DEVELOPMENT, ENFORCEMENT AND MONITORING OF ADMINISTRATIVE REGULATIONS

Administrative regulations may be necessary to implement board policy. In developing the administrative regulations, the superintendent should consult with administrators or others likely to be affected by the regulations. Once the regulations are developed, employees, students and other members of the school district community will be informed in a manner determined by the superintendent.

The board will be kept informed of the administrative regulations utilized and their revisions. The board may review and recommend changes to administrative regulations prior to their use in the school district if they are contrary to the intent of board policy.

It is the responsibility of the superintendent to monitor and revise the administrative regulations and to revise when necessary.

The superintendent may rely on the board, administrators, employees, students, and other members of the school district community to inform the superintendent of the effect of and to recommend possible changes to administrative regulations.
