STATEMENT OF GUIDING PRINCIPLES

The Pleasant Valley Community School District Board of Directors recognizes its obligation and duty to provide an educational program equally available to all students of the school district that is free of discrimination on the basis of race, creed, color, sex, national origin, marital status, religion, sexual orientation, gender identity or disability.

In providing the education program of the school district, the board will strive to meet its overall goal of providing the students an opportunity to develop a healthy social, intellectual, emotional, and physical self-concept in a learning environment that provides guidance and encourages critical thinking in students.

The goals and objectives of the school district are established to achieve its educational mission. The school improvement advisory committee (SIAC) is appointed annually by the board to make recommendations relative to the goals and objectives of the educational program.

The district’s school improvement goals are established and monitored annually by the advisory committee prior to submission to the Board for approval. These goals reflect the results of student achievement testing, suggestions from the advisory committee, recommendations by the superintendent and changes in the law.

Representatives from the committee report to the Board annually regarding progress toward the achievement of the established goals and the overall objectives of the educational program.
