# TERMS, CONDITIONS & GUARANTEE

*Driveway Maintenance Inc.. hereafter referred to as "DMI"*

**TERMS:** Terms are as stated above. If payment is not made in accordance with the above terms, the customer agrees to pay any collection, legal fees and additional costs accrued due to unpaid balances.

Price is based on specifications and estimates as shown on the "Proposal & Agreement" from date of issuance. The cost estimates for this project are based upon current material or supply pricing. Since the market for materials is currently considered volatile, and sudden price increases could occur, DMI reserves the right to increase pricing for the work in the event that DMI directly incurs additional expenses arising out of or related to purchasing, shipping, or otherwise obtaining materials. Pricing is subject to change based on actual costs of materials at time of permit issuance. Pricing adjustments will be agreed upon by customer prior to the commencement of work.

Unless expressly noted within the proposal agreement, DMI makes no claim to the local, state, or federal compliance of any or all ADA elements present within the property boundary.

Additional charges may become necessary if extra materials or extra labor would become necessary to perform or complete this job or if extra services and/or materials are requested in writing by the owner or general contractor by their respective authorized supervisory employees. "DMI" shall not be held liable for damage to surrounding areas of driveway or parking lot due to poor subgrade, moisture, or other unforeseen circumstance. Additional charges will be in accordance with the agreed upon change order which is made part and parcel of these conditions and "Proposal & Agreement". "DMI" reserves the right to refuse additional equipment time, extra materials or extra labor if it would interfere with advanced scheduling with other customers with whom previous commitments had already been extended.

**CONDITIONS:** The above prices, specifications and conditions are satisfactory and are hereby accepted. You are contracted to do the work as specified and the stated payment terms are acceptable. All material is guaranteed to be as specified. All work is to be completed in a workmanlike manner in accordance to standard construction practices. Any deviation from this proposal or extra work will be executed only upon owner or owners agent orders and may become an extra charge over and above this agreement. All agreements are contingent upon delays beyond our control. Property owner to carry all necessary insurance. We do not guarantee against pavement cracking from weather cycles, reflective cracking, power steering marks or gauges in new asphalt pavement/patches, and water ponding or retention due to preexisting grade conditions. We cannot guarantee drainage or against water ponding on new asphalt. "DMI" shall not be liable for damage to adjoining asphalt, concrete flat work, or curbing, damages to underground utilities in the areas of construction, damages to irrigation within or adjacent to repair areas, damages/modifications to newly completed work due to removal of barricades or trespassing on job site during or after construction activities. Customer shall be responsible for costs of permits, procurement of permit by Contractor, and any additional work required by the permit or site inspections resultant of the permit.

**EXCLUSIONS:** The following items are excluded unless otherwise stated in the proposal: Engineering, Record Retrieval, Additional Excavation, Staking, Material Testing, Sod or Landscape Restoration, Irrigation Repairs, Manhole/Catch Basin/Gate Valve Adjustments or Repairs unless specified, Vegetation Removal, SAC/WAC Charges, Dewatering.

## MANAGEMENT SUMMARY

Late January/early February is typically a great time for ponds. We have just passed the height of winter which means low temps and little chance of rain. Algal growth is less likely due to suboptimal air and water surface temperatures (<80°F). Vegetative growth isn't being fueled by prolonged sunlight and rain, and may be knocked out by overnight freezes. Water levels are low, allowing for higher product concentration when applied in the water. This does, however, leave shorelines and pond beds exposed for nuisance growth. Technicians are always equipped with an array of herbicides to combat any grasses that spring up in these areas.

Ponds are in great condition overall today. I'm surprised by the amount of algae present considering the cold snaps the last few weeks. These usually mean poor conditions for growth. A technician will be fully prepared to treat any ponds affected. Nuisance grasses are almost nonexistent which will allow for more time to focus on algae.

## RECOMMENDATIONS

Continue to treat ponds for algae, administer follow-ups to ponds experiencing extended decay times.

Administer treatments to any nuisance grasses growing along exposed shorelines and within beneficial plants.

Continue to apply treatment to overgrown littoral areas.

Avoid over treating ponds, to prevent fish kills or toxic blooms.

Stay alert for debris items that find their way to the pond's shore.

Thank you for choosing Steadfast Environmental!

