School district buses will not operate when weather conditions due to fog, rain, snow or other natural elements make it unsafe to do so. Because weather conditions may vary around the school district and may change quickly, decisions will be based upon the information available using the best judgement possible.

The final judgment as to when conditions are unsafe to operate will be made by the superintendent. The superintendent may be assisted by building principal, the director of operations and actual “on location” reports of school bus drivers.

Employees and students will be notified by via local radio, television, and district electronic communication when school is cancelled or temporarily delayed. When school is cancelled because of weather anywhere in the school district, all schools will be closed.

When weather conditions deteriorate during the day after school has begun, cancellation notices will be announced via local radio, television, and district electronic communication.
