REVISED FINAL AGENDA

Dear Board Members:

The regular meeting of the Board of Supervisors of the Covington Park Community Development District will be held on **Monday, October 27, 2025 at 6:00 p.m.**, at the Covington Park Clubhouse, **located at 6806 Covington Garden Drive, Apollo Beach, FL 33572**. The following is the final agenda for this meeting:

1. CALL TO ORDER/ROLL CALL

2. AUDIENCE COMMENTS

3. STAFF REPORTS

- A. Landscape Inspection Report and Responses Tab 1
 - 1. Consideration of LMP proposals Tab 2
- B. Presentation of Aquatics Report.....Tab 3
- C. Amenity Manager Report.....Tab 4
- D. District Counsel
- E. District Engineer
 - 1. Consideration of District Engineering Services Proposal.....Tab 5
 - 2. Consideration of Striping proposals..... Tab 6
- F. District Managers Report.....Tab 7

4. BUSINESS ADMINISTRATION

- A. Consideration of Minutes of Board of Supervisor's Minutes
held on September 22, 2025 Tab 8

5. BUSINESS ITEMS

- A. Discussion of Clock Tower Surveillance..... Tab 9
- B. Ratification of Accurate Drilling Proposal..... Tab 10
- C. Consideration of Proposed Improvements Tab 11
- D. Consideration of Clock Tower Signage Proposal Tab 12**

6. SUPERVISOR REQUESTS

7. ADJOURNMENT

We look forward to seeing you at the meeting. In the meantime, if you have any questions, please do not hesitate to contact us at (813) 533-2950.

Respectfully,

Matt O'Nolan

District Manager]

Summary & Scoring

General Updates, Recent & Upcoming Maintenance Events

- ☐ Fertilizer ban is lifted September 30.
- ☐ Lake banks look much better this inspection.

The following are action items for LMP to complete. Please refer to the item # in your response listing action already taken or anticipated time of completion. **Red text** indicates a deficiency of over a month. **Bold Red text** indicates a deficiency of over two months. **Green text** indicates a proposal has been requested. **Blue** indicates an irrigation issue. Staff tasks will be shown in **Orange**.

Performance Scores

Scale: 0 – 10

1. Turf Conditions – 10.00
 - 0 – 10-point scale in each of the 5 categories: Turf Conditions, Palm/Tree Conditions, Plant Conditions, Bed Conditions, and Installations/Projects.
2. Tree/Palm Conditions – 7.00
 - Starting with a ten-point score.
3. Plant Conditions – 9.75
 - Minus 0.25 points for each red item – over a month deficient for each item in each category.
4. Bed Conditions – 9.75
 - Another minus 0.50 points for each red item that goes bold – over two months deficient for each item in each category. Add 1.0 point for each month for anything over 3 months.
5. Installations/Projects – 10.00
 - Coloring red for 0-3.5, orange for 3.51 to 6.5, green for 6.51 to 10.

Main Entrance, CGD, Regents & Surrey

1. Weedeat around the base of the new stop light on the entrance corner of Big Bend Rd. and Covington Gardens Dr.

2. Diagnose and treat Ornamental Grasses at Flagpole Park in Surrey. Also, need to remove a Brazilian Pepper Tree. (Pic. 2)

3. Check irrigation is working properly at Flagpole Park in Surrey. Turf appears dry.

4. Remove dead palm fronds on exit corner of Surrey and CGD intersection. These are lower to the ground and won't require a lift.

5. Schedule a pruning event for the shrubs along the aluminum fence on CGD that lines Surrey.

6. Noting two Pine trees that have been flagged for removal on Covington Stone South ROW. When is this scheduled?

7. Treat weeds in between the shrubs and the fence line on the exit corner of Cambridge Park Dr. and Covington Stone Ave.

