INDEPENDENT AUDITOR'S REPORT

To the Board of Education of Knoxville Community School District:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Knoxville Community School District, Knoxville, Iowa, as of and for the year ended June 30, 2017, and the related Notes to Financial Statements, which collectively comprise the District's basic financial statements listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles. This includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Knoxville Community School District as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require Management's Discussion and Analysis, the Budgetary Comparison Information, the Schedule of the District's Proportionate Share of the Net Pension Liability, the Schedule of District Contributions and the Schedule of Funding Progress for the Retiree Health Plan on pages 7 through 16 and 48 through 53 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Knoxville Community School District's basic financial statements. We previously audited, in accordance with the standards referred to in the third paragraph of this report, the financial statements for the nine years ended June 30, 2016 (which are not presented herein) and expressed unmodified opinions on those financial statements. The supplementary information included in Schedules 1 through 13, including the Schedule of Expenditures of Federal Awards required by Title 2, U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance), is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information, including the Schedule of Expenditures of Federal Awards, is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the supplementary information, including the Schedule of Expenditures of Federal Awards, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 25, 2018 on our consideration of Knoxville Community School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Knoxville Community School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Knoxville Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2017. We encourage readers to consider this information in conjunction with the District's financial statements, which follow.

2017 FINANCIAL HIGHLIGHTS

- General Fund revenues increased from \$18,646,657 in fiscal year 2016 to \$19,617,649 in fiscal year 2017, while General Fund expenditures increased from \$18,212,336 in fiscal year 2016 to \$18,805,264 in fiscal year 2017. This resulted in an increase in the District's General Fund balance from \$1,928,510 at June 30, 2016 to \$2,740,895 at June 30, 2017, a 42.13% increase from the prior year.
- The increase in General Fund revenues was primarily attributable to increases in local tax and state sources received in fiscal year 2017. The increase in expenditures was due primarily to an increase in expenditures in the support services functions.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.

The Government-wide Financial Statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of Knoxville Community School District as a whole and present an overall view of the District's finances.

The Fund Financial Statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report Knoxville Community School District's operations in more detail than the government-wide statements by providing information about the most significant funds. The remaining statements provide financial information about activities for which Knoxville Community School District acts solely as an agent or custodian for the benefit of those outside of the District.

Notes to Financial Statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required Supplementary Information further explains and supports the financial statements with a comparison of the District's budget for the year, the District's proportionate share of the net pension liability and related contributions, as well as presenting the Schedule of Funding Progress for the Retiree Health Plan.

Supplementary Information provides detailed information about the nonmajor governmental funds. In addition, the Schedule of Expenditures of Federal Awards provides detail of various federal programs benefiting the District.

Figure A-1 shows how the various parts of this annual report are arranged and relate to one another.

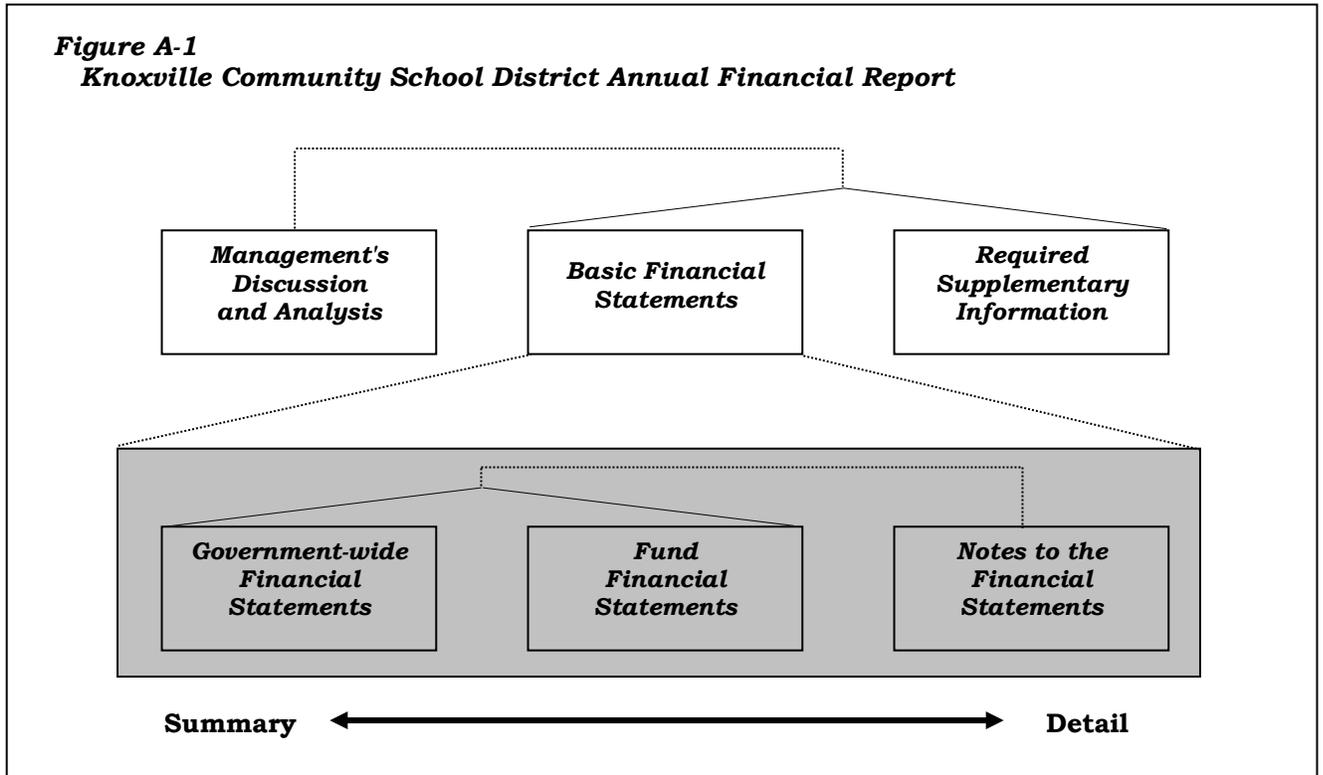

Figure A-2 summarizes the major features of the District’s financial statements, including the portion of the District’s activities they cover and the types of information they contain.