## LANDSCAPE INSPECTION REPORT

Rizzetta & Company  
Professionals in Community Management

# Summary, Country Point Blvd

## General Updates, Recent & Upcoming Maintenance Events

- The improvement in bed weed control is noticeable, and the detailing efforts are clearly showing. Please continue this level of care—at this pace, the property will be pristine in no time.
- Juniper must ensure that all tree lifting complies with community specifications: 15 ft minimum clearance over roadways and 10 ft minimum clearance in common areas. Please confirm ongoing adherence to these standards.

The following are action items for Juniper to complete. Please refer to the item # in your response listing action already taken or anticipated time of completion. **Red text** indicates deficient from previous report. **Bold Red text** indicates deficient for more than a month. **Green text** indicates a proposal has been requested. **Blue** indicates irrigation. **Orange** is for Staff. **Bold underlined** is either info or questions for the BOS.

- 1. Country Point:** The turf in the median near the signboard has continued to decline despite being previously reported in July of last year. Dieback is still evident, and bare areas are now developing. Please advise what corrective actions Juniper is taking to repair and restore this turf, and provide a timeline for these repairs. (Pic 1a, 1b>)

- 2. Country Point:** The turf on the north side of the street is becoming patchy and appears to be impacted by tree shading. Please provide an action plan to restore turf density and vigor, including any recommended cultural practices or adjustments needed to address the shading conditions. (Pic 2>)

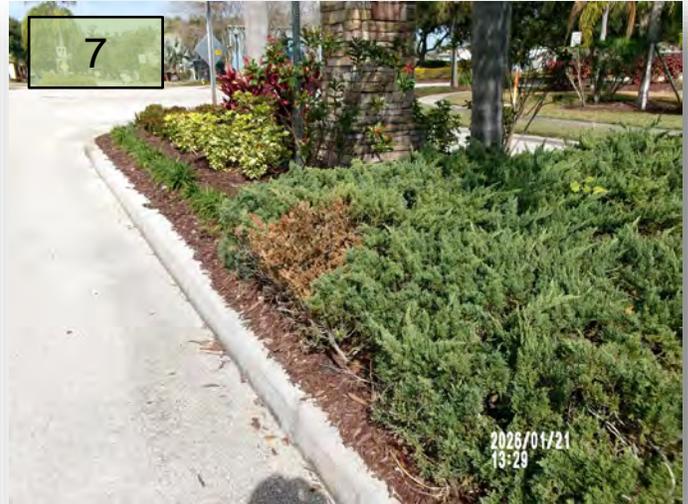

# English Turn Way, Country Point Blvd

- 3. Pine Trees:** Please ensure the crew is limbing up all pine trees within a 10-foot clearance. Several pines have broken or dead branches that are not being properly pruned. This corrective pruning needs to be completed throughout the property. (Pic 3)

**(Cont.)**.... brown fronds hanging down, along with a large dead area within the junipers. As previously noted, please begin scheduling routine palm frond cleanup. Additionally, diagnose the cause of the juniper decline and advise; is it blight, pests, etc. (Pic 7)

- 4. Palm Fronds:** Several palms are already shedding fronds and showing browning within the canopy. Please begin scheduling the removal of spent fronds on an as-needed basis throughout the property, in accordance with the contract.

- 5. English Turn (North Side):** The median planting bed still has declining brown branches within the junipers. These should have been trimmed out by now. Please remove all dead material and prune any additional browning stems throughout the junipers to improve overall appearance and plant health. (Pic 5>)

- 6. English Turn (North Side):** The crew has not yet trimmed the flax lilies along the curb, nor have they removed the flax lilies encroaching into the liriopie on both sides of the median. Please fully detail the planting bed to restore clean lines and proper separation between plant material. (Pic 6>)

- 7. English Turn (South Side):** The median planting bed at the entrance still has....

# Pond 8C, Country Pointe Blvd

**8. Pond 8C:** Along the west side of the pond, the vegetation has been cut back; however, debris remains. Please have the team complete one additional cleanup pass to remove deadwood, branches that cannot be mulched by the mower, and any vines growing within the planting material. (Pic 8)

**10. Crinum Lilies:** Throughout the property, please detail the crinum lilies by trimming and limbing up as needed. Priority should be given to the front entrance, where the plants are in greatest need of attention.

