Because of our growing interdependence with one another and other nations of the world, citizenship shall be incorporated into the educational program for grades K-12. As a part of the educational program, students will have an opportunity to learn about their rights, privileges, and responsibilities as citizens of this country, state and school district community. Students will also have the opportunity to acquire a perspective on world issues, problems, and an understanding of the interconnectedness between the individual and people elsewhere in the world.