Type of inflow/outflow information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

REPORTING THE DISTRICT’S FINANCIAL ACTIVITIES

Government-wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District’s assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year’s revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide financial statements report the District's net position and how it has changed. Net position is one way to measure the District's financial health or financial position. Over time, increases or decreases in the District's net position is an indicator of whether financial position is improving or deteriorating. To assess the District's overall health, additional non-financial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities, need to be considered.

In the government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities*: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property tax and state aid finance most of these activities.
- *Business type activities*: The District charges fees to help cover the costs of certain services it provides. The District's school nutrition program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

Some funds are required by state law and by bond covenants. The District establishes other funds to control and manage money for particular purposes, such as accounting for student activity funds or to show that it is properly using certain revenues such as federal grants.

The District has three kinds of funds:

- 1) *Governmental funds*: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs.

The District's governmental funds include the General Fund, Special Revenue Funds, Debt Service Fund and Capital Projects Fund.

The required financial statements for the governmental funds include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances.

- 2) *Proprietary funds*: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide financial statements. The District's enterprise funds, one type of proprietary fund, are the same as its business type activities, but provide more detail and additional information, such as cash flows. The District currently has one enterprise fund, the School Nutrition Fund. The District's internal service funds, another type of proprietary fund, are the same as its governmental activities but provide more detail and additional information, such as cash flows. The District has two internal service funds: Health Insurance and Self-funded Dental Insurance.

The required financial statements for the proprietary funds include a Statement of Net Position, Statement of Revenues, Expenses and Changes in Fund Net Position and a Statement of Cash Flows.

3) *Fiduciary funds*: The District is the trustee, or fiduciary, for assets that belong to others. These funds include the Private-Purpose Trust Fund and Agency Fund.

- Private-Purpose Trust Fund - The District accounts for outside donations for scholarships for individual students in this fund.
- Agency Fund - These are funds for which the District administers and accounts for certain federal and/or state grants on behalf of other Districts and certain revenue collected for Flex Spending accounts and related expenditures.

The District is responsible for ensuring that the assets reported in the fiduciary funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations.

The required financial statements for fiduciary funds include a Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position.

Reconciliations between the government-wide financial statements and the governmental fund financial statements follow the governmental fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Figure A-3 below provides a summary of the District's net position at June 30, 2017 compared to June 30, 2016.

	Governmental Activities		Business Type Activities		Total District		Total Change
	June 30,		June 30,		June 30,		June 30,
	2017	2016	2017	2016	2017	2016	2016-17
Current and other assets	\$ 15,643,081	19,082,249	218,911	384,662	15,861,992	19,466,911	-18.52%
Capital assets	28,925,074	25,972,374	104,992	147,543	29,030,066	26,119,917	11.14%
Total assets	44,568,155	45,054,623	323,903	532,205	44,892,058	45,586,828	-1.52%
Deferred outflows of resources	2,579,958	1,396,965	71,215	41,263	2,651,173	1,438,228	84.34%
Long-term liabilities	25,549,793	25,512,738	300,740	241,448	25,850,533	25,754,186	0.37%
Other liabilities	2,382,467	3,412,161	68,464	76,080	2,450,931	3,488,241	-29.74%
Total liabilities	27,932,260	28,924,899	369,204	317,528	28,301,464	29,242,427	-3.22%
Deferred inflows of resources	6,920,779	7,320,832	13,971	30,625	6,934,750	7,351,457	-5.67%
Net position:							
Net investment in capital assets	14,195,074	14,163,605	104,992	147,543	14,300,066	14,311,148	-0.08%
Restricted	3,600,432	3,145,139	-	-	3,600,432	3,145,139	14.48%
Unrestricted	(5,500,432)	(7,102,887)	(93,049)	77,772	(5,593,481)	(7,025,115)	20.38%
Total net position	\$ 12,295,074	10,205,857	11,943	225,315	12,307,017	10,431,172	17.98%

The District's total net position increased by 17.98%, or \$1,875,845, over the prior year. The largest portion of the District's net position is the invested in capital assets, net of related debt. The debt related to the investment in capital assets is liquidated with sources other than capital assets.

Restricted net position represents resources that are subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. The District's restricted net position increased \$455,293, or 14.48%, from the prior year. This increase was primarily due to an increase in the amount restricted for debt service compared to the prior year.

Unrestricted net position – the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements – increased \$1,431,134, or 20.38%. This increase in unrestricted net position was contributed to by the increase in unassigned fund balance of the General Fund.

Figure A-4 shows the changes in net position for the year ended June 30, 2017 compared to the year ended June 30, 2016.

Figure A-4 Changes in Net Position							
	Governmental Activities		Business Type Activities		Total District		Total Change

Other expenses	2,031,132	1,868,979	-	-	2,031,132	1,868,979	8.68%
Total expenses	21,155,595	20,996,246	979,472	875,488	22,135,067	21,871,734	1.20%
Change in net position	2,089,217	1,563,702	(213,372)	(121,369)	1,875,845	1,442,333	30.06%
Net position beginning of year	10,205,857	8,642,155	225,315	346,684	10,431,172	8,988,839	16.05%
Net position end of year	\$ 12,295,074	10,205,857	11,943	225,315	12,307,017	10,431,172	17.98%

In fiscal year 2017, property tax, income surtax, statewide sales, services and use tax and unrestricted state grants account for 87.27% of the revenue from governmental activities while charges for service and sales and operating grants and contributions account for 98.50% of the revenue from business type activities. The District's total revenues were approximately \$24.01 million of which approximately \$23.24 million was for governmental activities and approximately \$0.77 million was for business type activities.

As shown in Figure A-4, the District as a whole experienced a 2.99% increase in revenues and a 1.20% increase in expenses. Revenues increased as a result of increases in funding from state grants and property taxes. Expenses increased due to an increase in instruction and other expenses incurred compared to the prior year.

Governmental Activities

Revenues for governmental activities were \$23,244,812 and expenses were \$21,155,595.

The following table presents the total and net cost of the District’s major governmental activities: instruction, support services and other expenses for the year ended June 30, 2017 compared to those expenses for the year ended June 30, 2016.

