Polson School District #23
Linderman Gym Project Update
Friday, February 22, 2019

Polson School District and Travelers Insurance have come to an agreement to replace the 1940 era Linderman Gym Facility due the building's compromised structural integrity caused by a weather event in January 2018. Travelers will fund the construction of a new "like kind" gym at the current site.

Polson School District will initiate the procurement of architectural and engineering services to begin the design and development phase of this project.

Respectfully,

Rex M. Wertz
Superintendent Polson School District #23
