MANAGEMENT SUMMARY

With February almost here, temperatures continue to fluctuate between warm and cold. Mornings and night temperatures are still relatively cool (50-60), and daytime temperatures range from being a normal warm Florida day to a chilly, cloudy day. The growth rate for both algae and nuisance plants are still slower than usual as a result of the weather, giving technicians the ability to make headway in more overgrown areas. Rainfall events have been few and far between, and with only the occasional isolated event; the water levels of most ponds has decreased as a result of the recent weather. Decreased rainfall provides assistance in the growth of algae, as well as decreased nighttime temperatures extending the time it takes for treated algae to decay (beyond the usual 7-10 day period).

On this visit, nearly all ponds noted were in good condition, with a few outliers. Algal activity was present in moderate amounts. Some ponds were better than others, some had no algae and some had a lot of algae. We have the problem ponds noted and will pay close attention to their conditions. Nuisance grasses were still present in moderate amounts as well and will continue to be routinely treated. Some forms of vegetation that are present in the ponds are dormant due to the recent decreased temperatures. Our technicians will continue on with routine treatment and attack any new growth that pops up.

RECOMMENDATIONS

Continue to treat ponds for algae, administer follow-ups to ponds experiencing extended decay times.

Administer treatments to any nuisance grasses growing along exposed shorelines and within beneficial plants.

Continue to apply treatment to overgrown littoral areas.

Avoid overtreating ponds, to prevent fish kills or toxic blooms.

Stay alert for debris items that find their way to the pond's shore.

Thank you for choosing Steadfast Environmental!

Important Delivery & Acceptance Instructions

Upon signing or committing to this agreement, we will process your order to the manufacturer and you will receive an order acknowledgment. Once the products have been manufactured you will typically receive a shipping notification. **99% of the time delivery goes without a hitch, but the following is a general outline of what to expect and how to prepare.**

Shipping Notification: You will typically be notified when the manufacturer has shipped the items. This is usually within a week's timeframe of delivery.

Delivery Notification: Most delivery companies will contact the designated person a day or two ahead and may schedule a general time frame of 8 AM to 1 PM etc. However, at times delivery may be delayed for various reasons. Technically Freight companies can only guarantee a delivery between 8 AM to 5 PM. It is best to be prepared to receive items outside of the scheduled time frame. If someone is routinely present on site all day to accept delivery such as a maintenance person, day porter, security, homeowner, etc., it is helpful. If not, you must arrange for a person to be at the location during delivery hours.

Delivery Trucks: Freight trucks are usually very large and delivery to some locations can be somewhat difficult navigating through residential communities, rural areas, and metro cities to find addresses, parking spots, contact persons, etc. So, it is best if the receiver understands this task, and is at the location until the items are delivered. If you can provide the contact person's name and cell phone ahead of time and prior to order it can be helpful.

Delivery from different manufacturers: On occasion, certain items may be purchased from different manufacturers, such as umbrellas, bases, custom cushions, trash receptacles, etc. Many times, these items will not usually be delivered at the same time as large furniture since they originate from different locations. We will do our best to coordinate delivery on or around the same day as possible, but be prepared to handle them on separate days if needed.

Off-Loading: Upon arrival, drivers are technically only required to take items to the "back of truck" for offloading because most freight locations have forklifts at a warehouse to offload. The truck may or may not have a lift gate and pallet jack to make it easier. If items are palletized and a lift gate is not available, it helps to take the boxes off the pallet in the truck and offload by hand. A standard utility, pocketknife and or wire snips to cut the straps and shrink-wrap may be needed. Many drivers will keep the pallets if you don't want them, but not always. You may be required to dispose of the pallets along with the packaging materials and boxes. Most drivers will help take the items off the back of the truck but are not required to because of injury and liability reasons. They may not bring your items to any location other than the street where they have offloaded and do not provide any type of installation services. Usually, two people are needed to remove large furniture items from the truck and move to the desired area for unpacking. One strong person may be able to accomplish this task. Furniture boxes are not usually extremely heavy, just large and bulky. A four-wheeled furniture dolly is helpful to move furniture boxes around.

Acceptance: Make sure to count all boxes and confirm the units on the bill of lading. Important Note: If you see any damage on boxes or to furnishings "during acceptance" make a note on the bill of lading when you sign for it. Make sure it's noted on the copy that the driver keeps as well. Then notify us immediately and we will rectify the situation. A general picture of the damaged boxes and or items taken from a cell phone is useful.

Unpacking: Typically, it's easiest to unpack items where you offloaded them, and or in a shaded area closest to the location where the furnishings will eventually be moved too. A utility knife is required to cut boxes open. Be careful not to cut furnishings inside of boxes while opening, as it would not be covered under warranty. Once items are out of the box, be prepared to remove a substantial amount of protective wrapping paper and packaging materials for furniture. Large trash bags are helpful for packing materials.