8. Noting vines on the shrubs that need to be removed on Covington Stone Ave. South ROW between Cambridge and Guilford. (Pic. 8>)

9. Remove a dead shrub on the backend of the median entrance of Guilford.

10. Remove a dead hanging Pine branch on the South ROW of Covington Stone Ave. just West of Cromwell Garden Dr.

11. It appears a new wooden fence was installed on the South ROW of Covington Stone Ave. and concrete around a post has been left in CDD bed. This is across the street from Cambridge Park Dr. (Pic. 11)

12. Noting a lot of vines on the shrubs that need to be removed on Southeast corner intersection of CGD and Covington Stone Ave.

13. Need to detail the beds on CGD East ROW from Covington Stone Ave. to South end of CDD including treating weeds, removing vines, removing Brazilian Peppers, and removing any dead material in trees or shrubs.

CSA and Monarch Park

14. Investigate a small tree that appears dead across the street from the Oxford entrance and report your findings. Has a proposal been provided? (Pic. 14)

15. There is a dead Pine tree in need of removal on the East ROW of CGD across the street from Oxford entrance.

16. Need to raise Oak canopies that are almost or are touching CDD turf on CGD ROW on the East side. There is also a branch touching the ground behind the entrance monument of Covington Stone Ave. at the CGD intersection. (Pic. 16)

17. Overall, pond bank maintenance is being completed and looks good. There are still a few areas that trees are not included as the buffer zone and should be weedeated each mowing service. One area is the pond on Southeast end of Brighton Park. (Pic. 17>)

18. Noting a dead hanging Pine branch at Pond #5 on Brighton Park Dr.

19. Diagnose and treat declining Foxtail Ferns and Plumbago on the East median bed of Covington Stone Ave.. at CGD intersection.

20. Noting a couple dead Pine trees have been flagged for removal next to Monarch Park community pool When will these be removed?

21. Remove Brazilian Peppers growing up in the Viburnum along the sidewalk behind Monarch Park community pool.

22. Diagnose and remove a declining Viburnum at the entrance to Monarch Park community pool. Remove any dead or diseased material. (Pic. 22)

Monarch Park and Irwin Park

23. Need to detail the bed at the end of Exeter Park roundabout. Prune shrubs, treat weeds, remove debris, and establish a defined bed line.

24. There are two snapped Pines with approximately 4-5 feet of trunk remaining that need removal on CGD just South of Wiltshire Park Pl. roundabout Has a proposal been provided?

25. Need to remove a dead Pygmy Date Palm stalk at the roundabout bed of Wiltshire Park Pl. (Pic. 25)

26. Remove dead fronds in healthy Pygmy Date Palms at the roundabout bed of Wiltshire Park Pl.

27. Treat weeds in beds on CGD East ROW between Bristol Park Dr. and Devonbridge Garden Way.

28. It appears two palms were missed in the pruning event at the older pool at Irwin Park.

29. Noting the Foxtail Palms at the new pool at Irwin Park appear chlorotic. Please ensure these get fertilized now the Nitrogen ban has been lifted. (Pic. 29>)

30. Treat joint crack weeds in the sidewalks around the playground area at Irwin Park.

Proposal

Proposal No.: 366819

Proposed Date: 10/10/25

PROPERTY:	FOR:
Covington Park CDD Venessa Smith 6806 Covington Garden Drive Apollo Beach, FL 33572	Remove Dead Pine Tree on Monarch Walking Trail

We propose the removal of four (4) dead pine trees located along the Monarch Walking Trail. These trees have been severely impacted by the Southern Pine Beetle, resulting in their decline and eventual death.

As part of this project, all four trees will be safely removed, and the stumps will be ground down to ensure the area is left clean and hazard-free. This action is necessary to prevent further spread of the beetle to nearby healthy trees and to maintain the safety and aesthetics of the trail.

Thank you for inviting **Juniper Landscaping** to present a proposal for tree work at the above referenced property. Our team of professionals is committed to meet your service expectations and budget considerations.

Scope of Work:

Hardwood trees will be pruned as specified in the production plan as required by location and species.

Tree Care: Three (3) cuts will be utilized for removing branches that are too large for one-handed holding.

