Management Summary

This January we ended the month with some significant cold snaps that have really stopped the growth for the most part in many of these sites. We have seen very little change in growth the past 30 days throughout the community. This gives us the chance to really dial into the detail work throughout the sites and give us time to treat wild sides that are usually inaccessible do to higher water levels and even take our time with selective treatments for invasive growth throughout native vegetation. With the water levels this low we keep an eye out for the start of erosion within sites due to the exposed banks and the steep grades of sites not having a root structure to help hold these pond banks together. Some of the native plants within the sites do look a little beat up from both the cold weather and the low water levels. All these plants should bounce back in the Spring and have just gone dormant from these conditions.

Structures throughout the community are checked on a monthly basis while treating each site and all structures are clear of obstruction and look to be in great shape.

As always, please reach out to me with any questions or concerns you may have- Corey.White@solitudelake.com

Arborist Abroad Sunlake Tree Review Summary

Location - Sunlake & Umland Review (12) tree's and community options as they relate to Pasco County code

- Trees are located along Sunlake Blvd, North from Umland PI to just west of Wellingborough Ct cul de sac
- Trees are likely protected under LDC (Land Development Code) and now by size and species Permitting exemptions and approvals can be more favorable to CDD's but this is a case by case basis
- Estimated permit fees, which cover our filing cost and Pasco application fee, are \$1,800 - non refundable. This does not include drawings if requested or mitigation

We did not observe visible damage to the home fronts that border this line of trees

- Homeowners could not provide evidence of past or recent damage claims.
- You could make a case for future impacts, as they will arise but due to the distance from the trees to structures (houses & porch areas), absence of past or current damage/impacts and relatively young age of trees, the County would likely counter propose with root pruning. This would be an acceptable mitigation to protect the structures and critical infrastructure, this does not include irrigation.
- Yes, a better species selection would have been beneficial to the residents and the adjacent power lines.
- A case could be made to remove and replant these trees with a better suited TYPE II tree but root pruning and structural pruning are good Arborist 1 counter arguments for controlling the below and above ground tree parts of the current trees.
- The most Southern trees of this line are most likely to have significant power line conflicts. If trees are not removed it would behoove the CDD to be proactive in a structural pruning program, to avoid unsightly trees from power line pruning. Structure pruning reduces crown spread and helps form a more columnar architecture.

Removal authority would likely be granted under Pasco Code section, 802.3.B.2 (Individual Tree Removal Permits)

- This does not mean we would file for each individual tree, all trees would be under one permit application but still classified under the above code section
These trees do meet "Exemptions" as outlined in 802.3.A

See below link to above code sections
https://library.municode.com/fl/pasco_county/codes/land_development_code?nodeId=CH800NACUREPR

Certainly this brief review does not capture every detail but hopefully it conveys the cases both sides can make.

7. FAMILIARITY WITH THE PROJECT. The Proposer, by and through the submission of the Proposal, agrees that he shall be held responsible for having heretofore examined the project site, the location of all proposed work and for having satisfied himself from his own personal knowledge and experience or professional advice as to the character, conditions, and location of the site, and all other physical characteristics of the job, in order that the Proposer may include in the prices which the Proposer proposes all costs pertaining to the work and thereby provide for the satisfactory aquatic maintenance thereof. The Proposer agrees to accept the site in an “as is” condition and hold its prices for the period set

forth in this proposal package, regardless of any changes to the site that may occur from the time of Proposal submission and through the time of contract award and the start of any work under the contract. The Proposer, in preparing the Proposal, shall take into consideration that work by other contractors may be in progress at or near the site and that the Proposer shall not interfere with work done by such other contractors. **IN THE EVENT THAT THE SITE IS NOT TO INDUSTRY STANDARD CONDITIONS, THE PROPOSER SHALL SUBMIT AS PART OF ITS PROPOSAL, A LIST OF ITEMS AND PROPOSED PRICING FOR BRINGING THE SITE UP TO INDUSTRY STANDARD CONDITIONS. OTHERWISE, THE PROPOSER SHALL BE DEEMED TO HAVE ACCEPTED THE SITE AND SHALL MAINTAIN THE SITE IN A CONDITION CONSISTENT WITH INDUSTRY STANDARDS AND AT THE LUMP SUM PRICING SET FORTH IN THE PROPOSAL.**

8. FAMILIARITY WITH THE LAW. By submitting a Proposal, the Proposer is assumed to be familiar with all federal, state, and local laws, ordinances, rules and regulations that in any manner affect the work as well as the District's operating rules and procedures. Ignorance on the part of the Proposer will in no way relieve it from responsibility to perform the work covered by the proposal in compliance with all such laws, ordinances and regulations.

9. PROJECT MANUAL. The "Project Manual," and any addenda thereto, will be available from the District Manager's office by sending an email to Patricia Thibault at Patricia@havenmgt.com.

10. QUALIFICATIONS OF PROPOSER. The contract, if awarded, will only be awarded to a responsible Proposer who is qualified by experience to do the work specified herein at the sole and absolute discretion of the District. The Proposer shall submit with its Proposal satisfactory evidence of experience in similar work and show that it is fully prepared with the necessary organization, capital, and equipment to complete the work to the satisfaction of the District.

11. SUBMISSION OF ONLY ONE PROPOSAL. Proposers shall be disqualified and their proposals rejected if the District has reason to believe that collusion may exist among the Proposers, the Proposer has defaulted on any previous contract or is in arrears on any previous or existing contract, or for failure to demonstrate proper licensure and business organization.

12. INTERPRETATIONS AND ADDENDA. All questions about the meaning or intent of the Project Manual are to be directed in writing, via e-mail only, Patricia Thibault at Patricia@havenmgt.com, with a further copy to Kyle Magee at Kyle.Magee@KutakRock.com. Additionally, the District reserves the right in its sole discretion to make changes to the Project Manual up until the time of the Proposal opening. Interpretations or clarifications considered necessary in response to such questions will be issued by Addenda to all parties.

Questions received after _____, 2026 at ____:00 PM (EST) will not be answered. Answers to all questions will be provided to all Proposers by e-mail. Only questions answered by formal written Addenda will be binding. No interpretations will be given verbally. No inquiries will be accepted from subcontractors; the Proposer shall be responsible for all queries.

13. SUBMISSION OF PROPOSAL. Submit one (1) written proposal & one (1) digital PDF copy (flash drive or disc required), along with other requested attachments, at the time and place indicated herein, which shall be enclosed in an opaque sealed envelope, marked with the project title and name and address of the Proposer and accompanied by the required documents. If the Proposal is sent through the mail or other delivery system, the sealed envelope shall be enclosed in a separate envelope with a notation “RESPONSE TO REQUEST FOR PROPOSALS (Concord Station Community Development District – Aquatic Maintenance) ENCLOSED” on the face of it. All costs to prepare and submit a response shall be borne by the Proposer.

14. MODIFICATION AND WITHDRAWAL. Proposals may be modified or withdrawn by an appropriate document duly executed and delivered to the place where Proposals are to be submitted at any time prior to the time and date the proposals are due. No Proposal may be withdrawn after opening for a period of ninety (90) days.

15. PROPOSAL FORMS. All blanks on the Proposal forms must be completed in ink or typewritten. The Proposal shall contain an acknowledgment of receipt of all Addenda. In making its Proposal, each Proposer represents that it has read and understands the Project Manual and that the Proposal is made in accordance therewith, including verification of the contents of the Project Manual against the Table of Contents. Proposer shall provide in the Proposal a complete breakdown of both unit quantities and unit costs for each separate item associated with aquatic maintenance plan and technical specifications.

16. PROPOSAL INFORMATION. All Proposals should include the following information, among other things described herein:

- A.** A completed and executed Proposal Form, with all of its four parts and any attachments, as well as executed copies of the Affidavit Regarding Proposal, and the Sworn Statement on Integrity of Public Contracting and Purchasing.
- B.** A listing of the position / title and corporate responsibilities of key management or supervisory personnel (forms attached). Include resumes for each person listed, and list years of experience in present position for each party listed and years of related experience.
- C.** Describe proposed staffing levels, including information on current operations, administrative, maintenance and management staffing of both a professional and technical nature, including resumes for staff at or above the project manager level.
- D.** At least three (3) references from projects of similar size and scope. The Proposer should include information relating to the work it conducted for each reference as well as a name, address and phone number of a contact person.
- E.** A narrative description of the Proposer’s approach to providing the services as described in the scope of services provided herein.
- F.** Completed proposal pricing. All responses must itemize the cost for each of the items described in the Project Manual, if any, and break out all costs. (the “**Board**”).

