2020-21 Elementary Forum

Superintendent Adams charged the Elementary Reopening Committee with developing recommendations for reimagining elementary schools in the time of the COVID-19 pandemic. She asked the committee to define the framework for learning in three modalities: fully on-site, blended and fully virtual/off-site.

The team's best thinking to date, given the parameters, is presented within. The team continues to research, review guidance documents from the Reimagine Education Advisory Council and the NYS Departments of Health and Education, and seek input from stakeholders to inform this recommendation.

Our ultimate goal and purpose is to present our best recommendation for a safe plan for reopening that creates the most conducive learning environment within the guidance parameters.
