

BRIDGEWATER OF WESLEY CHAPEL COMMUNITY DEVELOPMENT DISTRICT

Advanced Meeting Package

(*Revised June 30, 2021*)

Regular Meeting

Thursday
July 1, 2021
1:00 p.m.

Location:
Country Walk Clubhouse
30400 Country Point Boulevard
Wesley Chapel, FL 33543

Note: The Advanced Meeting Package is a working document and thus all materials are considered <u>DRAFTS</u> prior to presentation and Board acceptance, approval or adoption.

Bridgewater of Wesley Chapel Community Development District

Board Members

Bridgewater of Wesley Chapel Community Development District

Dear Board Members:

The Regular Meeting of the Board of Supervisors of the Bridgewater of Wesley Chapel Community Development District is scheduled for Thursday, July 1, 2021 at 1:00 p.m. at the Country Walk Clubhouse, 30400 Country Point Boulevard, Wesley Chapel, FL 33543.

Residents have the option of calling into the meeting via Zoom, with the following dial-in info:

Call-in Number: (929) 205-6099 Meeting ID: 810 7281 1817

Passcode: 632209

Link: https://us02web.zoom.us/j/81072811817?pwd=UVA2QjQ5RDIZSWp4WVQxbXJSR3p3dz09

The advanced copy of the agenda for the meeting is attached along with associated documentation for your review and consideration. Any additional support material will be distributed at the meeting.

The balance of the agenda is routine in nature. Staff will present their reports at the meeting. If you have any questions, please contact me. I look forward to seeing you there.

Sincerely,

Christopher J. Cleveland District Manager

Cc: Attorney

Engineer

	EXHIBIT 1

Field Inspection Report June 2021

Bridgewater

- Annuals/flowers installed, mulch is installed, flora and trees trimmed at both main entrances, and at all CDD areas, including at the butterfly park.
- Identified weeds in the annual flower beds at both entrances, also along the hedge line perimeter of Wells Road & Curley Road.
- Identified several areas inside of community with trash/debris, I picked up what I saw. Grass is lively and making a comeback with the recent rains.
- Columns/monuments and aluminum fencing at Bridgegate Entrance and Wells Road entrance are faded and stained.
- Curbs and sidewalks at both entrances and a few other areas have been pressure cleaned, major improvement from before.
- Ponds and banks have some trash, a few algae blooms, a few areas with new torpedo grass, did not see any midge flies.

General Observations

- Awaiting new streets signs to arrive, will install upon arrival
- Actively repairing & adjusting street signs that are leaning/damaged
- Rip Rap work was completed, still working on culverts (Finn Outdoors)
- Obtaining estimates for repairing stucco and replacing caps on columns, in addition to repainting columns
- Obtaining estimates for fencing installation along north perimeter at Glendalough Way
- Obtaining estimates for pressure washing the rest of CDD property
- Obtaining estimates for installing ADA tactile strips in remaining areas

Action Items

Entrances & Monuments

Identified weeds in annual beds & Bushes dying behind monuments at Wells Rd entrance

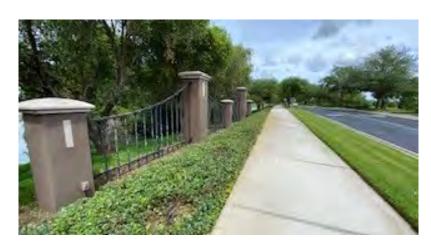

Street sign repairs

Pressure Cleaning Completed

Butterfly Park
Pressure Cleaned gates
Well trimmed, minimal weeds

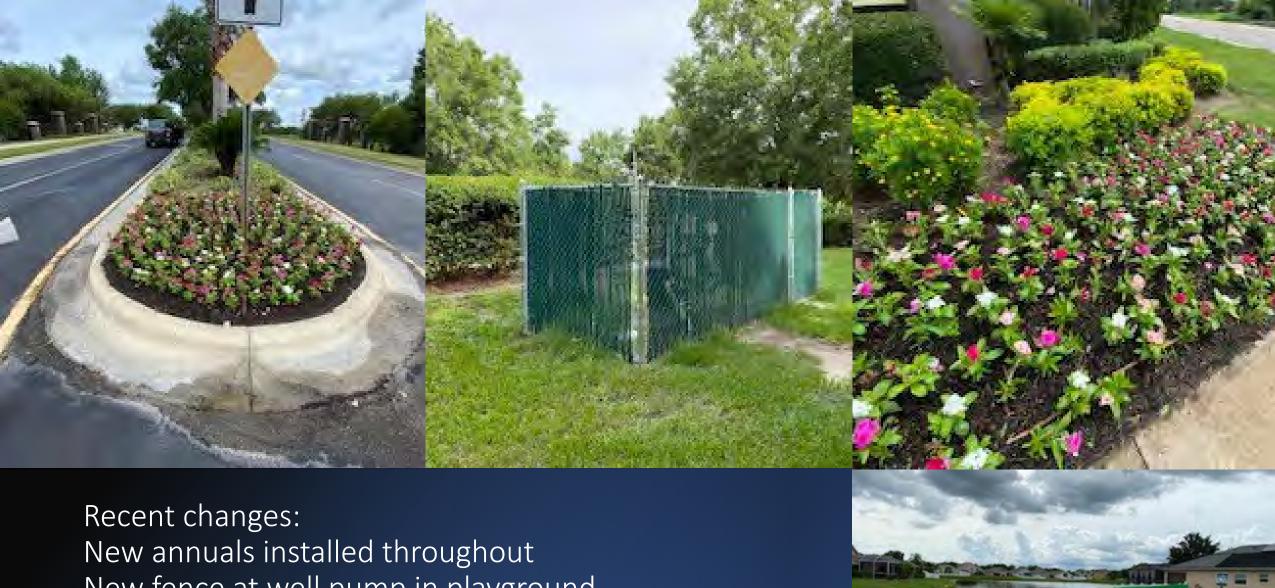

Glendalough Way

- Northern perimeter with Epperson
- People are still cutting through
- Recent rains have caused grass to begin growing and water is setting in bottom of ditch

Barbed wire fence damaged along walk path at <u>Glendalough Way</u> (West)

New fence at well pump in playground

Wastewater drain repair work beginning at pond

#16

Completed Tasks

Rip Rap work completed along south bank of pond # 1

Fence enclosure completed around well pump at playground

First phase of ADA tactile strips completed on "lined sidewalks"

First phase of pressure washing completed on CDD curbs and sidewalks

Verified dog waste stations have been emptied & cleaned each week along with new bags installed

- Consider adding enclosures at each well location in community like the one at the playground
- Consider building a fence along the full length of Glendalough Way and Epperson perimeter/border line
- Install additional dog waste stations, ten more for a total of twenty
- Upgrade lighting(LED) at the monuments/entrances especially along both sides and center of Bridgegate entrance and traffic circle
- Finish pressure washing other CDD areas within community. The first phase of power washing really made a big difference
- Continue installing the ADA tactile sidewalk indicators
- Consider installing mulch, many areas are low and need replenishing

Recommendations

- Consider having debris build up cleaned at inbound lane and Curly Rd. at Bridgegate entrance
- Recommend obtaining estimates to repair pavement damage on outbound lane at Bridgegate entrance
- Recommend barbed wire fence along west side of Glendalough be repaired to prevent injury to patrons along walking path
- Plan to meet onsite with both the landscape manger and the lake management company during the month of July to ensure all areas and issues addressed efficiently

Recommendations

Streets

- Pavement damage on outbound lane at Bridgegate entrance
- Debris is built up at Inbound lane and Curly Rd. at Bridgegate entrance

Area near Curley Rd. & Wells Rd. marked of due to damage/work

Management Summary

The waterway inspection for Bridgewater CDD was completed on June 22nd, 2021 for Ponds #15, 25, 30, 32, 40, 45, 50, 55, and 80A.

Pond #15: Minor planktonic algae present, which is expected to clear within 10-14 days following algaecide application.

Pond #25: No issues observed.

Pond #26: Continues to look good with minimal shoreline weeds present.

Pond #30: Shoreline weeds within buffer area, most of which was identified as torpedograss. Native Pickerel looked great.

Pond #32: Minimal shoreline weeds, most of which identified as pennywort. Algae and submersed growth reduced following treatment. Overall, looked good.

Pond #40: Native plant material accounted for over 95% of observed plant species. Positive herbicide application results noted targeting grasses.