The first cut will be an undercut $\frac{1}{4}$ to $\frac{1}{2}$ the branch thickness, six to twelve inches from the branch base. A second cut within an inch or two of the first will be made to drop the branch. A final cut will be made at the edge of the branch collar to remove the branch stub. No stubs will be left at the end of the pruning operation.

Style of Cut: After the final cut in lateral branch removal a protuberance is left. The angle of the cut needed to save the branch collar is determined by the natural target pruning. This angle is equal and opposite to the angle of the branch bark ridge when present. When the branch bark ridge is not visible, the angle is determined by the swelling at the branch truck union. The resulting knob or bump, which is called the branch collar, is not a stub that requires a flush cut, but is necessary for continued health of the tree.

Work Force

The Contractor's representative will be experienced in tree maintenance and will be under the supervision of an I.S.A. Certified Arborist.

Debris will be stored in a designated area and cleaned upon completion of performance of work. All walks and resident areas will be cleaned up on a daily basis.

The contractor will maintain trees in a healthy, growing condition by performing all necessary operations, including the following:

Property Owner's Responsibility

Juniper Landscaping does not provide permits. All permits are to be obtained by the property owner. (unless otherwise stated in the proposal) _____ **Initial**

Juniper Landscaping will not attempt to perform arbor work over the top of vehicles. The property should have all vehicles, storage items such as boats, trailers and etc., moved prior to the beginning of work. Should the arbor crew be unable to complete services do to un-moved obstacles, a return trip will result in additional charges to cover the costs for returning to the job and for completion. _____ **Initial**

Juniper Landscaping cannot be responsible for wires, cables, pipes, or anything else that may be either underground, entwined within the root system, hung on or through trees being worked on, or otherwise in conflict with the completion of services. The property owner is to assure all such items are removed prior to the start of the job. _____ **Initial**

During the stump removal process, if included within the scope of work, wires, cables, and or pipes may be damaged do to their location within or close to the stump and or root system. Juniper Landscaping will not be responsible for any damage of this nature. _____ **Initial**

Safety Measures

Worker Safety

Workers shall wear hard hats; climbers shall use tree saddles and safety lanyards, and also a safety work line with rappelling hitch for climbing at heights above fifteen feet (15'). Ground workers shall stand clear of

branch drop areas and take appropriate precautions to avoid injury from the work or tools employed.

Protection of People and Property

Tree pruning or removal performed in the vicinity of pedestrian or vehicular traffic ways shall be effectively cordoned off with cones and/or lines, and shall have warning signs to keep people at a safe distance from the work area.

Branch drop after cutting shall be controlled to avoid injury to people and property. Branches too large for controlled, one-handed dropping shall be roped and lowered by ropes and other equipment. All brush and other trimming debris shall be cleaned up and removed from the site, leaving a safe and neat ground surface upon completion of work.

				Total:	\$1,166.10

Guarantee: Any alteration from these specs involving additional costs will be executed only upon written order and will become an extra charge over and above estimate.

Standard Warranty: LMP agrees to warranty irrigation, drainage and lighting for 1 year, trees and palms for 6 months, shrubs and ground cover for 3 months, and sod for 30 days. This warranty is subject to and specifically limited by the following:

Warranty is not valid on relocated material, annuals and any existing irrigation, drainage and lighting systems. Warranty is not valid on new plant material or sod installed without automatic irrigation. Warranty does not cover damage from pests or disease encountered on site, act of God, or damaged caused by others. Failure of water or power source not caused by LMP will void warranty. The above identified warranty periods commence upon the date of completion of all items included in this proposal. Standard Warranty does not modify or supersede any previously written agreement. LMP is not responsible for damage to non-located underground.

Residential Agreement: A deposit or payment in full will be required before any work will begin. Any and all balance will be due upon job completion in full, unless otherwise noted in writing. All work will be performed in a workman like manner in accordance to said proposal. Any additional work added to original proposal will require written approval, may require additional deposits and will be due on completion with any remaining balances owed.