**11. Front Entrance (South Side):** The tree straps on the weeping yaupon hollies need adjustment. Some straps are digging into the branches, and a few are broken. Please correct and replace straps as needed to prevent further damage. (Pic 11)

**9. Country Point (Entrance):** When will the switch grasses along the median be trimmed? As noted in last month's report, the switch grasses at the corner of Country Point and Meadow Pointe look excellent. I would like the remaining switch grasses to be trimmed to match this standard, potentially by the same crew member to ensure consistency. (Pic 9a, 9b>)

**12. Country Point (Entrance):** The debris has not yet been cleaned up. Gravel is overflowing the island and spilling into the roadway. As shown in the attached photo, mulch is no longer present, and the gravel is encroaching onto the street. This area, as the....(Nxt pg)

# Country Point Blvd, Rolling Green Dr, Olympic Club Way

**(Cont.)... front entrance, should properly showcase the property. (Pic 12)**

**15. Olympic Club:** Along the berm, there are still pieces of deadwood that need to be removed. At the next detailing event, please have the crew focus on removing only the deadwood along this berm. (Pic 15)

**13. Country Point (Median):** The next center island has gravel accumulating at the corner of the bed. Please remove the excess gravel and trench along the bed line at the curb to help prevent mulch and debris from spilling onto the roadway. (Pic 13)

**14. Rolling Green (Median):** This area is showing several deficiencies. Weeds are beginning to sprout within the planting bed, shrubs continue to experience dieback, drip lines are exposed, and there are early signs of insufficient mulch. Please address these issues on the next visit and provide a timeline for when each corrective action will be completed. (Pic 14a>, 14b>)

# Olympic Club Way, Five Farms Dr, Fresh Meadow Way

**16. Olympic Club:** Please begin removing the dense pockets of Spanish moss prior to the spring season. The trees along the walkway are showing signs of crowding, and timely removal will help maintain their health and appearance. (Pic 16)

**(Cont.)**... were not edged prior to mulching, the mulch depth is insufficient to achieve the recommended 3 inches, and the turf is being shaded out by the tree canopies. Please address these issues on the next visit. (Pic 18)

**17. Five Farms (Roundabout):** What has occurred with the schefflera plants? In the median planting bed, the leaves have been completely removed from the stems. Additionally, the tips of the liriopse leaves are yellowing. Please confirm whether the irrigation is functioning properly. Address these issues on the next visit and provide a diagnosis with recommended corrective actions. (Pic 17)

**19. Roundabout:** The turf in the roundabout is becoming patchy, yellowing, and showing a few bare spots. Once the area has been cleared following the recent tree work, please begin addressing the turf issues to restore density and vigor. (Pic 19a, 19b>, 19c>)

**18. Dog Park (North):** I observed three areas that need improvement: the tree rings....

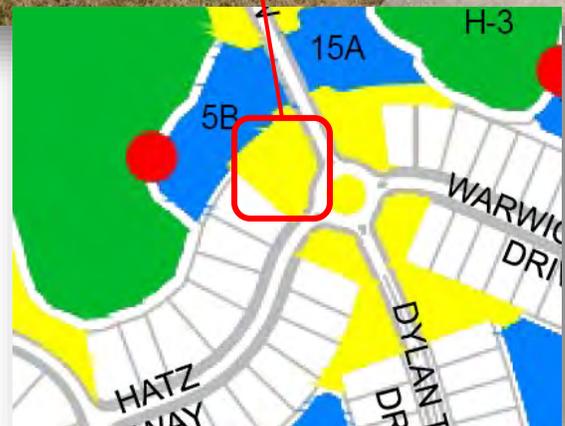

**20. Fresh Meadow (ROW):** The turf at the corner of Fresh Meadow and Country Point is becoming sparse. Please diagnose the cause and implement the appropriate treatment to restore healthy growth. Additionally, is the irrigation working properly? The turf felt dry. (Pic 20>)

# Amenities, Fresh Meadow Way

**21. Amenities:** At the north end of the parking lot, additional mulch needs to be installed, and the turf requires thickening. This area currently appears unfinished; please address these deficiencies promptly. (Pic 21>)

**22. Pasco Utility (Fresh Meadow):** The turf is weedy and patchy and requires immediate attention before conditions worsen. Around the electrical boxes, the turf is a mix of dollarweed and clover. Please confirm whether the irrigation is functioning properly and how frequently it is running. (Pic 22a, 22b>)

# Clubhouse

**23. Soccer Field:** Several exposed tree roots appear to have been recently struck by a mower, as the cuts look fresh. The crew should be using a line trimmer—not a mower—when working around exposed tree roots. Please address this issue with the crew to prevent further damage. (Pic 23)

**25. Clubhouse:** Please fertilize the turf in the large field located in front of the clubhouse to promote thicker, greener growth and improve overall health and appearance.