Pond #45: New growth of herbaceous weeds within buffer area. Native vegetation looked good. Minimal new growth of submersed slender spikerush.

Pond #50: Normal growth of herbaceous weeds within buffer area anticipated between treatment periods.

Pond #55: Significant reduction of algae. Minimal sporadic development noted at less than 5% coverage.

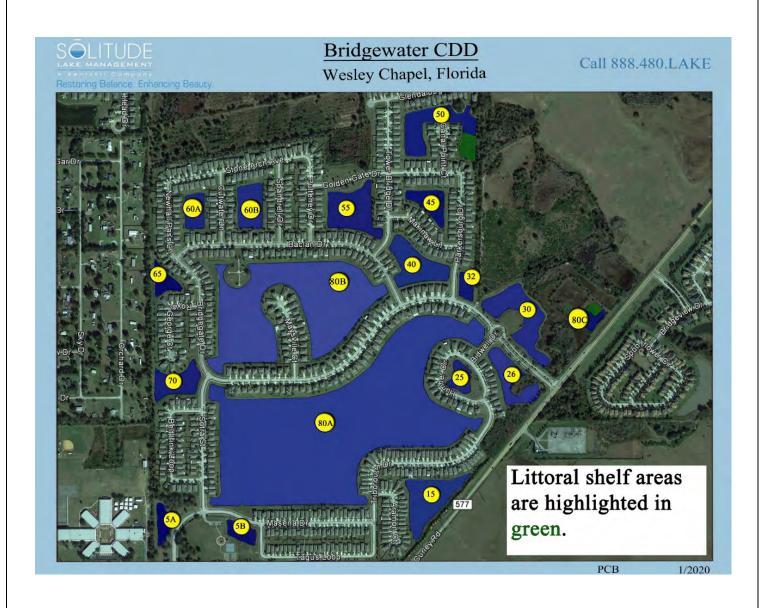

Pond #80A: Grasses within buffer area. Low water clarity.

Thank you for choosing SOLitude Lake Management!

Subject: Re: Bridgewater of Wesley Chapel Termination Letter

Morning,

Brent and I were able to meet onsite yesterday and walk around and check on sites.

While we fulfilled our monthly contracted work shown on the reports below we did remove at no charge to the community the bulk of the trash on site 55, 5B, and 5A. Attached are a few after photos of the sites.

Hopefully this will hold over until Steadfast makes their first visit as they are some of the worst sites.

In addition I have attached our June inspection report.

Brent also asked if we could meet again with Don onsite. Over the next week and a half my schedule is pretty tight. I am able to carve out about 45 minutes tomorrow morning at 8AM though and review anything additional needed.

Would that work for yall?

Thanks,

39	C. LMP Landscape & Irrigation Monthly	Report

Regular Meeting Page 2 of 5

Mr. LaPorte gave an overview of his report, advising as to ongoing work with the pond banks. Mr. LaPorte and the Board discussed an upcoming annual installation, and the Board expressed interest in expanding the selection of annuals.

Mr. Brisendine made a motion, seconded by Mr. Agosto, to approve LMP's installation of additional annual flowers varieties, in an amount not to exceed \$2,400.00, for the Bridgewater of Wesley Chapel Community Development District.

During discussion of the motion, the Board discussed potentially conducting a poll between Board members outside of the meeting to determine the preferred varieties. Ms. Gentry advised that a vote of this nature could not occur outside of any publicly noticed meeting, and that the Board's options were either to wait until the next meeting or to appoint a Board member to make the decision as to which annuals to install. The Board expressed support for the authorization of the Chair to designate the annuals.

On a MOTION by Mr. Brisendine, SECONDED by Mr. Agosto, WITH ALL IN FAVOR, the Board approved for LMP to install additional annual flowers, authorizing the Chair to select varieties, in an amount not to exceed \$2,400.00, for the Bridgewater of Wesley Chapel Community Development District.

FIFTH ORDER OF BUSINESS – Administrative Matters

A. Exhibit 4: Consideration and Approval of Minutes of the May 6, 2021 Regular Meeting

On a MOTION by Ms. Sicard, SECONDED by Mr. Brisendine, WITH ALL IN FAVOR, the Board approved the Minutes of the May 6, 2021 Regular Meeting for the Bridgewater of Wesley Chapel Community Development District.

SIXTH ORDER OF BUSINESS – Business Items

A. Exhibit 5: Presentation of Proposed FY 2022 Budget

Ms. Thibault introduced herself to the Board. Ms. Thibault gave an overview of the proposed FY 2022 budget, advising that the budget would be remaining flat compared to the prior fiscal year. Ms. Thibault stated that the budget being presented was a high watermark budget, and that the Board could make a decision at any time prior to adoption in August to reduce the budget.

Ms. Sicard stated that she was not comfortable reallocating midge fly funds, opining that this would be premature. Ms. Sicard additionally suggested that the District should survey the residents prior to anything involving the gate, and questioned whether the District could invest general fund money in short-term investments instead of money market accounts. Ms. Thibault advised that governmental entities were limited in investment options as what financial institutions were willing to insure was different. Ms. Sicard additionally expressed concerns that there would not be enough land on CDD property to place a clubhouse.

B. Exhibit 6: Consideration and Adoption of **Resolution 2021-08**, Adopting Proposed FY 2022 Budget & Setting Public Hearing

On a MOTION by Mr. Brisendine, SECONDED by Mr. Agosto, WITH ALL IN FAVOR, the Board adopted **Resolution 2021-08**, Adopting Proposed FY 2022 Budget & Setting a Public Hearing for August 5, 2021, at 6:30 p.m., for the Bridgewater of Wesley Chapel Community Development District.

C. Presentation of Solar LED Street Lights

Bridgewater of Wesley Chapel CDD	June 3, 2021
Regular Meeting	Page 3 of 5

Mr. Ryan gave an overview of a solar LED streetlights plan for the community. The Board and staff discussed budgetary increases that the light purchase and installation would entail, as well as how adding streetlights would work with the current lease agreement.

(Ms. Sicard left the meeting.)

This item was tabled, pending additional information on the lease and its expiry.

- D. Exhibit 7: Consideration of Pond Maintenance Proposals
 - > Steadfast Environmental \$2,375.00/month
 - Aquatic Weed Control, Inc. \$2,140.00/month + \$215.00/quarter for Wetland Maintenance

The Board discussed differences in pricing and equipment for each vendor, noting that Steadfast's equipment would cut down on the number of site visits necessary to address issues.

Ms. Gentry advised that the current contract had a 30-day termination provision which staff could be directed to move forward with giving.

On a MOTION by Mr. Brisendine, SECONDED by Mr. Agosto, WITH ALL IN FAVOR, the Board approved giving staff direction to send the 30-day notice of termination to the current pond maintenance contractor, for the Bridgewater of Wesley Chapel Community Development District.

Following the motion, Mr. Cleveland asked for a motion to approve one of the proposals for pond maintenance services.

On a MOTION by Mr. Brisendine, SECONDED by Mr. Agosto, WITH ALL IN FAVOR, the Board approved the Steadfast Environmental Pond Maintenance Proposal, in the amount of \$2,375.00 per month, for the Bridgewater of Wesley Chapel Community Development District.

SEVENTH ORDER OF BUSINESS – Consent Agenda

- A. Exhibit 8: Acceptance of March 2021 Unaudited Financial Statement
- B. Exhibit 9: Ratification of *Tampa Bay Times* Advertisement Invoice for June 3rd Meeting
- Mr. Cleveland advised that this advertisement invoice was related to the rescheduling of the meeting from 6:30 p.m. to 1:00 p.m.
 - C. Exhibit 10: Ratification of LMP Spray Head Installation for Annual Bed Near School Entrance Estimate No. 71850 \$136.00
 - D. Exhibit 11: Ratification of ASAP Pressure Cleaning Proposals
 - ➤ Pressure Cleaning Curbs Estimate No. 2491 \$1,946.70
 - ➤ Pressure Cleaning Sidewalks Estimate No. 2668 \$2,851.80
- Mr. Cleveland stated that staff had moved forward with the pressure washing after determining that ASAP Pressure Cleaning would be using their own water.
- On a MOTION by Mr. Brisendine, SECONDED by Mr. Agosto, WITH ALL IN FAVOR, the Board approved the ratification of all items of the Consent Agenda for the Bridgewater of Wesley Chapel Community Development District.

Mr. Cleveland stated that three of the twelve streetlights at the entrance that Mr. Brown had previously commented on had been switched out with LED, and that Withlacoochee Electric could change out the remaining nine.