Staging Furnishings: It helps to have a pre-written diagram of where you would like the furnishings to be staged ahead of time. We have found that you can easily print your pool or patio areas from Google maps on satellite mode and draw in the desired locations of the furnishings. Carrying the large furniture by hand from the un-packaging area is usually best. Trying to stack large items on a dolly for moving after they have been unwrapped only tends to scratch or damage them. Note: Umbrellas, bases, and smaller items are easiest moved to the final placement location prior to unpacking.

Disposing of Packaging: Depending on the number of furnishings, be prepared to transport boxes, pallets and packing material to local city or county disposal site. Most of the time it is too much to handle in your local community dumpster. The packaging is all standard materials and is not hazardous or subject to any additional fees at the disposal site. We have found that you can take the cardboard and

most materials to a recycling center for free disposal as well.

Removal of Existing Furnishings: Items can be taken to the local disposal site. We have found that on some occasions a service such as Salvation Army, or thrift stores, etc., may come and take some or all off the furnishings as a donation. As well, you can place an ad in craigslist (with images) to either sell or have it picked up for free. Also, you may let your residents know and they may take some for personal use.

Important Delivery & Acceptance Instructions

Upon signing or committing to this agreement, we will process your order to the manufacturer and you will receive an order acknowledgment. Once the products have been manufactured you will typically receive a shipping notification. **99% of the time delivery goes without a hitch, but the following is a general outline of what to expect and how to prepare.**

Shipping Notification: You will typically be notified when the manufacturer has shipped the items. This is usually within a week's timeframe of delivery.

Delivery Notification: Most delivery companies will contact the designated person a day or two ahead and may schedule a general time frame of 8 AM to 1 PM etc. However, at times delivery may be delayed for various reasons. Technically Freight companies can only guarantee a delivery between 8 AM to 5 PM. It is best to be prepared to receive items outside of the scheduled time frame. If someone is routinely present on site all day to accept delivery such as a maintenance person, day porter, security, homeowner, etc., it is helpful. If not, you must arrange for a person to be at the location during delivery hours.

Delivery Trucks: Freight trucks are usually very large and delivery to some locations can be somewhat difficult navigating through residential communities, rural areas, and metro cities to find addresses, parking spots, contact persons, etc. So, it is best if the receiver understands this task, and is at the location until the items are delivered. If you can provide the contact person's name and cell phone ahead of time and prior to order it can be helpful.

Delivery from different manufacturers: On occasion, certain items may be purchased from different manufacturers, such as umbrellas, bases, custom cushions, trash receptacles, etc. Many times, these items will not usually be delivered at the same time as large furniture since they originate from different locations. We will do our best to coordinate delivery on or around the same day as possible, but be prepared to handle them on separate days if needed.

Off-Loading: Upon arrival, drivers are technically only required to take items to the "back of truck" for offloading because most freight locations have forklifts at a warehouse to offload. The truck may or may not have a lift gate and pallet jack to make it easier. If items are palletized and a lift gate is not available, it helps to take the boxes off the pallet in the truck and offload by hand. A standard utility, pocketknife and or wire snips to cut the straps and shrink-wrap may be needed. Many drivers will keep the pallets if you don't want them, but not always. You may be required to dispose of the pallets along with the packaging materials and boxes. Most drivers will help take the items off the back of the truck but are not required to because of injury and liability reasons. They may not bring your items to any location other than the street where they have offloaded and do not provide any type of installation services. Usually, two people are needed to remove large furniture items from the truck and move to the desired area for unpacking. One strong person may be able to accomplish this task. Furniture boxes are not usually extremely heavy, just large and bulky. A four-wheeled furniture dolly is helpful to move furniture boxes around.

Acceptance: Make sure to count all boxes and confirm the units on the bill of lading. Important Note: If you see any damage on boxes or to furnishings "during acceptance" make a note on the bill of lading when you sign for it. Make sure it's noted on the copy that the driver keeps as well. Then notify us immediately and we will rectify the situation. A general picture of the damaged boxes and or items taken from a cell phone is useful.

Unpacking: Typically, it's easiest to unpack items where you offloaded them, and or in a shaded area closest to the location where the furnishings will eventually be moved too. A utility knife is required to cut boxes open. Be careful not to cut furnishings inside of boxes opening, as it would not be covered under warranty. Once items are out of the box, be prepared to remove a substantial amount of protective wrapping paper and packaging materials for furniture. Large trash bags are helpful for packing materials.