Figure A-5 Total and Net Cost of Governmental Activities						
	Total Cost of Services			Net Cost of Services		
	2017	2016	2016-17	2017	2016	2016-17
Instruction	\$ 13,671,310	13,080,520	4.52%	11,683,566	11,066,338	5.58%
Support services	5,453,153	6,046,747	-9.82%	5,435,372	6,010,560	-9.57%
Other expenses	2,031,132	1,868,979	8.68%	1,317,588	1,141,112	15.47%
Totals	\$ 21,155,595	20,996,246	0.76%	18,436,526	18,218,010	1.20%

For the year ended June 30, 2017:

- The cost financed by users of the District’s programs was \$1,054,654.
- Federal, state governments and other donations from local sources subsidized certain programs with grants and contributions totaling \$1,664,415.
- The net cost of governmental activities was financed with \$6,422,974 in property tax, \$577,269 in income surtax, \$1,702,165 in statewide sales, services and use tax, \$11,582,793 in unrestricted state grants, \$13,361 in interest income and \$227,181 in other general revenues.

Business type Activities

Revenues of the District’s business type activities were \$766,100 and expenses were \$979,472 for the year ended June 30, 2017. The District’s business type activities include the School Nutrition Fund. Revenues of these activities were comprised of charges for service, federal and state reimbursements, investment income and other revenues.

INDIVIDUAL FUND ANALYSIS

As previously noted, the Knoxville Community School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The financial performance of the District as a whole is reflected in its governmental funds, as well. As the District completed the year, its governmental funds reported combined fund balance of \$6,168,205, below last year’s ending combined fund balance of \$8,726,513. The primary reason for the decrease in combined fund balance in fiscal year 2017 is due to the use of proceeds from revenue bond issuances during the previous year and the corresponding decrease in the Capital Projects: Statewide Sales, Services and Use Tax Fund.

Governmental Fund Highlights

- The District's General Fund financial position is the product of many factors. Revenues increased due to an increase in local tax and state source revenues received compared to the prior year. An increase in expenditures was due to an increase in support services expenditures incurred compared to the prior year. The Fund balance of the General Fund increased from \$1,928,510 at June 30, 2016 to \$2,740,895 at June 30, 2017.
- The Capital Projects Fund balance increased from a balance of \$4,854,381 at June 30, 2016 to \$1,263,215 at June 30, 2017. This decrease was due to continued capital outlay expenditures incurred on various construction and facility improvement projects throughout the District.
- The Debt Service Fund balance increased from a balance of \$1,521,967 at June 30, 2016 to \$1,729,710 at June 30, 2017.

Proprietary Fund Highlights

The Proprietary Fund net position decreased from \$225,315 at June 30, 2016 to \$11,943 at June 30, 2017, representing a decrease of 94.70%. This decrease in net position is due to a decrease in operating revenues received and an increase in supply expenses incurred compared to the prior year.

BUDGETARY HIGHLIGHTS

Over the course of the year, the District amended its budget one time to reflect additional expenditures for equipment, supplies and food costs for non-instructional programs.

The District's revenues were \$334,779 less than budgeted revenues, a variance of 1.38%. The most significant negative variance resulted from the District receiving less in local sources than originally anticipated.

Total expenditures were less than budgeted, due primarily to the District's budget for the General Fund. It is the District's practice to budget expenditures at the maximum authorized spending authority for the General Fund. The District then manages or controls General Fund spending through its line-item budget. As a result, the District's certified budget should always exceed actual expenditures for the year.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2017, the District had invested \$29,030,066, net of accumulated depreciation, in a broad range of capital assets, including land, buildings, athletic facilities, computers, audio-visual equipment and transportation equipment. (See Figure A-6) This amount represents a net increase of 11.14% from last year. More detailed information about capital assets is available in Note 4 to the financial statements. Depreciation expense for the year was \$1,181,582.

The original cost of the District's capital assets was \$43,648,340. Governmental activities account for \$42,892,702 with the remainder of \$755,728 accounted for in the Proprietary, School Nutrition Fund.

The most significant change in capital asset activity during the year occurred in the buildings category. The District's buildings, net of accumulated depreciation totaled \$27,810,121 at June 30, 2017, compared to \$20,968,913 at June 30, 2016. This increase is due to completion

of construction and renovation projects at the West Elementary Building during fiscal year 2017.

Long-Term Debt

At June 30, 2017, the District had \$15,225,179 in general obligation and other long-term debt outstanding. This represents a decrease of 6.02% from last year. (See Figure A-7) More detailed information about the District's long-term liabilities is available in Note 5 to the financial statements.

The District had outstanding revenue bonds of \$14,730,000 at June 30, 2017 payable from the Capital Projects: Statewide Sales, Services and use Tax Fund.

The District had outstanding computer leases of \$495,179 at June 30, 2017 payable from the Capital Projects: Statewide Sales, Services and Use Tax Fund.

Total	\$ 15,225,179	16,200,782	-6.02%

ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of several existing circumstances that could significantly affect its financial health in the future:

- The Iowa school funding formula is highly dependent upon student enrollment. Current and projected variances in enrollment will continue to impact the District's financial position.
- The state's economy is showing limited signs of economic recovery. A weaker economy adversely impacts the amount of new general fund money available to the district. Also continued budget concerns at state level will affect future projections. The district will continue to be forced to shift funding to property taxes.

- The State of Iowa has not set the supplemental state aid for fiscal year 2019 and beyond. The District's inability to predict future revenues will continue to have a significant impact on future budget decisions.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Craig Mobley, District Secretary/Treasurer and Business Manager, Knoxville Community School District, 309 W Main, Knoxville, Iowa, 50138.

SEE NOTES TO FINANCIAL STATEMENTS.

KNOXVILLE COMMUNITY SCHOOL DISTRICT
 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND
 CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS
 TO THE STATEMENT OF ACTIVITIES
 YEAR ENDED JUNE 30, 2017

Change in fund balances - total governmental funds(page 22) \$ (2,558,308)

Amounts reported for governmental activities in the Statement of Activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are not reported in the Statement of Activities and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. Capital outlay and depreciation expense and the loss on asset disposal in the current year are as follows:

Capital outlay	\$ 4,093,810	
Depreciation expense	(1,138,320)	
Loss on asset disposal	<u>(2,790)</u>	2,952,700

Net change in Internal Service Funds charged back against expenditures made for self-funded insurance at an entity-wide basis. 117,762

Proceeds from issuing long-term liabilities provide current financial resources to government funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayments of long-term liabilities is an expenditures in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. Current year repayments and issuances are as follows:

Issued	(191,520)	
Repaid	<u>1,167,123</u>	975,603

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due. (23,818)

Income surtax account receivable is not available to finance expenditures of the current year period and is recognized as deferred inflows of resources in the governmental funds. 23,673

The current year District IPERS contributions are reported as expenditures in the governmental funds, but are reported as deferred outflows of resources in the Statement of Net Position. 961,133

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, as follows:

Termination benefits	680,758	
Pension expense	(1,010,667)	
Other postemployment benefits	<u>(29,619)</u>	<u>(359,528)</u>

Changes in net position of governmental activities(page 19) \$ 2,089,217

SEE NOTES TO FINANCIAL STATEMENTS.