17. INSURANCE. All Proposers shall include as part of their proposal a current Certificate of

Insurance demonstrating that the company's ability to meet the insurance coverage requirements set forth in the attached Contract form provided herein. In the event the Proposer is notified of award, it shall provide proof of the Insurance Coverage identifying the District, its officers, employees and agents as additional insureds, as stated in the Contract form provided herein, within fourteen (14) calendar days after notification, or within such approved extended period as the District may grant. Failure to provide proof of insurance coverage shall constitute a default.

18. FINANCIALS. In evaluating and scoring the proposals, the District will consider the financial capability of each Proposer, and as such each Proposer should submit relevant information regarding financial capability. In the event the Proposer is notified of award, the District may in its sole discretion require that the Proposer provide sufficient proof of financial capability, including, if requested, audited financial statements from the last three (3) years.

19. BASIS OF AWARD/RIGHT TO REJECT. The District reserves the right to reject any and all proposals, in its sole and absolute discretion, make modifications to the work, and waive any informalities or irregularities in proposals as it is deemed in the best interests of the District.

20. CONTRACT AWARD. Within fourteen (14) days of receipt of the Notice of Award from the District or as otherwise extended by the District, the Proposer shall enter into and execute a Contract in substantially the form included in the Project Manual. If a Proposer to whom a contract is awarded forfeits and fails to execute a contract agreement within the aforementioned timeframe, the contract award may be annulled at the District's option. If the award is annulled, the District may, at its sole discretion, award the contract to the next highest ranked Proposer for the contract work, re-advertise, perform the work by day/temporary labor, or through in-house operations. The District and the selected contractor ("**Contractor**") will execute a contract for a specified term. Upon expiration or termination of any existing contract for aquatic maintenance services, Contractor, if requested by the District, agrees to perform the services on a month-to-month basis until either party has provided the other party written notice of its election to renew or terminate the contract agreement. This RFP does not guarantee that a contract will be awarded. The District reserves the exclusive right to reject any and all Proposals. The District reserves the right to award by items, groups of items, or total proposal.

21. MANDATORY AND PERMISSIVE REQUIREMENTS. Notwithstanding anything else within the Project Manual, the only mandatory requirements of this Project Manual are that each Proposer must (1) be authorized to do business in Florida, (2) hold all required state and federal licenses in good standing; and (3) have at least five (5) years of experience as an aquatic maintenance contractor. All other requirements set forth in the Project Manual shall be deemed "permissive," in that a Proposer's failure to meet any requirement described in mandatory terms such as "shall," "will," "mandatory," or similar language does not automatically disqualify the Proposer's Proposal, but instead in the Board's discretion may result in the disqualification of a Proposal or alternatively may be taken into account in the evaluation and scoring of the Proposal.

22. INDEMNIFICATION. The successful Proposer shall fully indemnify, defend and hold harmless the District and its officers, agents, employees, and staff from and against all claims, damages,

costs and losses arising, in whole or in part, from Contractor's negligence or breach of contract, as more fully set forth in the agreement form, provided herein.

23. LIMITATION OF LIABILITY. Nothing herein shall be construed as or constitute a waiver of District's limitations on liability contained in Section 768.28, *Florida Statutes*, or other statute or law.

24. EVALUATION OF PROPOSALS. The proposals shall be ranked based on criteria presented in the Evaluation Criteria sheets contained within the Project Manual. The Board shall review and evaluate the Proposals in their individual discretion, based on information within the proposals, from reference checks, from staff recommendations, and from any other information available, and shall make any final determination with respect to the award of a final contract that is in the best interests of the District.

Proposals may be held by the District for a period not to exceed ninety (90) days from the date of proposal opening for the purposes of reviewing the proposals and investigating the qualifications of the Proposers, prior to executing a contract agreement. During this time, all provisions of the submitted proposal must be in effect, including pricing. The District may visit the Proposer's facilities as part of the evaluation process. The District also reserves the right to seek clarification from prospective firms on any issue in a response, invite specific firms for site visits or oral presentations, or take any action it feels necessary to properly evaluate the submissions and construct a solution in the District's best interest. Failure to submit the requested information or required documentation may result in the lessening of the proposal score or the disqualification of the proposal response.

25. COLLUSION. Proposers shall be disqualified and their proposals rejected if the District has reason to believe that collusion may exist among the Proposers, the Proposer has defaulted on any previous contract or is in arrears on any previous or existing contract, or for failure to demonstrate proper licensure and business organization.

26. BLACK OUT PERIOD/CONE OF SILENCE. The black out period is defined as between the time the Request for Proposals is issued by the District and the time the Board awards the contract. During this black out period, and except as otherwise expressly authorized herein, any attempt to communicate either directly or indirectly with District staff or officials, including the Board, related to this solicitation for goods or services, in person, by mail, by facsimile, by telephone, by electronic mail, or by any other means of communication, will result in disqualification of their award and/or contract. This does not apply to pre-solicitation conferences, contract negotiations, or communications with District staff or the Board not concerning this solicitation.

27. PRICING. Proposers shall submit their price information on the supplied forms with all blank spaces completed. Proposers shall also sign the required form. Each line item shall be clearly stated and cover all charges including incidental expenses, applicable taxes, insurance, overhead and profit. Proposers will not be allowed to make any substitutions in materials, quantities or frequencies during the proposal process. Proposers shall guarantee that their pricing to the District shall not increase throughout the term of the contract agreement executed.

28. REFERENCE TERMS. Any headings in this document are for the purposes of reference only and shall not limit or otherwise affect the meaning thereof. Any reference to gender shall be construed to include all genders, firms, partnerships and corporations. References in the singular shall be construed to include the plural and references in the plural shall be construed to include the singular.

29. ADDITIONAL TERMS AND CONDITIONS. No additional terms and conditions included with the proposal response shall be evaluated or considered and any and all such additional terms

and conditions shall have no force and effect and are inapplicable to this proposal. If submitted either purposefully through intent or design or inadvertently appearing separately in transmitting letters, specifications, literature, price lists or warranties, it is understood and agreed the general and special conditions in this solicitation are the only conditions applicable to this proposal and the Proposer's authorized signature affixed to the proposal attests to this.

30. PROTESTS. Please be advised that this is not a formal solicitation for proposals and absolutely no protest or other rights afforded under public procurement laws will be provided.

PROPOSALS
CONCORD STATION COMMUNITY DEVELOPMENT
DISTRICT

EVALUATION CRITERIA

1. Personnel & Equipment (20 Points Possible)

This category addresses the following criteria: skill set and experience of key management and assigned personnel, including the project manager and other specifically trained individuals who will manage the property; present ability to manage this project; proposed staffing levels; capability of performing the work; geographic location; subcontractor listing; inventory of all equipment; etc. Skill set includes certification, technical training, and experience with similar projects. Please include resumes, certifications, etc., with proposal. Please also provide evidence of the proposer's ability to meet deadlines and be responsive to client needs.

2. Experience (25 Points Possible)

This category addresses whether a Proposer clearly distinguishes past & current record and experience of the Proposer in similar projects; volume of work previously awarded to the firm; past performance in any other contracts; etc.

3. Understanding Scope of RFP (15 Points Possible)

This category addresses the following issues: Does the proposal demonstrate an understanding of the District's needs for the services requested? Does it provide all information as requested by the District including pricing, scheduling, staffing, etc.? Does it demonstrate clearly the ability to perform these services? Were any suggestions for "best practices" included? Does the proposal as a whole appear to be feasible, in light of the scope of work? Did the contractor use the forms provided from the Project Manual in responding to the proposal?

4. Financial Capacity (5 Points Possible)

This category addresses whether the Proposer has demonstrated that it has the financial resources and stability as a business entity necessary to implement and execute the work. Proposer should include proof of ability to provide insurance coverage as required by the District as well as audited financial statements, or similar information.

5. Price (20 Points Possible)

Twenty (20) points will be awarded to the Proposer submitting the lowest bid for Parts 1 - 4 (the Contract Amount). AN AVERAGE OF ALL FIVE YEARS PRICING IS TO BE CONSIDERED WHEN AWARDING POINTS FOR PRICING - THE INITIAL TERM AND ALL FOUR ANNUAL RENEWALS. All other proposers will receive a percentage of this amount based upon a formula which divides the low bid by the proposer's bid and is then multiplied by the number of points possible in this part of the Price evaluation.

EXAMPLE: Contractor "A" turns in a bid of \$210,000 and is deemed to be low bid and will receive the full 20 points. Contractor "B" turns in a bid of \$265,000. Bid "A" is divided by Bid "B" then multiplied

by the number of points possible (20). $(210,000/265,000) \times 20 = 15.85$, therefore, Contractor “B” will receive 15.85 of 20 possible points. Contractor “C” turns in a bid of \$425,000. Bid “A” is divided by Bid “C” then multiplied by the number of points possible (20). $(210,000/425,000) \times 20 = 9.88$, therefore, Contractor “C” will receive 9.88 of 20 points.

