The Board of Directors recognizes that a properly planned, well conducted, and carefully supervised field trip and excursion is a vital part of the curriculum of any classroom and contributes to the achievement of educational goals of the school district. As such, student trips of significant educational value are to be encouraged and the school district will provide transportation for field trips and excursions.

In authorizing field trips and excursions, the principal will consider the financial condition of the school district, the educational benefit of the activity, the inherent risks or dangers of the activity, and other factors deemed relevant by the superintendent. Written parental permission will be required prior to the student’s participation in field trips and excursions.

Field trips and excursions are to be arranged with the principal well in advance through the submission of the field trip request form.