**26. Clubhouse (ROW):** Please visit the ROWs and determine the appropriate steps to improve turf density and overall vigor. The turf is currently patchy and beginning to show bare areas in several locations.

**27. Tennis Courts (South Side):** This is another area where the mower recently ran over exposed tree roots. Please address this issue immediately with the crew to prevent further damage. (Pic 27)

**24. Soccer Field:** The field is heavily infested with dollarweed and clover in areas where irrigation is reaching. Irrigation coverage should be uniform across the entire field. Please confirm whether the current rotors are providing full coverage and advise on any adjustments or treatments needed to correct this issue. In the photo, all the green is a mixture of clover and dollarweed, please treat accordingly and fertilize the turf to become thicker and more vibrant. (Pic 24>)

# Country Point Blvd, Pond 21A

**28. Country Point:** Just northeast of the tennis courts, these planting beds need additional mulch installed. The edging looks great—this is exactly the standard I would like to see maintained on an ongoing basis. (Pic 28)

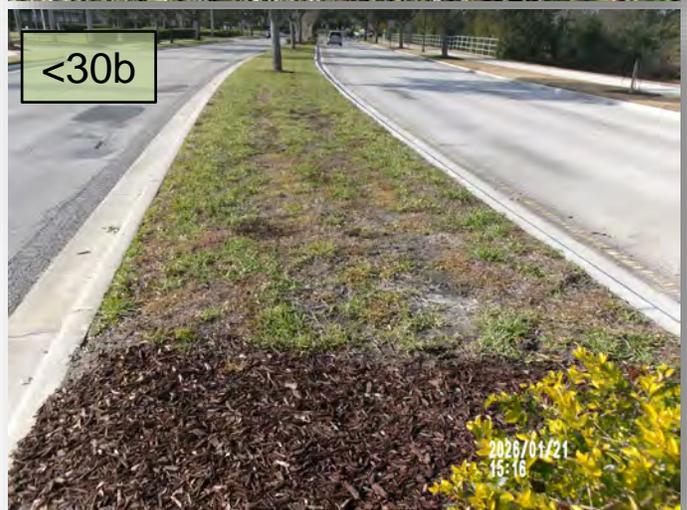

**31. Annuals:** Pine fines were not installed in the annual beds. This material should have been installed at the time of planting at a depth of approximately one inch. The soil is currently exposed, which will lead to moisture loss. Address this immediately. (Pic 31)

**29. Pond 21A (West Side):** The mulched beds need to be sprayed promptly before the weeds advance any further. Additionally, please confirm whether these beds were treated with a pre-emergent application prior to mulching. (Pic 29)

**30. Country Point:** In the median beds in front of the clubhouse, the turf has ruts and is sparse and patchy. This needs to be addressed immediately. As this is the first area visible when exiting the parking lot, it should be treated as a priority location. (Pic 30a>, 30b>)

# Compliance Audit Overview

The Community Website Compliance Audit (CWCA) consists of a thorough assessment of Florida Community Development District (CDD) websites to assure that specified district information is available and fully accessible. Florida Statute Chapter 189.069 states that effective October, 2015, every CDD in the state is required to maintain a fully compliant website for reporting certain information and documents for public access.

The CWCA is a reporting system comprised of quarterly audits and an annual summary audit to meet full disclosure as required by Florida law. These audits are designed to assure that CDDs satisfy all compliance requirements stipulated in Chapter 189.069.

## Compliance Criteria

The CWCA focuses on the two primary areas – website accessibility as defined by U.S. federal laws, and the 16-point criteria enumerated in [Florida Statute Chapter 189.069](#).

### ADA Website Accessibility

Several federal statutes (American Disabilities Act, Sec. 504 and 508 of the Rehabilitation Act of 1973) require public institutions to ensure they are not discriminating against individuals on the basis of a person's disability. Community websites are required to conform to web content accessibility guidelines – [WCAG 2.1](#), which is the international standard established to keep websites barrier-free and the recognized standard for ADA-compliance.

## Florida Statute Compliance

Pursuant to F.S. [189.069](#), every CDD is required to maintain a dedicated website to serve as an official reporting mechanism covering, at minimum, 16 criteria. The information required to report and have fully accessible spans: establishment charter or ordinance, fiscal year audit, budget, meeting agendas and minutes and more. For a complete list of statute requirements, see page 3.

