Subject: Request for Approval to Connect Private Property Fence(9212 Old Spanish Rd, Tampa, FL 33647) to Existing CDD Fence
Date: Thursday, July 16, 2026 8:24:53 PM
Attachments: [Survey and Fence plan.pdf](#)

Dear CDD Manager,

I am writing to respectfully request the Community Development District's approval to install the fence on my property, located at 19212 Old Spanish Rd, Tampa, FL 33647 to the existing CDD-owned fence adjacent to my lot.

The purpose of this request is to complete the enclosure of my backyard while maintaining a clean, secure, and aesthetically consistent appearance with the surrounding community. The proposed fence connection will be professionally constructed using materials and a design that are compatible with the existing CDD fence and will comply with all applicable community standards and local regulations.

I understand that the existing fence is owned and maintained by the Community Development District. I will ensure that the proposed connection does not compromise the structural integrity of the existing fence or interfere with the CDD's access for inspection, maintenance, or future repairs. I am also willing to comply with any conditions or requirements the CDD may establish as part of its approval.

A copy of the property survey, fence plan, and fence specifications are attached for your review. If any additional documentation or information is required to facilitate your evaluation of this request, I will be pleased to provide it promptly. I will also obtain any required approvals from the Homeowners Association or Architectural Review Committee before beginning construction.

I respectfully request your consideration and approval of this proposal. Thank you for your time and attention to this matter. I appreciate your consideration and look forward to your response.

Sincerely,
Omkar Veluvolu

MEMORANDUM

To: Patricia Thibault, District Manager

From: Greg Woodcock, Stantec

Project: 19212 Oak Spanish Road– Fence/Easement Review

Date: July 17, 2026

Stantec reviewed a request for a proposed fence at 19212 Old Spanish Road for feasibility within property constraints. Based on our review of the lot survey, plat information and physical characteristics of the site, there is an existing fence on the boundary between 19212 Old Spanish Road and Tract B (open space) owned by the CDD. The request is to construct a fence at the rear of the lot adjacent to the existing CDD fence and connecting to the fence on the neighboring lot. Connections to the two existing fences would also occur near the front of the house to enclose the backyard. I would recommend entering into an encroachment agreement with the property owner prior to fence installation as the CDD fence is likely on the property line or just inside the CDD property line. Maintenance responsibilities should be outlined in the encroachment agreement as the CDD will not have access to repair the fence on the inside of residents property.

Proposal for ADA Detectable Warning Mat Repair and Sidewalk Restoration

Prepared For: K-Bar Ranch II CDD

Contractor: Advanced Drainage Solutions (ADS)

Date Created: 07/27/2026

Proposal No. : 1300

Project Location: K-Bar Ranch II

Project Overview & Scope of Work

Repair damaged or missing ADA detectable warning mats at designated locations identified in the Stantec report. Work includes removal of existing damaged surfaces, installation of new compliant detectable warning mats, replacement of select damaged sidewalk sections, debris disposal, and restoration of affected areas to provide safe, accessible pedestrian pathways.

1. Remove damaged detectable warning surfaces and prepare the existing concrete substrate for installation.
2. Furnish and install new ADA detectable warning mats at damaged or missing locations in accordance with applicable FDOT and ADA requirements.
3. Remove and replace damaged sidewalk concrete where specifically identified in the report.
4. Match the existing mat color, configuration, and adjacent concrete finish as closely as commercially practical.
5. Haul away and properly dispose of demolition debris, then clean and restore disturbed work areas.

RETURN TO AGENDA

Stantec visited the K-Bar 2 CDD to review reports of standing water on the sidewalks. During our onsite review we noted areas of standing water or mildew starting to form due to standing water. The runoff from the sidewalk is designed to flow to the roadway. Over time the existing turf has grown higher than the sidewalk prohibiting the water from the sidewalk to discharge to the roadway as designed. Our recommended repair is to install a concrete flume from the sidewalk to the roadway to allow the standing water to discharge to the roadway. Below is a detail showing the flume for reference.

K-Bar Ranch CDD II

July 2026 Aquatics Management Update

Aquatic conditions across the Greater Tampa Bay area remain typical for mid-summer. Warm water temperatures, long daylight hours, and periodic afternoon thunderstorms continue to promote increased biological activity in ponds. Crews are seeing seasonal growth of shoreline vegetation, including torpedo grass, alligator weed, pennywort, sedges, and cattails, along with isolated patches of filamentous algae. Routine maintenance treatments are keeping these issues under control before they become widespread.

Recent rainfall has helped stabilize pond water levels in many areas after a relatively dry start to the month. While localized heavy thunderstorms have produced significant rainfall in some neighborhoods, totals have varied considerably across the region, which is common during Florida's summer wet season. SWFWMD continues to report highly variable rainfall from one monitoring station to another. ([SW Florida Water Management](#))

July Weather (Month-to-Date)

- **Rainfall:** Approximately **4–7 inches** across much of Hillsborough and Pasco Counties, depending on location, with some isolated areas receiving considerably more from localized storms. ([SW Florida Water Management](#))
- **Temperature Range:**Low: ~74°F High: ~96°F ([Iowa Environmental Mesonet](#))

Seasonal Notes

- Warm water temperatures continue to increase aquatic plant and algae growth rates.
- Afternoon thunderstorms provide temporary cooling and water level recovery but also deliver nutrient runoff that can stimulate algae blooms.
- Spot treatments remain the most effective approach during the growing season, allowing desirable vegetation to remain while controlling nuisance species.
- Continued use of pond dye help reduce excessive algae production throughout the summer.

Resident Reminder: Please help protect our ponds by keeping fertilizer at least **10 feet** away from the shoreline, preventing grass clippings and leaves from entering storm drains, and picking up pet waste. These simple practices significantly reduce nutrient loading and help maintain healthier ponds year-round.

Aquatics Report - July

To provide a quick snapshot of each pond's overall health, we have implemented a **1–5 Pond Condition Rating**. This score reflects current conditions based on several factors, including algae levels, water clarity (turbidity), seasonal water level, shoreline vegetation, nuisance aquatic plant growth, erosion, debris, and overall appearance. Ratings account for normal seasonal changes, so temporary conditions such as heavy rainfall or drought are considered when evaluating each pond.

5 Excellent Pond is clean, balanced, and requires only routine maintenance.

4 Good Minor seasonal issues are present but are well managed through routine service.

3 Fair Noticeable algae, vegetation, turbidity, or water level concerns require additional monitoring or treatment.

2 Poor Significant maintenance or water quality issues are impacting pond appearance or function.

1 Critical Severe conditions requiring immediate corrective action to restore pond health or function.

The Following matters are excluded from the Work, unless specified in writing to the contrary:

- **This Proposal price is valid for Thirty (30) days. We reserve the right to modify pricing after that**

time to reflect current market prices.

- Site work is excluded unless specified in writing within the Proposal. Site should be at finished grade (within 1" of final grade), with all soils in sod and planting areas to be loose, not compacted, and ready to install landscape material. If site is not at finished grade, Contractor reserves the right to delay until site is properly prepared.
- Removal of base material and/or aggregate material within all landscape planting areas, sod areas and other green space areas that impedes or impacts proper planting of plant material and sod.
- Soil replacement where base material and/or aggregate material was removed for proper planting
- Drainage: Should the Client's property be the lowest elevation in relation to surrounding property or buildings, the Contractor reserves the right to retain an expert to evaluate and propose drainage solutions. All costs for engineering services, as well as the actual drainage work will be at the Client's expense. Unless the Client has a detailed Topographical survey completed, the above clause may come into effect.
- Soil, Sod and/or Mulch quantities are estimates only. They do not account for disturbed construction areas or other fluctuations. Invoices will reflect actual quantities used at proposed price per unit.
- Conduit and connections for electrical, gas, and all other utilities and services
- Site Unknowns: Including, but not limited to, sub-surface conditions/obstacles that create unforeseen labor, equipment, material, or disposal charges
- MOT for temporary traffic control
- Any Irrigation or utility trenching thru roads, road base, concrete, or rock will incur additional costs
- Any cutting or repairing of any hard surface such as asphalt, concrete, pavers or curbs for irrigation or landscape
- We need 72 hours' notice prior to road base material or concrete work is installed so that sleeves and/or road bores are installed
- Backflow Connection
- Water source for irrigation is based on specifications at the dedicated meter of the location marked on irrigation plan sheet. If a different location of the dedicated water source is established during construction a change order will be entered into to adjust for the costs associated with the new route for mainline and connections.
- Man hours required to find installed buried irrigation sleeves or irrigation piping in areas where asphalt, concrete, curbs, or other hard surfaces are installed prior to completing the irrigation system and where markings or stubs have been placed to show location of irrigation sleeves or piping and these markers have been damaged, buried, or removed by others.
- Additional man hours required to maintain plant material and/or sod of a landscape and irrigation installation project that:

- Warranty on transplanted plant material from the project site
- Warranty on plant material that is not rated to grow in established USDA plant hardiness growth zone(s)

Procedure for Extra Work, Changes and Escalation

- If it shall become necessary for the Contractor to make changes in any designs, drawings, plans, or specifications for any part of the project or reasons over which we have no control, or we are put to any extra work, cost or expense by reason of any act or matter over which it has no

control, the Customer will pay to the Contractor a fee for such changed or extra Work calculated on a time and materials basis. All changes to Work or pricing or the terms of this Agreement will be read and understood within the context and meanings of this Agreement unless stated explicitly to the contrary.