Staging Furnishings: It helps to have a pre-written diagram of where you would like the furnishings to be staged ahead of time. We have found that you can easily print your pool or patio areas from Google maps on satellite mode and draw in the desired locations of the furnishings. Carrying the large furniture by hand from the un-packaging area is usually best. Trying to stack large items on a dolly for moving after they have been unwrapped only tends to scratch or damage them. Note: Umbrellas, bases, and smaller items are easiest moved to the final placement location prior to unpacking.

Disposing of Packaging: Depending on the number of furnishings, be prepared to transport boxes, pallets and packing material to the local city or county disposal site. Most of the time it is too much to handle in your local community dumpster. The packaging is all standard materials and is not hazardous or subject to any additional fees at the disposal site. We have found that you can take the cardboard and most materials to a recycling center for free disposal as well.

Removal of Existing Furnishings: Items can be taken to the local disposal site. We have found that on some occasions a service such as Salvation Army, or thrift stores, etc., may come and take some or all off the furnishings as a donation. As well, you can place an ad in craigslist (with images) to either sell or have it picked up for free. Also, you may let your residents know and they may take some for personal use.

frame finishes

Texacraft purchases the most durable electrostatic polyester powder available to cover the aluminum frames. This polyester powder is sprayed onto the frames which are then sent through a high temperature oven where the powder melts and bakes onto the frame. Combining such high quality finish components with Texacraft's extensive frame preparation process involving numerous cleaning cycles, the Texacraft finish will provide many years of worry free protection to the furniture frame.

*Glides and end caps are not necessarily color matched to finish color. Black, White or Opaque glides and end caps may be used.

Photographs do not necessarily give the exact color representation of the actual frame finish.

If it is very windy I would suggest using a stronger material that is the strongest for digital designs " custom coated main street fabric"

What is so unique on the custom coated mainstreet fabric:

- They are warranted for 3 full years
- They won't shadow
- They are made in the USA
- The process on how we produce them
- We take 2 pieces of 11 oz. polycotton material
- Print on one side of each of them
- We then insert a 10 oz. tear resistant blackout material between them.
- We then sew them all together to make a 32oz. material.

- We then clear coat it with a special" frog juice" which prevent scratching of the inks and makes them fade resistant for at least 3 years.
- We have tested this material for over 6 years with no issues with fading or tearing, especially in the Northeast conditions.

UMBRELLA LICENSE® AGREEMENT TERMS AND CONDITIONS

1. Purpose. Motion Picture Licensing Corporation (“MPLC”) grants licensee (“Licensee”) a non-exclusive license (“License”) to publicly perform copyrighted “Works” defined below, under the Terms and Conditions specified in this Umbrella License Agreement (“Agreement”). Licensee’s acceptance of this Agreement, or any amendment thereto, may be indicated via electronic consent, handwritten signature, or payment of the applicable license fee.
2. Basis for License. MPLC represents and warrants that it has secured the appropriate rights, under the federal Copyright Act, Title 17, U.S.C. §101 and §106, to grant this License.
3. Term. “Term” shall mean the period beginning on the “Start Date” listed on the Umbrella License Application (“Application”) and shall continue thereafter for periods of one (1) year each, unless cancelled by either party giving thirty (30) days advance written notice before the end of said period or any subsequent period. Each one (1) year period during the Term is referred to herein as a “Contract Year.” If Licensee does not timely notify MPLC of its intent to terminate, this Agreement will remain in effect for the entire subsequent Contract Year, and Licensee will be responsible for the entire annual fee due to MPLC hereunder pursuant to Section 5 hereof.
4. Rights Granted / Conditions. The specific titles which may be publicly performed by Licensee under this Agreement are “Works”, defined as films, television programs and other audio-visual content that are produced and/or distributed by MPLC-affiliated rights holder companies, as to which MPLC has received the rights to license public performances under the parameters set forth herein. The public performances of Works authorized by this Agreement may take place only in the Facility(ies) identified in the Application or as Licensee otherwise notifies, but may be made via any legally obtained means originally intended for personal use only, including but not limited to DVD, streaming, download and broadcast, but excluding premium home theatre exhibitions of such Works. The responsibility for obtaining legally sourced, authorized versions of the Works is that of Licensee, and the costs of acquiring the Works are to be borne solely by Licensee, separate and distinct from the agreed public performance license fee. The primary purpose of such performances must be to entertain and/or educate authorized viewers, and the audience must be limited accordingly. No specific titles, or any characters from such titles, or producers’ names may be advertised or publicized to the general public, and no admission or other fee may be charged to the audience. The exhibitions may not be used to endorse any goods or services. MPLC may use Licensee’s name in an undifferentiated, purely factual list of licensees.
5. Fee. The agreed license fee for the first Contract Year of this Agreement is specified on the Application, which amount is payable to MPLC. Licensee acknowledges and agrees that subsequent Contract Years may require adjustments based on various factors, including, but not limited to adjustments which: (i) reflect any change from the previous year’s Consumer Price Index (CPI), and/or (ii) reflect an increase in the number of Facilities or other relevant factors used to determine the license fee. On an annual basis, or upon request by MPLC, Licensee shall furnish MPLC with the information MPLC may request in order to determine the proposed license fee for subsequent Contract Years. Should MPLC wish to increase the license fee for the subsequent Contract Year, it shall propose such increased license fee to Licensee no later than sixty (60) days before the end of the then-current Contract Year. Licensee shall then have up to the date that is thirty (30) days prior to the expiration of the Contract Year to evaluate MPLC’s proposed license fee for the subsequent Contract Year. If Licensee does not timely notify MPLC of intent to terminate pursuant to Section 3 hereof, this Agreement will remain in effect for the entire subsequent Contract Year, with the license fee set at the amount proposed by MPLC. Such license fee for each subsequent Contract Year shall be due and payable no later than the beginning of each respective subsequent Contract Year. Late payments for subsequent Contract Years will be subject to a charge of one and one-half percent (1.5%) of the license fee per month.
6. Changes in Rights to Individual Titles. MPLC represents and warrants that it or its rights holders may, from time to time during the Term, lose the appropriate rights to certain individual titles due to, *inter alia*, the assignment, loss, or expiration of those rights. In such event, MPLC may send Licensee at any time during the Term binding notices that certain titles cannot be or may no longer be publicly