## Audit Process

The Community Website Compliance Audit covers all CDD web pages and linked PDFs.\* Following the [WCAG 2.1](#) levels A, AA, and AAA for web content accessibility, a comprehensive scan encompassing 312 tests is conducted for every page. In addition, a human inspection is conducted to assure factors such as navigation and color contrasts meet web accessibility standards. See page 4 for complete accessibility grading criteria.

In addition to full ADA-compliance, the audit includes a 16-point checklist directly corresponding with the criteria set forth in Florida Statute Chapter 189.069. See page 5 for the complete compliance criteria checklist.

\* **NOTE:** Because many CDD websites have links to PDFs that contain information required by law (meeting agendas, minutes, budgets, miscellaneous and ad hoc documents, etc.), audits include an examination of all associated PDFs. **PDF remediation** and ongoing auditing is critical to maintaining compliance.

# Accessibility overview

## Everyone deserves equal access.

With nearly 1-in-5 Americans having some sort of disability – visual, hearing, motor, cognitive – there are literally millions of reasons why websites should be fully accessible and compliant with all state and federal laws. Web accessibility not only keeps board members on the right side of the law, but enables the entire community to access all your web content. The very principles that drive accessible website design are also good for those without disabilities.

## The legal and right thing to do

Several federal statutes (American Disabilities Act, Sec. 504 and 508 of the Rehabilitation Act of 1973) require public institutions to ensure they are not discriminating against individuals on the basis of a person's disability. Community websites are required to conform to web content accessibility guidelines, WCAG 2.1, the international standard established to keep websites barrier-free. Plain and simple, any content on your website must be accessible to everyone.

# ADA Compliance Categories

Most of the problems that occur on a website fall in one or several of the following categories.

## Contrast and colors

Some people have vision disabilities that hinder picking up contrasts, and some are color blind, so there needs to be a distinguishable contrast between text and background colors. This goes for buttons, links, text on images – everything. Consideration to contrast and color choice is also important for extreme lighting conditions.

*Contract checker:* <http://webaim.org/resources/contrastchecker>

## Using semantics to format your HTML pages

When web page codes are clearly described in easy-to-understand terms, it enables broader sharing across all browsers and apps. This 'friendlier' language not only helps all the users, but developers who are striving to make content more universal on more devices.

## Text alternatives for non-text content

Written replacements for images, audio and video should provide all the same descriptors that the non-text content conveys. Besides helping with searching, clear, concise word choice can make vivid non-text content for the disabled.

*Helpful article:* <http://webaim.org/techniques/alttext>

## Ability to navigate with the keyboard

Not everyone can use a mouse. Blind people with many with motor disabilities have to use a keyboard to make their way around a website. Users need to be able to interact fully with your website by navigating using the tab, arrows and return keys only. A “skip navigation” option is also required. Consider using [WAI-ARIA](#) for improved accessibility, and properly highlight the links as you use the tab key to make sections.

**Helpful article:** [www.nngroup.com/articles/keyboard-accessibility](http://www.nngroup.com/articles/keyboard-accessibility)

**Helpful article:** <http://webaim.org/techniques/skipnav>

## Easy to navigate and find information

Finding relevant content via search and easy navigation is a universal need. Alt text, heading structure, page titles, descriptive link text (no ‘click here’ please) are just some ways to help everyone find what they’re searching for. You must also provide multiple ways to navigate such as a search and a site map.

**Helpful article:** <http://webaim.org/techniques/sitertools/>

## Properly formatting tables

Tables are hard for screen readers to decipher. Users need to be able to navigate through a table one cell at a time. In addition to the table itself needing a caption, row and column headers need to be labeled and data correctly associated with the right header.

**Helpful article:** <http://webaim.org/techniques/tables/data>

## **Making PDFs accessible**

PDF files must be tagged properly to be accessible, and unfortunately many are not. Images and other non-text elements within that PDF also need to be ADA-compliant. Creating anew is one thing; converting old PDFs – called PDF remediation – takes time.

*Helpful articles:* <http://webaim.org/techniques/acrobat/acrobat>

## **Making videos accessible**

Simply adding a transcript isn't enough. Videos require closed captioning and detailed descriptions (e.g., who's on-screen, where they are, what they're doing, even facial expressions) to be fully accessible and ADA compliant.

