

RSU #16 School Board
Operations Report
 Craig Worth, Director of Operations
 October 2018

FACILITIES

Much to our disappointment, the foul smell returned to Elm Street School. Upon removal of the urinal in the boy's restroom and conducting another smoke test, the smoke indicated a problem inside the cinder block wall separating the boys and girls restroom. With the removal of several cinder blocks, we found a separated 4 inch pipe. The plumber has repaired the pipe and Service Master has disinfected the wall's interior. We are hopeful that this is the end of this smelly mystery that has been a problem since 1983.

The bids are in for snow plowing at our schools.

D.R. Nichols

Location	Per Storm Price	Additional Trip Price	Lump Sum
Poland Regional High School	\$850.00	\$420.00	NA
Poland Community School	NA	NA	NA
Elm Street School	\$280.00	\$130.00	NA
Minot Consolidated School	NA	NA	NA

Bichrest Landscaping

Location	Per Storm Price	Additional Trip Price	Lump Sum
Poland Regional High School	NA	NA	\$14,000 (\$875 per storm)
Poland Community School	NA	NA	\$6,000 (\$375 per storm)
Elm Street School	NA	NA	\$7,000 (\$437.50 per storm)
Minot Consolidated School	NA	NA	\$6,000 (\$375 per storm)

Jason Edwards

Location	Per Storm Price	Additional Trip Price	Lump Sum
Poland Regional High School	NA	NA	NA
Poland Community School	\$300.00	\$150.00	NA
Elm Street School	\$300.00	\$150.00	NA

Minot Consolidated School	\$225.00	\$112.00	NA
---------------------------	----------	----------	----

Apparent low bidders:

D.R. Nichols for Poland Regional High School and Elm Street School.

Jason Edwards for Poland Community School and Minot Consolidated School.

TRANSPORTATION

Karen Hill and I attended Transfinder training in Augusta from October 2nd to October 4th. Transfinder is a State provided (free) transportation software for bus routing and trip scheduling. This is a powerful tool which we are looking to utilize to the software's full capability.

We have received 5 applications for the position of Transportation Director with two applications being received the week of October 1st. The prior three applicants did not have any experience as a school transportation director.

MIDDLE SCHOOL ADDITION

S.W Cole, a geotechnical company from Gray, dug several test pits on Columbus Day to evaluate the soils condition for the middle school addition. The project is tracing for a December/January bid with the award of the project in February. Ground breaking is expected the end of March to the beginning of April.
