

2020-2021 Parking Policy and Regulations for Bridges Preparatory School

All vehicles brought to the Bridges Preparatory School (BPS) campus must be registered. This includes staff, students, and visitors.

Parking permits and decals must be updated each school year.

Students wanting to park a car on campus are required to purchase a parking decal for \$25 (August-December), \$15 (January-April) or \$10 (May). In order to register a car, students must provide all vehicle information, including make, model, color and tag number of the vehicle, as well as their own driver's license number.

Students may purchase parking permits during the first weeks of school. Along with paying for the permit, the students must complete the online parking registration form found on BPS website. Once this is complete, students may pick up their parking decal at the front desk. Decal stickers will only be given to students who have paid AND completed the online registration form.

Parking decals must be placed on the outside lower left (drivers side) corner of the back window.

Students wishing to register a second car on campus must see Mr. Kabel.

Temporary parking permits may be issued to students driving a different car in emergency situations. Students needing a temporary permit must see Mr. Kabel to obtain permit.

Students taking college classes on TCL campus will need to obtain a TCL parking sticker from the campus police department or the security desk. College students in need of a sticker must show a valid driver's license and a college class schedule with student ID number. TCL parking stickers cannot be issued from the high school.

Students that need to leave their cars on campus overnight must speak with Mr. Kabel before doing so.

Regulations:

The campus speed limit is 10 mph.

Vehicles may not be pulled through parking spaces.

Vehicles must be forward facing in the parking space so the parking decal is visible to campus patrols.

Parking decals must be properly placed and visible at all times.

NO ONE is allowed to park along a curbside at any time.

NO ONE is allowed to park in a handicapped parking space for any period of time *without proper handicapped parking documentation.*

The person who is registered with the vehicle will be the one responsible for any parking violations.

Violations involving any of the following circumstances will not be heard on appeal:

- Parking improperly "for a few minutes" will be treated the same as parking improperly for an extended period of time. The amount of time does not matter in determining whether or not the ticket is valid.
- Using your hazard lights will not keep you from receiving a ticket.
- The lack of "available" or "close" parking is not a reason to park improperly. If the "area you usually park in" is full, you must find legal parking elsewhere.

- Scheduled class, athletic events/practices, academic or non-academic meetings/gatherings and any other academic or social appointments are not reasons to park improperly at any time, nor is being late for these functions.
- Only a member of the BPS administration can give you permission to violate a parking regulation. This includes all areas used for loading and unloading during the academic year.
- The fact that you “have seen others park there and never get ticketed” is not a valid reason for appeal.
- The person who is registered with the vehicle will be the one responsible for any parking violations.
- All appeals are final.

Students are expected to have their cars registered with a 2020-21 parking decal by Monday, August 24th. Tickets will be written during the week of 8/31. If you have questions, please see Mr. Kabel.