*Helpful article:* <http://webaim.org/techniques/captions>

## **Making forms accessible**

Forms are common tools for gathering info and interacting. From logging in to registration, they can be challenging if not designed to be web-accessible. How it's laid out, use of labels, size of clickable areas and other aspects need to be considered.

*Helpful article:* <http://webaim.org/techniques/forms>

## **Alternate versions**

Attempts to be fully accessible sometimes fall short, and in those cases, alternate versions of key pages must be created. That is, it is sometimes not feasible (legally, technically) to modify some content. These are the 'exceptions', but still must be accommodated.

## **Feedback for users**

To be fully interactive, your site needs to be able to provide an easy way for users to submit feedback on any website issues. Clarity is key for both any confirmation or error feedback that occurs while engaging the page.

## **Other related requirements**

### ***No flashing***

Blinking and flashing are not only bothersome, but can be disorienting and even dangerous for many users. Seizures can even be triggered by flashing, so avoid using any flashing or flickering content.

### ***Timers***

Timed connections can create difficulties for the disabled. They may not even know a timer is in effect, it may create stress. In some cases (e.g., purchasing items), a timer is required, but for most school content, avoid using them.

### ***Fly-out menus***

Menus that fly out or down when an item is clicked are helpful to dig deeper into the site's content, but they need to be available via keyboard navigation, and not immediately snap back when those using a mouse move from the clickable area.

### ***No pop-ups***

Pop-up windows present a range of obstacles for many disabled users, so it's best to avoid using them altogether. If you must, be sure to alert the user that a pop-up is about to be launched.

## INFORMATION ABOUT YOUR VALLEY ONECARD ACCOUNT

As used below, *you* and *your* refer to the account holder (i.e., the corporate customer) and *we*, *our* and *us* refer to Valley National Bank. Your Valley OneCard is issued and credit is extended by Valley National Bank.

### MAKING PAYMENTS

You will pay us the total amount shown as due on each Billing Statement on or before the Payment Due Date shown on that Billing Statement. If you do not make payment in full by the payment due date, in addition to our other rights under your Agreement, we may, at our option, assess a late fee and finance charge in accordance with your Agreement. There is no right to defer any payment due on an Account. In addition, you will pay us the amount of all fees and charges according to the schedule of charges currently in effect. All charges are subject to change upon 30 days prior notice, except that any increase in charges to offset any increase in fees charged to us by any supplier for services used in delivering the services covered by your Agreement may become effective in less than 30 days.

Payments will be automatically deducted from the Valley Bank [business checking account] that you have designated. Should payment not be received for any reason, you may incur additional fees and finance charges. All credits for payments to your Account are subject to final payment by the institution on which the item of payment was drawn. Payments on your Account will be applied in the following order: finance charges, fees, your Account balance.

### BALANCE COMPUTATION METHOD

[We calculate the average daily balance on your Account in two categories: (1) Purchases and (2) Cash Advances. To get the "average daily balance" for each category, we take the beginning balance of your Account for that category each day. We then add any new transactions in that category, which may include Fees and Interest. We then subtract any new payments or credits. This gives us the daily balance for each category. We then add up all the daily balances for each category for the billing cycle. We then divide the total by the number of days in the billing cycle. This gives us the Average Daily Balance for Purchases and the Average Daily Balance for Cash Advances.]

### INTEREST

In the event you do not pay your balance(s) in full by the due date, your balance(s) may be subject to an interest rate or interest charges, as further described in your Agreement. Your due date is the 25th of each month. If the 25th falls on a weekend or holiday, your payment will be due the business day before the weekend/holiday. We will not charge you interest if you pay your balance(s) in full by the due date each month.

### CREDIT BALANCE

Any credit balance on your Account] is money we owe you. You can make charges against this amount or request a full refund of the amount by calling us at the Contact Us number on the front of this statement.

### NOTICE TO PAST-DUE CUSTOMERS:

If there is a message on this statement that your account is past due, this is an attempt to collect a debt; any information we obtain will be used for that purpose.

### WHAT TO DO IF YOU THINK YOU FIND A MISTAKE ON YOUR STATEMENT

If you or a Cardholder think there is an error on your statement, call us at (844) 626-6581 international (301) 665-4442. or write to us at: PO Box 2988 Omaha, NE 68103-2988.