KNOXVILLE COMMUNITY SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2017

(1) Summary of Significant Accounting Policies

The Knoxville Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades pre-kindergarten through twelve. The geographic area served includes the City of Knoxville, Iowa, and the predominate agricultural territory in Marion County. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

A. Reporting Entity

For financial reporting purposes, Knoxville Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the District. The Knoxville Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

Jointly Governed Organizations - The District participates in a jointly governed organization that provides services to the District but do not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Marion County Assessors' Conference Board.

B. Basis of Presentation

Government-wide Financial Statements - The Statement of Net Position and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Position presents the District's nonfiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Net position is reported in three categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted net position result when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation. Enabling legislation did not result in any restricted net position.

Unrestricted net position consists of net position not meeting the definition of the two preceding categories. Unrestricted net position often has constraints on resources that are imposed by

management, but can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest that are restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements - Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as other nonmajor governmental funds. Combining schedules are also included for the Capital Project Fund accounts.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenses, including instructional, support and other costs.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities and other capital assets.

The Debt Service Fund is utilized to account for property tax and other revenues to be used for the payment of principal and interest on the District's general long-term debt.

The District reports the following nonmajor proprietary funds:

The District's proprietary funds are the nonmajor School Nutrition Fund and the Internal Service Fund. The Nutrition fund is used to account for the food service operations of the District. The Internal Service Fund is used to account for the self-funded insurance plan and dental plans of the District. The Internal Service Fund is charged back to the Governmental Funds and shown combined in the Statement of Net Position and the Statement of Activities.

The District also reports fiduciary funds which focus on net position and changes in net position. The District's fiduciary funds includes the following:

The Private Purpose Trust Fund is used to account for assets held by the District under trust agreements which require income earned to be used to benefit individuals through scholarship awards.

The Agency Fund is used to account for assets help by the District as an agent for individuals, private organizations and other governments. The Agency Fund is custodial in nature, assets equal liabilities, and does not involve measurement of result of operations.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar

items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications - restricted and then unassigned fund balances.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's Enterprise Fund is charges to customers for sales and services. Operating expenses for Enterprise Funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The District maintains its financial records on the cash basis. The financial statements of the District are prepared by making memorandum adjusting entries to the cash basis financial records.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Fund Equity

The following accounting policies are followed in preparing the financial statements:

Cash, Pooled Investments and Cash Equivalents - The cash balances of most District funds are pooled and invested. Investments are stated at fair value except for the investment in the Iowa Schools Joint Investment Trust which is valued at amortized cost and non-negotiable certificates of deposit which are stated at cost.

For purposes of the Statement of Cash Flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, they have a maturity date no longer than three months.

Property Tax Receivable - Property tax in the governmental funds are accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2015 assessed property valuations; is for the tax accrual period July 1, 2016 through June 30, 2017 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2016.

Due from Other Governments - Due from other governments represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories - Inventories are valued at cost using the first-in, first-out method for purchased items and government commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Prepaid Expenses - Prepaid expenses represents amounts paid for insurance premiums attributable to a future period.

Capital Assets - Capital assets, which include property, Machinery, equipment, and intangibles acquired July 1, 1980 are reported in the applicable governmental or business type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Asset Class	Amount
Land	\$ -
Buildings	2,000
Land improvements	2,000
Intangibles	50,000
Machinery and equipment:	
School Nutrition Fund equipment	500
Other machinery and equipment	2,000

Capital assets are depreciated using the straight-line method of depreciation over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Buildings	50 years
Land improvements	20 years
Intangibles	2 or more years
Machinery and equipment	5-15 years

Deferred Outflows of Resources - Deferred outflows of resources represent a consumption of net position that applies to a future year(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of unrecognized items not yet charged to pension expense and contributions from the employer after the measurement date but before the end of the District's reporting period.

Salaries and Benefits Payable - Payroll and related expenditures for teachers with annual contracts corresponding to the current school year, which is payable in July and August, have been accrued as liabilities.

Unearned Revenue - Unearned revenues are monies collected for lunches that have not yet been served. The lunch account balances will either be reimbursed or served lunches. The lunch account balances are reflected on the Statement of Net Position in the Proprietary, School Nutrition Fund.

Long-term Liabilities - In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Position.

Pensions - For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Iowa Public Employees' Retirement System (IPERS) and additions to/deductions from IPERS' fiduciary net position have been determined on the same basis as they are reported by IPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The net pension liability attributable to the governmental activities will be paid primarily by the General Fund.

Deferred Inflows of Resources - Deferred inflows of resources represent an acquisition of net position that applies to future year(s) and will not be recognized as an inflow of resources (revenue) until that time. Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred inflows of resources consist of property tax receivables and other receivables not collected within sixty days after year end.

Deferred inflows of resources in the Statement of Net Position consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied and the unamortized portion of the net difference between projected and actual earnings on pension plan investments.

Fund Equity - In the governmental fund financial statements, fund balances are classified as follows:

Restricted - Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Unassigned - All amounts not included in preceding classifications.

E. Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as Required Supplementary Information.

(2) Cash and Pooled Investments

The District's deposits in banks at June 30, 2017 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

At June 30, 2017, the District had investments in the Iowa Schools Joint Investment Trust Direct Government Obligations Portfolio which are valued at an amortized cost of \$2,569,003 pursuant to Rule 2a-7 under the Investment Company Act of 1940. There were no limitations or restrictions on withdrawals of the ISJIT investments. The investments in the Iowa Schools Joint Investment Trust was rated AAAM by Standard & Poor's Financial Services.

The District had no investments meeting the disclosure requirements of Governmental Accounting Standards Board Statement No. 72.

(3) Interfund Transfers

The detail of interfund transfers for the year ended June 30, 2017 is as follows:

<u>Transfer to</u>	<u>Transfer from</u>	<u>Amount</u>
Debt Service	Capital Projects: Statewide Sales, Services and Use Tax	<u>\$ 1,736,332</u>

The transfer from the Capital Projects: Statewide Sales, Services and Use Tax to the Debt Service Fund was needed for principal and interest payments on the District's revenue bond indebtedness and computer lease indebtedness.

