### Article – 507 High School Promotion and Retention

Students must maintain a minimum credit load each year of high school.

In grades 9 and 10, students must maintain a minimum of 14.0 credits each year. In grades 11 and 12, students must maintain a minimum of 12.0 credits each year.

In order to maintain the requisite credit minimums, a student may have to select from those classes which have space. If a student is not on track to graduate from high school, these credit minimums will not be applicable; the student will need to exceed these to graduate on time with his or her class.

A student's grade-level status will be contingent upon the number of credits he/she has earned. To attain sophomore status, 12 credits are required; junior status, 24 credits are required; and senior status, 36 credits are required.
