The District
Community Development District
Audit Selection Committee

Dear Committee Members:

We are pleased to have this opportunity to present the qualifications of DiBartolomeo, McBee, Hartley & Barnes, P.A. (DMHB) to serve as The District Community Development District's independent auditors. The audit is a significant engagement demanding various professional resources, governmental knowledge and expertise, and, most importantly, experience serving Florida local governments. DMHB understands the services required and is committed to performing these services within the required time frame. We have the staff available to complete this engagement in a timely fashion. We audit several entities across the State making it feasible to schedule and provide services at the required locations.

Proven Track Record— Our clients know our people and the quality of our work. We have always been responsive, met deadlines, and been willing to go the extra mile with the objective of providing significant value to mitigate the cost of the audit. This proven track record of successfully working together to serve governmental clients will enhance the quality of services we provide.

Experience—DMHB has a history of providing quality professional services to an impressive list of public sector clients in Florida. We currently serve a large number of public sector entities in Florida, including cities, villages, special districts, as well as a large number of community development districts. Our firm has performed in excess of 100 community development district audits. In addition, our senior management team members have between 25 and 35 years experience in serving Florida governments. DMHB is a recognized leader in providing services to governmental and non-profit agencies within the State of Florida. Through our experience in performing audits, we have been able to increase our audit efficiency and therefore reduce cost. We have continually passed this cost saving on to our clients and will continue to do so in the future. As a result of our experience and expertise, we have developed an effective and efficient audit approach designed to meet or exceed the performance specifications in accordance with audit standards generally accepted in the United States of America, the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States with minimal disruption to your operations. Our firm has frequent technical updates to keep our personnel informed and up to date on all changes that are occurring within the industry.

Timeliness – In order to meet the Districts needs, we will perform interim internal control testing by January 31st from unaudited preliminary general ledgers provided. The remaining testing will be completed no later than May 1st. We will also review all minutes and subsequent needs related to the review of the minutes by January 31st. Follow up review will be completed as necessary.

Communication and Knowledge Sharing— Another driving force behind our service approach is frequent, candid and open communication with management with no surprises. During the course of the audit, we will communicate with management on a regular basis to provide you with a status report on the audit and to discuss any issues that arise, potential management letter comments, or potential audit differences.

In the accompanying proposal, you will find additional information upon which you can evaluate DMHB's qualifications. Our full team is in place and waiting to serve you. Please contact us at 2222 Colonial Road, Suite 200 Fort Pierce, FL 34950. Our phone number is (772) 461-8833. We look forward to further discussion on how our team can work together with you.

Very truly yours,

ADDITIONAL DATA

➤ *Procedures for Ensuring Quality Control & Confidentiality*

Quality control in any CPA firm can never be taken for granted. It requires a continuing commitment to professional excellence. DiBartolomeo, McBee, Hartley & Barnes is formally dedicated to that commitment.

In an effort to continue to maintain the standards of working excellence required by our firm, DiBartolomeo, McBee, Hartley & Barnes, P.A. joined the Quality Review Program of the American Institute of Certified Public Accountants. To be a participating member firm, a firm must obtain an independent compliance review of its quality control policies and procedures to ascertain the firm's compliance with existing auditing standards on the applicable engagements. The scope of peer review is comprehensive in that it specifically reviews the following quality control policies and procedures of the participating firm:

- Professional, economic, and administrative independence
- Assignment of professional personnel to engagements
- Consultation on technical matters
- Supervision of engagement personnel
- Hiring and employment of personnel
- Professional development
- Advancement
- Acceptance and continuance of clients
- Inspection and review system

➤ *Independence*

Independence is a hallmark of our profession. We encourage our staff to use professional judgment in situations where our independence could be impaired or the perception of a conflict of interest might exist. In the governmental sector, public perception is as important as professional standards. Therefore, independent auditors must exercise utmost care in the performance of their duties.

Our firm has provided continuous certified public accounting services in the government sector for 31 years, and we are independent of the Community Development Districts as defined by the following rules, regulations, and standards:

- Section 473.315, Florida Statutes
- Government Auditing Standards, issued by the Comptroller General of the United States

➤ *Computer Auditing Capabilities*

DiBartolomeo, McBee, Hartley & Barnes' strong computer capabilities as demonstrated by our progressive approach to computer auditing and extensive use of microcomputers. Jay McBee is the MIS partner for DMHB. Jay has extensive experience in auditing and evaluating various computer systems and would provide these services in this engagement.