- Change Order: The quantities or specifications of material as outlined in the Proposal could be adjusted at any time with approval in the form of a signed Change Order. Change Orders will be executed using current market prices

Escalation Clause

- In the event of significant delay or price increase of material, equipment, or energy occurring during the performance of the contract through no fault of the Construction Manager, the Contract Sum, time of completion or contract requirements shall be equitably adjusted by Change Order in accordance with the procedures of the Contract Documents. A change in price of an item of material, equipment, or energy will be considered significant when the price of an item increases 5 percent between the date of this Contract and the date of installation

Warranty and Tolerances

- Payments Received: The Warranty for the contract is only valid if payment is received in full on acceptance of the work
- Diligence: The Contractor agrees to carry out its Work diligently and to provide sufficient supervision and inspection of its staff and subcontractors and that its work will be of proper and professional quality, and in full conformity with the requirements of the contract
- Competence: The Contractor warrants that it is competent to perform the Work and that it has the necessary qualifications including knowledge and skill with the ability to use them effectively.
- Site Unknowns: It is the responsibility of the Client or the Client's Representative to fully inform the Contractor of all the information regarding site unknowns that may include difficult buried materials, cables, and pipes, tree stumps, drainage or water table issues, rock, and shale sub surfaces and/or other impediments, issues or factors that could otherwise impact the quality, cost and timeliness of project completion. Failure to notify the Contractor may lead to additional costs to the Client (at the Contractor's discretion) and schedule time not included in the proposal and may require changes in design and construction to overcome such problems – all for which the

Client will be responsible. Client can avoid such risks by permitting the Contractor to do appropriate soil and ground tests, review the site, and to secure additional required site information from appropriate government and other authorities.

- Damaged Utilities: Should damage occur to utilities during construction, the Contractor is only liable for the cost of the repair. the Contractor is not liable in any way for inconvenience to the Client caused by damage to the utilities
- Damage to neighbors buried utilities, on the Client's property, are the responsibility of the Client
- Damage to installed material (plants, trees, sod, etc.) by foot traffic, machinery, equipment, other trades, owner neglect or acts of nature will be excluded from any warranty and will not be replaced at the cost of Contractor
- Damage due to pest infestation is excluded from warranty and any damaged material will not be replaced at the cost of the Contractor. If, however, the Contractor has a separate maintenance contract with the client, pest control would fall under that contract and would be subject to those warranty parameters.
- Damage due to improper watering after final acceptance will not be replaced at the cost of the Contractor

**Material
Tolerance**

- Wood: Pressure treated wood cannot be guaranteed against warp age, checking, or cupping.
- Stone: Natural stone has color variations that vary from stone to stone. In addition, mineral deposits such as lime, iron, etc. can change the stone and even bleed. This is the nature of the product, and the Client accepts this as a natural and acceptable quality of the stone
- Metal: Metal, which is not galvanized, is not guaranteed from rusting commencing immediately after installation
- Concrete: Spider cracks (hairline stress-fractures) are considered a normal characteristic of all types of concrete. Concrete may crack substantially over time due to proximity of tree roots.
- Warranty Time Period: The Contractor warrants all construction and installation for a period of one (1) year, providing that they have been maintained properly. All construction materials are subject to manufacturer's specific warranties/guarantees. Planting is warranted for one (1) year if there is an approved irrigation system
- Client Responsibilities: The Client recognizes and agrees that they have a responsibility to maintain constructions, plants, bushes, trees, and other installations in keeping with standard quality maintenance requirements for the Warranty to remain in effect. Failure to properly maintain materials or horticulture installations will void the warranty. Client further recognizes and agrees that damage to construction, materials, horticulture elements and other warrantable items of the project will not be warranted if the damage or loss is due to elements beyond the control of the Contractor. For example, flooding eaves, troughs that damage plants, fallen branches, animal caused damage, damaged/ burst irrigation or drainage pipes that were not maintained properly, use of improper chemicals, improper maintenance, extreme or unusual weather conditions, and similar and/or related situations – void all warranties provided by the Contractor
- Use of Client Selected and Approved Substandard Materials: Client recognized and agrees that if the Client has chosen and approved the use of substandard materials for any application that the one-year warranty will be void or otherwise limited in writing on those items so impacted but will remain in effect for all other elements of the project not impacted directly or indirectly by use of substandard materials. the Contractor will notify in writing to the Client any material that the Client has selected that would negatively impact the one-year warranty of the Contractor – prior to purchasing and/or installing such materials
- Material Grades: The Client recognizes that all materials come in a range of grades of quality and finishes, and that natural materials are not perfect. Natural wood has knots, and other natural materials have variability in color due to a wide range of factors, and that sample while useful in material selection decision-making, cannot be expected to accurately represent the total completed installation. The Contractor shall endeavor to enable the Client to see or understand the representative range of color, texture, and related of all materials installed on a project, however, acceptable Florida Grades and Standards will be used for the final selection of those materials. Once the selection has been approved by the Client, the Client will be responsible for all costs associated with changing any given material should the Client change their mind during or after material is purchased or installed.
- Plant specified height and width are used as primary sizes for sourcing plant material. This may result in minor deviation from container and caliper size specifications.

Monthly Field Report

*I believe all requests for attention in July were addressed
Overall look of the community was clean, the color is good, weeds are not excessive.*

There are a number of if not the majority of the Village monuments that have Firebush in front of the lettering. None of them are doing well, whether it's fallout from the frost or the island soil. Regardless it's the wrong plant for that location. Firebush is a Florida native plant that wants to grow wild, not be kept to 18".

Redwood Point

- Seasonal Color is good
- Turf maintained
- Pond weeds addressed
- Some visible crack weeds need to be addressed
- Hole where the Oak tree used to be, on the outbound side
 - Is the intent to replace the tree or fill the hole?

Hawk Valley

- Season color is good
- Hedges trimmed
- Turf maintained
- Edging required

Main Entry

As noted previously:

- Trees and islands were / are excessively mulched
- This may cause an issue for the trees in the future. For the islands, the question becomes are the plants in dirt or mulch? Beds may need to be rehabbed, stripped and started over.
 - Entry is clean
 - Seasonal color is good
 - Edging required
- Why is there a void in the middle of the Pittosporum?

Gilded Woods

- As the summer rain continues, turf color and thickness improve
 - Hedges look healthy
 - Crape Myrtles are flowering
- Pond bank weeds were addressed

Eagle Creek

- The entry is maintained
- Color and turf improving with the rain
 - Perimeter hedges healthy
 - Island hedges wispy
- Turf continues to improve, filling in
 - Shrubs are healthy
- Crape Myrtle on the inbound side have not recovered

Sundrift East

- Turf condition improved
- Hedges are not so improved
- Strange mowing around the pond – was it intentionally let go, to go to seed?
 - Runners in tree beds visible
 - Monument Shrubs week
- Outbound turf and hedges have great color
 - Edging looks good
 - Crack weeds are present

Sundrift West

- Inbound sides look good
- Monument hedge weak
- Outbound turf struggles because of grading, holding excess water

Mistflower

- Turf is maintained
- Color is good
- Edging required
- Tree lifting / trimming will need attention soon

Briarbrook

- Turf and shrub color are good
- Center island plants are better than most

Old Spanish

- Turf color is good
- Perimeter hedges have good color, manicured
- Center island Crape myrtles blooming
 - Shrubs weak

Pool Area

- Trees need lifting
- What leaning tree? Nice work
- Limbs over hanging the fence have been removed
- Weeds inside the pool equipment need addressing
- Mimosa, great for a lawn party, not for the lawn. It needs to be treated
 - Palms trimmed
- 1 may be losing its head

Amenity Island

- Reclinata pruned
- Flax lily clean
- Excess water draining out of the island through curb cuts
 - Is it rain or irrigation?
- Turf continues to improve
 - Fill in, thicken up
 - Hedges trimmed
 - Some edging required
 - Seasonal color is good
 - Oleander are blooming
- Maxi jets on the annuals make a difference

