
- All drivers have been through PBIS training and now vested into their prospective schools for reinforcing positive bus behavior

Fleet Update

- Out-of-district and Homeless services are still necessary and always changing. Current needs have added a van driver position.
- Currently renting a handicap van for out-of-district student. State pays for rental.

Bus Garage

- Space is still a concern. Current situation has 2 mechanics working in 1 bay on 1 bus at a time. Two bays would be more effective.
- Need to send out the blown engine for rebuild due to limited space.
- Heat in the garage is an ongoing problem. Furnaces keep breaking down leaving our mechanics without heat.