You must contact us within 60 days after the error appeared on your statement. Please provide us with the following information:

- *Account information:* Your name and account number.
- *Dollar amount:* The dollar amount of the suspected error.
- *Description of Problem:* Describe what you believe is wrong and why you believe it is a mistake.

While we investigate whether or not there has been an error, the following are true:

- We cannot try to collect the amount in question, or report you as delinquent on that amount.
- The charge in question may remain on your statement, and we may continue to charge you interest on that amount. But, if we determine that we made a mistake, you will not have to pay the amount in question or any interest or other fees related to that amount.
- While you do not have to pay the amount in question, you are responsible for the remainder of your balance.
- We can apply any unpaid amount against your credit limit.

### YOUR RIGHTS IF YOU ARE DISSATISFIED WITH YOUR VALLEY ONECARD PURCHASES

If you are dissatisfied with the goods or services that you have purchased with your Valley OneCard, and you have tried in good faith to correct the problem with the merchant, you may have the right not to pay the remaining amount due on the purchase. To use this right, all of the following must be true:

1. The purchase must have been made in your home state or within 100 miles of your current mailing address, and the purchase price must have been more than \$50.
2. You must have used your Valley OneCard for the purchase. Purchases made with cash advances do not qualify.
3. You must not yet have fully paid for the purchase.

If all of the criteria above are met and you are still dissatisfied with the purchase, contact us *in writing* at PO Box 2988 Omaha, NE 68103-2988 or call us at (844) 626-6581 international (301) 665-444.

While we investigate, the same rules apply to the disputed amount as discussed above. After we finish our investigation, we will tell you our decision. At that point, if we think you owe an amount and you do not pay we may report you as delinquent.

### TELEPHONE MONITORING AND RECORDING.

You acknowledge that telephone calls and other communications you provide to us may be monitored and recorded for training and quality control purposes. You agree that we may, and you authorize us to, monitor, record, retain and reproduce your telephone calls and any other communications you provide to us, regardless of how transmitted to us, as evidence of your authorization to act in connection with any Transaction, your Account or other service contemplated by this Agreement. We will not be liable for any losses or damages that are incurred as a result of these actions. We are not, however, under any obligation to monitor, record, retain or reproduce such items, unless required to do so by Applicable Law.

- 1** Your Total Due is the total amount of current charges and any previous unpaid Balances combined. This also states the date payment is due to WM, anything beyond that date may incur additional charges.
- 2** Previous balance is the total due from your previous invoice. We subtract any Payments Received/Adjustments and add your Current Charges from this billing cycle to get a Total Due on this invoice. If you have not paid all or a portion of your previous balance, please pay the entire Total Due to avoid a late charge or service interruption.
- 3** Service location details the total current charges of this invoice.

- Small island around the circle and dog park area
- New landscape at the club house

Areas that need a 3 in depth of mulch

- main entrance
- landscape on meadow point Blvd
- all tree rings on the Blvd
- around club house and parking lot
- soccer field viburnum hedge

**Paying Interest and Your Grace Period:** We will not charge you any interest on your purchase balance on this statement if you pay your new balance amount in full by your payment due date.

Beginning August 1, 2019, the cash reward tiers on your Valley OneCard will be changing. See the table below:

<i>Tiers</i>	<i>Cashback %</i>
<i>\$0 - \$500,000</i>	<i>0.25</i>
<i>\$500,001 - \$1,500,000</i>	<i>0.60</i>
<i>\$1,500,001 - \$4,000,000</i>	<i>0.75</i>
<i>\$4,000,001 - \$12,500,000</i>	<i>0.90</i>
<i>\$12,500,001 +</i>	<i>1.00</i>

Your accumulated rewards will not change, however beginning August 1, rewards on additional spend will be calculated using the percentages above.

This change will not impact the timing of your rewards credit (i.e. if you were due to receive your rewards in September, you will still receive them in September).

## INFORMATION ABOUT YOUR VALLEY ONECARD ACCOUNT

As used below, *you* and *your* refer to the accountholder (i.e., the corporate customer) and *we*, *our* and *us* refer to Valley National Bank. Your Valley OneCard is issued and credit is extended by Valley National Bank.