Mossy Pine

- Turf and shrubs continue to improve
- Perimeter Crape Myrtles struggling

 - We are going through quite a bit of water here. Pending how much we keep having to spend on refilling the water, we may want to investigate still running a water line
- Benches
 - Will be ordered once slabs are added
- Gates
 - We'd like to propose leaving the gates for the villages held open from 7a-6p each day to reduce wear and tear
 - Received test arm for new branded gate arm that is only \$200
 - Has been installed at Mossy Pine entrance for almost a couple weeks. No complaints to this point.
 - The LED function works much better on this arm during the evening rather than during the day. That's the biggest difference
 - Amazon Key contract counsel has approved and needs to be signed by Chair/VC
- Complete IT
 - Repairs from the quarterly maintenance approval began at the end of the week of 8/3. They are still onsite completing repairs as we finalize this report

- Security
 - Have provided security with written direction on the Right of Way to stay between for tagging vehicles
 - Security will have separate report with their analytics of all incidents, maintenance reports, and vehicles stickered
 - We are receiving daily reports from the Security company with all information, so we can act appropriately on all happenings

- Recommend additional bike racks to place outside the Courts/Amenity
- A/C was out for two weeks waiting for parts to ship in for the repair
 - There's one more break in the line that we believe, we're doing testing now to find where that break is for another cost to repair
- Two full payments received for gate damage were received!
 - Working on receiving from one other gate strike
- Created welcome packs for new residents to take home with them
- Received positive feedback about security, helping oversee some of the 'hang out' spots, being a visual deterrent
- Have seen an increase in do not tow requests since stickering has started
- Have notified K Bar I of damage to their property regarding signage and lighting
- Newsletters sent out with stickering information, and rental guidelines and policy
- Rentals Update
 - Rental reminder newsletter scheduled for 8/13
 - We are finding residents renting the facility in their name as if it's their event, then letting their friends host the party to get cheaper rental rates
 - We had several rentals break rules the past few weeks, with one willingly admitting to breaking the rules, that he's not worried about it, has done it before and we can keep his deposit for going past time
 - We applied the new direction for withholding deposit on these rentals by the type of infraction discussed during the previous meeting

FENCE OUTLET TERMS AND CONDITIONS

CONDITIONS:

1. Fence Outlet shall not be responsible for any site preparation.
2. The Owner/Contractor must place stakes every 50 linear feet, clearly marking any corner and end posts. These stakes should also indicate the anticipated grade changes along the fence and the overall appearance of the fence. Fences exceeding 6 inches above the current grade will require longer posts, which may incur additional costs.
3. The Owner/Contractor must ensure a 10-foot wide, clear and stable path along the fence line. Multiple stable access points must also be provided, or additional ferrying charges may apply.
4. Core drilling, cutting through asphalt, and excavation through rock are excluded from this estimate unless otherwise specified. Any equipment and labor necessary for such tasks will require a change order.
5. The Owner/Contractor must remove any utilities, trees, roots, limbs, or other obstacles that could impede the fence installation.
6. Fence Outlet will assist in identifying the general fence layout upon request; however, Fence Outlet assumes no responsibility for the identifying or verifying property lines and does not guarantee their accuracy. If property pins cannot be located, a current survey or fence placement agreement is strongly recommended.
7. Fence Outlet will locate public underground utilities using standard services but will not be responsible for private or unmarked underground lines.
8. The estimated price includes a single mobilization unless explicitly noted otherwise. Additional mobilizations will be charged accordingly.
9. Site delays (downtime) caused by the Owner/Contractor or any other trade will lead to additional costs.
10. A final walkthrough is mandatory, and any concerns must be raised during this time. Failure to do so may result in remobilization fees.
11. Fence Outlet retains ownership of all materials until full payment is received. In the event of non-payment, the customer grants Fence Outlet the right of access to retrieve unpaid materials after written notice.
12. In the event of cancellation after execution of this agreement, the buyer agrees to reimburse Fence outlet for all the material costs, labor rendered, and up to 50% of the contract value as liquidated damages.
13. Timelines: Fence Outlet will make reasonable efforts to adhere to mutually agreed project timelines. However, timelines may be impacted by permitting, weather, supply issues, or site access delays.
14. Substitutions: If specified materials are unavailable, Fence Outlet may substitute with a product of equal or greater value and similar appearance, with prior approval from the customer.

TERMS:

1. The Fence Outlet terms and conditions must be incorporated into the final contract.
2. Any modifications to the initial agreement, whether in product, terms, or conditions, will necessitate a mutually agreed-upon change order.
3. Retainage payments must be made within 30 days of project completion.
4. Final payment is due within 30 days of project completion. A 1.5% monthly finance charge will be applied to unpaid balances beyond this period.
5. Fence Outlet shall not be liable for delays caused by Force Majeure.
6. Charges will apply for safety training, bonds, and background checks as necessary.
7. Fence Outlet provides a one-year warranty on workmanship. Material warranties are provided by the manufacturer. All warranty claims will be addressed within 5 business days.
8. Installation scheduling requires the following: a fully executed contract, approved site plans, notice of commencement, a 33% deposit for materials, and an approved permit.
9. Progress payments will be billed for projects extending beyond 30 days.
10. The customer agrees to pay all interest, late fees, and reasonable legal or collection costs incurred in the event of nonpayment.
11. Dispute Resolution: In the event of a dispute, both parties agree to make reasonable efforts to resolve the matter amicably. If resolution cannot be reached, both parties agree to engage in mediation before pursuing legal action.

The Parties hereby agree to the terms and conditions set forth in this Agreement and such is demonstrated by their signatures below:

TERMS & CONDITIONS

Estimates are only good for 30 days from quoted and deposit received. A new estimate will need to be signed based on updated material costs if prices go up after 30 days of the estimate and the job has not been installed yet.

10 YEAR LABOR WARRANTY

LIFETIME manufactures material warranty for all vinyl and aluminum fence products

Warranties do not cover acts of nature like hurricanes, tornadoes, trees falling on fence or high enough winds that can damage the fence.

ALL POST SET IN CEMENT

PAYMENT OPTIONS: check, cash, money order (we do except credit/debit cards but a 3% processing fee will be applied). Bounced checks will result in a \$25.00 charge added to your balance.

All Materials remain property of New Tampa Fence until paid in full and will be removed for non payment.

CHANGES AFTER INSTALLATION: The customer is responsible for any changes or charges, if a contractor comes in AFTER the fence is installed to modify the grading, add sod, or install pavers which results in a need to alter gates or fence lines.

WOOD DISCLAIMER: All wood products purchased from New Tampa Fence meet or exceed wood grade rules, however due to the natural tendency of wood to warp, shrink or split, New Tampa Fence implies no warranties on wood materials other than those offered by the manufacturer. Any issues would need to be addressed within 14 days of installation.

Any balance over 30 days for the invoice date will incur a late fee of 1.5% per month. If applicable law requires a lesser charge, the maximum allowable charge under such law will apply.

Rock/Root Clause: If rock or roots are encountered enough to inhibit normal progress customer will bear additional cost(s), at the rate of \$35.00 per man hour, plus cost of concrete & rock removal equipment.

Covenants: Materials are guaranteed to be as specified. All work will be completed in a workmanlike manner according to standard practices. Performance is contingent upon strikes, accidents or delays beyond our control. Additions, alterations or deviations from the above specifications at time of install may result in additional charges of \$250 to the customer.

UNDERGROUND DISCLAIMER: Underground utilities to main box will be marked by Sunshine State One Call and New Tampa Fence will not be responsible for any claims arising from encroachment or damage to utilities. Private utilities need to be marked by homeowner/business. New Tampa Fence will not be responsible for damaged lines that are not marked prior to install.

SPRINKLER & LINES DISCLAIMER: New Tampa Fence is not responsible for damaged underground sprinkler pipes that have been originally installed within 10" of the exterior property lines and sprinkler heads that end up under the fence or on the other side of the fence or property lines. New Tampa Fence will repair lines that are broken in or around the gate openings, fence lines that close back into the house or any lines inside the exterior property line greater than 10" inside property lines.

HOA/CDD DISCLAIMER: New Tampa Fence is not responsible for the cost to move, change and or remove the fence if the HOA/CDD requests due to the homeowner instructions to New Tampa Fence to put the fence up before HOA approval or without approval.

Standard fence installation is for the fence to be within 1"-2" inside property line. Anything other than this would need to be addressed at time of estimate and noted on contract.