We view the computer operation as an integral part of its accounting systems. We would evaluate the computer control environment to:

- Understand the computer control environment's effect on internal controls
- Conclude on whether aspects of the environment require special audit attention
- Make preliminary determination of comments for inclusion in our management letter

This evaluation includes:

- System hardware and software
- Organization and administration
- Access

TECHNICAL APPROACH

a. *An Express Agreement to Meet or Exceed the Performance Specifications.*

1. The audit will be conducted in compliance with the following requirements:
 - a. Rules of the Auditor General for form and content of governmental audits
 - b. Regulations of the State Department of Banking and Finance
 - c. Audits of State and Local Governmental Units-American Institute of Certified Public Accountants.
2. The audit report shall contain the opinion of the auditor in reference to all financial statements, and an opinion reflecting compliance with applicable legal provisions.
3. We will also provide the required copies of the audit report, the management letter, any related reports on internal control weaknesses and one copy of the adjusting journal entries and financial work papers.
4. The auditor shall, at no additional charge, make all related work papers available to any Federal or State agency upon request in accordance with Federal and State Laws and Regulations.
5. We will work in cooperation with the District, its underwriters and bond council in regard to any bond issues that may occur during the term of the contract.
6. The financial statements shall be prepared in conformity with Governmental Accounting Standards Board Statement Number 34, 63 and 65.

We will commit to issuing the audit for each Fiscal year by June 1st of the following year. In order to ensure this we will perform interim internal control testing as required by January 31st from unaudited preliminary general ledgers provided. The remaining testing will be completed no later than May 1st. We will also review all minutes and subsequent needs related to the review of the minutes by January 30th. Follow up review will be completed as necessary.

b. SPECIFIC AUDIT APPROACH

Our partners are not strangers who show up for an entrance conference and an exit conference. We have developed an audit plan that allows the partners to directly supervise our staff in the field. By assigning two partners to the audit, we will have a partner on-site for a significant portion of the fieldwork. This also gives the District an additional contact individual for questions or problems that may arise during the audit.

The scope of our services will include a financial, as well as, a compliance audit of the District's financial statements. Our audit will be conducted in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Additionally, our audit will be conducted in accordance with the provisions of Chapter 10.550, Rules of the Auditor General, which govern the conduct of local government entity audits performed in the State of Florida.

Our audit approach places emphasis on the accounting information system and how the data is recorded, rather than solely on the verification of numbers on a financial statement. This approach enables us to:

- Maximize our understanding of the District's operating environment
- Minimize time required conducting the audit since we start with broad considerations and narrow to specific audit objectives in critical areas

Our audit approach consists of four phases encompassing our audit process:

- Planning Phase
- Detailed Audit Phase
- Closing Phase
- Reporting

Planning Phase

Meetings and Expectations:

Our first step in this phase will be to set up a planning meeting with the financial and operating management of The District Community Development District. Our goal here is to eliminate "surprises." By meeting with responsible officials early on we can discuss significant accounting policies, closing procedures and timetables, planned timing of our audit procedures and expectations of our work. This will also be the starting point for our discussions with management related to *SAS No. 99-Consideration of Fraud in a Financial Statement Audit*. Inquiries will be made regarding managements knowledge of fraud and on management's views regarding the risk of fraud.

Review Operations and Develop Engagement Plan

It is critical that we understand the District's operating environment. To do this we will obtain and review such items as, organizational charts, recent financial statements, budget information, major contracts and lease agreements. We will also gather other information necessary to increase our understanding of the District's operations, organization, and internal control.

Study and Evaluate Internal Control

As part of general planning, we will obtain an understanding and assessment of the District's control environment. This assessment involves a review of management's operating style, written internal control procedures, and the District's accounting system. The assessment is necessary to determine if we can rely on control procedures and thus reduce the extent of substantive testing.

