   a. Presentation on the Expendable Trust Funds (Dennis Blair)
      i. A brief presentation was given from Dennis Blair from the Trustees of the Trust Fund. The following are highlights:
         1. Currently, most of the funds are in various money market accounts. Bearing Point Wealth Partners in Hampton, NH is a registered Investment firm that manages a common trust fund. The firm suggested that in order to increase the rate of return without undue risk that 15% should be put into capital reserves in the stock market and 85% into short term bond funds. Mr. Blair stated this is a conservative allocation that will generate a higher rate of return than what it is currently. Mr. Blair reminded the board that this change in investment strategy is the decision of the Trustees but would like to get the input of the School Board. It was noted that the various account would be pooled for investment purposes but accounts will still remain separated. Mr. Blair distributed a chart comparing the South Hampton, NH property taxes to those of 13 other surrounding towns in addition to a sample warrant article for the board to review.

   b. Matt Ferreira thanked Dennis Blair for his work in this matter. He also stated that beginning in November of this year he will be providing Mr. Blair monthly expenditure reports moving forward.

6. Continuing Business
   a. School Day Schedule - The following scheduling information was provided by Dr. Huston:
i. Flex time has not been eliminated however it is not reflected in the master schedule. Teachers will now give breaks as needed and at a time that works best for them and the students.

ii. Grades K-5 have had no major changes made to the current schedule.

iii. 8:15-8:30 AM has been allocated as a homeroom block. This provides time for second bus students to settle in without being late for the start of class.

iv. Grade 6 is alone and grades 7 & 8 are combined. The grade 7 and 8 combination is still being “worked out” and changes may be made.

v. At the end of the day, dismissal has been pushed out to 2:35 PM.

vi. Second bus is arriving at the school at 3:15 PM.

vii. Students in have 90 minute math classes daily which are made up of multi-grade level classes.

b. Matt Ferreira clarified for those in attendance that in previous years students were being dropped off by the bus earlier than 7:45 AM and that staff was not required to be there until that time. Mr. Darsney, the previous Barnard Principal, would typically be there earlier than 7:45 to provide coverage in the interim. Two additional Educational Associates are in the process of being hired to cover the bus arriving earlier than 7:45.

c. Dr. Lupini suggested that the advertised time for students not taking the bus to remain at 7:45 AM.
