

SPECIAL EDUCATION
School Board Report
September 4, 2018

- The Special Education Department hit the ground running this year! Lots of new students moving into the District in the last two weeks with IEP's.
- We are pleased to have all special education teaching positions in the District filled. That doesn't mean that all other positions are filled however! We currently have the following positions open:
 - Social Worker (.6)/Behavior Support (.4)
 - Ed Techs:
 - 2 at high school
 - 1 at MCS
 - 1 at ESS
 - 1 at PCS
- K-6 Special Education teachers completed a 7 hour training as part of our workshops on becoming a Behavior Health Professional. This training focused on child development, trauma, autism and ethics, among other things.
- All district special education ed techs were given a copy of our new 'RSU 16 Educational Technician Handbook.'
- This year we are on cycle to be audited by the Department of Education. More information will be shared about that process throughout the school year.