6. Reasonableness of ALL Numbers

(15 Points Possible)

Up to fifteen (15) points will be awarded as to the reasonableness of ALL numbers, quantities & costs.

Proposer’s Total Score

(100 Points Possible)

I. ORGANIZATION OVERVIEW

A. Relationships between Concord Station CDD Board of Supervisors, the District Manager, Clubhouse and Amenities Manager, Clubhouse Staff, and Heartland Payroll (HLP)

Concord Station Community Development District (CSCDD or “District”) is a special-purpose local government established under Chapter 190, Florida Statutes, to manage, operate, and maintain the works of the District for the benefit of its residents.

The District is governed by a Board of Supervisors authorized to exercise the powers granted by law (§190.006, Fla. Stat.). The Board contracts with a District Manager to oversee administrative and financial operations (§190.007(1), Fla. Stat.). Concord Station’s current District Manager is Patricia Thibault with Anchor Stone Management, LLC, 407-221-9153.

The Board has designated an Employee Liaison for employees directly hired by the District. The current Employee Liaison is Mr. Randall Griffin, 813-731-4812.

The Clubhouse & Amenities Manager (CAM) directs day-to-day operations and supervises clubhouse and amenities staff and serves as the first point of contact for employment-related questions. Current CAM: Mark A. Looknanan, Jr., 813-909-4569. The CAM coordinates with the District Manager on District-wide matters and keeps the Board informed through the Employee Liaison.

The District, through the Employee Liaison, maintains a co-employment relationship with Heartland Payroll (HLP) for payroll processing and workers’ compensation coverage/claims handling. New hires sign an at-will employment agreement (Appendix 2) and acknowledge receipt of this handbook (Appendix 1).

B. Organization Chart

See Appendix 3 for the CSCDD Organization Chart.

II. MAJOR EMPLOYMENT LAWS

A. Americans with Disabilities Act (ADA)

The ADA prohibits discrimination against qualified individuals with disabilities and requires reasonable accommodation absent undue hardship. Questions should be directed to the District Manager.

B. Equal Employment Opportunity (EEO)

The District provides equal opportunity in recruitment, appointment, training, promotion, compensation, retention, discipline, and separation without regard to protected characteristics, consistent with federal and Florida law. Employees who believe they have been discriminated against may contact the District Manager and the Florida Commission on Human Relations (FCHR).

C. Fair Labor Standards Act (FLSA)

Non-exempt employees are paid at least minimum wage and receive overtime at one-and-one-half times their regular rate for hours worked over 40 in a workweek. Exempt employees are not overtime-eligible. Employees who are unsure of their classification should speak with the CAM.

D. Florida Civil Rights Act (FCRA)

The FCRA promotes fair treatment and equal opportunity. For more information, contact the FCHR.

E. Veterans' Preference

The District follows Chapter 295, Florida Statutes, providing veterans' preference in employment, retention, and promotion for eligible individuals.

F. Florida Public Whistle-Blower's Act

Employees are protected from retaliation for disclosing, in good faith, certain violations or abuses to an appropriate agency. Concerns may be reported to the CAM, Employee Liaison, District Manager, or appropriate authority.

III. EMPLOYMENT POLICIES

A. New Hires

The District, through HLP, hires only individuals authorized to work in the United States. New employees must provide required documentation to complete the Form I-9 within three (3) business days of employment. Employees with work authorization that expires must provide updated documentation prior to expiration. In accordance with Florida Law, all new employees will have their employment authorization checked through E-Verify.

B. Open Door Policy

Employees are encouraged to raise questions or concerns with the CAM. If the concern involves the CAM, contact the Employee Liaison or District Manager. The District will review concerns fairly, maintain confidentiality to the extent possible, and address complaints as necessary and within the bounds of the law.

C. Performance Review Policy

Performance reviews clarify responsibilities, evaluate performance, identify development needs, and inform compensation decisions. During the first year, reviews typically occur every three months; thereafter annually.

D. Terminations

Employment may end by resignation, probationary release, layoff, retirement, or discharge. Employees are encouraged to provide two (2) weeks' written notice for resignations. The District

may discharge employment with or without cause, consistent with applicable law. Pay in lieu of unused approved PTO may be provided as stated in this handbook and as required by law.

E. Exit Interview

Departing employees are encouraged to complete an exit interview or the exit information survey (Appendix 5) to support continuous improvement.

IV. COMPENSATION AND BENEFITS

B. Compensation for Hours Worked

Starting wages are competitive and commensurate with experience and job scope as established in hiring documentation.

C. Raises

All positions are subject to a 90-day probationary period; a wage adjustment within the Board-approved range may be granted after the probationary period at the CAM's discretion. Annual and longevity/performance increases are at the discretion and approval of the Board of Supervisors.

D. Benefits

Eligible salaried employees may receive health, dental, vision, 401(k), and ancillary benefits per plan documents. The District contributes 50% of the lowest employee-only health insurance premium. Contact the CAM or Employee Liaison for details.

Salaried positions typically work 40 hours per week; part-time roles are capped at 29 hours per week. Concierge staff rotate weekend coverage.

Employees working an eight (8) hour shift generally receive two 15-minute paid rest breaks and one 30-minute unpaid meal break, scheduled with the CAM or Concierge Supervisor. Breaks may not be combined or used to offset late arrival or early departure. Employees must notify the CAM/Concierge Supervisor when leaving the premises during working time.

In compliance with the PUMP Act for Nursing Mothers, nursing mothers will be provided with a private, non-bathroom space in which to express breast milk. Employees are permitted to use their two 15-minute paid rest break period and meal break for this purpose, though additional unpaid break time may be granted based on need. Employees intending to make use of this policy should inform the CAM in advance so that the space can be designated and availability ensured.

C. Employee Attendance Records

The CAM, assisted by the Concierge Supervisor, records and maintains time and attendance records for all staff.

D. Paid Time Off for Salaried Positions

PTO covers sick, personal, and vacation time. Requests for personal time off should be submitted at least two (2) weeks in advance, and requests for vacation leave should be submitted at least one (1) month in advance, using the PTO Request Form (Appendix 9). Requests for weekend PTO (Friday through Monday) require prior approval from the Clubhouse & Amenities Manager, and will be granted based on operational and staffing needs.

Refer media or public inquiries to the CAM. Employees may not speak on behalf of the District without written authorization from the Board of Supervisors, the District Manager, or the CAM.

VII. EMPLOYEE RELATIONS

A. Drug-Free Workplace

The District acknowledges that drug use has serious adverse effects in the workplace resulting in lost productivity and poses a threat to public health and safety. Maintaining a healthy and productive workforce with safe working conditions free from the effects of drugs decreases the occurrence of injuries on the job, absenteeism, and theft, and promotes employee morale.

The Drug-Free Workplace Act promotes the goal of drug-free workplaces within government through fair and reasonable drug-testing methods for the protection of public employees and employers.

Section 112.0455, Florida Statutes, identifies and defines the types of authorized drug testing: job applicant testing, routine fitness for duty testing, follow-up testing, random testing, and reasonable suspicion drug testing. Random testing and job applicant testing are currently conducted only under separate, specific legislative authorization. "Reasonable suspicion drug testing" means drug testing based on a belief that an employee is using or has used drugs in violation of the employer's policy drawn from specific objective facts and reasonable inferences drawn from those facts considering experience. A job applicant is defined in section 112.0455, Florida Statutes, as "a person who has applied for a position with an employer and has been offered employment conditioned upon successfully passing a drug test." To learn more about the other types of drug testing, review [section 112.0455](#), Florida Statutes.

All employees are expected to adhere to the District's standards of conduct concerning the possession and/or use of drugs or alcohol while on duty or while in or on District property. Violations of this policy will result in disciplinary action, up to and including discharge.

B. Harassment

The District has a strict policy against discrimination and harassment in the workplace. It is expected that all employees will interact fairly and honestly with one another to ensure that the work environment is free of intimidation and harassment.

The District is committed to providing all job applicants and employees with an environment free of discrimination and unlawful harassment. Actions, words, jokes, or remarks based on an individual's sex, race, ethnicity, age, religion, physical impairment, or any other legally protected characteristic will

not be tolerated. This policy also prohibits harassment in any form, including verbal, physical, and visual harassment.

Unwelcome sexual conduct, such as sexual advances, requests for sexual favors, or other verbal or physical conduct of a sexual nature when it is made as a term or condition of employment or, unwelcome sexual conduct, which creates an intimidating, hostile, or offensive work environment will not be tolerated.

