

## **Notice of Mature Content** **& Materials**

The International Baccalaureate Programme is a globally recognized curriculum that presents students with a broad curriculum of subjects and interests, which is designed to provide opportunities for encouraging independent, original, and critical thinking among IB students. The IB philosophy of International-Mindedness seeks to promote respect and understanding of a global body of works and alternative points of view and is imbedded into classroom instruction in the various subject groups. To this end, there are times when students will be exposed to literary works, readings, or discussions in the various subject groups that may contain mature, adult content or language, or varying and conflicting viewpoints. Subject matter discussed through one of the aforementioned platforms may be used with student assignments, class assessments, IB Internal or External Assessments.

By signing below, we have read and understand the role of mature content and subject matter in the classroom, as well as within the context of the IB curriculum.