FENCE OUTLET TERMS AND CONDITIONS

CONDITIONS:

1. Fence Outlet shall not be responsible for any site preparation.
2. The Owner/Contractor must place stakes every 50 linear feet, clearly marking any corner and end posts. These stakes should also indicate the anticipated grade changes along the fence and the overall appearance of the fence. Fences exceeding 6 inches above the current grade will require longer posts, which may incur additional costs.
3. The Owner/Contractor must ensure a 10-foot wide, clear and stable path along the fence line. Multiple stable access points must also be provided, or additional ferrying charges may apply.
4. Core drilling, cutting through asphalt, and excavation through rock are excluded from this estimate unless otherwise specified. Any equipment and labor necessary for such tasks will require a change order.
5. The Owner/Contractor must remove any utilities, trees, roots, limbs, or other obstacles that could impede the fence installation.
6. Fence Outlet will assist in identifying the general fence layout upon request; however, Fence Outlet assumes no responsibility for the identifying or verifying property lines and does not guarantee their accuracy. If property pins cannot be located, a current survey or fence placement agreement is strongly recommended.
7. Fence Outlet will locate public underground utilities using standard services but will not be responsible for private or unmarked underground lines.
8. The estimated price includes a single mobilization unless explicitly noted otherwise. Additional mobilizations will be charged accordingly.
9. Site delays (downtime) caused by the Owner/Contractor or any other trade will lead to additional costs.
10. A final walkthrough is mandatory, and any concerns must be raised during this time. Failure to do so may result in remobilization fees.
11. Fence Outlet retains ownership of all materials until full payment is received. In the event of non-payment, the customer grants Fence Outlet the right of access to retrieve unpaid materials after written notice.
12. In the event of cancellation after execution of this agreement, the buyer agrees to reimburse Fence outlet for all the material costs, labor rendered, and up to 50% of the contract value as liquidated damages.
13. Timelines: Fence Outlet will make reasonable efforts to adhere to mutually agreed project timelines. However, timelines may be impacted by permitting, weather, supply issues, or site access delays.
14. Substitutions: If specified materials are unavailable, Fence Outlet may substitute with a product of equal or greater value and similar appearance, with prior approval from the customer.

TERMS:

1. The Fence Outlet terms and conditions must be incorporated into the final contract.
2. Any modifications to the initial agreement, whether in product, terms, or conditions, will necessitate a mutually agreed-upon change order.
3. Retainage payments must be made within 30 days of project completion.
4. Final payment is due within 30 days of project completion. A 1.5% monthly finance charge will be applied to unpaid balances beyond this period.
5. Fence Outlet shall not be liable for delays caused by Force Majeure.
6. Charges will apply for safety training, bonds, and background checks as necessary.
7. Fence Outlet provides a one-year warranty on workmanship. Material warranties are provided by the manufacturer. All warranty claims will be addressed within 5 business days.
8. Installation scheduling requires the following: a fully executed contract, approved site plans, notice of commencement, a 33% deposit for materials, and an approved permit.
9. Progress payments will be billed for projects extending beyond 30 days.
10. The customer agrees to pay all interest, late fees, and reasonable legal or collection costs incurred in the event of nonpayment.
11. Dispute Resolution: In the event of a dispute, both parties agree to make reasonable efforts to resolve the matter amicably. If resolution cannot be reached, both parties agree to engage in mediation before pursuing legal action.

The Parties hereby agree to the terms and conditions set forth in this Agreement and such is demonstrated by their signatures below:

Fortis (as defined below) and Customer (as defined below), in consideration of the Total Price, mutual promises contained herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby agreed to, agree to the following Terms and Conditions and any applicable Geographic Terms and Conditions stated in a separate document and incorporated herein by reference (the "Agreement") as of the Effective Date (defined below). General Terms and Conditions are applicable to all Work. Work Specific Terms and Conditions are only applicable to the specific type of Work indicated. Geographic Terms and Conditions are only applicable to the Work where the Site Address is in the relevant geographical area.

Article I - General Terms and Conditions

Definitions

1. As used herein, "Fortis" means Fortis Fire & Safety, Inc., and any of its affiliates, subsidiaries, successors, and acquired entities, including, but not limited to Piper Fire Protection, Fortis Fire & Safety formerly known as CJ Suppression, VFS Fire & Security Services, MeshWrx, Lifesafety Management, Integrated Fire and Security Solutions, Diversified Systems Inc.
2. As used herein, "Work" means the description of the labor, services, materials, items, inspections, or equipment described in the Scope of Work section above.
3. As used herein, "Customer" means the Company listed above.
4. As used herein, "Site Address" means the job location address listed above and any address where Work is performed.
5. As used herein "Total Price" means the total price for the Work listed above.

Payment

6. Customer agrees to pay the Total Price in accordance with the Payment Terms listed above. Failure to pay amounts when due shall give Fortis, in addition to any other available remedies, the right to stop work pending payment of all outstanding amounts and the right to terminate this Agreement and to charge interest at the highest legal rate allowable on delinquent amounts.
7. Should the Customer cancel a scheduled appointment less than 24 hours in advance, then a \$195 rescheduling fee may be charged by Fortis.
8. In the event a technician is dispatched to the work site, as scheduled, but is unable to perform the Services through no fault of Fortis, then Customer agrees to an increase in the Total Price for the actual time lost, travel time and materials. Additionally, any restocking fees assessed against Fortis will be invoiced to the Customer. If a special order was made, the Customer will be invoiced for, and hereby agrees to pay, that cost.

Scope of Work

9. Customer agrees that nothing is included in the Work except for the labor, services, materials, items, inspections, or equipment described in the Scope of Work section above.
10. In addition to any exclusions expressly stated in the description of the Work, Fortis hereby gives notice that it does not undertake an obligation to inspect for compliance with laws or regulations unless specifically provided for in writing. Customer acknowledges that the authority having jurisdiction ("AHJ") may establish additional requirements for compliance with or above local codes. Customer shall be responsible to pay Fortis for any additional labor, services, materials, items, inspections, or equipment required by an AHJ that are not already included in the Work.
11. Unless otherwise stated in the description of the Work, labor, services, materials, items, inspections, or equipment provided by Fortis shall be limited to the codes and standards as may be required by the National Fire Protection Association ("NFPA") and Life Safety 101 but not inclusive of any and all NFPA and Life Safety 101 requirements that are the responsibility of the Customer, property owner or manager. The Work expressly excludes any NFPA and Life Safety 101 requirements that that NFPA or Life Safety 101 indicate are the responsibility of the Customer, property owner, tenant, or property manager.
12. Fortis is not responsible for existing conditions, including, but not limited to, existing municipally controlled conditions, such as water main sizing or maintenance issues, that do not support any planned Work or for verifying that existing conditions will support the planned Work.
13. If conditions are encountered at the Site Address that are (a) concealed physical conditions which differ materially from those indicated in any applicable construction drawings; (b) not readily observable to Fortis; (c) unknown or unforeseeable physical conditions that differ from those ordinarily found to exist and generally be recognized as inherent in construction activities of the character provided for in this Agreement; or (d) hazardous, unsafe, unworkable, or code violations (collectively "Differing Conditions"); and affect or may affect any aspect of the Work of the performance of this Agreement, in the sole judgment of Fortis, Fortis shall notify Customer and subsequent to such notification may (a) if practicable, in the sole judgment of Fortis, complete the original scope of Work; (b) enter into a change order with Customer to address the Differing Conditions; (c) terminate the Work and refund any portion of the Total Price paid, less any costs incurred; or (d) suspend the Work until Customer employs others to remedy the Differing Conditions. foregoing shall be borne by Customer. Fortis has no duty to inspect the Site Address in advance of signing this Agreement or beginning the Work. Visual or virtual inspections for the purposes of providing an estimate or taking measurements shall not constitute an inspection for these conditions or be a waiver of this provision. Differing Conditions include, but are not limited to: rotten, damaged, or unusable wood, fascia, or structural components; pre-existing building code violations; zoning violations; discovery of asbestos-containing products; mold; or termites.

Delays and Force Majeure

14. Fortis shall not have any liability for damages or cost increases as a result of inclement weather; natural disasters; disease; pandemic; epidemic; microbursts, hurricanes and their attendant watches and warnings; tropical storms and their attendant watches and warnings; tornadoes and their attendant watches and warnings; floods and their attendant watches and warnings; blizzards and their attendant watches and warnings; strikes; civil unrest; war; terrorism; blackouts; fire; delays in common carriers; government or municipal actions or omissions, including, but not limited to, the passage, amendment, or repeal of statutes, codes, ordinances, or regulations; changes to the National Electrical Code or any fire or life safety related code; Customer acts, omissions, or negligence; acts or omissions of subcontractors/contractors/material suppliers; incorrect material deliveries or installations; missing or damaged parts, pieces, or elements of materials; acts or omissions of design professionals; unavoidable casualties beyond Contractor's control; events or occurrences beyond Contractor's control; building department delays, actions, or omissions; material shortages; and/or labor/subcontractor shortages. Fortis shall have no responsibility for cost increases in labor, services, materials, items, inspections, or equipment attributable to any of the foregoing, and/or attributable to changes in shipping costs or tariffs, and Customer hereby agrees to pay for any such increases.