Any employee who believes a co-worker, member of management, or agent of the District has unlawfully harassed him/her should promptly report the matter to the Clubhouse and Amenities Manager, or if against the Manager, then the report will be made to the District's Employee Liaison. Every employee can raise concerns and make reports without fear of reprisal.

The District will make every effort to ensure that complaints of harassment are resolved promptly and effectively. All actions taken to resolve complaints of harassment through investigations should be conducted confidentially to the extent possible.

Similar actions of harassment directed towards residents, patrons, and/or visitors of the District by employees are also prohibited and will not be tolerated. Employees are expected to be courteous and respectful of residents, patrons, and visitors at all times. Any reports regarding such behavior will be promptly investigated.

Any employee, after appropriate investigation, who is found to have engaged in the harassment of an employee, resident, patron, or visitor, will be subject to disciplinary actions, up to and including discharge, with or without warning per Appendix 7.

WHEREAS, the District was established pursuant to Chapter 190, Florida Statutes, for the purpose of planning, financing, constructing, operating and/or maintaining certain infrastructure improvements, including but not limited to, landscaping and irrigation improvements; and

WHEREAS, to solicit such services, the District conducted a competitive proposal process based on a project manual and determined to make an award of a contract for landscape and irrigation maintenance services to the Contractor, based on certain proposal pricing provided by the Contractor; and

WHEREAS, the Contractor represents that it is qualified to serve as a landscape and irrigation maintenance contractor and provide such services to the District.

WHEREAS, the District and the Contractor warrant and agree that they have all right, power and authority to enter into and be bound by this Agreement.

NOW, THEREFORE, in consideration of the recitals, agreements, and mutual covenants contained herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by the parties, the Parties agree as follows:

1. INCORPORATION OF RECITALS. The recitals stated above are true and correct and are incorporated by reference as a material part of this Agreement.

2. SCOPE OF SERVICES.

A. The Contractor shall provide the services described in the Scope of Services attached hereto as **Exhibit A** and for the areas identified in the Landscape Maintenance Areas Exhibit attached hereto as **Exhibit E** (“**Work**”). The Contractor shall provide no fewer than the number of landscape maintenance staff, including but not limited to laborers, supervisors, and technical personnel, as specified in **Exhibit A**.

B. The Contractor agrees that the Landscape Maintenance Areas Exhibit attached hereto as **Exhibit E** is the District’s best estimate of the District’s landscape needs, but that other areas may also include landscaping that requires maintenance. The Contractor agrees that the District may, in its discretion, add up to 0.5 acre(s) of landscaping area to the Work, with no

adjustment to price, and may add additional acreage of landscaping area to the Work beyond the 0.5 acre(s) using the unit pricing set forth in **Exhibit B**.

- C. The Contractor shall perform the Work consistent with the presently established, high quality standards of the District, and shall assign such staff as may be required for coordinating, expediting, and controlling all aspects of the Work.
- D. The Contractor shall solely be responsible for the means, manner and methods by which its duties, obligations and responsibilities are met to the satisfaction of the District. Notwithstanding any other provision of this Agreement, the District reserves the right in its discretion to remove from this Agreement any portion of the Work and to separately contract for such services. In the event that the District contracts with a third party to install certain landscaping or to otherwise perform services that might otherwise constitute a portion of the Work, the Contractor agrees that it will be responsible for any such landscaping installed by the third party, and shall continue to perform all other services comprising the Work, including any future services that apply to the landscaping installed by the third party or to the areas where services were performed by the third party.
- E. All permits or licenses necessary for the Contractor to perform under this Agreement shall be obtained and paid for by the Contractor.

3. **MANNER OF CONTRACTOR'S PERFORMANCE.**

- A. The Contractor agrees, as an independent contractor, to undertake the Work as specified in this Agreement or any Additional Services Order (see Section 7.c. herein) issued in connection with this Agreement. All Work shall be performed in a neat and professional manner reasonably acceptable to the District and shall be in accordance with industry standards, such as USF, IFAS, etc. The Contractor shall document all Work using the forms attached hereto as part of **Exhibit C**. The performance of all services by the Contractor under this Agreement and related to this Agreement shall conform to any written instructions issued by the District. Contractor acknowledges that it is responsible for continuously monitoring the health and appearance of the landscaping assets located within the Property, and for notifying the District if additional services are needed to maintain same.
- B. In the event that time is lost due to heavy rains ("**Rain Days**"), the Contractor agrees to reschedule its employees and divide their time accordingly to complete all scheduled services during the same week as any Rain Days. The Contractor shall provide services on Saturdays if needed to make up Rain Days with prior notification to, and approval by, the District Representatives (defined below).
- C. The Contractor in conducting the Work shall use all due care to protect against any harm to persons or property. If the Contractor's acts or omissions result in any damage to property within the District, including but not limited to damage to landscape lighting, irrigation system components, entry monuments, structures or curbing, etc., the Contractor shall immediately notify the District and repair all damage – and/or replace damaged property – to the satisfaction of District and at Contractor's sole cost and expense.
- D. The Contractor shall maintain at all times strict discipline among its employees and shall not employ for performance of Work contemplated under this Agreement any person unfit or without sufficient skills to perform the job for which such person is employed. All laborers and foremen shall perform all Work on the premises in a uniform to be designed by the Contractor and shall maintain themselves in a neat and professional manner. No smoking in

or around the buildings will be permitted. No solicitation of any kind is permitted on District property.

4. INSPECTIONS.

- A. The District shall designate in writing one or more persons to act as the District's representatives with respect to the services to be performed under this Agreement ("**District Representatives**"). The District Representatives shall have complete authority to transmit instructions, receive information, interpret and define the District's policies and decisions with respect to materials, equipment, elements, and systems pertinent to the Contractor's services. This authority shall include but not be limited to verification of correct timing of services to be performed, methods of pruning, pest control and disease control. The District hereby designates its **District Manager and Amenities Manager**, or their designees, to act as the District Representatives. The Contractor shall not take direction from anyone other than the District Representatives (e.g., the Contractor shall not take direction from individual District Board Supervisors, any representatives of any local homeowner's associations, any residents, etc.). In the event the District Manager and Amenity Manager provide differing direction, the Contractor shall not take direction from either District Representative and immediately contact the Chairperson of the Board of Supervisors and District Counsel to resolve the conflict. The District shall have the right to change its designated representatives at any time by written notice to the Contractor.
- B. The Contractor shall provide to management a written report of work performed for each week with notification of any problem areas and a schedule of work for the upcoming month. Further, Contractor agrees to meet District Representatives no less than one (1) time per month to inspect the entirety of the property and discuss conditions, schedules, and items of concern regarding this Agreement and shall include a landscape report monthly for Board of Supervisors review, which shall be presented at least eight (8) days before the monthly Board meeting.
- C. If the District Representatives identify any deficient areas, the District Representatives shall notify Contractor whether through a written report or otherwise. Contractor shall then, within the time period specified by the District Representatives or if no time is specified then within forty-eight (48) hours, explain in writing what actions shall be taken to remedy the deficiencies. Upon approval by the District, Contractor shall take such actions as are necessary to address the deficiencies within the time period specified by the District, or if no time is specified, then within three (3) days and prior to submitting any invoices. If Contractor does not respond or take action within the specified time period, and without limiting the District's remedies in any way, the District shall have the rights to, among other remedies available at law or in equity to: (i) fine Contractor One Hundred Dollars (\$100) per day through a reduction in compensation; (ii) withhold some or all of Contractor's payments under this Agreement; and (iii) contract with outside sources to perform necessary services with all charges for such services to be deducted from Contractor's compensation. Any oversight by the District Representatives of Contractor's Services is not intended to mean that the District shall underwrite, guarantee, or ensure that the Services are properly performed by Contractor, and it is Contractor's responsibility to perform the Services in accordance with this Agreement.
- i. Notwithstanding the foregoing, the District Representatives shall monitor and rate the Contractor's performance in accordance with the requirements set out herein and in the Scope of Services, and shall report the results of such monitoring to the

Contractor and the District's Board of Supervisors. In monitoring the Contractor's performance, the District Representatives are anticipated to record Contractor's performance on a form substantially similar to the Landscape Evaluation Scorecard attached hereto as part of **Exhibit D**. If at any time the Contractor's performance rating drops below 80%, and such deficiency persists for thirty (30) calendar days or longer, Contractor's compensation shall be automatically reduced by the difference between 80% and the Contractor's performance rating (i.e. if Contractor's performance rating is 70% and is not corrected to at least 80% within 30 calendar days, Contractor's compensation shall be reduced by 10% for the month at issue and until the target score of 80% is reached). This shall not be construed to limit the District's remedies hereunder or in law or equity for deficient service.