Proposal

Proposal No.: 367274

Proposed Date: 10/13/25

PROPERTY:	FOR:
Covington Park CDD Venessa Smith 6806 Covington Garden Drive Apollo Beach, FL 33572	Proposal for Removal of Dead Pines Affected by Southern Pine Beetle. Location : 1)Northside Irwin Park , 2) 7602 Hampshire Garden Pl, 3) 7602 Clovelly Park Pl, 4) Covington Garden Dr.

This proposal is for the removal of multiple dead pine trees that have been severely affected by southern pine beetle infestation. These trees are located near pedestrian walkways and residential homes and present a significant hazard due to their weakened state and proximity to public areas.

Justification:

Trees are confirmed dead or dying due to southern pine beetle damage.

Their proximity to sidewalks and homes poses a high risk of falling, which could lead to:

Injury to pedestrians.

Damage to private property.

Preventive removal is recommended to eliminate risk and maintain public safety.

Thank you for inviting **Juniper Landscaping** to present a proposal for tree work at the above referenced property. Our team of professionals is committed to meet your service expectations and budget considerations.

Scope of Work:

Hardwood trees will be pruned as specified in the production plan as required by location and species.

Tree Care: Three (3) cuts will be utilized for removing branches that are too large for one-handed holding. The first cut will be an undercut $\frac{1}{4}$ to $\frac{1}{2}$ the branch thickness, six to twelve inches from the branch base. A second cut within an inch or two of the first will be made to drop the branch. A final cut will be made at the edge of the branch collar to remove the branch stub. No stubs will be left at the end of the pruning operation.

Style of Cut: After the final cut in lateral branch removal a protuberance is left. The angle of the cut needed to save the branch collar is determined by the natural target pruning. This angle is equal and opposite to the angle of the branch bark ridge when present. When the branch bark ridge is not visible, the angle is determined by the swelling at the branch truck union. The resulting knob or bump, which is called the branch collar, is not a stub that requires a flush cut, but is necessary for continued health of the tree.

Work Force

The Contractor's representative will be experienced in tree maintenance and will be under the supervision of an I.S.A. Certified Arborist.

Debris will be stored in a designated area and cleaned upon completion of performance of work. All walks and resident areas will be cleaned up on a daily basis.

The contractor will maintain trees in a healthy, growing condition by performing all necessary operations,

including the following:

Property Owner's Responsibility

Juniper Landscaping does not provide permits. All permits are to be obtained by the property owner. (unless otherwise stated in the proposal) _____ **Initial**

Juniper Landscaping will not attempt to perform arbor work over the top of vehicles. The property should have all vehicles, storage items such as boats, trailers and etc., moved prior to the beginning of work. Should the arbor crew be unable to complete services do to un-moved obstacles, a return trip will result in additional charges to cover the costs for returning to the job and for completion. _____ **Initial**

Juniper Landscaping cannot be responsible for wires, cables, pipes, or anything else that may be either underground, entwined within the root system, hung on or through trees being worked on, or otherwise in conflict with the completion of services. The property owner is to assure all such items are removed prior to the start of the job. _____ **Initial**

During the stump removal process, if included within the scope of work, wires, cables, and or pipes may be damaged do to their location within or close to the stump and or root system. Juniper Landscaping will not be responsible for any damage of this nature. _____ **Initial**

Safety Measures

Worker Safety

Workers shall wear hard hats; climbers shall use tree saddles and safety lanyards, and also a safety work line with rappelling hitch for climbing at heights above fifteen feet (15'). Ground workers shall stand clear of branch drop areas and take appropriate precautions to avoid injury from the work or tools employed.

Protection of People and Property

Tree pruning or removal performed in the vicinity of pedestrian or vehicular traffic ways shall be effectively cordoned off with cones and/or lines, and shall have warning signs to keep people at a safe distance from the work area.

Branch drop after cutting shall be controlled to avoid injury to people and property. Branches too large for controlled, one-handed dropping shall be roped and lowered by ropes and other equipment. All brush and other trimming debris shall be cleaned up and removed from the site, leaving a safe and neat ground surface upon completion of work.