On a MOTION by Mr. Brisendine, SECONDED by Mr. Agosto, WITH ALL IN FAVOR, the Board approved the replacement of the nine entry streetlights for LED, in an amount of \$6 per light per month, for the Bridgewater of Wesley Chapel Community Development District.

Following the motion, Mr. Cleveland advised as to a few violations that had been sent to code enforcement, and that Mr. Henman had provided No Fishing sign designs for the Board's consideration.

B. District Counsel

Ms. Gentry provided an update on the District having successfully entered into an interim engineering contract with Cardno Engineering. Ms. Gentry stated that Cardno was performing preliminary work on the gate project and overseeing pond bank repairs.

C. District Engineer

Mr. Woodcock gave an overview of the spreadsheet with pricing related to construction design, permitting, and staff rates. Discussion ensued. Mr. Brisendine asked whether the District would be able to sign Cardno on for full-time engineering. Ms. Gentry advised that the District could republish the RFQ for District Engineering.

On a MOTION by Mr. Brisendine, SECONDED by Mr. Agosto, WITH ALL IN FAVOR, the Board approved for the republication of the RFQ for District Engineering services, for the Bridgewater of Wesley Chapel Community Development District.

Following the motion, Mr. Woodcock asked whether the Board wished for Cardno to move forward with getting the property survey completed, advising that this was a preliminary step to begin engineering work.

On a MOTION by Mr. Brisendine, SECONDED by Mr. Agosto, WITH ALL IN FAVOR, the Board approved for Cardno to proceed with the survey for the Bridgewater of Wesley Chapel Community Development District.

NINTH ORDER OF BUSINESS – Supervisors Requests

Mr. Brisendine asked whether an amenity center and pool was possible at the land at the intersection between Golden Gate Drive and Tower Bridge Drive. Mr. Brisendine asked what requirements there were from the bond holder with regards to having a clubhouse built. Ms. Gentry advised that she could evaluate the feasibility of additional debt financing with the Board's direction.

On a MOTION by Mr. Brisendine, SECONDED by Mr. Agosto, WITH ALL IN FAVOR, the Board approved giving District Counsel direction to evaluate the feasibility of additional debt financing for the potential construction of an amenity center, for the Bridgewater of Wesley Chapel Community Development District.

Following the motion, Mr. Brisendine made comments about the playground area with the HOA, and asked about more financing options. Ms. Thibault stated that she was not a municipal advisor and could not make recommendations as to investments, though DPFG had a municipal advisor on staff that she could work with to determine options based on Ms. Gentry's findings.

TERMS AND CONDITIONS:

TOTAL \$465.00

LMP reserves the right to withdraw this proposal if not accepted within 30 days of the date listed above. Any alteration or deviation to scope of work involving additional costs must be agreed upon in writing as a separate proposal or change order to this proposal. Periodic involces may be submitted if job is substantial in nature with final involce being submitted at completion of project. Any work performed requiring more than 5 days to complete is subject to progressive payments as portions of the work are completed. No finance charge will be imposed if the total of said work is paid in full within 30 days of involce date. If not paid in full within 30 days, then customer is subject to finance charges on the balance of the work from the involce date at a rate of 1.5% per month until paid. LMP shall have the right to stop work under this contract until all outstanding amounts including finance charges are paid in full. Payments will be applied to the oldest involces.

ACCEPTANCE OF PROPOSAL: The above prices, scope of work and terms and conditions are hereby satisfactorily agreed upon. LMP, Inc. has been authorized to perform the work as outlined and payment will be made as outlined above. The above pricing does not include any unforeseen modifications to the said irrigation system that could not be reasonably accounted for prior to job start. All plant material carries a one (1) year warranty provided LMP, Inc. is performing landscape maintenance services to the area installed or enhanced at the time of installation. If not, then there is no warranty on the plant material.

· Final Certification and Certificate deadline date

September 16, 2021

Please note: All CDD payments must be postmarked by **June 1**st in order to have the CDD information included on the TRIM Notice. Payments postmarked after June 1st will be returned and the CDD will **NOT** be included on the notice. Please send all payments to PO Box 401, Dade City, FL 33526-0401.

*Note: This notification will serve as your invoice for payment.

Please provide our office with the Public Hearing Information, i.e., date, time, location (complete street address) and telephone number, which will be printed on the TRIM Notice. Enclosed for your use are the "Certificate to Non-Ad Valorem Assessment Roll" forms, DR-408A PRELIMINARY & DR-408A FINAL.

If you have any questions, please contact Tim Sheridan at extension 4427 or you may reach him at tsheridan@pascopa.com.

Respectfully,

Mike Wells
Pasco County Property Appraiser

BRIDGEWATER OF WESLEY CHAPEL COMMUNITY DEVELOPMENT DISTRICT

DISTRICT ENGINEER PROPOSALS

COMPETITIVE SELECTION CRITERIA

1) Ability and Adequacy of Professional Personnel

Consider the capabilities and experience of key personnel within the firm including certification, training, and education; affiliations and memberships with professional organizations; etc.

(Weight: 35 Points)

(Weight: 25 Points)

(Weight: 20 Points)

(Weight: 10 Points)

(Weight: 5 Points)

(Weight: 5 Points)

2) Consultant's Past Performance

Past performance for other special districts or other public entities; amount of work, if any, previously awarded to the firm by the District; amount of experience on similar projects; character, integrity, reputation, of respondent; experience with public stormwater systems; etc.

3) Geographic Location

Consider the geographic location of the firm's headquarters, offices and personnel in relation to the project.

4) Willingness to Meet Time and Budget Requirements

Consider the consultant's ability and desire to meet time and budget requirements including staffing levels and past performance on previous projects; etc.

5) Certified Minority Business Enterprise

Consider whether the firm is a Certified Minority Business Enterprise. Award either all eligible points or none.

6) Recent, Current and Projected Workloads

Consider the recent, current and projected workloads of the firm.

www.cardno.com

Dear Mr. Cleveland:

Cardno is pleased to submit our qualification package for engineering services for Bridgewater of Wesley Chapel Community Development District (District). Cardno is familiar with your needs as we currently provide services to numerous CDDs throughout the Tampa Bay area. We have the technical and administrative experience and depth of resources to serve the District's engineering and planning needs. Cardno will serve will act in the general capacity of District Engineer and as an extension of your staff. We are well prepared to provide District engineering services, as required, under a continuing contract.

The professional and technical engineering assistance the District requires for this engineering services contract includes all facets of engineering, planning, construction, administration/inspection, environmental/ecological, regulatory compliance and drainage system inspection. Our experienced and available team of professionals have successfully provided these types of services to many satisfied clients and look forward to being your go-to engineering services consultant.

Our Proposed Contract Manager, Doug Stoker, has nearly 30 years of experience working on multidisciplinary projects throughout the Tampa Bay Area.

Cardno brings you the following benefits:

Cardno's team of engineering, planning, and environmental staff identified for this project specialize in all areas required to complete any assignment under this engineering services contract. Cardno offers you the following based on our understanding of your key needs:

- Small Team, Large Resources, Locally-based As your locally based consultant (Brooksville, Clearwater, and Riverview), the Cardno team assigned to this project is available and familiar with the area and type of services required by the CDD.
- > Cost-Conscious Measures Knowing that budgets are tight and needs remain constant, our engineers have years of experience in finding innovative, cost-conscious and sustainable solutions.
- > Experience The staff assigned to the District have many years of experience with CDDs and in the engineering field. We are familiar with local, regional and state regulatory agencies. We have experience in design, permitting, construction, inspection and regulatory compliance in areas of roadways, drainage, entry features, gate systems, landscaping and other public improvements.

Thomas Burke, PE and **Greg Woodcock** will be your District Engineer and Project Manager. Each has experience in providing the types of engineering services outlined in the District's request for qualifications. Cardno holds all applicable federal, state and local licensure to perform services under this contract and is a current/active corporation authorized to do business in the State of Florida.

Provided in the following pages are Cardno's qualifications, including resumes of several key staff and project descriptions that highlight our ability to provide you with all necessary engineering services.

Sincerely, Cardno, Inc.

Doug Stoker, PE, ENV SP

Vice President / Principal-in-Charge

FIRM INFORMATION AND BACKGROUND

Cardno Founded in 1945, Cardno is one of the largest full-service civil and environmental engineering firms in the United States. We leverage our versatile, global resources to deliver solutions with local service. Cardno has built a reputation for quality and

cost-effective services working for public and private sector clients.