- D.** Any oversight by the District Representative of the Contractor's Work is not intended to mean that the District shall underwrite, guarantee, or ensure that the Work is properly done by the Contractor, and it is the Contractor's responsibility to perform the Work in accordance with this Agreement. Moreover, nothing in this section 4 shall be construed to authorize the Contractor to perform additional work or services at the sole direction of the District Representatives, and all additional work or services and related compensation shall be governed by section 7.C. of this Agreement.

5. SUBCONTRACTORS. The Contractor shall not award any of the Work to any subcontractor without prior written approval of the District. The Contractor shall be as fully responsible to the District for the acts and omissions of its subcontractors, and of persons either directly or indirectly employed by them, as the Contractor is for the acts and omissions of persons directly employed by the Contractor. Nothing contained herein shall create contractual relations between any subcontractor and the District.

6. EFFECTIVE DATE. This Agreement shall be binding and effective as of the date that this Agreement is signed by the last of the Parties hereto and shall remain in effect as set forth in section 7, unless terminated in accordance with the provisions of this Agreement.

7. COMPENSATION; TERM.

- A. Term.** The initial term of this Agreement shall begin on January 11, 2026, and continue through September 30, 2027 ("**Initial Term**"), unless terminated earlier pursuant to the terms of this Agreement. At the end of the Initial Term, this Agreement may be eligible for four (4) additional times on an annual basis each October 1, in the District's sole discretion and at the amounts set forth in **Exhibit B**. Notwithstanding anything to the contrary herein, the District's obligation to pay under this Agreement are contingent upon an annual appropriation by the District's Board of Supervisors and the levy of a valid operations and maintenance special assessment. In the event that such annual appropriation is not made, this Agreement shall be terminated with no further obligations of the Contractor.
- B. Compensation.** Compensation for the Work shall be in the total amount of **Two Hundred Seventy One Thousand Eight Hundred Forty Eight Dollars and Zero Cents (\$271,848.00)** per year, in monthly installments of **Twenty Two Thousand Six Hundred Fifty Four Dollars and Zero Cents (\$22,654.00)** ("**Compensation**") for the Initial Term, as more specifically described in **Exhibit B**. Such Compensation covers the items specified in each respective part of Contractor's Bid Form attached hereto. All additional work or services and related compensation shall be governed by section 7.C. of this Agreement.

- C. **Additional Work.** Should the District desire that the Contractor provide additional work and/or services relating to the District's landscaping and irrigation systems, such additional work and/or services shall be fully performed by the Contractor after prior approval of a required Additional Services Order ("ASO"), in substantially the form attached hereto as **Exhibit F**. The Contractor agrees that the District shall not be liable for the payment of any additional work and/or services unless the District first authorizes the Contractor to perform such additional work and/or services through an authorized and fully executed change order. The Contractor shall be compensated for such agreed additional work and/or services based upon a payment amount derived from the prices set forth in the Contractor's proposal pricing (attached as part of **Exhibit B**). Nothing herein shall be construed to require the District to use the Contractor for any such additional work and/or services, and the District reserves the right to retain a different contractor to perform any additional work and/or services.
- D. **Payments by the District.** The Contractor shall maintain records conforming to usual accounting practices. Further, the Contractor agrees to render monthly invoices to the District, in writing, which shall be delivered or mailed to the District by the fifth (5th) day of the next succeeding month. Each monthly invoice shall be for services actually rendered in the preceding month and shall contain, at a minimum, the District's name, the Contractor's name, the invoice date, an invoice number, an itemized listing of all costs billed on the invoice with a description of each sufficient for the District to approve each cost, the time frame within which the services were provided, and the address or bank information to which payment is to be remitted. Consistent with Florida's Prompt Payment Act, Section 218.70 et seq., *Florida Statutes*, these monthly invoices are due and payable within forty-five (45) days of receipt by the District.
- E. **Payments by the Contractor.** Subject to the terms herein, the Contractor will promptly pay in cash for all costs of labor, materials, services and equipment used in the performance of the Work, and upon the request of the District, the Contractor will provide proof of such payment. The Contractor agrees that it shall comply with Section 218.735(6), *Florida Statutes*, requiring payments to subcontractors and suppliers be made within ten (10) days of receipt of payment from the District. Unless prohibited by law, the District may at any time make payments due to the Contractor directly or by joint check, to any person or entity for obligations incurred by the Contractor in connection with the performance of Work, unless the Contractor has first delivered written notice to District of a dispute with any such person or entity and has furnished security satisfactory to District insuring against claims therefrom. Any payment so made will be credited against sums due the Contractor in the same manner as if such payment had been made directly to the Contractor. The provisions of this Section are intended solely for the benefit of the District and will not extend to the benefit of any third persons, or obligate the District or its sureties in any way to any third party. Subject to the terms of this Section, the Contractor will at all times keep the District's property, and each part thereof, free from any attachment, lien, claim of lien, or other encumbrance arising out of the Work. The District may demand, from time to time in its sole discretion, that the Contractor provide a detailed listing of any and all potential lien claimants (at all tiers) involved in the performance of the Work including, with respect to each such potential lien claimant, the name, scope of Work, sums paid to date, sums owed, and sums remaining to be paid. The Contractor waives any right to file mechanic's and construction liens.

An insurance certificate evidencing compliance with this section shall be sent to the District prior to the commencement of any performance under this Agreement. If the Contractor fails to pay such cost to the District, the District may deduct such amount from any payment due to the Contractor.

In the event that any indemnification, defense or hold harmless provision of this Contract is determined to be unenforceable, the provision shall be reformed to give the provision the maximum effect allowed by Florida law and for the benefit of the Indemnitees. It is hereby agreed, any law, custom, or usage to the contrary notwithstanding, that the District shall have the right at all times to enforce the conditions and agreements contained in this Agreement in strict accordance with the terms of this Agreement, notwithstanding any conduct or custom on the part of the District in refraining from so doing; and further, that the failure of the District at any time or times to strictly enforce its rights under this Agreement shall not be construed as having created a custom in any way or manner contrary to the specific conditions and agreements of this Agreement, or as having in any way modified or waived the same.

18. SUCCESSORS; ASSIGNMENT. This Agreement shall inure to the benefit of and be binding upon the heirs, executors, administrators, successors, and assigns of the parties to this Agreement, except as expressly limited in this Agreement. The District shall provide thirty (30) days' written notice of termination without cause. Any termination by the District shall not result in liability to the District for consequential damages, lost profits, or any other damages or liability. However, upon any termination of this Agreement by the District, and as the Contractor's sole remedy, the Contractor shall be entitled to payment for all Work and/or services rendered up until the effective termination of this Agreement, subject to whatever claims or off-sets the District may have against the Contractor.

The District may terminate the Agreement immediately for cause if there is a good faith belief that the Contractor has knowingly violated Section 448.091, *Florida Statutes*. By entering into this Agreement, the Contractor represents that no public employer has terminated a contract with the Contractor under Section 448.095(5)(c), *Florida Statutes*, within the year immediately preceding the date of this Agreement.

21. INDEPENDENT CONTRACTOR STATUS. In all matters relating to this Agreement, the Contractor shall be acting as an independent contractor. Neither the Contractor nor employees of the Contractor, if there are any, are employees of the District under the meaning or application of any Federal or State Unemployment or Insurance Laws or Old Age Laws or otherwise. SCOPE OF SERVICES

PART 1

GENERAL LANDSCAPE MAINTENANCE

1) **MOWING** – All grass areas will be mowed on the following schedule:

MARCH 1 – NOVEMBER 1 – Once a week

NOVEMBER 1 – MARCH 1 – Once every two weeks

This schedule estimates that there will be between 41 – 45 cuts annually based on standard growing periods in Florida, however, requires a minimum of 52 visits (weekly) to perform those duties, other than mowing, that cannot remain unattended for two weeks. (i.e., weed control, selective mowing, debris clearing, and general detailing of property, etc.) Notwithstanding the above, at no time will the grass (or weeds within turf) be allowed to grow beyond a maximum height of five (5) inches. Each mowing should leave the St. Augustine & Bahia grass at a height of three and one half (3 1/2) to four (4) inches, Celebration Bermuda at a height of three quarter (3/4) to one and one quarter (1 ¼) inches & Zoysia at a height of one (1) to one and one half (1 ½) inches. Rotary Mowers are preferred for heights above one (1) inch. Do not remove more than 1/3 of the height of the leaf blade at any one mowing. All blades shall be kept sharp at all times to provide a high-quality cut and to minimize disease. The DISTRICT requires mowers to be equipped with a mulching type deck. Clippings may be left on the lawn as long as no readily visible clumps remain on the grass after mowing. Otherwise, large clumps of clippings MUST either be collected and removed by the CONTRACTOR OR be left to dry out on the lawn for no more than one day and then re-distributed across the lawn. The mulching kit must be left in the “closed” position at all times, specifically when mowing pond banks and all parks. Additionally, when mowing pond banks, mowers must be used in a counter clockwise direction. This is to re-introduce nutrients in the clippings back into the soil system. In case of fungal disease outbreaks, the clippings will be collected until the disease is under control. Contractor will be responsible for line-trimming these areas during each and every mow event. Contractor is to include in his proposal, any and all necessary equipment, protective clothing or any other gear necessary for crews to perform this work. No “extras” will be billed to the District. The CONTRACTOR shall restore any noticeable damage caused by the CONTRACTOR’S mowing equipment within twenty-four hours from the time the damage is caused at his sole cost and expense. Contractor shall be responsible for training all its personnel in the technical aspects of the District’s Landscape Maintenance Program and general horticultural practices. This training will also include wetland species identification as it relates to lake banks & wetland areas. The Contractor shall be held responsible for all damage to wetlands, littoral shelves, mitigation areas and uplands due to mowing/fertilizing, etc. Weekend work is permitted when necessary, upon prior approval.

Pond Mowing - All ponds identified as such on the overall Maintenance Exhibit shall be mowed incorporating the same mowing schedule as the common areas stated above. Line trimming at Bridge entrances water’s edge, control structures, mitered end sections and any other storm water structures shall occur each and every time the pond is mowed. Each mowing shall leave the grass at a height of four (4) to four and one half (4½) inches. This is slightly higher than the mow height in common area Bahia plantings in flatter areas to minimize pond bank erosion. Pond banks will be mowed and trimmed to water’s edge. Careful attention must be paid to mower height on pond banks so as not to scalp at the crest of the lake bank and increase the chances for pond bank erosion. Also, when line trimming to water’s edge, Contractor shall be extremely careful not to scalp at the water’s edge also increasing chances of pond bank erosion. Line trimming height shall be the same as mowing height (if not slightly higher). Contractor shall be careful to keep trimmings from entering water. Excessive clippings shall be hand removed. Mowers must blow all clippings away from pond

banks. It is understood that trash debris of any kind and other debris within arm's reach of water's edge shall be removed & disposed of by Contractor during every normal service event.

2) EDGING AND TRIMMING – All hard-edged areas (curbs, sidewalks, bike paths, trails, etc.) shall be vertically edged at each and every mowing event and soft-edged areas (tree rings, shrub and groundcover bed lines) shall be edged a minimum of every other week. All edging shall be performed to the sole satisfaction of the DISTRICT. Chemical edging shall not be permitted anywhere on property.

AT NO TIME SHALL LAWN BE ALLOWED TO GROW IN AN UNSIGHTLY MANNER. SHOULD THIS OCCUR, CONTRACTOR AGREES TO CORRECT WITHIN TWENTY-FOUR HOURS OF NOTICE BY DISTRICT. CONTRACTOR SHALL COMPLETE ALL LAWN MAINTENANCE ACTIVITIES (MOWING, EDGING, LINE TRIMMING, BLOWING OFF SIDEWALKS, DRIVEWAYS, CURB & GUTTERS, ETC.) IN RELATIVELY SMALL, MANAGEABLE SECTIONS. CONTRACTOR IS NOT TO LEAVE GRASS CLIPPINGS, TRIMMED WEEDS, TURF, DIRT OR DEBRIS ON ANY SURFACES FOR MORE THAN TWO HOURS. PARK SITES, CLUBHOUSES, PARKING LOTS AND ALL OTHER HIGH TRAFFIC AMENITIES ON THE PROPERTY SHALL BE CLEANED UP IMMEDIATELY AFTER MOWING AND EDGING TAKES PLACE. IF A MOWING EVENT IS MISSED, EVERY EFFORT SHALL BE MADE TO PERFORM THE MOWING SERVICE THE SAME WEEK (INCLUDING SATURDAYS WITH PRIOR APPROVAL). IF THIS IS NOT POSSIBLE, THE CONTRACTOR SHALL PROVIDE THE DISTRICT A CREDIT FOR FUTURE SERVICES OR ADD A MOWING EVENT TO BE PROVIDED AT A LATER DATE. THE DISTRICT SHALL DETERMINE WHETHER THE CREDIT OR EXTRA MOWING SHALL BE USED.

3) TREE AND SHRUB CARE – All deciduous trees shall be pruned when dormant to ensure proper uniform growth. All evergreen trees shall be pruned in the early summer and fall to ensure proper growth and proper head shape. Sucker growth at the base of the trees shall be removed by hand continuously throughout the year. Aesthetic pruning shall consist of the removal of dead and/or broken branches as often as necessary to have trees appear neat at all times. Branches will be pruned just outside the branch collar. Contractor is **responsible for the removal of all branches and limbs up to a 4" diameter and up to a 15' height to keep them from encroaching onto buildings (including roofs), signage structures, play structures, fences & walls, as well as pruned to prevent street lights and traffic signage from being blocked. Additionally, trees shall be pruned over sidewalks, nature trails, parking lots and roadways so as not to interfere with pedestrians or cars. (This is to include maintaining at all times a minimum of ten to fifteen (10-15) feet of clearance under all limbs depending on location and species of tree but shall vary according to DOT specs.) All moss hanging from trees (as well as all ball moss) shall be removed up to a height of 15' from all trees on an as-needed basis. However, during the dormant season, ALL Crape Myrtles shall have ALL mosses removed from the entire tree regardless of height. Crape Myrtles are not to be "hat racked" at any time. Pencil pruning is the preferred method of Crape Myrtle pruning and should be performed after threat of frost has passed. The initial removal of all Spanish and Ball Mosses shall be completed within ninety (90) days of contract commencement.**

All shrubs will be pruned as necessary to retain an attractive shape and fullness, removing broken or dead limbs as necessary to provide a neat and clean appearance. Shrubs shall not be clipped into balled or boxed forms unless such forms are required by design. Shrubs shall be pruned in accordance with the intended function of the plant in its present location. Flowering shrubs shall be pruned immediately after the blossoms have cured with top pruning restricted to shaping the terminal growth. All pruning shall be done with horticultural skill and knowledge to maintain an overall acceptable appearance consistent with the current aesthetics of District property. The Contractor agrees that pruning is an art that must be done under the supervision of a highly trained foreman and shall make provisions for such supervision. Individual plants pruned into rounded balls or unnatural shapes will not be allowed. Contractor shall sterilize all pruning equipment prior to pruning the next shrub grouping; particularly when fungal diseases are known to be present. All clippings and debris from pruning will be carted away at the time pruning takes place. It is of utmost importance that all plant material within clear site lines and visibility triangles at roadway intersections

and medians is maintained at or below the required heights. It is the Contractor's responsibility to bring to the attention of the District all areas that are not in compliance. If pruning will bring the area into compliance, then the Contractor, after conferring with District's representative, will proceed with the pruning activity. However, if pruning will NOT bring the area into compliance, perhaps due to permanent existing grades, then another solution will need to be proposed and executed. Contractor will also be responsible to keep mulch pulled away from the base of ALL landscape lights at ALL times, not just after a mulching event. This is specific to LED with circuit boards in base.

AREAS WHERE WETLANDS ARE ADJACENT TO TURF AREAS (WHETHER ALONG ROADWAYS OR LAKE BANKS) CONTRACTOR IS RESPONSIBLE TO KEEP ALL WETLAND MATERIAL CUT BACK AT ALL TIMES AND NOT LET THIS MATERIAL REDUCE THE SIZE OF THE TURF AREA.

Palms - All palms (regardless of height) shall receive pruning as often as necessary to appear neat and clean at all times. This includes the removal of brown and/or broken fronds and inflorescence. Removal of green or **even yellowing fronds is unnecessary and pruning palms above the nine o'clock – three o'clock line is prohibited.** Fronds should be removed only once they turn brown or become broken or are disrupting flow of pedestrian/vehicular traffic or are hanging on architectural structures. Fruit pods shall be removed prior to development. Tarpaulins shall be used in areas where date palms and other palm fruits may stain sidewalks & pavement including, but not limited to, pool decks. Contractor shall be responsible for the removal of all palm fruit stains. Contractor shall sterilize all pruning equipment prior to pruning the next palm, paying careful attention when pruning Medjool, Sylvester, Reclinata and Canary Palms.