Proposal

Proposal No.: 367103

Proposed Date: 10/13/25

PROPERTY:	FOR:
Covington Park CDD Venessa Smith 6806 Covington Garden Drive Apollo Beach, FL 33572	Proposal for Stump and Exposed Root Grinding - Surrey Pines Park

We propose the removal and grinding of exposed tree stumps and roots located within Surrey Pines Park. These protrusions currently present a trip hazard to park users and compromise both safety and accessibility. The work will involve grinding down the stumps and roots to ground level or below, ensuring a smooth and safe surface in compliance with public safety standards. This preventative maintenance will help reduce the risk of injuries and improve the overall usability of the park.

Thank you for inviting **Juniper Landscaping** to present a proposal for tree work at the above referenced property. Our team of professionals is committed to meet your service expectations and budget considerations.

Proposal

Proposal No.: 366819

Proposed Date: 10/10/25

PROPERTY:	FOR:
Covington Park CDD Venessa Smith 6806 Covington Garden Drive Apollo Beach, FL 33572	Remove Dead Pine Tree on Monarch Walking Trail

We propose the removal of four (4) dead pine trees located along the Monarch Walking Trail. These trees have been severely impacted by the Southern Pine Beetle, resulting in their decline and eventual death.

As part of this project, all four trees will be safely removed, and the stumps will be ground down to ensure the area is left clean and hazard-free. This action is necessary to prevent further spread of the beetle to nearby healthy trees and to maintain the safety and aesthetics of the trail.

Thank you for inviting **Juniper Landscaping** to present a proposal for tree work at the above referenced property. Our team of professionals is committed to meet your service expectations and budget considerations.

Scope of Work:

Hardwood trees will be pruned as specified in the production plan as required by location and species.

Tree Care: Three (3) cuts will be utilized for removing branches that are too large for one-handed holding.

The first cut will be an undercut $\frac{1}{4}$ to $\frac{1}{2}$ the branch thickness, six to twelve inches from the branch base. A second cut within an inch or two of the first will be made to drop the branch. A final cut will be made at the edge of the branch collar to remove the branch stub. No stubs will be left at the end of the pruning operation.

Style of Cut: After the final cut in lateral branch removal a protuberance is left. The angle of the cut needed to save the branch collar is determined by the natural target pruning. This angle is equal and opposite to the angle of the branch bark ridge when present. When the branch bark ridge is not visible, the angle is determined by the swelling at the branch truck union. The resulting knob or bump, which is called the branch collar, is not a stub that requires a flush cut, but is necessary for continued health of the tree.

Work Force

The Contractor's representative will be experienced in tree maintenance and will be under the supervision of an I.S.A. Certified Arborist.

Debris will be stored in a designated area and cleaned upon completion of performance of work. All walks and resident areas will be cleaned up on a daily basis.

The contractor will maintain trees in a healthy, growing condition by performing all necessary operations, including the following:

Property Owner's Responsibility

Juniper Landscaping does not provide permits. All permits are to be obtained by the property owner. (unless otherwise stated in the proposal) _____ **Initial**

Juniper Landscaping will not attempt to perform arbor work over the top of vehicles. The property should have all vehicles, storage items such as boats, trailers and etc., moved prior to the beginning of work. Should the arbor crew be unable to complete services do to un-moved obstacles, a return trip will result in additional charges to cover the costs for returning to the job and for completion. _____ **Initial**

Juniper Landscaping cannot be responsible for wires, cables, pipes, or anything else that may be either underground, entwined within the root system, hung on or through trees being worked on, or otherwise in conflict with the completion of services. The property owner is to assure all such items are removed prior to the start of the job. _____ **Initial**

During the stump removal process, if included within the scope of work, wires, cables, and or pipes may be damaged do to their location within or close to the stump and or root system. Juniper Landscaping will not be responsible for any damage of this nature. _____ **Initial**

Safety Measures

Worker Safety

Workers shall wear hard hats; climbers shall use tree saddles and safety lanyards, and also a safety work line with rappelling hitch for climbing at heights above fifteen feet (15'). Ground workers shall stand clear of

branch drop areas and take appropriate precautions to avoid injury from the work or tools employed.