Customer Representations, Warranties, Acknowledgments, and Responsibilities

15. Customer hereby represents that it is authorized to enter into this Agreement and has the funds necessary to pay the Total Price. Customer also hereby represents that it is the fee simple owner of the Site Address, or that if it is not, it is acting as an agent for the fee simple owner of the Site Address such that Fortis is in contractual privity with the fee simple owner of the Site Address. Customer warrants and covenants that the execution of this Agreement and the terms contained herein do not violate the provisions of any other agreement which Customer may have made.

16. Customer agrees that he/she has a duty to cooperate with Fortis with regard to executing documents as needed for the purpose of completing the Work, including executing notices of commencement or building permit documents. Customer also agrees to be available at the Site Address as needed to provide access for the performance of the Work and inspections of the Work. Customer also agrees not to remove or hide any posted permit placard.

17. CUSTOMER ACKNOWLEDGES AND UNDERSTANDS THAT FORTIS IS NOT AN INSURER. THE AMOUNTS FORTIS CHARGES CUSTOMER ARE NOT INSURANCE PREMIUMS. SUCH CHARGES ARE BASED UPON THE VALUE OF THE SERVICES, SYSTEM AND EQUIPMENT FORTIS PROVIDES AND ARE UNRELATED TO THE VALUE OF CUSTOMER'S PROPERTY, ANY PROPERTY OF OTHERS LOCATED IN CUSTOMER'S PREMISES, OR ANY RISK OF LOSS ON CUSTOMER'S PREMISES.

18. FORTIS' WORK DOES NOT CAUSE AND CANNOT ELIMINATE OCCURENCES OF THE EVENTS THEY ARE INTENDED TO DETECT OR AVERT. FORTIS MAKES NO GUARANTY OR WARRANTY, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, THAT THE WORK SUPPLIED WILL DETECT OR AVERT SUCH EVENTS OR THE CONSEQUENCES THEREFROM. ACCORDINGLY, FORTIS DOES NOT UNDERTAKE ANY RISK THAT CUSTOMER'S PERSON OR PROPERTY, OR THE PERSON OR PROPERTY OF OTHERS, MAY BE SUBJECT TO INJURY OR LOSS IF SUCH AN EVENT OCCURS. THE ALLOCATION OF SUCH RISK REMAINS WITH CUSTOMER, NOT FORTIS. INSURANCE, IF ANY, COVERING SUCH RISK SHALL BE OBTAINED BY CUSTOMER. FORTIS SHALL HAVE NO LIABILITY FOR LOSS, DAMAGE OR INJURY DUE DIRECTLY OR INDIRECTLY TO EVENTS, OR THE CONSEQUENCES THEREFROM, WHICH THE SYSTEM OR SERVICES ARE INTENDED TO DETECT OR AVERT. CUSTOMER SHALL LOOK EXCLUSIVELY TO ITS INSURER AND NOT TO FORTIS TO PAY CUSTOMER IN THE EVENT OF ANY SUCH LOSS, DAMAGE OR INJURY. CUSTOMER RELEASES AND WAIVES FOR ITSELF AND ITS INSURER ALL SUBROGATION AND OTHER RIGHTS TO RECOVER FROM FORTIS ARISING AS A RESULT OF PAYING ANY CLAIM FOR LOSS, DAMAGE OR INJURY OF CUSTOMER OR ANOTHER PERSON.

19. IF NOTWITHSTANDING THE PROVISIONS OF THESE SECTIONS PROVIDED, FORTIS IS FOUND LIABLE FOR LOSS, DAMAGE OR INJURY UNDER ANY LEGAL THEORY DUE TO A FAILURE OF SOME OR ALL OF THE WORK IN ANY RESPECT, ITS LIABILITY SHALL BE LIMITED TO A SUM EQUAL TO 10% OF THE TOTAL PRICE OR \$1,000, WHICHEVER IS GREATER, AS AGREED UPON DAMAGES AND NOT AS A PENALTY, AS CUSTOMER'S SOLE REMEDY. THIS WILL BE THE SOLE REMEDY BECAUSE IT IS IMPRACTICAL AND EXTREMELY DIFFICULT TO DETERMINE THE ACTUAL DAMAGES, IF ANY, WHICH MAY RESULT FROM FORTIS'S FAILURE TO PERFORM ANY OF ITS OBLIGATIONS UNDER THIS AGREEMENT. IF CUSTOMER REQUESTS, FORTIS MAY ASSUME GREATER LIABILITY BY ATTACHING A RIDER TO THIS AGREEMENT STATING THE EXTENT OF FORTIS'S ADDITIONAL LIABILITY AND THE ADDITIONAL CHARGES CUSTOMER WILL PAY FOR FORTIS'S ASSUMPTION OF SUCH GREATER LIABILITY. HOWEVER, SUCH ADDITIONAL CHARGES ARE NOT INSURANCE PREMIUMS AND FORTIS IS NOT AN INSURER EVEN IF IT ENTERS INTO SUCH A RIDER.

20. THE PROVISIONS OF THESE SECTIONS SHALL APPLY NO MATTER HOW THE LOSS, DAMAGE OR INJURY OR OTHER CONSEQUENCE OCCURS, EVEN IF DUE TO FORTIS'S PERFORMANCE OR NONPERFORMANCE OF ITS OBLIGATIONS UNDER THIS AGREEMENT OR FROM NEGLIGENCE, ACTIVE OR OTHERWISE, STRICT LIABILITY, VIOLATION OF ANY APPLICABLE CONSUMER PROTECTION LAW OR ANY OTHER ALLEGED FAULT ON THE PART OF FORTIS, ITS AGENTS OR EMPLOYEES. IF ANY OTHER PERSON, INCLUDING CUSTOMER'S SUBROGATION INSURER, MAKES ANY CLAIM OR FILES ANY LAWSUIT AGAINST FORTIS IN ANY WAY RELATING TO THE SERVICES, SYSTEM OR EQUIPMENT THAT ARE THE SUBJECTS OF THIS AGREEMENT, THEN CUSTOMER SHALL INDEMNIFY AND HOLD FORTIS HARMLESS FROM ANY AND ALL SUCH CLAIMS AND LAWSUITS INCLUDING THE PAYMENT OF ALL DAMAGES, EXPENSES, COSTS AND ATTORNEYS' FEES.

21. THE PROVISIONS OF THESE SECTIONS SHALL APPLY TO AND BENEFIT FORTIS AND ITS AGENTS, EMPLOYEES, CONTRACTORS, SUBSIDIARIES, AFFILIATES, PARENTS (BOTH DIRECT AND INDIRECT). IF THIS AGREEMENT PROVIDES FOR A DIRECT CONNECTION TO A FIRE DEPARTMENT OR OTHER ORGANIZATION, THEN THAT DEPARTMENT OR OTHER ORGANIZATION MAY ALSO INVOKE THE PROVISIONS OF THESE SECTIONS AGAINST ANY CLAIMS DUE TO ANY FAILURE OF SUCH DEPARTMENT OR ORGANIZATION.

Default & Dispute Resolution

22. Customer and Fortis agree that any default by Customer under any Agreement between it and Fortis may be treated by Fortis as a default under any or

Article V – PFAS Warning & Rider

70. The terms and conditions contained in this Article only apply to Work, or a portion thereof, where PFAS exists or will exist at the Site Address.

71. The fire-fighting foam type specified for use or already in use at the Site Address contains compounds that utilize chemicals belonging to the per- and polyfluoroalkyl substances (PFAS) family. The U.S. Environmental Protection Agency has recently designated certain PFAS chemicals as hazardous, which includes those found in certain fluorinated foam concentrates. These chemicals are considered persistent, both in the environment and within the human body, and exposures to certain PFAS may lead to adverse human health conditions.

72. Operation of the foam system without proper controls may result in the release of a hazardous substance under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), hazardous waste under the Resource Conservation and Recovery Act (RCRA), or similar designation under federal, or state environmental laws. These regulations may require strict and onerous compliance for containing spills, runoff, and disposal of any effluent or contaminated system component.