With nearly 300 staff working throughout 10 offices in Florida, Cardno's professionals serve you with technical excellence, strategic vision, and quality advice. We are engineers, scientists, landscape architects, geologists, planners, construction administrators, water resource and ecological specialists, and economists with insight into your industry and community. Our diverse perspectives and vast service offerings provide holistic solutions that achieve your goals. We take pride in remaining on the forefront of technology with the ability to respond to the ever-changing needs of clients in the architectural, engineering and construction industry.

Cardno offers a broad range of professional services including:

- > Transportation engineering and planning
- > Trail and recreation facility design
- > Site design
- > Urban and land planning
- > Stormwater management
- > Roadway and bridge design
- > Water/wastewater facilities design
- > Brownfields redevelopment
- > Community engagement
- > GIS/asset management
- > Outdoor advertising regulation services

- Environmental services
- > Environmental management
- Landscape architecture
- Traffic operations
- Structural engineering services
- Redevelopment consulting services
- Grant writing
- > Water resources
- > Right-of-way acquisition and relocation
- > Construction inspection and administration
- > Utility coordination / relocation design

Clients turn to Cardno for help navigating complex engineering challenges because of our reputation for integrity. responsiveness, and innovation. Our clients benefit from the wealth of knowledge and experience of our multidisciplinary team of professionals. Cardno senior staff and management are highly regarded and respected throughout private and public sectors for their technical expertise, science-based approach, and ability to provide sustainable business solutions.

ABILITY AND ADEQUACY OF PROFESSIONAL PERSONNEL

Organizational Chart

Alan Schaffer Josh Hunziker

KEY PERSONNEL

DOUG STOKER, PE, ENV SP | PRINCIPAL-IN-CHARGE | CONTRACT MANAGER

Mr. Stoker is responsible for the day-to-day operations of the Clearwater and Brooksville offices. With nearly 30 years of experience, his responsibilities have included contract management, site design, environmental management, urban planning, transportation/roadway engineering, stormwater design/permitting, roadway design, water/wastewater, development review, urban planning, and construction coordination.

Doug also serves as the Vice President of his homeowner's association and has experience with reserve studies for funding repair and replacement of asphalt and concrete pavement, pavers, street signs, and site improvements.

TOM BURKE, PE | DISTRICT ENGINEER

Mr. Burke is an environmental engineer experienced in site development and permitting through local, state, and federal agencies; environmental resource permitting through various water management districts; water resources evaluation and management studies; and noise and air quality monitoring, modeling, and permitting. He has served as Engineer-of-Record on development projects ranging from small residential and commercial sites through multiple-lot subdivisions and commercial parks. Construction document experience includes preparation of master site plans, dimension plans, utility plans, paving, grading, and drainage plans, details & specifications, bid document preparation, and permitting. Water resources experience includes surface water hydrology and nutrient loadings studies and design and implementation of large-scale surface water monitoring programs. His air resources experience includes mobile and stationary source emission inventories and dispersion modeling for Developments of Regional Impact (DRIs) studies and developing noise monitoring plans for compliance analysis. Environmental documentation experience includes preparation of Environmental Assessments (EAs) and Environmental Impact Statements (EISs).

GREG WOODCOCK | PROJECT MANAGER

Mr. Woodcock has more than 20 years of experience working on both public and private sector development projects. Developed projects from conceptual design through construction including all phases of plan development; permitting through local and federal agencies; water resources evaluation and management studies; stormwater modeling and CADD design. He has served as project manager on numerous projects ranging from municipal drainage improvements and parks through large complex watershed restorations. He also has experience with contract document and post-design service experience; cost opinion estimates; detail and specifications; bid document preparation; shop drawing reviews; pay application review, and field inspections and documentation.

JAMES HUNT, PE | QA/QC

Mr. Hunt is a senior level Project Manager/Engineer with more than 50 years of varied experience in the planning, design, construction and management of highway and civil projects for a wide variety of clients. Included are surveys, preliminary engineering studies, design, CEI and construction management, value engineering studies, quality control reviews and various general consultant services. He has provided quality control for numerous design projects throughout Florida. In addition, he has served as Cardno's Project Manager/Assistant Value Engineering Team Leader for FDOT Districts Four and Five, providing Value Engineering study input for a wide range of projects.

JASON YAM, PE | TRANSPORTATION WORK ASSIGNMENT MANAGER

Mr. Yam has 21 years of experience in roadway and transportation design and project management for local government projects. Most of his 21-year career has been spent serving as project engineer or project manager for roadway projects ranging from small rural to large interstate systems. He is extremely knowledgeable in the preparation of roadway plans, signing and pavement marking plans and maintenance of traffic plans. His approach to transportation improvement projects focuses on safety first. Mr. Yam currently leads Cardno's Transportation Practice Group.

THOMAS NOGAJ, PHD, PE | UTILITY INFRASTRUCTURE WORK ASSIGNMENT MANAGER

Dr. Nogaj has more than 30 years of experience in civil and environmental engineering. He has experience implementing and managing water and wastewater design and construction projects. Specific project experience includes facility planning of water supply and wastewater systems, design drawings and specifications, developing computerized models, designing deep well supplies and water treatment facilities, construction administration, and implementing IT projects including computerized maintenance management systems and custom software development. His research focuses on the "Mathematical Modeling of Carbon Removal in the A-Stage Activated Sludge System."

MILES BALLOGG | ENVIRONMENTAL / BROWNFIELDS WORK ASSIGNMENT MANAGER

Mr. Ballogg assists public and private sector clients with land redevelopment programming, assessment and remediation, specifically in environmentally-blighted areas. Miles has been involved in implementing federal and state brownfields programs for more than 25 years, including programmatic support, technical assistance and project coordination for Brownfield Redevelopment Projects utilizing EPA Assessment, Cleanup and Revolving Loan funding. He has developed Quality Assurance Management Plans (QAMP) for the City of Clearwater, Pinellas County, City of Tampa, City of St. Petersburg and the Treasure Coast Regional Planning Council. In addition, he has provided project assistance and/or Quality Assurance Project Plans (QAPPs) for the City of Clearwater including Joe DiMaggio Field, Clearwater Automotive and Community Sports Complex, and other sites in the area.

BRYAN ZARLENGA, PE | FACILITY DESIGN & PLANNING WORK ASSIGNMENT MANAGER

Mr. Zarlenga has more than 24 years of experience working on both public- and private-sector transportation and development projects. Mr. Zarlenga serves as Director for the Site Development Group. He specializes in site development, permit expediting, construction phase services and project management. He has served as Project Director/Manager for numerous public facility planning and design projects including site design, concept planning, permitting, technical specifications, contract administration, and construction management. projects have included parks, schools, fire stations, public utilities, bus terminals, municipal buildings, and special use facilities. Mr. Zarlenga is thoroughly familiar with the west-central Florida area having successfully completed numerous site development projects throughout the region, particularly in Pinellas and Hillsborough Counties.

JACK RICHERT, PE | CONSTRUCTION ENGINEERING & INSPECTION WORK ASSIGNMENT MANAGER

Mr. Richert has 15 years of experience in the design and construction engineering and inspection fields. He has served as a Highway Designer on Design Build projects and as an Inspector, Senior Inspector, Assistant Project Administrator and Project Engineer on Construction Engineering and Inspection contracts. He offers diversified experience in the field and management of day to-day CEI operations.

ADDITIONAL KEY STAFF

Ecological

John Bailey, PWS • Senior Project Manager for ecological assessments of coastal wetlands and uplands, plant and wildlife surveys, listed species surveys, photo interpretation and vegetation mapping, wetland delineation and hydroperiod elevation assessment, wetland mitigation design, data analysis, environmental permitting, and project management.

Mr. Bailey served as a Project Manager to provide wetland impact permitting support for various projects within Cardno. He was responsible for submission of the USACE package for a 1566-acre portion of the property, preparation of 2 submittals for SWFWMD construction ERPs on smaller portions of the project, response to RAIs, wetland delineation, UMAM analysis, attending agency field reviews and coordination of FWC gopher tortoise relocation and sandhill crane incidental take permits (as a precaution to prevent construction delays in the event of nesting cranes nest in adjacent wetlands).

