

Sparta Area School District

Article 173 –Inter-district Bussing Requests

Wisconsin statute does not allow other school districts to provide to pupils who reside in the Sparta Area School District transportation to or from a location within the Sparta Area School District without consent of the Board.

The Board will not approve requests for transportation by other districts within Sparta Area School District boundaries, unless required by a student's IEP or other extenuating circumstances. Previously approved requests will expire at the end of the 2006-2007 school year and will not be renewed.