73. Fortis, as a required component of a new foam system installation, must perform acceptance tests to prove correct functionality of the foam proportioning system. Absent specific system types which allow for operational testing without creating foam discharge that are above and beyond project specifications or currently installed components, Fortis will employ the use of a surrogate "foam replacement" test liquid to prove the proportioning system prior to introduction of PFAS-containing foam concentrate into the system components for new installations. Existing installations or future service and testing of foam systems with PFAS will require considerations for PFAS contamination regardless of test method utilized. It is a condition of this Agreement that Customer acknowledges and agrees to this PFAS warning and associated hazards and that this Agreement limits Fortis indemnification requirements solely to its own negligent acts or omissions,

74. Fortis will provide foam system testing activities as stewards of the environment and to maintain compliance with EPA state and local regulations as appropriate. This compliance requires Fortis to capture and contain an effluent discharge from a foam system and affected system components containing PFAS, and to allow for compliant hazardous waste disposal as the responsibility of the Customer as the waste generator. Fortis does not include third-party disposal services as part of its scope of work.

75. Fortis, aside from specific circumstances that necessitate the use of fluorinated foam agents, strongly recommends consideration of alternative foam concentrates that do not contain hazardous PFAS chemicals. In circumstances that necessitate the use of fluorinated agents, Fortis strongly recommends the use of advanced system technologies that mitigate the release of contaminated effluent during services and testing activities, Fortis is willing to help address any questions or comments regarding this warning and alternative solutions.

Article VI - Rider for the Inspection and/or Service of Fluorinated Foam Systems

76. The terms and conditions contained in this Article only apply to Work, or a portion thereof, that consists of providing inspection or service of fluorinated foam systems at the Site Address.

77. This Rider modifies the Agreement with respect to the installation, testing, inspection, service and/or repair of aqueous film forming foam ("AFFF") suppression systems, and/or removal of AFFF and associated hardware and piping associated with converting an AFFF suppression system to non-fluorinated foam system (collectively, the "Services") If any inconsistency exists between this Rider and the Agreement, this Rider will supersede and control. All other terms of the Agreement remain the same.

78. Customer understands and acknowledges that Fortis does not provide and shall not be responsible for the discharge, release, capture, containment, removal, transport or disposal of any AFFF (collectively, "AFFF Disposal") encountered in and/or discharged from Customer's systems relating to the testing of AFFF suppression systems, the performance of the Services, flushing of the system to remove any AFFF and/or removal of hardware and when converting an AFFF suppression system to a non-fluorinated system.

79. Further, Fortis will not perform training or testing activities involving the use, discharge and/or release of AFFF at the Customer's premises. Fortis will

only perform testing activities on AFFF systems using alternative methods or techniques that do not require AFFF consumption. Customer remains solely responsible for any residual AFFF remaining in the system.

80. Customer shall be responsible for and shall engage a third-party on its behalf to perform any AFFF Disposal in accordance with the applicable law. AFFF related materials shall, at all times, remain the responsibility and property of Customer. Customer shall select a disposal site, as necessary, and conduct due diligence on any such disposal facilities. Customer will sign any necessary waste disposal manifest related to the Services. Referrals of waste disposal sites as a courtesy is not intended to or shall be construed as making Company a "generator" of the waste for purposes RCRA or an entity that "arranged for the disposal" of the substances or waste under CERCLA.

81. Customer shall Indemnify and hold Fortis harmless from and against any and all claims, demands and/or damages arising in whole or in part from the use, release, discharge, capture, containment, testing that involves the discharge or release, removal, transport, and/or disposal of any AFFF encountered or discharged from any of the systems and/or during performance of the Services. This indemnification includes any claims under environmental regulations or laws, including but not to CERCLA and RCRA.

82. IN NO EVENT, REGARDLESS OF THE CAUSE OR FAULT AND OR CAUSE OF ACTION WILL FORTIS AND ITS AFFILIATES AND THEIR RESPECTIVE PERSONNEL, SUPPLIERS AND VENDORS BE LIABLE FOR: (A) SPECIAL, INCIDENTAL, CONSEQUENTIAL, PUNITIVE, OR INDIRECT DAMAGES; (B) LOST PROFITS, REVENUES, DATA, CUSTOMER OPPORTUNITIES; (C) BUSINESS INTERRUPTIONS; (D) DATA LOSS OR OTHER LOSSES ARISING FROM VIRUS, RANSOMWARE, CYBERATTACKS OR FAILURES; OR (E) ANY DAMAGES, CLAIMS, DEMANDS, COSTS, OR LOSS RELATED TO THIS AGREEMENT AND THE SERVICES CONTEMPLATED THEREBY IN ANY AMOUNT EXCEEDING THE TOTAL AMOUNT PAID TO THE COMPANY UNDER THIS AGREEMENT.

83. If Fortis's performance of its obligations becomes impracticable due to obsolescence or unavailability of AFFF systems, equipment, or (including component parts and/or materials) or because Fortis or its supplier(s) has discontinued the manufacture or the sale of the equipment (and/or products or are no longer is in the business of providing the Services, Fortis may terminate this Agreement, or the affected portions, at its sole discretion upon notice to Customer.

Rizzetta & Company
3434 Colwell Avenue, Suite 200
Tampa, Florida 33614
sbrizendine@rizzetta.com

To Whom it May Concern:

This firm serves as District Counsel to the K-Bar Ranch II Community Development District (the "District"). On behalf of the District's Board of Supervisors, we are writing to request an explanation regarding certain payments that appear to have been made with District funds without Board authorization during the period when Rizzetta & Company ("Rizzetta") served as the District's management firm.

The District's records indicate that in July of 2018, K-Bar Ranch II Master Association, Inc. (the "Association") entered into a Rust Control Maintenance Agreement with Suncoast Rust Control, Inc. ("Suncoast Rust") for irrigation maintenance services (the "Association Contract"). The Association Contract was executed solely between the Association and Suncoast Rust; the District was not a party to this contract. *See* Association Contract, attached hereto as **Exhibit A**.

In late August and early September 2024, Suncoast Rust contacted the District seeking clarification regarding invoicing for services provided at two separate wells, one serving the District's common areas and another serving the Hawk Valley subdivision. *See* email correspondence between Matt O'Nolan and Suncoast Rust, attached hereto as **Exhibit B**.

Suncoast Rust's correspondence made clear that these wells were distinct, with separate service contracts and different responsible parties. *See* Ex. B.

Despite this distinction, on September 6, 2024, Matt O'Nolan, acting as the District's Manager, instructed Suncoast Rust to send invoices for both wells to the District. As a result, the District began receiving invoices and making payments for services provided under the Association Contract, a contract to which the District was not a party and which the District never signed.

July 1, 2026

Page 2

The District has conducted a review of records held by current District Management. Since September 2024, Suncoast records indicate that the District has expended substantial District funds for services under the Association Contract dating back to February 2024.

The District has not located any documentation showing that the District's Board of Supervisors authorized these expenditures. There does not appear to be any Board resolution, recorded direction, or written agreement that would obligate the District to make payments under the Association Contract.

Accordingly, the District requests a written response from Rizzetta explaining:

- (1) Why did Rizzetta instruct Suncoast Rust to invoice the District for services under the Association Contract, a contract the District is not a party to?
- (2) What authority did Rizzetta believe it had to commit District funds to the Association Contract without Board approval?

Additionally, please provide any records supporting these expenditures, including:

- (1) Any Board resolution, motion, or recorded direction authorizing the District to make any payments to Suncoast Rust pursuant to the Association Contract.
- (2) Any written agreement transferring the Association's payment obligations to the District.
- (3) Any internal communications or guidance Rizzetta relied upon making the decision to instruct Suncoast Rust to invoice the District for services under the Association Contract and/or the decision to pay invoices for services under the Association Contract with District funds.

Please provide your response by **July 16, 2026**. If you have any questions or require further clarification, please contact me at (850) 692-7342 or patrick.obryant@kutakrock.com.

Sincerely,

Patrick S. O'Bryant

- B. Contractor, for itself and other Contractor-related parties, hereby waives any and all claims against the Association, and the property for liabilities, losses, actions, damages, judgments, cost or expanse of whatever nature, including legal counsel fees, incurred by reason of or arising out of any injury to or death of any person(s), damage to property, loss of use of any property, violation of law, or otherwise in connection with (i) the condition of the properties or any facilities thereon, (ii) any event or occurrence on or about the properties or (iii) the acts or omissions of any person, except with respect to the gross negligence or willful misconduct of the Association.

Project Proposal

July:2018

Objective

We strive for excellence, working hard so you won't have to. Using our own brand of cleaners, treatments, and specialized equipment we keep your property pristine. Handling all the details at one flat rate we eliminate red tape and keep your budget predictable.

Problem

There is high iron content in the water used for irrigation. The iron is distributed by the irrigation system and onto everything the irrigation water touches. That creates ugly stains on buildings, sidewalks, common areas, etc. This iron is difficult to remove and even more difficult to prevent.

Solution

Suncoast will install the water treatment equipment at the head of the irrigation system to neutralize the iron in the water before it works its way through the irrigation. This will stop any new rust stains from forming.

