As the year progresses, interested students will create bowls for the Empty Bowls Project and Community Dinner in February. Leadership for the Empty Bowls Project comes from experienced wheel throwing club members, and committee members can be from the Wheel Throwing Club or any interested person. Last year's committee members often become next year's leadership. Interested students should be able to work cooperatively with others, and Empty Bowls Project volunteers should be willing to work long volunteer hours and have fun doing so! While all students are welcome, we are limited to the equipment we have in the classroom.

Women in Leadership ^

Ms. Baghri

This club is meant to celebrate women in leadership positions and examine the paths they took to get there. It's meant to educate others of the obstacles females place in accomplishing leadership positions and also educate all students in how to overcome the obstacles. This club is meant to educate and inspire!

Youth Activism & Civics Club

Mr. Schwartz

YAC provides students with the opportunity to engage in political activism on the local, state, and national level. This club is for students who want to do more than share political posts on social media. Focusing on one or two issues per semester, YAC members organize events raising awareness for their chosen issue and lobby the school administration and their government representatives to make advancements on the issue. In addition, YAC offers students volunteer opportunities (canvassing, phone banking, etc.) in local political campaigns.