(4) Capital Assets

Capital assets activity for the year ended June 30, 2017 is as follows:

	Balance Beginning of Year	Increases	Decreases	Balance End of Year
Governmental activities:				
Capital assets not being depreciated:				
Land	\$ 63,966	-	-	63,966

2020	2.48	165,000	50,158	975,000	327,990	1,302,990
2021	2.48	170,000	46,004	995,000	304,922	1,299,922
2022	2.48	180,000	41,664	1,015,000	280,633	1,295,633
2023-2027	2.48	955,000	139,438	5,500,000	991,723	6,491,723
2028-2030	2.48	635,000	23,870	4,360,000	214,252	4,574,252
Total		\$ 2,425,000	413,602	14,730,000	2,838,663	17,568,663

The District has pledged future statewide sales, services and use tax revenue to repay the \$6,550,000, \$7,530,000 and \$2,425,000 bonds issued on June 1, 2012, January 26, 2016 and May 18, 2016 respectively. The bonds were issued for the purpose of defraying a portion of the cost of school

infrastructure and refunding outstanding bonds issues for said purpose. The bonds are payable solely from the proceeds of the statewide sales, services and use tax revenues received by the District and are payable through 2030. The bonds are not a general obligation of the District. However, the debt is subject to the constitutional debt limitation of the District. Annual principal and interest payments on the bonds required 76% of the statewide sales, services and use tax revenues. The total principal and interest remaining to be paid on the notes is \$17,568,663. For the current year, \$870,000 was paid in principal and \$315,004 was paid in interest on the revenue bonds and statewide sales, services and use tax revenue were \$1,702,165.

The resolution providing for the issuance of the statewide sales, services and use tax revenue bonds includes the following provisions:

- a) \$493,188 of the proceeds from the issuance of the revenue bonds shall be deposited to the Reserve Account to be used solely for the purpose of paying principal and interest on the bonds if insufficient money is available in the Sinking Account. The balance of the proceeds shall be deposited to the Project Account.
- b) All proceeds from the statewide sales, services and use tax shall be placed in a Revenue Account.
- c) Monies in the Revenue Account shall be disbursed to make deposits into a Sinking Account to pay the principal and interest requirements of the revenue bonds for the fiscal year.
- d) Any monies remaining in the Revenue Account after the required transfer to the Sinking Account may be transferred to the Project Account to be used for any lawful purpose.

Computer Lease Payable

On June 15, 2015, the District entered into a lease agreement with Apple for computers for the District’s one on one initiative. The lease is scheduled to be repaid as follows from the Capital Projects: Statewide Sales, Services and Use Tax Fund:

Year Ending June 30,	Lease of June 15, 2015			
	Interest Rates	Principal	Interest	Total
2018	2.20 %	\$ 303,659	6,681	310,340

On January 10, 2017, the District entered into a lease agreement with Apple for computers for the District’s staff. The lease is scheduled to be repaid as follows from the Capital Projects: Statewide Sales, Services and Use Tax Fund:

Year Ending June 30,	Lease of January 10, 2017			
	Interest Rates	Principal	Interest	Total
2018	3.20 %	\$ 27,045	2,955	30,000
2019	3.20	164,475	5,263	169,738
Total		\$ 191,520	8,218	199,738

Termination Benefits

In previous years, the District offered a voluntary early retirement plan to its full-time employees. Eligible employees must be at least age fifty-five. Eligible employees must be an employee of the District for at least 12 years. Employees must complete an application which is required to be approved by the Board of Education.

In previous years, the District offered three different early retirement incentives. The first pays the employee 100% of their contracted annual salary (exclusive of supplemental pay or extended contract pay) over the three years following retirement to a tax-sheltered annuity. The second pays for four years of the retiree's health insurance and pays the employee 50% of their contracted annual salary (exclusive of supplemental pay or extended contract pay) over the three years following retirement to a tax-sheltered annuity. The third pays for seven years of the retiree's health insurance.

At June 30, 2017, the District has outstanding obligations to 31 participants under the offerings listed above with a total liability of \$455,711. Early retirement benefits paid during the year ended June 30, 2017, totaled \$680,758. A liability has been recorded in the government-wide financial statements representing the District's commitment to fund non-current early retirement.

(6) Bond Defeasement

On May 18, 2016, the District issued \$2,425,000 in revenue bonds with interest rates of 2.48 percent, released \$256,025 of the Series 2011 revenue bond reserve and \$201,456 from the 2011 Sinking Fund to advance refund \$2,630,000 of outstanding Series 2011 revenue bonds with interest rates from 2.50 to 4.50 percent.

The proceeds of the refunding issuance along with the released debt reserve and sinking fund monies have been placed in an irrevocable escrow account and have been invested in U.S. Government obligations which have been certified to be sufficient to pay all interest and principal of the June 2, 2011 Series revenue bonds from July 1, 2016 through July 1, 2018 when the bonds become callable.

The District is contingently liable in the remote possibility the escrow account is insufficient to pay the refunding bonds. After the principal and interest on all of the outstanding bonds are paid, any remaining funds in the escrow account, together with any interest thereon, will be returned to the District. The new refunding bonds have been added to the appropriate financial statements and schedules. At June 30, 2017 \$2,480,000 of such bonds is outstanding. Defeasement of principal and interest for the year was \$150,000 and \$99,538 respectively. The economic savings for the refunding was \$73,473.

(7) Pension Plan

Plan Description - IPERS membership is mandatory for employees of the District, except for those covered by another retirement system. Employees of the District are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by Iowa Public Employees' Retirement System (IPERS). IPERS issues a stand-alone financial report which is available to the public by mail at 7401 Register Drive P.O. Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.org.

IPERS benefits are established under Iowa Code chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general information purposes only. Refer to the plan documents for more information.

Pension Benefits - A Regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, any time after reaching age 62 with 20 or more years of covered employment, or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. These qualifications must be met on the member's first month of entitlement to benefits. Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier based on years of service.

- The member's highest five-year average salary, except members with service before June 30, 2012, will use the highest three-year average salary as of that date if it is greater than the highest five-year average salary.

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25% for each month that the member receives benefits before the member's earliest normal retirement age. For service earned starting July 1, 2012, the reduction is 0.50% for each month that the member receives benefits before age 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

Disability and Death Benefits - A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefit or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions - Contribution rates are established by IPERS following the annual actuarial valuation, which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. State statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS Contribution Rate Funding Policy requires that the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll, based on the Actuarial Amortization Method adopted by the Investment Board.