4) **WEEDS AND GRASSES** – All groundcover, turf areas, shrub beds & tree rings shall be kept reasonably free of weeds and grasses, and be neatly cultivated and maintained in an orderly fashion at all times. This may be accomplished by carefully applied applications of pre & post emergent herbicides as part of fertilizer mixtures and post-emergent herbicide spot treatments on an as-needed basis. Condition of turf is to be determined by the DISTRICT at its sole discretion. All shrub and bed areas shall be maintained each mowing service by removing all weeds, trash and other undesirable material and debris (leaf and other) to keep the area neat and tidy. This is to be accomplished through hand pulling or the careful application of a post-emergent herbicide.

AT NO TIME SHALL POST-EMERGENT HERBICIDES BE PERMITTED WHEN WEEDS HAVE ESTABLISHED THEMSELVES AS TO DOMINATE PLANTING BEDS. HAND PULLING MUST BE PERFORMED.

NON-SELECTIVE, POST-EMERGENT HERBICIDES SHALL NEVER BE USED TO CONTROL WEED/SOD GROWTH AROUND STRUCTURES OF ANY TYPE (I.E. STREET SIGNS, UTILITY BOXES, STREET LIGHTS, PAVEMENT, TREE RINGS, ETC.) THE FIRST OFFENSE WILL RESULT IN A VERBAL WARNING; THE SECOND OFFENSE WILL RESULT IN A SECOND VERBAL WARNING AND THE BOARD OF SUPERVISORS FOR THE DISTRICT WILL BE NOTIFIED; THE THIRD OFFENSE MAY TERMINATE THIS CONTRACT FOR CAUSE AT THE DISTRICT'S DISCRETION. CONTRACTOR WILL BE HELD RESPONSIBLE FOR THE REPLACEMENT OF ALL TURF DAMAGED BY THE APPLICATION OR OVERSPRAY OF HERBICIDES (SELECTIVE OR NON-SELECTIVE).

The CONTRACTOR shall be responsible for the replacement of ornamental plants killed or damaged by herbicide application. All fence lines shall be kept clear of landscape shrubs growing through, weeds, undesirable vines and overhanging limbs.

5) **MAINTENANCE OF PAVED AREAS** – All paved areas (including, but not limited to, pool deck pavers, other paver surfaces, sidewalk expansion joints, curb and gutters, curb and gutter expansion joints, bike lane edges along roadways) shall be kept weed & debris free. This may be accomplished by mechanical means (line trimmer) or by applications of post/pre-emergent herbicides. Weeds greater than two (2) inches

in height or width shall be pulled from paved areas, not sprayed. No sprays with dyes may be used on any paved areas. Contractor is not to use non-selective herbicides to eradicate weeds in curblines expansion joints where the chemical can travel back into the turf causing regularly spaced dead patches behind the curbs and sidewalks.

6) **CLEAN UP** – At no time will CONTRACTOR leave the premises after completion of any work in any type of disarray. All clippings, trimmings, debris, dirt or any other unsightly material shall be removed promptly upon completion of work. CONTRACTOR shall use his own waste disposal methods, never the property dumpsters. Grass clippings shall be blown off sidewalks, streets and curbs within a relatively short time frame and are not to be left for more than two hours, unless otherwise noted above. Also grass clippings shall be blown into turf areas, never into mulched bed areas or tree rings as these are to be maintained free of grass clippings. Grass clippings at highly trafficked areas (i.e., tennis courts, clubhouse sidewalks, pool areas, walking trails, etc.) shall be blown off immediately after mowing and edging have taken place. **NO CLIPPINGS SHALL BE BLOWN DOWN CURB INLETS.**

7) **REPLACEMENT OF PLANT MATERIAL** – Trees and shrubs in a state of decline should immediately be brought to the attention of the DISTRICT. Dead or unsightly plant material shall be removed upon notification of the DISTRICT. CONTRACTOR shall be responsible for replacement if due to his negligence. New plant material shall be guaranteed for a period of one (1) year for trees and ninety (90) days for shrubs, ground cover and lawn after final acceptance.

PART 2

FERTILIZATION

Any fertilizer ordinance in place for Pasco County specifically banning fertilizers during a specific season(s), will be followed and any applicable Pasco County ordinance shall control over the schedule provided below.

It is required that those practices outlined in the GIBMP guidelines be followed. Highlights are listed below.

NO PERSON SHALL APPLY FERTILIZERS CONTAINING NITROGEN AND/OR PHOSPHORUS TO TURF AND/OR LANDSCAPE PLANTS DURING ONE OR MORE OF THE FOLLOWING EVENTS: i) IF IT IS RAINING AT THE APPLICATION SITE, OR ii) WITHIN THE TIME PERIOD DURING WHICH A FLOOD WATCH OR WARNING, OR A TROPICAL STORM WATCH OR WARNING, OR A HURRICANE WATCH OR WARNING IS IN EFFECT FOR ANY PORTION OF Pasco COUNTY, ISSUED BY THE NATIONAL WEATHER SERVICE, OR iii) WITHIN 36 HOURS PRIOR TO A RAIN EVENT GREATER THAN OR EQUAL TO 2 INCHES IN A 24 HOUR PERIOD IS LIKELY.

For purposes of bidding and until a soil test is provided to indicate otherwise, all turf shall be fertilized according to the following IFAS Guidelines for a high maintenance level for south Florida turf: (per GIBMP guidelines and University of Florida IFAS Extension, south Florida is determined by anything south of a line running east-west from coast to coast through between Tampa & Vero Beach.)

Prior to final fertilization selection, a complete soil test should be performed to test for soil pH as well as N, P & K levels. Should change be of merit, the Contractor shall notify the District in writing prior to the implementation of such change. At times environmental conditions may require additional applications of nutrients, augmenting the above fertilization programs to ensure that turf areas are kept uniformly GREEN, healthy and in top condition. It shall be the responsibility of the contractor to determine specific needs and requirements and notify the resident project representative when these additional applications are needed.

Fertilizers containing iron shall be immediately removed from all hard surfaces to avoid staining before the sprinklers are activated after application of the fertilizer. Any stains caused by a failure to do so will be the responsibility of the contractor to remove.

Fertilizer shall be applied in a uniform manner, based on soil samples conducted at least annually. If streaking of the turf occurs, correction will be required immediately at no additional cost to owner. Fertilizer shall be swept/blown off of all hard surfaces onto lawns or beds in order to avoid staining. **IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO REMOVE ANY STAINS FROM ANY HARD SURFACES ON THE PROPERTY CAUSED BY THEIR MISHANDLING OF FERTILIZER.** Fertilizer shall not be applied within ten (10) feet of the landward extent of any surface water. Spreader deflector shields are required when applying fertilizer by use of any broadcast or rotary spreader. All Palms shall receive 1 ½ pounds of 8N-2P2O5-12K2O+4Mg with micronutrients per 100 SF of palm canopy four times per year (March, June, September & November). 100% of the N, K & Mg **MUST** be in slow release form. All micronutrients must be in water soluble form. Fertilizer shall be broadcast evenly under the dripline of the canopy but must be kept at least 6" from the palm trunk.

Fertilizer shall not be billed equally on a monthly basis, but invoiced the month after application.

CONTRACTOR shall provide the DISTRICT with all fertilizer analysis tags from the fertilizer in order to verify correct formulation and quantity. Payment will not be made until correct quantity and formulation has been verified and applied. CONTRACTOR must notify the DISTRICT five (5) working days in advance of the day the property is scheduled to be fertilized. Failure on the part of the CONTRACTOR to so notify the DISTRICT may result in the CONTRACTOR forfeiting any and all rights to payment for the applications made without notification.

PART 3

PEST CONTROL

Insects and Disease in Turf - Insect and disease control spraying in turf shall be provided by the Contractor every month with additional spot treatment as needed. During the weekly inspections the Contractor is responsible for the identification and eradication/control of disease and insect damage including but not limited to: scale, mites, fungus, chinchbugs, grubs, nematodes, fireants, mole crickets, etc. Contractor shall pay for chemicals. Please list all chemicals that you will include in your fertilizer applications in the space allocated for "formula" under the fertilization section in the bid form. Also include the cost of these chemicals as part of the fertilizer application. Any anticipated additional treatments shall be included in the Pest Control portion of the bid form.