Protection of People and Property

Tree pruning or removal performed in the vicinity of pedestrian or vehicular traffic ways shall be effectively cordoned off with cones and/or lines, and shall have warning signs to keep people at a safe distance from the work area.

Branch drop after cutting shall be controlled to avoid injury to people and property. Branches too large for controlled, one-handed dropping shall be roped and lowered by ropes and other equipment. All brush and other trimming debris shall be cleaned up and removed from the site, leaving a safe and neat ground surface upon completion of work.

Proposal

Proposal No.: 367103

Proposed Date: 10/13/25

PROPERTY:	FOR:
Covington Park CDD Venessa Smith 6806 Covington Garden Drive Apollo Beach, FL 33572	Proposal for Stump and Exposed Root Grinding - Surrey Pines Park

We propose the removal and grinding of exposed tree stumps and roots located within Surrey Pines Park. These protrusions currently present a trip hazard to park users and compromise both safety and accessibility. The work will involve grinding down the stumps and roots to ground level or below, ensuring a smooth and safe surface in compliance with public safety standards. This preventative maintenance will help reduce the risk of injuries and improve the overall usability of the park.

Thank you for inviting **Juniper Landscaping** to present a proposal for tree work at the above referenced property. Our team of professionals is committed to meet your service expectations and budget considerations.

Scope of Work:

Hardwood trees will be pruned as specified in the production plan as required by location and species.

Tree Care: Three (3) cuts will be utilized for removing branches that are too large for one-handed holding. The first cut will be an undercut $\frac{1}{4}$ to $\frac{1}{2}$ the branch thickness, six to twelve inches from the branch base. A second cut within an inch or two of the first will be made to drop the branch. A final cut will be made at the edge of the branch collar to remove the branch stub. No stubs will be left at the end of the pruning operation.

Style of Cut: After the final cut in lateral branch removal a protuberance is left. The angle of the cut needed to save the branch collar is determined by the natural target pruning. This angle is equal and opposite to the angle of the branch bark ridge when present. When the branch bark ridge is not visible, the angle is determined by the swelling at the branch truck union. The resulting knob or bump, which is called the branch collar, is not a stub that requires a flush cut, but is necessary for continued health of the tree.

Work Force

The Contractor's representative will be experienced in tree maintenance and will be under the supervision of an I.S.A. Certified Arborist.

Debris will be stored in a designated area and cleaned upon completion of performance of work. All walks and resident areas will be cleaned up on a daily basis.

The contractor will maintain trees in a healthy, growing condition by performing all necessary operations, including the following:

Property Owner's Responsibility

Juniper Landscaping does not provide permits. All permits are to be obtained by the property owner. (unless otherwise stated in the proposal) _____ **Initial**

Juniper Landscaping will not attempt to perform arbor work over the top of vehicles. The property should have all vehicles, storage items such as boats, trailers and etc., moved prior to the beginning of work. Should the arbor crew be unable to complete services do to un-moved obstacles, a return trip will result in additional charges to cover the costs for returning to the job and for completion. _____ **Initial**

Juniper Landscaping cannot be responsible for wires, cables, pipes, or anything else that may be either underground, entwined within the root system, hung on or through trees being worked on, or otherwise in conflict with the completion of services. The property owner is to assure all such items are removed prior to the start of the job. _____ **Initial**

During the stump removal process, if included within the scope of work, wires, cables, and or pipes may be damaged do to their location within or close to the stump and or root system. Juniper Landscaping will not be responsible for any damage of this nature. _____ **Initial**

Safety Measures

Worker Safety

Workers shall wear hard hats; climbers shall use tree saddles and safety lanyards, and also a safety work line with rappelling hitch for climbing at heights above fifteen feet (15'). Ground workers shall stand clear of branch drop areas and take appropriate precautions to avoid injury from the work or tools employed.

