

DIGITAL HOME LEARNING UNDERSTANDING NEW TERMS

Single Sign On or "SSO"

Is a safe 1-time login that allows students to access multiple applications including student email, Skyward, Office 365 and Google Drive. SSO is provided to all students by their school.

Students access SSO by going to my.hcsb.k12.fl.us and using credentials provided by the school. It will look similar to this Username: `firstname.lastname`

The password is generally Capitalized Last Name Initial + 0 + 6 -digit student ID

Ex: R0123456. *If student ID is already a 7-digit number – do NOT add the 0

Skyward

Is our new Student Information System that allows parents and students access to grades, schedules, attendance & much more.

Parents who have not received an email with a link to activate parent access in Skyward must contact the school to verify your email address. Once the email address is updated, you will receive a link that will activate your parent access in Skyward.

Students an activation link will be sent to your school email address. You can login to your school email address through Single Sign On.

Microsoft Teams

Teams is the learning platform for students in Digital Home Learning. Each class or course in the student's schedule will be held on Teams.

Students participate in their class or classes by using their SSO to select Office 365 and then selecting the 'Teams' tile or icon. Courses and assignments will be visible as soon as they select 'Teams'
