Professional Development and Programming:

Success is no accident. It is hard work, perseverance, learning, studying, sacrifice and most of all, love of what you are doing or learning to do.
 ~Pele

Through hard work, perseverance, learning and a passion for what we are doing, RSU 16 has had a very successful start to the 2018-2019 school year. We strive to make professional learning meaningful to our teachers by utilizing in-district training and out-of-district professional development (PD) opportunities. The table below communicates the teams of teachers, from RSU 16, that we have sent to out-of-district training. **(SP B.2.c).**

This table does not include out-of-district PD at a building level. Principals have sent teachers from their building to PD opportunities.