In fiscal year 2017, pursuant to the required rate, Regular members contributed 5.95% of covered payroll and the District contributed 8.93% of covered payroll, for a total rate of 14.88%.

The District's contributions to IPERS for the year ended June 30, 2017 were \$988,718.

Net Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At June 30, 2017, the District reported a liability of \$9,252,395 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all IPERS participating employers. At June 30, 2016, the District's proportion was 0.147019%, which was a decrease of 0.005600% from its proportion measured as of June 30, 2015.

For the year ended June 30, 2017, the District recognized pension expense of \$1,040,103. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 81,773	\$ 110,424
Changes of assumptions	141,163	-
Net difference between projected and actual earnings on IPERS' investments	1,318,174	-
Changes in proportion and differences between District contributions and the District's proportionate share of contributions	121,345	395,912
District contributions subsequent to the measurement date	<u>988,718</u>	-
Total	<u>\$ 2,651,173</u>	<u>\$ 506,336</u>

\$988,718 reported as deferred outflows of resources related to pensions resulting from the District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	Amount
2018	\$ 121,054
2019	121,054
2020	599,658
2021	333,339
2022	<u>(18,986)</u>
	<u>\$ 1,156,119</u>

There were no non-employer contributing entities at IPERS.

Actuarial Assumptions - The total pension liability in the June 30, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Rate of inflation (effective June 30, 2014)	3.00 percent per annum
Rates of salary increase (effective June 30, 2010)	4.00 to 17.00 percent, average, including inflation Rates vary by membership group.
Long-term investment rate of return (effective June 30, 1996)	7.50 percent, compounded annually, net of investr expense, including inflation
Wage growth (effective June 30, 1990)	4.00% per annum, based on 3.00% inflation and 1.00% real wage inflation

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of actuarial experience studies with dates corresponding to those listed above.

Mortality rates were based on the RP-2000 Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

The long-term expected rate of return on IPERS' investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Asset Allocation	Long-Term Expected Real Rate of Return
Core plus fixed income	28%	1.90%
Domestic equity	24	5.85
International equity	16	6.32
Private equity/debt	11	10.31
Real estate	8	3.87
Credit opportunities	5	4.48
U.S. TIPS	5	1.36
Other real assets	2	6.42
Cash	1	(0.26)
Total	100%	

Discount Rate - The discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the contractually required rate and that contributions from the District will be made at contractually required rates, actuarially determined. Based on those assumptions, IPERS' fiduciary net position was projected to be available to make all projected future benefit payments to current active and inactive employees. Therefore, the long-term expected rate of return on IPERS's investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.5%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate 1% lower (6.5%) or 1% higher (8.5%) than the current rate.

	1% Decrease (6.50%)	Discount Rate (7.50%)	1% Increase (8.50%)
District's proportionate share of the net pension liability	\$ 14,969,122	9,252,395	4,427,402

IPERS' Fiduciary Net Position - Detailed information about the IPERS' fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS' website at www.ipers.org.

Payables to IPERS - At June 30, 2017, the District reported payables IPERS of \$127,101 for legally required District contributions and \$84,686 for legally required employee contributions withheld from employee wages which had not yet been remitted to IPERS.

(8) Other Postemployment Benefits (OPEB)

Plan Description - The District operates a single-employer health benefit plan which provides medical/prescription drug and dental benefits for employees, retirees and their spouses. There are 209 active and 14 retired members in the plan. Retired participants must be age 55 or older at retirement.

The medical/prescription drug benefit, which is a fully-funded medical plan, is administered by Wellmark. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit subsidy and an OPEB liability.

Funding Policy - the contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation - The District's annual OPEB cost is calculated based on the annual required contribution of the District (ARC), an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the District's annual OPEB cost for June 30, 2017, the amount actually contributed to the plan and changes in the District's net OPEB obligation:

Annual required contribution	\$ 235,176
Interest on net OPEB obligation	21,920
Adjustment to annual required contribution	<u>(108,167)</u>
Annual OPEB cost (expense)	148,929
Contributions made	<u>(108,475)</u>
Increase in net OPEB obligation	40,454
Net OPEB obligation - beginning of year	<u>876,794</u>
Net OPEB obligation - end of year	<u><u>\$ 917,248</u></u>

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2008. The end of the year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the plans actual contributions for the year ended June 30, 2017.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation as of June 30, 2017 are summarized as follows:

Year Ended June 30,	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
2015	130,623	96.7	803,772
2016	157,452	53.6	876,794
2017	148,929	72.8	917,248

Funded Status and Funding Progress - As of July 1, 2016, the most recent actuarial valuation date for the period July 1, 2016 through June 30, 2017, the actuarial accrued liability was approximately \$1.250 million, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of approximately \$1.250 million. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$10.074 million, and the ratio of the UAAL to the covered payroll was 12.4%. As of June 30, 2017, there were no trust fund assets.

Actuarial Methods and Assumptions – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress for the Retiree Health Plan presented as Required Supplementary Information in the section following the Notes to Financial Statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of July 1, 2016, actuarial valuation date, the frozen entry age actuarial cost method was used. The actuarial assumptions include a 2.5% discount rate based on the District's funding policy. The ultimate medical trend rate is 6%. The medical trend rate is reduced by a percentage each year until reaching the 6% ultimate trend rate.

Mortality rates are from the RP 2000 Group Annuity Mortality Table, projected to 2015 applied on a gender-specific basis. Annual retirement and termination probabilities were based upon the 2006 Society of Actuaries Study.

Projected claim costs of the medical plan were \$744 per month as of the July 1, 2016 valuation date for retirees developed from a combination of age adjusted fully insured premiums and manual claims costs. The UAAL is being amortized as a level percentage of projected payroll expense on an open basis over 30 years.

(9) Risk Management

The District has a self-funded dental insurance plan. Total out of pocket expense per participant is \$1,000. Settled claims have not exceeded the commercial coverage in any of the past three years.

Payments are made to the plan based on actuarial estimates of amounts needed to pay prior and current year claims and to establish a reserve for catastrophic losses. That balance was \$164,956 at June 30, 2017.