Utility Infrastructure

John Kabouris, PhD, PE ● Dr. Kabouris has more than 30 years of experience in utility engineering. He has conducted internationally recognized research on computer modelling and stochastic control of biological wastewater treatment processes and on the codigestion of municipal sludge and fat, oil and grease (FOG) under conventional and advanced digestion. He has served as project manager, process engineer, and project engineer in wastewater treatment and solids processing studies, master planning, and design projects and has a long record of leadership service to the Water Environment Federation (WEF). He has been a reviewer and contributing author to WEF manuals, has published in national and international journals and conference proceedings and serves as an associate editor for WEF's journal of Water Environment Research.

GIS / Asset Management

Craig Payne, GISP • Mr. Payne is the Asset Management and Geospatial Services Practice Group Manager. His experience with Enterprise Asset Management (EAM) and Geospatial applications covers a wide range of applications including utilities, water resources, transportation, environmental, geotechnical, land planning and social economic information. Mr. Payne specializes in implementing Computerized Maintenance Management Systems (CMMS) and GIS.

COMPANY LICENSURE

Engineering License #29915

Cardno, Inc. was first registered with the Florida Department of Business and Professional Regulation (DBPR) on May 29, 2012. Cardno maintains an active, current status with dozens of qualified, state-licensed Professional Engineers located throughout the State. Per State of Florida guidelines, engineering firms registered with DBPR are no longer required to renew their registration, and there is no certificate or license to print. Cardno is currently in compliance and will maintain requirements set forth in Florida Statute, Section 471.023.

MINORITY BUSINESS ENTERPRISE STATUS

Cardno, Inc. is not a Minority Business Enterprise. However, we are fully committed to the use of minority- and women-owned businesses in conjunction with our contracts, and we meet or exceed any goals set forth by our clients. To illustrate our "track record" for minority involvement and utilization on previous or current projects with specific goals, Cardno has achieved minority participation well above the overall industry goal. Cardno provides equal employment opportunities (EEO) to all employees and applicants for employment without regard to race, color, religion, sex, national origin, age, disability, genetics or veteran status. In addition to federal law requirements, specific state or local laws or regulations may identify protected categories in addition to those listed in the policy, such as sexual orientation and/or gender identity. Cardno complies with applicable state and local laws governing non-discrimination in employment in every location in which the company has facilities.

WILLINGNESS TO MEET TIME AND BUDGET REQUIREMENTS

Project controls encompass the people, processes, and tools used to plan, manage, and mitigate cost and schedule issues and any risk events that may impact projects. The most successful projects have well developed controls in place from start to finish. Such controls are crucial to the efficiency and performance of specific projects and the organization's overall operations. Well-developed controls, monitored through each step of the process, ensure that timing and budget demands are met and that every participant knows their role in context of the project.

Major work tasks will be planned as a series of subtasks, accommodating a bottoms-up approach at the schedule development stage, a proper linkage of predecessor and successor activities, and an effective management tool to track and adjust schedules and to reallocate resources as the work proceeds.

The District Engineer, Project Manager and Work Assignment Managers will hold team meetings throughout the project, with a major emphasis placed on reviewing progress and discussing upcoming milestones. This close coordination and the working relationships among our District Engineer, Project Manager, Work Assignment Managers, and The District Manager also will help ensure timely project completion and general understanding of the Districts goals and budgets.

OFFICE LOCATIONS

All assignments for the Bridgewater CDD will be managed from our firm's Florida headquarters in Clearwater with major support from our Brooksville and Riverview offices. Their addresses:

Clearwater

380 Park Place Blvd. Suite 300 Clearwater, FL 33759 727.531.3505 (Main)

BROOKSVILLE RIVERVIEW CLEARWATER FORT PIERCE STUART FORT MYERS BOYNTON BEACH KEY WEST

CURRENT AND PROJECTED WORKLOAD

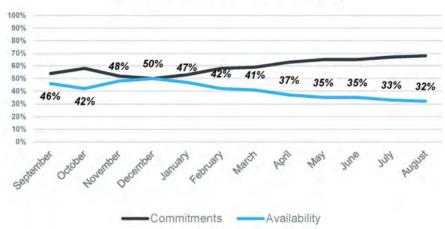

Our team has more than 150 staff members in the Tampa Bay area who can be called upon to complete each work task assigned by the District. Our available resources will allow us to maintain the schedule with no gaps in labor commitment. All staff members will be available upon notice to proceed and will be committed to your various projects for the full duration.

Based upon existing contracts and current staffing workloads, this chart illustrates staff commitments and availability for the next year. We have the ability to appropriately staff any need that may arise as part of this contract. Our staff is fully committed to meeting any of the District's project requirements from start to finish.

Cardno offers the largest combination of pertinent resources available with the depth and breadth of personnel to effectively service the District's needs under this contract in a timely and cost-effective manner. Our cross-trained staff allows us to remain flexible such that full-time or part-time commitments of key staff to client projects can be accommodated. The figure on the next page provides a projection of staff availability over the next year.

Staff Commitments and Availability

PROJECT APPROACH

Cardno offers a single point of contact for cohesive engineering, environmental, construction, and business consulting services. Our integrated approach efficiently addresses your challenges, fostering smart, sustainable growth alongside your communities and environments. We simplify access to multidisciplinary expertise and on-the-ground experience to support your business objectives.

With more than 100 loss staff available, we can

Bridgewater CDD faces many challenges and Cardno will assist in developing processes and procedures to protect the District and accomplish the development vision by the board and community staff. Cardno will strive to assist the District to accomplish current goals as well as plan for the future.

With more than 100 local staff available, we can successfully complete any project and meet your schedule requirements.

CARDNO'S PROJECT EXECUTION

We understand, as part of this contract, there is potential to use any number of services for a task assignment. We are ready and willing to provide the District with the skill set and experience necessary to effectively service the District's needs, whatever they entail.

Our proposed approach is founded on the principles of responsiveness to your needs, and our unwavering commitment to quality. This approach has been refined and proven over our more than 75-year history of success on thousands of individual projects under similar Professional Services Continuing Contracts for hundreds of clients, many of which are your neighboring municipalities. In this section, our approach is presented from organizational, management, and task assignment standpoints.

Our approach to providing the District with unparalleled responsiveness and quality includes:

- Selecting a small, flexible team of highly qualified Cardno professionals with exemplary skills in their area of expertise. We understand there is a potential to use any one of a number of services for a task assignment as part of this contract.
- > Selecting specialty subconsultants as needed for services outside of Cardno's expertise in alignment with the District's needs and values. They will serve as an extension of our team, enabling us to provide the District the services required to complete any assignment.
- > Utilizing experienced local staff that have previously provided services to CDDs. Our long history of successful projects stands as proof that we are ready to serve your needs with no learning curve.
- Ensuring our QA/QC plan is implemented for each task, no matter how small.

QUALITY CONTROL

Cardno's Project Manager will direct project activities to ensure budget, schedule, and quality control; allocate appropriate resources; and regularly communicate project status. Cardno offers the largest combination of pertinent resources available locally with the depth and breadth of personnel to effectively service the District. Specifically, Cardno will: (1) Plan and schedule major work tasks by individual subtasks. This will allow resources to be reallocated, if necessary, to maintain control of the project; (2) Hold internal team meetings, with major emphasis on reviewing progress to date and upcoming milestones.

Quality Assurance – Cardno's goal on each project is to prepare documents free of errors, complete with accurate data, meeting all applicable standards and criteria, and in compliance with the requirements established by the District. The District expects the delivery of contract documents and services that have been thoroughly reviewed by highly qualified professionals whose reviews allow the bidding, construction, and final cost to be within the established budget. They also expect the project to be of high quality and completed on time. These expectations are in complete agreement with our team's goal.

The QA/QC component of the organization is as important as the design and plans production process. Although our design professionals follow stringent internal QC processes, we believe it is critical to have senior professionals in each design discipline perform independent peer reviews to ensure a quality product. Peer reviews focus not only on the technical design standards and project scope requirements, but also on conflicts, cost, and constructability. Cardno has strong company policies on quality, employee workmanship, and error prevention. Our QA/QC process emphasizes the prevention of quality problems such as errors, omissions, etc., and corrects quality problems as early as possible to minimize cost and impacts.

Detailed Schedule Control – We use Microsoft Project to manage schedule performance and plan resource utilization. Major work tasks will be planned as a series of subtasks, accommodating a bottoms-up approach to schedule development, proper linkage of predecessor and successor activities, and an effective management tool to track and reallocate resources as work proceeds. Weekly team meetings will be held by the Project Manager and Work Assignment Managers, with a major emphasis placed on reviewing progress and discussing upcoming milestones. Close coordination and working relationships between our Project Manager, Work Assignment Managers and their District counterparts will also help ensure timely project completion.