Suncoast will then provide a full property cleaning to remove all rust staining. Thereafter a technician will visit your property monthly to refill the tank on the rust prevention system and perform routine maintenance to ensure that the system is functioning properly. While our technician is on site they will also inspect the property for any new staining. Should any staining be found the technician will remove it promptly.

Pricing

- Full service- \$250 per month
- Includes: Initial cleaning, system installation, system maintenance, monthly inspections, water treatment solution, any future cleanings, unlimited service calls.

Good afternoon,

I wanted to clarify that KBar Ranch 2 CDD is contracted for 1,525\$ per month for the common areas. The other area being serviced at a contract price of 685\$ is the area of "Hawk Valley" inside the gates. I've sent invoicing now to both. Any clarification or final say on who is responsible at this time would be excellent.

Best regards,

The lien of the O&M Assessments imposed and levied by this Resolution shall be effective upon passage of this Resolution.

c. **Maximum Rate.** Pursuant to Section 197.3632(4), *Florida Statutes*, the lien amount shall serve as the "maximum rate" authorized by law for operation and maintenance assessments.

3. **DEBT SERVICE SPECIAL ASSESSMENTS.** The District's Board hereby certifies for collection the FY 2027 installment of the District's previously levied debt service special assessments ("**Debt Assessments**," and together with the O&M Assessments, the "**Assessments**") in accordance with this Resolution and as further set forth in **Exhibit A** and **Exhibit B**, and hereby directs District staff to affect the collection of the same.

4. **COLLECTION AND ENFORCEMENT; PENALTIES; INTEREST.** Pursuant to Chapter 190, *Florida Statutes*, the District is authorized to collect and enforce the Assessments as set forth below.

a. **Tax Roll Assessments.** To the extent indicated in **Exhibit A** and **Exhibit B**, those certain O&M Assessments (if any) and/or Debt Assessments (if any) imposed on the "**Tax Roll Property**" identified in **Exhibit B** shall be collected by the County Tax Collector at the same time and in the same manner as County property taxes in accordance with Chapter 197, *Florida Statutes* ("**Uniform Method**"). That portion of the Assessment Roll which includes the Tax Roll Property is hereby certified to the County Tax Collector and shall be collected by the County Tax Collector in the same manner and time as County property taxes. The District's Board finds and determines that such collection method is an efficient method of collection for the Tax Roll Property.

b. **Future Collection Methods.** The District's decision to collect Assessments by any particular method – e.g., on the tax roll or by direct bill – does not mean that such method will be used to collect special assessments in future years, and the District reserves the right in its sole discretion to select collection methods in any given year, regardless of past practices.

5. **ASSESSMENT ROLL; AMENDMENTS.** The Assessment Roll, attached hereto as **Exhibit B**, is hereby certified for collection. The Assessment Roll shall be collected pursuant to the collection methods provided above. The proceeds therefrom shall be paid to the District. The District Manager shall keep apprised of all updates made to the County property roll by the Property Appraiser after the date of this Resolution and shall amend the Assessment Roll in accordance with any such updates, for such time as authorized by Florida law, to the County property roll.

6. **APPROVAL OF PRIOR ACTIONS.** The actions of the Chairman, Vice Chairman, Secretary, Treasurer, Assistant Secretaries, and all District Staff in finalizing the Assessments and Assessment Roll as provided herein are hereby ratified, approved, and confirmed in all respects.

7. **SEVERABILITY; EFFECTIVE DATE.** The invalidity or unenforceability of any one or more provisions of this Resolution shall not affect the validity or enforceability of the remaining portions of this Resolution, or any part thereof. This Resolution shall take effect immediately upon adoption.

PASSED AND ADOPTED THIS 19 DAY OF AUGUST, 2026.

August 13, 2026

To Board of Supervisors
K-Bar Ranch II Community Development District
255 Primera Boulevard, Suite 160
Lake Mary, FL 32746

We are pleased to confirm our understanding of the services we are to provide K-Bar Ranch II Community Development District, City of Tampa, Florida ("the District") for the fiscal year ended September 30, 2026. We will audit the financial statements of the governmental activities and each major fund, including the related notes to the financial statements, which collectively comprise the basic financial statements of K-Bar Ranch II Community Development District as of and for the fiscal year ended September 30, 2026. In addition, we will examine the District's compliance with the requirements of Section 218.415 Florida Statutes. This letter serves to renew our agreement and establish the terms and fee for the 2026 audit.

Accounting principles generally accepted in the United States of America provide for certain required supplementary information (RSI), such as management's discussion and analysis (MD&A), to supplement the District's basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of our engagement, we will apply certain limited procedures to the District's RSI in accordance with auditing standards generally accepted in the United States of America. These limited procedures will consist of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We will not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The following RSI is required by generally accepted accounting principles and will be subjected to certain limited procedures, but will not be audited:

- 1) Management's Discussion and Analysis
- 2) Budgetary comparison schedule

The following other information accompanying the financial statements will not be subjected to the auditing procedures applied in our audit of the financial statements, and our auditor's report will not provide an opinion or any assurance on that information:

- 1) Compliance with FL Statute 218.39 (3) (c)

Audit Objectives

The objective of our audit is the expression of opinions as to whether your financial statements are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles and to report on the fairness of the supplementary information referred to in the second paragraph when considered in relation to the financial statements as a whole. Our audit will be conducted in accordance with auditing standards generally accepted in the United States of America and the standards for financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and will include tests of the accounting records of the District and other procedures we consider necessary to enable us to express such opinions. We will issue a written report upon completion of our audit of the District's financial statements. We cannot provide assurance that an unmodified opinion will be expressed. Circumstances may arise in which it is necessary for us to modify our opinion or add emphasis-of-matter or other-matter paragraphs. If our opinion on the financial statements is other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed an opinion, we may decline to express an opinion or issue a report or may withdraw from this engagement.

We will also provide a report (that does not include an opinion) on internal control related to the financial statements and compliance with the provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a material effect on the financial statements as required by *Government Auditing Standards*. The report on internal control and on compliance and other matters will include a paragraph that states (1) that the purpose of the report is solely to describe the scope of testing of internal control and compliance, and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control on compliance, and (2) that the report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. The paragraph will also state that the report is not suitable for any other purpose. If during our audit we become aware that the District is subject to an audit requirement that is not encompassed in the terms of this engagement, we will communicate to management and those charged with governance that an audit in accordance with U.S. generally accepted auditing standards and the standards for financial audits contained in *Government Auditing Standards* may not satisfy the relevant legal, regulatory, or contractual requirements.

We will also issue a management letter as required by Chapter 10.550, Rules of the Auditor General of the State of Florida. As part of our audit, we will apply financial condition assessment procedures pursuant to Section 218.39(5), Florida Statutes, and Rule 10.556(8), Rules of the Auditor General, and will report, as applicable, whether the District met any of the conditions described in Section 218.503(1), Florida Statutes.

Examination Objective

The objective of our examination is the expression of an opinion as to whether the District is in compliance with Florida Statute 218.415 in accordance with Rule 10.556(10) of the Auditor General of the State of Florida. Our examination will be conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and will include tests of your records and other procedures we consider necessary to enable us to express such an opinion. We will issue a written report upon completion of our examination of the District's compliance. The report will include a statement that the report is intended solely for the information and use of management, those charged with governance, and the Florida Auditor General, and is not intended to be and should not be used by anyone other than these specified parties. We cannot provide assurance that an unmodified opinion will be expressed. Circumstances may arise in which it is necessary for us to modify our opinion or add emphasis-of-matter or other-matter paragraphs. If our opinion on the District's compliance is other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the examination or are unable to form or have not formed an opinion, we may decline to express an opinion or issue a report or may withdraw from this engagement.

Other Services

We will assist in preparing the financial statements and related notes of the District in conformity with U.S. generally accepted accounting principles based on information provided by you. These nonaudit services do not constitute an audit under *Government Auditing Standards* and such services will not be conducted in accordance with *Government Auditing Standards*. The other services are limited to the financial statement services previously defined. We, in our sole professional judgment, reserve the right to refuse to perform any procedure or take any action that could be construed as assuming management responsibilities.

Management Responsibilities

Management is responsible for compliance with Florida Statute 218.415 and will provide us with the information required for the examination. The accuracy and completeness of such information is also management's responsibility. You agree to assume all management responsibilities relating to the financial statements and related notes and any other nonaudit services we provide. You will be required to acknowledge in the management representation letter our assistance with preparation of the financial statements and related notes and that you have reviewed and approved the financial statements and related notes prior to their issuance and have accepted responsibility for them. In addition, you will be required to make certain representations regarding compliance with Florida Statute 218.415 in the management representation letter. Further, you agree to oversee the nonaudit services by designating an individual, preferably from senior management, who possesses suitable skill, knowledge, or experience; evaluate the adequacy and results of those services; and accept responsibility for them.

