   b. Bus Parking Lot Construction Update
      Construction of the Bus Parking Lot is moving along ahead of schedule and should be completed by the end of next week.

      Sealcoating of parking lot will be done this week.
   c. Donation for Archery Equipment
      Carrie Miller, Physical Education Teacher at Big Hollow Elementary secured a $3,500 donation from “Safari Club International” which will be used towards the purchase of new archery equipment for our Elementary and Middle School students.
   d. Breakfast Program Grant
      Big Hollow School District 38 was awarded a $10,000 grant from the Share our Strength and No Kid Hungry Illinois campaigns. Monies from the grant will be used to provide start-up funds to increase student participation in the school breakfast program in all three buildings. Janet Longo is working closely with administrators to determine procedures relating to starting up the school breakfast program. Breakfast will be a grab ‘n go breakfast and will kickoff Oct. 3.

      Kids will go straight to class and cafeteria will drop off and pickup breakfast trays. Cafeteria operations are being restructured in order to accommodate the preparation and delivery of breakfast items.
   e. Mold/Air Quality issues at the Elementary building
      Spots on carpeting in the elementary building were discovered in July. We tried to clean and treat these spots ourselves. The mold returned and we tried to re-clean the spots again. When that did not work we called out an environmental agency to investigate. They tested the air quality which was not bad but was not completely clean.

      It was determined that carpet out of 20 rooms would have to be removed and replaced. A company is working on ripping out all of the carpeting and cleaning everything. All furniture, books, etc will be wiped down. Removing the carpet is a long process because of the glue underneath. All carpet should be removed by Wednesday. A few options to replacing the carpet include carpet squares that have a rubber backing or tile (which would take 3-4 weeks to install). The company indicated that the concrete under the carpeting was wet and they will have to drill down to see if water is coming from the ground underneath.

      Current cost estimate for project is $230,000. Monies will come out of fund 60.
Before anyone is allowed back in the building the air quality will be completely tested in both Elementary and Primary buildings (even though there was no mold discovered in the Primary building).
