### **School District Begins Vaccinations for Prioritized Staff**

**February 2, 2021** - The Hernando School District and Department of Health-Hernando have finalized a plan to provide Covid 19 vaccinations to all school district staff who meet the age qualifications and those who are considered front line workers.

School district staff 65 years or older and all school-based health professionals will be able to receive vaccinations:

**Friday, February 19th from 11 AM - 5 PM at the  
7551 Forest Oaks Blvd, Spring Hill, FL 34606  
Hernando Department of Health**

The school district employs over 3,100 staff and 166 of them meet the age requirement.

“We have developed a strong collaborative relationship with the Department of Health over the last year. When we asked them to help prioritize our frontline workers and our older staff, they made it happen. That means a great deal to many of our staff including school bus drivers, food service team, health professionals and our teachers who serve students everyday,” Superintendent, John Stratton said.