Management is responsible for designing, implementing and maintaining effective internal controls, including evaluating and monitoring ongoing activities, to help ensure that appropriate goals and objectives are met; following laws and regulations; and ensuring that management and financial information is reliable and properly reported. Management is also responsible for implementing systems designed to achieve compliance with applicable laws, regulations, contracts, and grant agreements. You are also responsible for the selection and application of accounting principles, for the preparation and fair presentation of the financial statements and all accompanying information in conformity with U.S. generally accepted accounting principles, and for compliance with applicable laws and regulations and the provisions of contracts and grant agreements.

Management is also responsible for making all financial records and related information available to us and for the accuracy and completeness of that information. You are also responsible for providing us with (1) access to all information of which you are aware that is relevant to the preparation and fair presentation of the financial statements, (2) additional information that we may request for the purpose of the audit, and (3) unrestricted access to persons within the government from whom we determine it necessary to obtain audit evidence.

Your responsibilities include adjusting the financial statements to correct material misstatements and for confirming to us in the written representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud affecting the government involving (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud could have a material effect on the financial statements. Your responsibilities include informing us of your knowledge of any allegations of fraud or suspected fraud affecting the government received in communications from employees, former employees, grantors, regulators, or others. In addition, you are responsible for identifying and ensuring that the government complies with applicable laws, regulations, contracts, agreements, and grants and for taking timely and appropriate steps to remedy fraud and noncompliance with provisions of laws, regulations, contracts or grant agreements, or abuse that we report.

Management is responsible for establishing and maintaining a process for tracking the status of audit findings and recommendations. Management is also responsible for identifying and providing report copies of previous financial audits, attestation engagements, performance audits or other studies related to the objectives discussed in the Audit Objectives section of this letter. This responsibility includes relaying to us corrective actions taken to address significant findings and recommendations resulting from those audits, attestation engagements, performance audits, or other studies. You are also responsible for providing management's views on our current findings, conclusions, and recommendations, as well as your planned corrective actions, for the report, and for the timing and format for providing that information.

With regard to the electronic dissemination of audited financial statements, including financial statements published electronically on your website, you understand that electronic sites are a means to distribute information and, therefore, we are not required to read the information contained in these sites or to consider the consistency of other information in the electronic site with the original document.

Audit Procedures—General

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit will involve judgment about the number of transactions to be examined and the areas to be tested. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We will plan and perform the audit to obtain reasonable rather than absolute assurance about whether the financial statements are free of material misstatement, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the government or to acts by management or employees acting on behalf of the government. Because the determination of abuse is subjective, *Government Auditing Standards* do not expect auditors to provide reasonable assurance of detecting abuse.

Because of the inherent limitations of an audit, combined with the inherent limitations of internal control, and because we will not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by us, even though the audit is properly planned and performed in accordance with U.S. generally accepted auditing standards and *Government Auditing Standards*. In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements. Our responsibility as auditors is limited to the period covered by our audit and does not extend to later periods for which we are not engaged as auditors.

Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts and may include tests of the physical existence of inventories, and direct confirmation of receivables and certain other assets and liabilities by correspondence with selected individuals, funding sources, creditors, and financial institutions. We will request written representations from your attorneys as part of the engagement, and they may bill you for responding to this inquiry. At the conclusion of our audit, we will require certain written representations from you about your responsibilities for the financial statements; compliance with laws, regulations, contracts, and grant agreements; and other responsibilities required by generally accepted auditing standards.

Audit Procedures—Internal Control

Our audit will include obtaining an understanding of the government and its environment, including internal control, sufficient to assess the risks of material misstatement of the financial statements and to design the nature, timing, and extent of further audit procedures. Tests of controls may be performed to test the effectiveness of certain controls that we consider relevant to preventing and detecting errors and fraud that are material to the financial statements and to preventing and detecting misstatements resulting from illegal acts and other noncompliance matters that have a direct and material effect on the financial statements. Our tests, if performed, will be less in scope than would be necessary to render an opinion on internal control and, accordingly, no opinion will be expressed in our report on internal control issued pursuant to *Government Auditing Standards*.

An audit is not designed to provide assurance on internal control or to identify significant deficiencies or material weaknesses. However, during the audit, we will communicate to management and those charged with governance internal control related matters that are required to be communicated under AICPA professional standards and *Government Auditing Standards*.

Audit Procedures—Compliance

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we will perform tests of the District's compliance with the provisions of applicable laws, regulations, contracts, agreements, and grants. However, the objective of our audit will not be to provide an opinion on overall compliance, and we will not express such an opinion in our report on compliance issued pursuant to *Government Auditing Standards*.

Engagement Administration, Fees, and Other

We understand that your employees will prepare all confirmations we request and will locate any documents selected by us for testing.

The audit documentation for this engagement is the property of Grau & Associates and constitutes confidential information. However, subject to applicable laws and regulations, audit documentation and appropriate individuals will be made available upon request and in a timely manner to a cognizant or oversight agency or its designee, a federal agency providing direct or indirect funding, or the U.S. Government Accountability Office for purposes of a quality review of the audit, to resolve audit findings, or to carry out oversight responsibilities. We will notify you of any such request. If requested, access to such audit documentation will be provided under the supervision of Grau & Associates personnel. Furthermore, upon request, we may provide copies of selected audit documentation to the aforementioned parties. These parties may intend, or decide, to distribute the copies or information contained therein to others, including other governmental agencies. Notwithstanding the foregoing, the parties acknowledge that various documents reviewed or produced during the conduct of the audit may be public records under Florida law. The District agrees to notify Grau & Associates of any public record request it receives that involves audit documentation.

Our fee for these services will not exceed \$5,000 for the September 30, 2026 audit, unless there is a change in activity by the District, which results in additional audit work or if additional Bonds are issued.

Grau & Associates and its subcontractors warrant compliance with all federal immigration laws and regulations that relate to their employees. Grau agrees and acknowledges that the District is a public employer subject to the E-Verify requirements as set forth in Section 448.095, Florida Statutes, and that the provisions of Section 448.095, Florida Statutes apply to this Agreement. If the District has a good faith belief that the Grau has knowingly hired, recruited or referred an alien who is not authorized to work by the immigration laws or the Attorney General of the United States for employment under this Agreement, the District shall terminate this Agreement. If the District has a good faith belief that a subcontractor performing work under this Agreement knowingly hired, recruited or referred an alien who is not duly authorized to work by the immigration laws or the Attorney General of the United States for employment under this Agreement, the District shall promptly notify Grau and order Grau to immediately terminate the contract with the subcontractor. Grau shall be liable for any additional costs incurred by the District as a result of the termination of a contract based on Grau's failure to comply with E-Verify requirements evidenced herein.

We will complete the audit within prescribed statutory deadlines, with the understanding that your employees will provide information needed to perform the audit on a timely basis.

The audit documentation for this engagement will be retained for a minimum of five years after the report release date. If we are aware that a federal awarding agency or auditee is contesting an audit finding, we will contact the party(ies) contesting the audit finding for guidance prior to destroying the audit documentation.

Our invoices for these fees will be rendered each month as work progresses and are payable on presentation. Invoices will be submitted in sufficient detail to demonstrate compliance with the terms of this agreement. In accordance with our firm policies, work may be suspended if your account becomes 60 days or more overdue and may not be resumed until your account is paid in full. If we elect to terminate our services for nonpayment, our engagement will be deemed to have been completed upon written notification of termination, even if we have not completed our report. You will be obligated to compensate us for all time expended and to reimburse us for all out-of-pocket costs through the date of termination. The above fee is based on anticipated cooperation from your personnel and the assumption that unexpected circumstances will not be encountered during the audit. If significant additional time is necessary, we will discuss it with you and arrive at a new fee estimate.

This agreement may be renewed each year thereafter subject to the mutual agreement by both parties to all terms and fees. The fee for each annual renewal will be agreed upon separately.

The District has the option to terminate this agreement with or without cause by providing thirty (30) days written notice of termination to Grau & Associates. Upon any termination of this agreement, Grau & Associates shall be entitled to payment of all work and/or services rendered up until the effective termination of this agreement, subject to whatever claims or off-sets the District may have against Grau & Associates.

We will provide you with a copy of our most recent external peer review report and any letter of comment, and any subsequent peer review reports and letters of comment received during the period of the contract. Our 2025 peer review report accompanies this letter.

We appreciate the opportunity to be of service to K-Bar Ranch II Community Development District and believe this letter accurately summarizes the significant terms of our engagement.