Insects and Disease Control for Trees, Palms and Plants - The Contractor is responsible for treatment of insects and diseases for all plants. The appropriate insecticide or fungicide will be applied in accordance with state and local regulations, and as weather and environmental conditions permit. Contractor shall pay for chemicals. There are several afflictions that may be detrimental to the health of many trees and palms. **Contractor will be fully responsible in the treatment of such afflictions. At the District's discretion, this may include the quarterly inoculation of all palms susceptible to Lethal Yellowing and/or Texas Phoenix Palm**

Decline. The cost of these inoculations should be included as a separate line item in your Pest Control price. Contractor is to identify those species of palms susceptible and supply a list of species and quantities with proposal. Each susceptible palm shall receive quarterly injections. Each injection site/valve can be used only twice. The third quarterly injection requires a new valve and injection site. Contractor is asked to provide cost per injection (material & labor) multiplied by quantity of susceptible palms multiplied by four inoculations per year in bid form. The District reserves the right to subcontract out any and all OTC Injection events. This will not be included in the Contract Amount.

The Contractor is required to inspect all landscaped areas during each visit for indication of pest problems. When control is necessary, it is the responsibility of the Contractor to properly apply low toxicity and target-specific pesticide. If pesticides are necessary, they will be applied on a spot treatment basis when wind drift is a threat.

Careful inspection of the property on each visit is crucial to maintaining a successful program. It is the **Contractor's full responsibility to ensure that the person inspecting the property is properly trained in recognizing the symptoms of both insect infestations and plant pathogen damage (funguses, bacteria, etc.). It is also the Contractor's responsibility to treat these conditions in an expedient manner.**

It shall also be the Contractor's responsibility to furnish the resident project representative with a copy of the Pest Management Report (a copy of which is included), which he is to complete at every service as well as all certifications (including BMP Certifications) of all pesticide applicators. Contractor shall familiarize himself with all current regulations regarding the applications of pesticides and fertilizers.

If at any time the District should become aware of any pest problems it will be the Contractor's responsibility to treat pest within five (5) working days of the date of notification.

Fire Ant Control - Contractor is required to inspect property each visit for evidence of fire ant mounds and immediately treat upon evidence of active mounds. In small areas control can be achieved by individual mound treatment. Active mounds in larger turf areas will require broadcast application of bait. Contractor shall be responsible to knock down and spread-out soil once mounds are dead.

For informational purposes only, Contractor is asked to provide the cost for the annual application of **Top Choice in all finished landscape areas designated as "District Landscape Area" on the Maintenance Exhibit.** These areas are indicated with a dark green color. **UNLESS OTHERWISE DIRECTED, ONLY THOSE AREAS COVERED BY AUTOMATIC IRRIGATION ARE TO BE INCLUDED IN THIS NUMBER.** This is not to include lake banks behind the residential properties or between ponds and conservation areas.

Pest Control will not be included as a standard line item in each monthly billing, but shall be invoiced as a separate line item the month after service is rendered.

Pest Control shall be included in the Contract Amount.

PART 4

The above list is for routine maintenance and adjustment of the existing irrigation system components. Locating and repairing or replacing automatic valves or control wires and irrigation controller or pump repairs as well as other larger scale repairs are to be considered additional items. Contractor shall provide a list of additional charges and pricing for such items other than routine maintenance as a separate price from this bid.

Routine irrigation maintenance is to be completed monthly. Each zone is to be turned on and operated for as long as necessary to verify proper operation. Each head, seal, nozzle and strainer is to be inspected for adjustment and shall be aligned, packed, cleaned and repaired as necessary. Shrubs, groundcovers and turf around sprinkler heads shall be trimmed to maintain maximum clearance at all times for the greatest **coverage. It shall be the Contractor's responsibility to ensure all drip tubing is covered with mulch prior to Contractor leaving the property.** All below ground repairs including valves, pumps and wiring require an estimate for all such repairs. Upon written approval from Management, Contractor shall proceed. In the event of an emergency, Contractor shall make a diligent effort to contact, with the approximate price or estimate of repairs, Management or their assign prior to making such repair.

Upon execution of the Agreement, Contractor shall assume responsibility for any and all unreported maintenance deficiencies, including parts and labor, associated with the irrigation system of 2 inches or less, to include sprinkler heads, nozzles, drip, main and delivery lines and any associated fittings. Said repairs shall be performed immediately. The District Manager shall be notified what day and time of the week the irrigation

tech will be available servicing the community. The Contractor will keep detailed irrigation reports consisting of run times and correct operation of system. A copy of this report will be maintained by the Contractor and a copy delivered to the District Manager or his designee, along with the weekly report. At no time shall the Contractor leave the property knowing of the need for a repair and not reporting it.

Watering schedules shall meet all government regulations, and zone times will be adjusted depending on job conditions, climactic conditions and all watering restrictions of Pasco County or any other governmental agencies. It is the responsibility of the Contractor to ensure the turf and plant material remains healthy. If the Contractor finds that the irrigation system cannot adequately cover the District in the allotted time, it will be **the Contractor's responsibility to bring this to the attention of the District representative and apply for a variance. Violations and/or fines imposed by any local or state agency will be deducted from the Contractor's monthly payment.**

Emergency service shall be available after normal working hours and an emergency telephone number will be **provided to Management or their assign. Broken mainlines and irrigation valves stuck in the "open" position** are to be considered emergencies.

Freeze Protection. The Contractor shall describe ability and cost per application to provide freeze protection for pumps/wells.

PART 5

INSTALLATION OF MULCH

After prior approval by the Board of Supervisors, Contractor shall top dress all currently landscaped areas as **shown on the maintenance map (landscaped beds, tree rings) with Grade "A" Medium Pine Bark Mulch up to** twice per year during the months of April and October. In doing so, Contractor shall ensure that all mulched areas are brought to a minimum depth of three (3) inches after compaction.

Contractor is responsible for all necessary clean up related to this procedure.

Contractor agrees to provide reasonably neat and defined lines along edges of all mulched areas. In addition to the aesthetics of this, it is also done to facilitate mechanical edging of these areas. Additionally, Contractor **shall properly trench all bedlines adjacent to concrete surfaces. Trenches shall be 3" deep and beveled. Mulched beds on slopes adjacent to turf shall also be trenched to a depth of 3" & beveled to reduce mulch washout.** This procedure has not been practiced in the past and Contractor is to include any additional labor in the cost of the mulch for all trenching. Mulch shall not be piled around tree trunks or bases of plants. Any **mulch "volcanoes" around tree trunks shall be corrected immediately at no additional cost to Owner.**

Contractor agrees to ensure that mulch caught in plant material will be shaken or blown from plants, so that upon completion there is no plant material left covered with mulch.

If, after installation is complete and it is determined that additional mulch is required to attain the required **total depth of 3", sufficient mulch shall be supplied by Contractor at no additional cost to District.**

This item will not be included in the contract amount and shall be invoiced separately the month after service is rendered. Contractor shall provide a price per cubic yard and estimated quantities to be installed per top dressing (based on his own field measurements) and shall submit with bid.

The District reserves the right to subcontract out any and all mulching events.

PART 6

ANNUAL INSTALLATION

Planting of Annuals. After prior approval by the Board of Supervisors, Contractor shall replace approximately **3,200** annuals per planting in **4" pots up to four (4) times per year** in designated areas and maintain annuals to ensure a healthy appearance. The Contractor will have the type of annual to be installed pre-approved by the District or its representative in writing. An Annual Options Presentation for the entire year stipulating plant options and timing for each rotation shall be submitted to the District shortly after execution of contract in order for the District or its representative to select annual choice(s). Annuals shall be hand watered at the time of installation. The Contractor will remove dead or dying annuals before the appearance of such annuals could be reasonably described as an eyesore. If the beds are left bare prior to the next planting, the Contractor will keep such beds free of weeds at all times until the next planting rotation occurs. Timing shall be centered on a holiday rotation being planted no later than the end of the first week of December and rotate accordingly every three months. (Jan., April, July, and Oct.)

Annual installation price shall include the removal of all dead annuals prior to placing new plants, regular dead-heading, necessary soil adjustments, soil additives, fungicides and monthly slow-release nutritional requirements at no additional cost to District. Contractor shall replace at his expense any annual that dies, fails to thrive or is damaged by insects/disease. Contractor shall also include in the spring rotation (March) at no additional cost to District, a major renovation of all annual beds. A potting mix specifically blended for annuals shall be used at this time and shall be replenished as necessary prior to each changeout throughout the year. **All annual beds shall be raised at least eight inches and covered with a layer of Pine Fines 1" thick. All this shall be provided at no additional cost to the District.**

This item will not be included in the contract amount. Contractor shall provide a price per 4" plant as requested and shall submit with bid. This work shall be invoiced separately in the month after service is rendered. Annuals shall include the following:

December through March

A combination of pink petunias, dusty miller and holiday poinsettias. Replace Poinsettias with Dwarf(Sonnet, Snapshot or similar) snapdragons after the holidays or when the poinsettias decline

April through June

July through November