The Knoxville Community School District is exposed to various risks of loss related to torts; theft; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

(10) Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District’s actual amount for this purpose totaled \$713,544 for the year ended June 30, 2017 and is recorded in the General Fund by making a memorandum adjusting entry to the cash basis financial statements.

(11) Categorical Funding

The District’s restricted fund balance for categorical funding at June 30, 2017 is comprised of the following programs:

Program	Amount
Gifted and talented programs	\$ 121,145
Teacher salary supplement	5,213
Four-year-old preschool state aid	364,820
Successful progression for early readers	2,828
Professional development	48,322
Teacher leadership grants	46,419
Total	<u>\$ 588,747</u>

(12) New Accounting Pronouncement

The District adopted the tax abatement disclosure guidance set forth in Governmental Accounting Standards Board Statement No. 77, Tax Abatement Disclosures. The Statement sets forth guidance for the disclosure of information about the nature and magnitude of tax abatements which will make these transactions more transparent to financial statement users. Adoption of the guidance did not have an impact on amounts reported in the financial statements. The Notes to Financial Statements include information about tax abatements of other entities which impact the District.

(13) Tax Abatements

Governmental Accounting Standards Board Statement No. 77 defines tax abatements as a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are otherwise entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the governments or the citizens of those governments.

Tax Abatements of Other Entities

Property tax revenues of the District were reduced by the following amounts for the year ended June 30, 2017 under agreements entered into by the following entities:

Entity	Tax Abatement Program	Amount of Tax Abated
City of Knoxville	Urban renewal and economic development projects	\$ 237,170

The State of Iowa reimburses the District an amount equivalent to the increment of valuation on which property tax is divided times \$5.40 per \$1,000 of taxable valuation. For the year ended June 30, 2017, this reimbursement amounted to \$87,925.

(14) Prospective Accounting Change

The Governmental Accounting Standards Board has issued Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. This statement will be implemented for the fiscal year ending June 30, 2018. The revised requirements establish new financial reporting requirements for state and local governments which provide their employees with postemployment benefits other than pensions, including additional note disclosures and required supplementary information. In addition, the Statement of Net Position is expected to include a significant liability for the government’s other postemployment benefits.

(15) Construction Commitment

The District has entered into various contracts totaling \$222,500 for bus barn renovations, a maintenance storage building, and a playground at West Elementary. As of June 30, 2017, costs of \$39,406 had been incurred against the contracts. The balance remaining of \$183,094 at June 30, 2017 will be paid as work on the projects progresses.

(16) Detailed Reconciliation of Governmental Fund Balances to Net Position

The following is the detailed reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position:

	Net Investment in Capital Assets	Management Levy Purposes	Debt Service	Unassigned/ Restricted
Fund Balance (Exhibit C)	\$ -	216,007	1,729,710	2,152,148
Capital assets, net of accumulated depreciation	28,925,074	-	-	-
Revenue bond indebtedness expended for capital assets	(14,730,000)	-	-	-
Computer lease indebtedness	-	-	-	(495,179)
Income surtax	-	-	-	534,521
Accrued interest payable	-	-	(199,118)	-
Termination benefits payable	-	(216,007)	-	(239,704)
Internal service	-	-	-	328,592
Pension related deferred outflows	-	-	-	2,579,958
Net pension liability	-	-	-	(8,986,602)
Pension related deferred inflows	-	-	-	(492,365)
Net OPEB liability	-	-	-	(882,301)
Net position (Exhibit A)	\$ 14,195,074	-	1,530,592	(5,500,932)

(17) Due From and Due to Other Funds

The detail of interfund payables and receivables for the year ended June 30, 2017 is as follows:

Receivable Fund	Payable Fund	Amount
General Fund	Internal Service Fund: Health Insurance	\$ 21,896

The Internal Service: Health Insurance Fund is repaying the General Fund for expenses paid, but which were not reimbursed by year end.

KNOXVILLE COMMUNITY SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION – BUDGETARY REPORTING
YEAR ENDED JUNE 30, 2017

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparison for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the GAAP basis.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functions not by fund. These four functions are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not by fund. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year, the District adopted one budget amendment, increasing budgeted expenditures by \$100,000.

KNOXVILLE COMMUNITY SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION - PENSION LIABILITY
YEAR ENDED JUNE 30, 2017

Changes of benefit terms:

Legislation enacted in 2010 modified benefit terms for Regular members. The definition of final average salary changed from the highest three to the highest five years of covered wages. The vesting requirement changed from four years of service to seven years. The early retirement reduction increased from 3 percent per year measured from the member's first unreduced retirement age to a 6 percent reduction for each year of retirement before age 65.

In 2008, legislative action transferred four groups – emergency medical service providers, county jailers, county attorney investigators, and National Guard installation security officers – from Regular membership to the protection occupation group for future service only.

Changes of assumptions:

The 2014 valuation implemented the following refinements as a result of a quadrennial experience study:

- Decreased the inflation assumption from 3.25 percent to 3.00 percent
- Decreased the assumed rate of interest on member accounts from 4.00 percent to 3.75 percent per year.
- Adjusted male mortality rates for retirees in the Regular membership group.
- Moved from an open 30-year amortization period to a closed 30-year amortization period for the UAL (unfunded actuarial liability) beginning June 30, 2014. Each year thereafter, changes in the UAL from plan experience will be amortized on a separate closed 20-year period.

The 2010 valuation implemented the following refinements as a result of a quadrennial experience study:

- Adjusted retiree mortality assumptions.
- Modified retirement rates to reflect fewer retirements.
- Lowered disability rates at most ages.
- Lowered employment termination rates
- Generally increased the probability of terminating members receiving a deferred retirement benefit.
- Modified salary increase assumptions based on various service duration.

* - Includes \$63,974 of non-cash awards.

Basis of Presentation - The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the federal award activity of Knoxville Community School District under programs of the federal government for the year ended June 30, 2017. The information in this Schedule is presented in accordance with the requirements of Title 2, U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Knoxville Community School District, it is not intended to and does not present the financial position, changes in financial position or cash flows of Knoxville Community School District.

Summary of Significant Accounting Policies - Expenditures reported in the Schedule are reported on the accrual or modified accrual basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles in OMB Circular A-87, Cost Principles for State, Local and Indian Tribal Governments, or the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

Indirect Cost Rate - Knoxville Community School District did not elect to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

**Independent Auditor's Report on Internal Control over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements Performed in
Accordance with Government Auditing Standards**

To the Board of Education of Knoxville Community School District:

We have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Governmental Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Knoxville Community School District as of and for the year ended June 30, 2017, and the related Notes to Financial Statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 25, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Knoxville Community School District's internal control over financial reporting to determine the audit procedures appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Knoxville Community School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Knoxville Community School District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified.