### MAKING PAYMENTS

You will pay us the total amount shown as due on each Billing Statement on or before the Payment Due Date shown on that Billing Statement. If you do not make payment in full by the payment due date, in addition to our other rights under your Agreement, we may, at our option, assess a late fee and finance charge in accordance with your Agreement. There is no right to defer any payment due on an Account. In addition, you will pay us the amount of all fees and charges according to the schedule of charges currently in effect. All charges are subject to change upon 30 days prior notice, except that any increase in charges to offset any increase in fees charged to us by any supplier for services used in delivering the services covered by your Agreement may become effective in less than 30 days.

Payments will be automatically deducted from the Valley Bank [business checking account] that you have designated. Should payment not be received for any reason, you may incur additional fees and finance charges. All credits for payments to your Account are subject to final payment by the institution on which the item of payment was drawn. Payments on your Account will be applied in the following order: finance charges, fees, your Account balance.

### BALANCE COMPUTATION METHOD

[We calculate the average daily balance on your Account in two categories: (1) Purchases and (2) Cash Advances. To get the "average daily balance" for each category, we take the beginning balance of your Account for that category each day. We then add any new transactions in that category, which may include Fees and Interest. We then subtract any new payments or credits. This gives us the daily balance for each category. We then add up all the daily balances for each category for the billing cycle. We then divide the total by the number of days in the billing cycle. This gives us the Average Daily Balance for Purchases and the Average Daily Balance for Cash Advances.]

### INTEREST

In the event you do not pay your balance(s) in full by the due date, your balance(s) may be subject to an interest rate or interest charges, as further described in your Agreement. Your due date is the 25th of each month. If the 25th falls on a weekend or holiday, your payment will be due the business day before the weekend/holiday. We will not charge you interest if you pay your balance(s) in full by the due date each month.

### CREDIT BALANCE

Any credit balance on your Account] is money we owe you. You can make charges against this amount or request a full refund of the amount by calling us at the Contact Us number on the front of this statement.

### NOTICE TO PAST-DUE CUSTOMERS:

If there is a message on this statement that your account is past due, this is an attempt to collect a debt; any information we obtain will be used for that purpose.

### WHAT TO DO IF YOU THINK YOU FIND A MISTAKE ON YOUR STATEMENT

If you or a Cardholder think there is an error on your statement, call us at (844) 626-6581 international (301) 665-4442. or write to us at: PO Box 2988 Omaha, NE 68103-2988 .

You must contact us within 60 days after the error appeared on your statement. Please provide us with the following information:

- *Account information:* Your name and account number.
- *Dollar amount:* The dollar amount of the suspected error.
- *Description of Problem:* Describe what you believe is wrong and why you believe it is a mistake.

While we investigate whether or not there has been an error, the following are true:

- We cannot try to collect the amount in question, or report you as delinquent on that amount.
- The charge in question may remain on your statement, and we may continue to charge you interest on that amount. But, if we determine that we made a mistake, you will not have to pay the amount in question or any interest or other fees related to that amount.
- While you do not have to pay the amount in question, you are responsible for the remainder of your balance.
- We can apply any unpaid amount against your credit limit.

### YOUR RIGHTS IF YOU ARE DISSATISFIED WITH YOUR VALLEY ONECARD PURCHASES

If you are dissatisfied with the goods or services that you have purchased with your Valley OneCard, and you have tried in good faith to correct the problem with the merchant, you may have the right not to pay the remaining amount due on the purchase. To use this right, all of the following must be true:

1. The purchase must have been made in your home state or within 100 miles of your current mailing address, and the purchase price must have been more than \$50.
2. You must have used your Valley OneCard for the purchase. Purchases made with cash advances do not qualify.
3. You must not yet have fully paid for the purchase.

If all of the criteria above are met and you are still dissatisfied with the purchase, contact us *in writing* at PO Box 2988 Omaha, NE 68103-2988 or call us at (844) 626-6581 international (301) 665-444.

While we investigate, the same rules apply to the disputed amount as discussed above. After we finish our investigation, we will tell you our decision. At that point, if we think you owe an amount and you do not pay we may report you as delinquent.

### TELEPHONE MONITORING AND RECORDING.

You acknowledge that telephone calls and other communications you provide to us may be monitored and recorded for training and quality control purposes. You agree that we may, and you authorize us to, monitor, record, retain and reproduce your telephone calls and any other communications you provide to us, regardless of how transmitted to us, as evidence of your authorization to act in connection with any Transaction, your Account or other service contemplated by this Agreement. We will not be liable for any losses or damages that are incurred as a result of these actions. We are not, however, under any obligation to monitor, record, retain or reproduce such items, unless required to do so by Applicable Law.