Strict Cost Control – Cardno understands the need to be financially responsible and mindful of the District's budget constraints. Once a scope of services has been agreed upon for a given work assignment, Cardno will propose a reasonable fee that reflects the effort required to satisfy the scope with a quality set of project documents.

Engineering Cost Control – When evaluating the true value of the services we provide, Cardno is seen as very competitive for the following reasons:

- > Our base rates, employee salaries, and overhead are consistent with or lower than local industry averages.
- > Cardno provides nearly all services in-house, resulting in integrated services and cost savings. When subconsultants are necessary, Cardno does not mark up their services.
- Our experienced staff develops comprehensive scopes of work the first time to identify all necessary services for your project. This avoids surprises from change orders or unidentified obstacles during construction.
- > Cardno uses focused work teams to complete your projects. Given our depth of resources, we staff these teams with exactly the right mix of talent. Behind these small teams, more than 300 Florida associates specialize in all services to meet your needs. Small teams and big resources save you money.
- > The true value of Cardno services comes during construction when our projects are built. Experienced staff ensures our designs are correct the first time, resulting in fewer construction change-orders and delays.
- > Cardno has one of the best claims records in the industry. Fewer claims are another testament to the value of the work product we provide and proof of a solid quality assurance program.
- > Over 85% of Cardno's work is for repeat clients who have evaluated Cardno's value compared to other engineering firms and continue to return to Cardno for the premier services we provide.
- > Cardno helps clients identify manage and obtain grant funding for Brownfields redevelopment projects, again bringing added value to your bottom line.

Construction Cost Estimating – As the construction industry continues to have ever-changing and rising costs, it is imperative that your Engineer of Record provide accurate Engineer's Opinions of Cost to plan for upcoming work. Here are some of the steps Cardno has taken to ensure we are addressing this for our clients:

- Cardno has developed an internal team of engineers and cost estimators who are tasked with monitoring changing construction costs. These individuals track past estimates compared to actual construction costs and provide necessary guidance to those preparing new estimates.
- > Cardno routinely monitors construction industry journals including the Engineering News Record, Construction Industry News and other publications for indicators of construction cost escalation.
- > Cardno performs in-house constructability/bidability reviews and value engineering using our in-house Construction Management. This lets us identify opportunities for savings and ensure a "buildable" design.
- > Cardno often involves contractors prior to bidding to obtain input on specific construction cost elements that may impact the overall project bid. This further helps Cardno identify any obstacles that would prevent a Contractor from bidding on the project, promoting a greater number of bidders and more competition.
- > Cardno produces quality plans that help minimize construction change-orders. While we may not be able to control rising industry prices, we can ensure you get the best value for your money because of our reputation and qualify plans and specifications.

VOLUME OF WORK PREVIOUSLY AWARDED

Cardno has been working with the Bridgewater of Wesley Chapel CDD as the Interim District Engineer since May 2021. Cardno is currently working on a boundary survey, pond bank restoration construction oversight and gate improvements for Masena and Bridgegate drive entrance/exit.

Cardno has a longstanding relationship and have completed multiple successful projects with DPFG.

FINANCIAL CAPACITY

Cardno generates positive cash flow from operations and utilizes internal project management and financial systems providing timely information key to proactive management of business operations and working capital investment. Cardno is not dependent upon any specific customer, industry, or service and, as a result, overall economic risk is limited due to Cardno's large customer base and dispersion across geographic areas and industries served.

Cardno is, and continues to be, financially sound and a strong company with sufficient capital resources for normal ongoing operations.

CONTRACT HISTORY

Cardno affirms that over the past 10 years, the firm has not been terminated from any contract.

Cardno affirms that over the past 10 years, the firm has not defaulted on any contract or is in arrears on any contract; nor has the firm failed to demonstrate proper licensure and business organization.

Cardno affirms that over the past 10 years, the firm has not been the subject of any governmental action of any kind (e.g., investigation, proceeding, penalty, licensure issue, etc.). Cardno further affirms that no such conditions currently exist.

The ±886 contiguous acres development served by the Belmont Community Development District is located in Hillsborough County, Florida. The District is located off US-301 on Paseo Al Mar Boulevard. Current development plans for the District, which includes two phases. The development consists of a mixture of single family units, recreation facilities, roadways, utilities and surface water management system. Cardno assisted with bringing a failing multi-million dollar landscape and hardscape improvements project on track including negotiations with contractors removed from the project as well as providing bidding and construction oversight.

Cardno, Inc. has been the District Engineer for Belmont since 2019 with responsibilities to guide the District Manager on all planning, design, permitting and construction activities undertaken by the District. Services being provided include planning, report preparation, design, construction documents, construction administration, stormwater management facilities, water and sewer utilities, roadway, landscaping and other engineering services as may be required by the District. Construction contract administration and field inspections.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

The 764.6 contiguous acres development served by the Harbor Bay Community Development District located in Hillsborough County, Florida. The District is located on US Highway 41 in Apollo Beach, FL. Current development plans for the District, which include multiple phases and call single family residential units and multi-family residential units. The boating community has a mixture of single family units, recreation facilities, roadways, and surface water management system, including canals for boating.

Cardno, Inc. has been the District Engineer for Harbor Bay since 2017 with responsibilities to guide the District Manager on all planning, design, permitting and construction activities undertaken by the District. Services being provided include planning, report preparation, design, construction documents, construction administration, stormwater management facilities, water and sewer utilities, roadway, landscaping and other engineering services as may be required by the District. Cardno assisted the development to secure a design build project for over 33,000 LF of seawall repairs. Cardno will be administering the 18 million dollar contract and overseeing construction over the next two years.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

The ±481 contiguous acres development served by the Lakeshore Ranch Community Development District is located in Pasco County, Florida. The District is located on US-41 south of SR-52. Current development plans for the District, which includes two phases, call for approximately 672 single family residential units and various recreational amenities. The project consists of a mixture of single family units, recreation facilities, roadways, utilities and surface water management system.

In 2019 Cardno prepared supplemental engineering report as part of a bond refinance plan that allowed the CDD to lower their interest rate as well as finance project to enhance the community.

Cardno, Inc. has been the District Engineer for Lakeshore Ranch since 2018 with responsibilities to guide the District Manager on all planning, design, permitting and construction activities undertaken by the District. Services being provided include planning, report preparation, design, construction documents, construction administration, stormwater management facilities, water and sewer utilities, roadway, landscaping and other engineering services as may be required by the District.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

Cardno was hired by the Connerton West CDD to perform construction management services for a new playground and associated grading and drainage infrastructure project. The park is located in the Rose Garden Park adjacent to the amenities center. Cardno operated as the owner's representative to manage the consultants, contractor and coordinate with the District Manager associated with the project. Cardno also coordinated with Clearview Land and the contractor during the bid process related to any clarifications or questions related to the proposal request. Cardno performed periodic construction progress review for payment release. The project was a success.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

Cardno was contracted to review existing field conditions and provide a report outlining a proposed 8-foot-wide trail alignment, review different construction methods and prepare estimated construction costs by contacting various contractors and builders. To reduce construction costs, Cardno evaluated multiple path construction types and materials that would be allowable under the existing permit as well as to provide the lowest cost for a sustainable long-term solution to constructing the trail. Cardno worked with the existing District Manager and District Engineer on this project to coordinate sharing of information and resources to provide the best product for the Connerton West CDD.

24. BRIEF DESCRIPTION OF PROJECT AND RELEVANCE TO THIS CONTRACT (Include scope, size, and cost)

The Encore Community Development District consists of 28 acres of property located between downtown Tampa and Ybor City as a LEED Certified, mixed-use, transit oriented community. At full build-out, the \$600 million project provides 1,500 mixed-income residential units, 200 hotel rooms, 35,000 SF grocery store, 180,000 SF of office space, 85,000 SF of retail space, a middle school, African-American history museum, public parks and gathering spaces.

This District is unique and includes many cost-saving and sustainable initiatives such as a stormwater vault that allows for the re-use of rainwater for irrigation instead of potable water and includes a solar park to power the street lights and other infrastructure elements.

Cardno has been the District Engineer for Encore since 2010 with responsibilities to guide the District Manager on all planning, design, permitting and construction activities undertaken by the District. Services include planning, report preparation, design, construction documents, construction administration, stormwater management facilities, water and sewer utilities, roadway, landscaping and other engineering services as may be required.