A deficiency in internal control exists when the design or operation of the control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the District's financial statements will not be prevented or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control which is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Knoxville Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, we noted certain immaterial instances of non-compliance or other matters which are described in Part IV of the accompanying Schedule of Findings and Questioned Costs.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2017 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Knoxville Community School District's Responses to Findings

Knoxville Community School District's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. Knoxville Community School District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Knoxville Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

**Independent Auditor's Report on Compliance for Each Major Federal Program
and on Internal Control over Compliance Required by the Uniform Guidance**

To the Board of Education of Knoxville Community School District:

Report on Compliance for Each Major Federal Program

We have audited Knoxville Community School District's compliance with the types of compliance requirements described in U.S. Office of Management and Budget (OMB) Compliance Supplement that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017. Knoxville Community School District's major federal programs are identified in Part I of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Knoxville Community School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards, the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, and the audit requirements of Title 2, U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Knoxville Community School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Knoxville Community School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Knoxville Community School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report on Internal Control Over Compliance

The management of Knoxville Community School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Knoxville Community School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Knoxville Community School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph in this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOLTE, CORNMAN & JOHNSON, P.C.

January 25, 2018
Newton, Iowa

KNOXVILLE COMMUNITY SCHOOL DISTRICT
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2017

Part I: Summary of the Independent Auditor's Report

- (a) Unmodified opinions were issued on the financial statements prepared in accordance with U.S. generally accepted accounting principles.
- (b) No material weaknesses in internal control over financial reporting were disclosed by the audit of the financial statements.
- (c) The audit did not disclose any non-compliance which is material to the financial statements.
- (d) No material weaknesses in internal control over the major programs were noted by the audit of the financial statements.
- (e) An unmodified opinion was issued on compliance with requirements applicable to each major program.
- (f) The audit did not disclose any audit findings which were required to be reported in accordance with the Uniform Guidance, Section 200.516(a).
- (g) Major program was as follows:
 - CFDA Number 84.010 - Title I Grants to local Educational Agencies
- (h) The dollar threshold used to distinguish between Type A and Type B programs was \$750,000.
- (i) Knoxville Community School District did qualify as a low-risk auditee.

Part II: Findings Related to the Financial Statements:

INSTANCES OF NON-COMPLIANCE:

No matters were noted.

INTERNAL CONTROL DEFICIENCIES:

No material weaknesses in internal control over financial reporting were noted.

Part III: Findings and Questioned Costs for Federal Awards:

INSTANCES OF NON-COMPLIANCE:

No matters were noted.

INTERNAL CONTROL DEFICIENCIES:

No material weaknesses in internal control over the major programs were noted.

Part IV: Other Findings Related to Required Statutory Reporting:

IV-A-17 Certified Budget - Expenditures for the year ended June 30, 2017 did not exceed the amended certified budgeted amounts.

IV-B-17 Questionable Disbursements - No expenditures we believe may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979 were noted.

IV-C-17 Travel Expense - No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

IV-D-17 Business Transactions - Business transactions between the District and District officials or employees were noted as follows:

Name, Title and Business Connection	Transaction Description	Amount
Mike Moats, Board Member Spouse owns Custom Draperies & Closets	Services (Blinds for Elementary Project) per bid	\$ 17,604
Troy Pearson, Facilities Cassie Pearson, Superintendent Mother owns Jan's Kitchen & Bath	Services (Cabinets for Elementary Project) per bid	\$ 35,735

In accordance with the Attorney General's opinion dated November 9, 1976 the above transactions with relatives and spouses of District employees and board members do not appear to represent conflicts of interest.

IV-E-17 Bond Coverage - Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure the coverage is adequate for current operations.

IV-F-17 Board Minutes - We noted no transactions requiring Board approval which have not been approved by the Board.

IV-G-17 Certified Enrollment - No variances in the basic enrollment data certified to the Iowa Department of Education were noted.

IV-H-17 Supplementary Weighting - We noted the supplementary weighting data certified to the Iowa Department of Education was understated by 0.865 for the fall 2016 count.

Recommendation - The District should contact the Iowa Department of Education and the Iowa Department of Management to resolve this matter.

Response - The auditors will contact the Department of Management on the District's behalf this adjustment will be reflected in the 2019 budget.

Conclusion - Response accepted.

IV-I-17 Deposits and Investments - We noted no instances of non-compliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy.

IV-J-17 Certified Annual Report - The Certified Annual Report was filed with the Department of Education timely and we noted no significant deficiencies in the amounts reported.

IV-K-17 Categorical Funding - No instances were noted of categorical funding used to supplant rather than supplement other funds.

IV-L-17 Statewide Sales, Services and Use Tax - No instances of non-compliance with the allowable uses of the statewide sales, services and use tax revenue provided in Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2017, the District reported the following information regarding the statewide sales, services and use tax revenue in the District's CAR:

Beginning balance		\$ 4,688,329
Revenues:		
Sales tax revenues	\$ 1,702,165	
Other local revenues	51,651	
Sale of long-term debt	191,520	1,945,336
		<u>6,633,665</u>
Expenditures/transfers out:		
School infrastructure construction	\$ 3,640,896	
Equipment	191,520	
Other	117,257	
Transfers to other funds:		
Debt service fund	1,736,332	5,686,005
		<u>5,686,005</u>
Ending balance		<u>\$ 947,660</u>

For the year ended June 30, 2017, the District did not reduce any levies as a result of the monies received under Chapter 423E or 423F of the Code of Iowa.

IV-M-17 Negative Lunch Account Balances - It was noted during the audit that the School Nutrition Fund is carrying several significant negative student lunch account balances. It was noted some of the deficit amounts appear to be excessive in amount.

Recommendation - The District should review their procedures and policies in regard to negative student lunch account balances. District policies and procedures should be designed to discourage deficit accounts from becoming excessive. The District should try various collection techniques to collect the balances owed for lunches served.

Response - The District approved a new nutrition policy in which the students are limited to a negative balance of \$40. The District is currently working with the Credit Bureau Services of Iowa to help collect on these negative lunch account balances as a last effort to collect on any negative balances. The District requires negative balances to be paid in full in order to participate in graduation ceremonies.

Conclusion - Response accepted.
