

August 26, 2020

Dear Parents & Guardians,

As we only have less than two weeks of summer left we hope that everyone has enjoyed their summer and has rested as we approach the new school year.

We used the bus ride requests from the Family Commitment Survey to assign/reserve your student a seat on the bus. If you did not request bus transportation or have changed your mind, the student will not be riding, please note on the information form. Please note last year's route times have changed and there is only one Whitingham route this year.

New for this year:

Temperatures of students will not be taken prior to boarding the bus. They will be taken prior to entering their school.

Face coverings are required by all riders.

Hand sanitizer will be available and use is encouraged upon boarding.

The state is still encouraging parents/guardians to drive their students to and from school as social distancing is difficult on a bus.

Windows and vents will be open during the bus ride in all weather conditions and students should be dressed appropriately.

With these changes we are temporarily not allowing rides to friends houses even with a signed note. Once we have a better knowledge of spare seats and daily operations we will reassess.

Handrails will be disinfected between AM and PM routes. The interior of the bus from windows down will be disinfected daily after the PM route.

Your student has been assigned a seat based on keeping the most space between riders for the riders and grouping grades/cohorts closer together. As the bus fills and the ride time decreases and so does the spacing. Family members will be sharing a seat.

Attached you will find an updated List of Bus Rules along with a mandatory form that needs to be filled out if your student is riding the bus. The form requires your information and then must be returned to the school. These forms let not only the school but also bus drivers know where your child should be getting dropped off the bus and seat assignments. Without these forms filled out we cannot let your child off without knowing where we can safely do so. Please return back to school before September, 3, 2020.

Sincerely,

James Walker  
TV Transportation Coordinator/WSWSU Operations Manager