- performed under this Agreement. Such notices shall be binding and effective upon Licensee when received.
7. Rights Not Granted. Licensee may not unlawfully duplicate, supplement (e.g., with live musical accompaniment), edit or otherwise modify the Works obtained for public performance purposes under this Agreement. Any and all rights not granted to Licensee in this Agreement are expressly reserved to MPLC and/or its rights holders.
 8. Separate Fees. Any separate fees which may be due to music publishers or to collection societies for music publishers for the right to publicly perform the music contained in any of the Works covered by this Agreement are solely Licensee's responsibility and are not the responsibility of MPLC. To the best of MPLC's knowledge, no such separate fees for motion pictures are currently in effect.
 9. Assignment. This Agreement may not be assigned by either party, without the prior written consent of the other party, except that each party shall (a) assign this Agreement in connection with a merger, consolidation or sale of its assets and business, and (b) provide the other party with notice of the assignment including contact information for the assignee.
 10. Tax Liability. In the event that a determination is made by a taxing authority or court of any state in which Licensee conducts business that the activity licensed herein renders MPLC liable for the payment of a gross receipts, sales, business use or other tax which is based on the amount of MPLC's receipts from Licensee, then Licensee shall reimburse and indemnify MPLC within thirty (30) days of notification therefore for Licensee's pro rata share of any such tax derived from receipts received from Licensee.
 11. Notice. Any notice provided for herein shall be given in person; by first class air mail, postage prepaid; or by reputable overnight carrier; addressed to the party to be notified as listed on the Application. The date of personal service or mailing of any such notice shall constitute the date of service.
 12. Termination. Either party may terminate this Agreement on account of any material breach by the other party of the Agreement. Additionally, Licensee may terminate this Agreement for convenience. In the event of termination, there shall be no refund of the license fee. A waiver by MPLC or by Licensee of any specific breach by the other shall not constitute a waiver of any prior, continuing or subsequent breach of the same, or any other provision of this Agreement.
 13. Collection Fees. In the event that MPLC incurs any costs or fees in connection with the collection of any amounts past due to MPLC hereunder, then Licensee shall be responsible for paying such amounts to MPLC upon demand, with interest at the rate of nine percent (9%) per annum calculated from date of demand.
 14. Representations and Warranties. Each party represents and warrants that the information provided by it is true, correct and complete in all respects. This Agreement constitutes a legal, valid and binding obligation upon each party and is enforceable by its Terms and Conditions. Licensee acknowledges that such Terms and Conditions may be updated by MPLC at the beginning of a Contract Year by providing notice of such updates no later than sixty (60) days prior to the end of the previous Contract Year, with such updates being subject to Licensee's right to terminate pursuant to Section 3 hereof.
 15. Limited Waiver. To the extent that, prior to the commencement date of this Agreement, Licensee may have infringed upon rights held by MPLC, MPLC hereby agrees that it will not seek legal recourse or assert any claim for any and all such possible infringements which would have been licensed under this Agreement. MPLC makes this warranty only with respect to rights held by it and is not empowered or authorized to make any such representation or warranty with respect to rights held by others.
 16. Integration; Choice of Law. The Application and these Terms and Conditions contain the full and complete agreement between MPLC and Licensee. If any part of this Agreement shall be determined unenforceable, the remainder of this Agreement shall remain in full force and effect. This Agreement shall be construed in accordance with the laws of the United States and the State of California.