Redevelopment Consulting Services

In today's market, redevelopment often involves improving less-than-perfect sites faced with development challenges or environmental issues. Many public and private sector clients choose Cardno to provide integrated redevelopment consulting services. These services include identification, acquisition/assemblage, remediation, and development of underutilized properties. Keeping all aspects of redevelopment in mind, Cardno's in-house staff creates integrated project solutions from "Concept through Construction."

Civil/Environmental Engineering

Cardno is committed to excellence in civil and environmental engineering for every client and every project – large or small.

Value-Added Services

Cardno's Civil and
Environmental services focus
on creating value for public
and private sector clients. By
partnering with our clients,
we create productive, costeffective solutions to satisfy
their needs and the needs of
our community. Our depth of
services ensure a
comprehensive approach to
today's engineering
challenges

Comprehensive Services

As a national company providing services throughout the United States, Cardno is proud to offer our clients the following Civil and Environmental Engineering services:

- > Site Development
- > Environmental Management
- > Integrated Brownfield Services
- > Geographic Information Systems (GIS)
- > Potable Water Supply, Treatment and Distribution
- > Wastewater Collection, Transmission, Treatment and Disposal

Site Development

From concept through construction, Cardno offers complete, single-source development services helping our clients achieve their vision.

CARDNO'S SITE DEVELOPMENT STAFF HAS A DIVERSE RANGE OF CAPABILITIES TO HANDLE EVEN THE MOST COMPLEX DEVELOPMENT PROJECTS. WE SPECIALIZE IN PROVIDING TURNKEY SERVICES TO OUR PUBLIC AND PRIVATE SECTOR CLIENTS, INCLUDED IN **OUR STAFF ARE** ENGINEERS, PLANNERS, GEOLOGISTS, LANDSCAPE ARCHITECTS, SURVEYORS AND TECHNICAL PERSONNEL.

Our team specializes in all types of site development projects including:

- > Public Facilities
- > Parks and Recreation
- > Municipal Buildings
- > Commercial and Office Sites
- > Industrial Complexes
- > Residential Communities
- > Airports
- > Ports
- > Transit Facilities

Cardno believes the most important aspect of site development design is the ability to provide buildable cost-effective solutions. Cardno's expertise and diversity results in construction cost savings, streamlined permitting and quality projects.

Our complement of services include:

- > Site Selection and Layout
- Master Planning
- > Conceptual Site Plans
- Site Design
- > Permitting
- > Stormwater Design
- > Utilities Design
- > Landscape Architecture
- > Environmental Services
- > Transportation Studies
- > Traffic Signals and Roadways
- > Construction Management
- > Surveying
- > Utility Locating
- Geographic Information Systems
- > Community Redevelopment
- > Development of Regional Impact Studies
- > Design/Build
- > Value Engineering
- > Real Estate Support Services

Urban & Land Planning

Cardno assists both public and private sector clients with turn-key planning services of any size.

TODAY'S CONSTANTLY **EVOLVING ENVIRONMENT** NECESSITATES THAT WE PLAN NOT ONLY FOR THE NEEDS OF TODAY, BUT ALSO FOR THE GROWTH OF TOMORROW, IT IS IMPERATIVE THAT COMMUNITIES AND **DEVELOPERS TAKE A** PROACTIVE APPROACH TO ADDRESS THE COMPLEX ISSUES ASSOCIATED WITH URBAN/SUBURBAN DEVELOPMENT AND REDEVELOPMENT.

CARDNO'S PLANNING TEAM IS FULLY INTEGRATED WITH OUR OTHER DEVELOPMENT / REDEVELOPMENT – FOCUSED SERVICES.

From Concept to Construction™

Whether we are involved in a community redevelopment effort or master planning a new development, Cardno's plans are designed to be implemented.

Our range of services include:

Public Sector

- > Community Redevelopment Areas
- > Comprehensive Plans
- > School District Planning
- > Demographic Support
- > Economic Planning
- > Annexation Analysis
- > Hazard Mitigation Plans
- > Land Development Codes
- > Neighborhood Sector Plans
- > On-call Municipal Planning
- > GIS Mapping and Analysis
- > Land Entitlement
- > Public Participation
- Urban Revitalization Planning
- > LEED Certification
- > Site Plan Reviews
- > Streetscape and Landscaping
- > Trail/Park Master Plans
- > Transportation Planning

Grants & Incentives

- > Brownfields Support
- > Economic Development
- > Grant Identification
- > Grant Writing

Private Sector Planning

- > Development of Regional Impacts
- > Landscape Plans
- > Market Analysis
- > Master Plans
- > Permitting
- Planned Urban Developments
- > Plan Amendments
- > Rezoning
- > Site Design
- Project Feasibility and Due Diligence

On-Call Planning

Cardno has the depth of expertise to meet any staffing level need from Planner to Director-level assignments.

IN TODAY'S CHALLENGING
ECONOMIC CLIMATE, PUBLIC
AGENCIES ARE BEING
REQUIRED TO PROVIDE
MORE SERVICES WITH
FEWER STAFF AND
RESOURCES.

Cardno offers a full range of consulting, design, engineering and construction services, including civil, environmental, transportation planning and design, right-of-way acquisition/relocation, subsurface utility engineering, GIS/asset management, surveying and mapping, utility coordination, water/wastewater, water resources, brownfields redevelopment consulting, site development, and urban & land planning.

Cardno provides a full-service approach to planning and zoning for all levels and sizes of government.

We can work from our office as an extension of your department's staff or we can work on-site at your location functioning as an additional staff member.

Cardno's staff of AICP planners are highly experienced in the review and analysis of land development applications, long-range planning needs, and policy development and improvements.

Our planning services include:

- Site Plan Application Review and Analysis
- > Land Use Plan Amendment Review and Analysis
- > Rezoning Review and Analysis
- > Annexation Review and Analysis
- > Comprehensive Plan Amendments
- Presentation of Land
 Development Applications at
 Public Hearings

- Transportation Impact Statements Review and Analysis
- Concurrency Review and Analysis
- > Evaluation and Appraisal (EAR) Support and Production
- > Demographic Studies
- Code Interpretations and Revisions
- > Community Redevelopment Plan Support and Production
- Design Guidelines Support and Production
- Findings of Necessity Support and Production
- Review of Development Application Process and Policies
- > GIS Mapping
- > Expert Witness Services for Land Acquisition Cases
- > Development Feasibility and Re-use Studies
- > Land Use and Corridor Studies

Landscape Architecture

Cardno has operated at an award-winning level to provide the expertise required in today's developments.

THE CARDNO TEAM WORKS
COLLABORATIVELY TO
DELIVER SUPERIOR MASTER
PLANNING AND LANDSCAPE
ARCHITECTURAL
RESOLUTIONS FOR CLIENTS
AS DIVERSE AND HIGH
PROFILE AS PULTE HOMES,
REGENCY CENTERS,
HEALTHCARE PROVIDERS
AND MUNICIPALITIES
THROUGHOUT THE
COUNTRY.

Our people are our key point of difference.

Cardno has always sought to attract the highest caliber of industry professionals. The eclectic skills base of our landscape architecture team is derived from experience in research, design, master planning, implementation, construction, and contract administration. Our team's experience in all stages of design and administration results in quality from design conception through to implementation. Our master planning skills in particular, set the blueprint for a consistent, coherent and relevant solution that meets your landscape architecture needs now and into the future. We are both creative and cost conscious which in turn results in a satisfied client.

Our approach is thorough: we recognize that built and natural environments should be considered in balance, and we work with you to achieve the solution that meets all stakeholder needs. Our landscape design resolutions allow us to develop a clear framework considering a site's character, existing built and natural environment, amenities, marketability, access, mobility, costs and maintenance.

Landscape Architecture Design

- > Hardscape Design
- > Planting and Irrigation
- > Streetscapes
- > Park Design
- > Amphitheaters
- > Urban Plazas
- > Trail and Bike Ways
- Stream and Wetland
- > Restoration
- > Water Features
- > Maintenance Programs
- > Construction Administration

Site Design

- > Site Conditions
- > Inventory Analysis
- > Open Space Planning
- Pedestrian and Vehicular Circulation
- > ADA Compliance

Transportation

From concept through construction, the result is a successfully completed project that achieves our client's goals.

