

20/21 COVID RESPONSE PLAN

Health

Daily health screening will be self-administered by all staff and students

Mask will be worn by all staff and students

Enhanced cleaning protocols will be in place

Distancing

Staggered passing, directional halls and reduced grouping will mitigate crowds

Physical distancing implemented in all environments as practical

Reduced group sizes with distancing protocols embedded in cafeteria

Classes

Block scheduling will reduce transitions and exposure opportunities

Digital procedures embedded in classes for smooth transitions with distance learning

1 to 1 student assigned devices will allow for quick transitions to distance learning

Everyday Precautions

- Regular hand washing
- Avoid touching face
- Practice physical distancing

Alternative Option

Alternative online education option available through district at registration.

This option is available per semester

ACADEMIC RESPONSE

An Instructional Planning Committee was developed to address key concerns around COVID-19. The focus of the committee was to determine how to effectively:

1. Close any academic gaps incurred by the spring transition
2. Develop a blended learning model which can transition to and from distance learning rapidly and effectively.
3. Develop a schedule and protocol in building to mitigate unnecessary exposure while maintaining academic rigor.

Closing the gap

- Interdisciplinary instruction focused on integrating math into all content areas, and increasing collaboration across all subjects.
- Frequent formative assessments to assess prior content knowledge and implement spot reviews of determined gap areas.

Blended Learning

- Classroom instruction utilizing online learning practices to build digital academic literacy and allow for smooth transitions to and from distance learning.
- No lockers assigned. 1 to 1 devices assigned with majority of work completed digitally supporting quick transitions in the event of a school shut-down.

Modified schedule

- Block scheduling utilizing cohorts to reduce transitions as well as staff and student contact numbers.
- Cohort groups within pods will alternate core content focus bi-weekly between STEM & Humanities to narrow scope and reduce grouping for potential distance learning transitions.