We then test compliance with established control procedures by ascertaining that the significant strengths within the system are functioning as described to us. Generally, transactions are selected and reviewed in sufficient detail to permit us to formulate conclusions regarding compliance with control procedures and the extent of operation compliance with pertinent laws and regulations. This involves gaining an understanding of the District's procedures, laws and regulations, and testing systems for compliance by examining contracts, invoices, bid procedures, and other documents. After testing controls, we then evaluate the results of those tests and decide whether we can rely on controls and thus reduce other audit procedures.

Conduct Preliminary Analytical Review

Also during the planning stage, we undertake analytical procedures that aid us in focusing our energies in the right direction. We call these analytical reviews.

A properly designed analytical review can be a very effective audit procedure in audits of governmental units. Analytical reviews consist of more than just a comparison of current-year actual results to prior-year actual results. Very effective analytical review techniques include trend analysis covering a number of years and comparisons of information not maintained totally within the financial accounting system, such as per capita information, prevailing market interest rates, housing statistics, etc.

Some examples of effective analytical reviews performed together and/or individually include:

- Comparison of current-year actual results with current-year budget for the current and past years with investigation of significant differences and/or trends
- Trend analysis of the percentage of current-year revenues to current-year rates for the current and previous years with investigation of significant changes in the collection percentage
- Trend analysis of the percentage of expenditures by function for the current and previous years with investigation of significant changes in percentages by department
- Monthly analysis of receipts compared to prior years to detect trends that may have audit implications

Conclusions reached enable us to determine the nature, timing and extent of other substantive procedures.

Detailed Audit Phase

Conduct Final Risk Assessment and Prepare Audit Programs

Risk assessment requires evaluating the likelihood of errors occurring that could have a material affect on the financial statements being audited. The conclusions we reach are based on many evaluations of internal control, systems, accounts, and transactions that occur throughout the audit. After evaluating the results of our tests of control and our final risk assessment we can develop detailed audit programs.

Perform Substantive Tests of Account Balances

These tests are designed to provide reasonable assurance as to the validity of the information produced by the accounting system. Substantive tests involve such things as examining invoices supporting payments, confirmation of balances with independent parties, analytical review procedures, and physical inspection of assets. All significant accounts will be subjected to substantive procedures. Substantive tests provide direct evidence of the completeness, accuracy, and validity of data.

Perform Single Audit Procedures (if applicable)

During the planning phase of the audit we will request and review schedules of expenditures of federal awards and state financial assistance. These schedules will be the basis for our determination of the specific programs we will test.

In documenting our understanding of the internal control system for the financial statement audit, we will identify control activities that impact major federal and state programs as well. This will allow us to test certain controls for the financial audit and the single audit concurrently. We will then perform additional tests of controls for each federal and state program selected for testing. We will then evaluate the results of the test of controls to determine the nature, timing and extent of substantive testing necessary to determine compliance with major program requirements.

Perform Statutory Compliance Testing

We have developed audit programs for The District Community Development District designed to test Florida Statutes as required by the Auditor General. These programs include test procedures such as general inquiries, confirmation from third parties, and examination of specific documents.

Closing Phase

During the closing phase we perform detail work paper reviews, request legal letters, review subsequent events and proposed audit adjustments. Communication with the client is critical in this phase to ensure that the information necessary to prepare financial statements in conformity with accounting principles generally accepted in the United States has been obtained.

Reporting Phase

Financial Statement Preparation

As a local firm, we spend a considerable amount of time on financial statement preparation and support. With this in mind, we can assist in certain portions of the preparation of financial statements or simply review a draft of financials prepared by your staff. We let you determine our level of involvement.

Management Letters

We want to help you solve problems before they become major.

Our management letters go beyond citing possible deficiencies in the District's internal control structures. They identify opportunities for increasing revenues, decreasing costs, improving management information, protecting assets and improving operational efficiency.

The diversity of experience of our personnel and their independent and objective viewpoints make the comments, observations, and conclusions presented in our management letters a valuable source of information. We have provided positive solution-oriented objective recommendations to our governmental clients regarding investments, accounting accuracy, data processing, revenue bonds, payroll, utility billing, purchasing, budgeting, risk management, and internal auditing.

This review ensures the integrity of the factual data in the management letter but does not influence or impair our independence.

Exit Conferences and Delivery of Reports

We anticipate meeting with appropriate District personnel in February and issuing the final required reports by the May meeting of each year.