Our Client-Focused Approach

At Cardno, we put the needs of our clients first. Our professionals plan and design each transportation project from the unique perspective of the individual client they are serving. At the same time, our experts add their own up-to-date knowledge of the latest transportation trends, available technology, key environmental issues and government legislation. This way, clients receive the most customized and current services available.

Our focus is to provide you:

- > The Most Economical Design
- > On Schedule
- > Within Budget
- Using Total Quality Management

Comprehensive Planning and Design Services

Through all stages of a project, Cardno's transportation experts develop creative solutions to meet specific project requirements. We offer alternative solutions, from concept planning through review, environmental studies through final design and development of construction plans / specifications to engineering support during construction.

Our transportation services include:

- > Highway Design
- > Streets and Drainage Design
- > Structures and Bridge Design
- > Traffic Engineering and Design
- Traffic Signal and Signal Systems Design
- Intelligent Transportation Systems / Automated Traffic Management Systems (ITS/ATMS) Design

- > Transportation Planning
- > Traffic Operational Studies
- > Engineering Studies and Cost Estimates
- > Stormwater Management Studies
- > Design / Build
- > Value Engineering

RESOLUTION 2021-09

A RESOLUTION OF THE BOARD OF SUPERVISORS OF THE BRIDGEWATER OF WESLEY CHAPEL COMMUNITY DEVELOPMENT DISTRICT AMENDING RESOLUTION 2021-08 TO RESET THE TIME OF THE PUBLIC HEARING ON THE PROPOSED BUDGET FOR FISCAL YEAR 2021/2022; PROVIDING A SEVERABILITY CLAUSE; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the Bridgewater of Wesley Chapel Community Development District ("District") is a local unit of special-purpose government established pursuant to the Uniform Community Development District Act of 1980, as codified in Chapter 190, *Florida Statutes*, for the purpose of planning, financing, constructing, operating and/or maintaining certain infrastructure improvements; and

WHEREAS, on June 3, 2021, at a duly noticed public meeting, the District's Board of Supervisors ("Board") adopted Resolution 2021-08, approving the proposed budget for Fiscal Year 2021/2022 and setting a public hearing on the proposed budget for August 5, 2021 at 6:30 p.m. at the Country Walk Clubhouse, 30400 Country Point Blvd., Wesley Chapel 33543; and

WHEREAS, due to changes in the District's anticipated meeting schedule, it is necessary to change the time of the public hearing to 1:00 p.m. at the same date and location provided in Resolution 2021-08; and

WHEREAS, the Board desires to amend Resolution 2021-08 to reflect said change.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE BRIDGEWATER OF WESLEY CHAPEL COMMUNITY DEVELOPMENT DISTRICT:

SECTION 1. PUBLIC HEARING TIME RESET. Resolution 2021-08 is hereby amended to reflect that the time of the public hearing as declared therein is reset to:

August 5, 2021 at 1:00 p.m. at the Country Walk Clubhouse, 30400 Country Point Blvd., Wesley Chapel 33543.

The District Manager shall send a copy of this Resolution to Pasco County upon adoption.

SECTION 2. RESOLUTION 2021-08 OTHERWISE REMAINS IN FULL FORCE AND EFFECT. Except as otherwise provided herein, all provisions of Resolution 2021-08 shall continue in full force and effect.

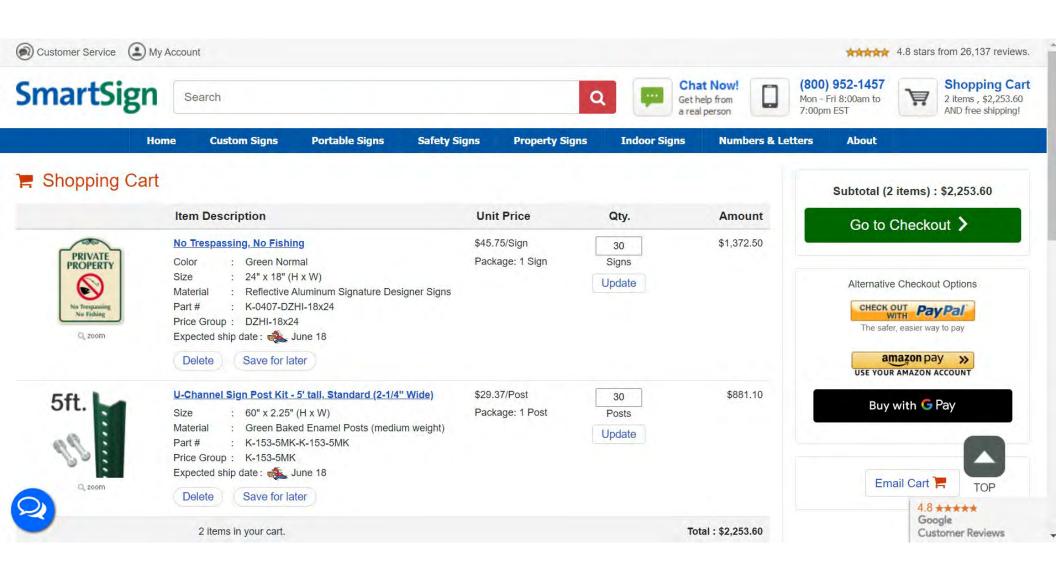

SECTION 3. SEVERABILITY. The invalidity or unenforceability of any one or more provisions of this Resolution shall not affect the validity or enforceability of the remaining portions of this Resolution, or any part thereof.

SECTION 4. EFFECTIVE DATE. This Resolution shall take effect upon its passage and adoption by the Board.

PASSED AND ADOPTED this 1st day of July, 2021.

MEMORANDUM

TO: Bridgewater of Wesley Chapel C.D.D. Board of Supervisors

FROM: Matthew Davis

DATE: June 30, 2021

RE: Analysis of Statute of Repose

MATTER: 121120

The Board asked me to analyze the District's ability to pursue claims against the developer, Lennar Homes, LLC, general contractor (unknown), and/or engineer (unknown) that developed, designed and constructed the District's stormwater management system. Unfortunately, for the reasons that follow, I believe that Florida's statute of repose bars the District's potential claims against the developer, contractor and engineer with respect to the design and construction of the District's infrastructure.

The design, permitting and construction of the District's infrastructure dates back to at least 2004 when Pasco County approved the plat for Phases I-IV and established the District. Thus, the primary impediment to bringing a claim related to the design and/or construction of the stormwater management system is Florida's statute of repose. In short, a statute of repose provides a hard deadline, not subject to equitable tolling or other extensions, beyond which a claim may not be initiated. With respect to the design and construction of improvements to real property, Florida law provides for a 10 year statute of repose running from:

the date of actual possession by the owner, the date of the issuance of a certificate of occupancy, the date of abandonment of construction if not completed, or the date of completion of the contract or termination of the contract between the professional engineer, registered architect, or licensed contractor and his or her employer, whichever date is latest.

Fla. Stat. § 95.11(3)(c).

It was difficult to obtain documentation necessary to analyze the application of the statute of repose due to the age of the project. However, I was able to locate bonds, ordinances, settlement agreements, and County memos containing key dates to come to my conclusion. The following are key dates and events serving as the basis for my conclusion:

- a) July 31, 2007: Lennar posts Maintenance Bond for Phases I and II paving and drainage maintenance.
- b) September 25, 2007 Pasco County releases subdivision Performance Bond for Phases I and II
- c) June 5, 2008 Pasco County memo stating Phase IV, "has been substantially completed in excess of one year."

The release of the Performance Bond and posting of a Maintenance Bond for Phases I and II indicates that work was substantially complete and possessed by the owner (which, at that time, was Lennar). This also means that the work was not abandoned and the contracts with the engineers and contractors were likely completed (because the County would not release the Performance Bond if not). Thus, possession by the owner and/or certificate of occupancy is the trigger for the statute of repose. Pasco County's memo with respect to Phase IV¹ provides that the Phase IV construction was complete in 2007. Because completion occurred in 2007, the statute of repose with respect to any claims for infrastructure in Phases I, II and IV passed in 2017.

The County has not yet provided documentation regarding the completion of Phase III (we have asked and hope to receive it shortly). However, Phase III was permitted before Phase IV and shortly after Phases I and II. It is likely that Phase III was completed in the same timeframe as Phases I, II and IV. Thus, the statute of repose likely bars claims related to the design and construction of Phase III as well.

-

¹ The County Attorney drafted this memo to the Board of County Commissioners for purposes of determining whether to require a maintenance bond for Phase IV.