Protection of People and Property

Tree pruning or removal performed in the vicinity of pedestrian or vehicular traffic ways shall be effectively cordoned off with cones and/or lines, and shall have warning signs to keep people at a safe distance from the work area.

Branch drop after cutting shall be controlled to avoid injury to people and property. Branches too large for controlled, one-handed dropping shall be roped and lowered by ropes and other equipment. All brush and other trimming debris shall be cleaned up and removed from the site, leaving a safe and neat ground surface

upon completion of work.

Proposal

Proposal No.: 367274

Proposed Date: 10/13/25

PROPERTY:	FOR:
Covington Park CDD Venessa Smith 6806 Covington Garden Drive Apollo Beach, FL 33572	Proposal for Removal of Dead Pines Affected by Southern Pine Beetle. Location : 1)Northside Irwin Park , 2) 7602 Hampshire Garden Pl, 3) 7602 Clovelly Park Pl, 4) Covington Garden Dr.

This proposal is for the removal of multiple dead pine trees that have been severely affected by southern pine beetle infestation. These trees are located near pedestrian walkways and residential homes and present a significant hazard due to their weakened state and proximity to public areas.

Justification:

Trees are confirmed dead or dying due to southern pine beetle damage.

Their proximity to sidewalks and homes poses a high risk of falling, which could lead to:

Injury to pedestrians.

Damage to private property.

Preventive removal is recommended to eliminate risk and maintain public safety.

Thank you for inviting **Juniper Landscaping** to present a proposal for tree work at the above referenced property. Our team of professionals is committed to meet your service expectations and budget considerations.

Scope of Work:

Hardwood trees will be pruned as specified in the production plan as required by location and species.

Tree Care: Three (3) cuts will be utilized for removing branches that are too large for one-handed holding. The first cut will be an undercut $\frac{1}{4}$ to $\frac{1}{2}$ the branch thickness, six to twelve inches from the branch base. A second cut within an inch or two of the first will be made to drop the branch. A final cut will be made at the edge of the branch collar to remove the branch stub. No stubs will be left at the end of the pruning operation.

Style of Cut: After the final cut in lateral branch removal a protuberance is left. The angle of the cut needed to save the branch collar is determined by the natural target pruning. This angle is equal and opposite to the angle of the branch bark ridge when present. When the branch bark ridge is not visible, the angle is determined by the swelling at the branch truck union. The resulting knob or bump, which is called the branch collar, is not a stub that requires a flush cut, but is necessary for continued health of the tree.

Algae blooms and underwater weeds were present and treated during this maintenance event.

Liter and debris were removed.

Covington Park Stormwater Map

Lake/Pond Summary

We conducted our inspection and maintenance activities on October 2nd, 3rd, and 15th, 2025. Below is a comprehensive list of ponds that exhibited significant growth anomalies compared to the other community ponds. We will return in 14 days from the initial treatment if necessary to address these specific areas.

As the seasons change and temperatures fall, we can expect to see improved results from herbicide applications. Ponds are beginning to look much better. We will be proactive and continue to retreat throughout the month if necessary.

Ponds with Large Algae Blooms and Underwater Weeds:

14, 19, 22, 27, 37, 41

Ponds with Torpedo Grass and Shoreline Vegetation:

10, 14, 19, 20, 37

Total Volume of Litter and Debris Removed: 30 pounds

Tab 4

October 2025 Manager's Report

- **Playground shade – Update** The playground shade was reinstalled. There were slight incisions cut into the playground mat due to the resetting of the 3 leaning posts. The incisions near the 3 reset posts were repaired on 10/16/25. Upon final approval by the board, the playground will be reopened.
- **Clock tower/ Pergola camera – Update 10/10/25** - Redwire has turned in an estimate to add a camera to the pergola area. MHD visited the clocktower location and submitted an estimate for the installation of a camera at the pergola. Awaiting Board consideration.
- **Front Entrance Sconce Lights – Update 10/16/25** - The board requested more lighting options for the entrance monument. I've submitted more options for consideration, and I am still in the process of reaching out to vendors who may also provide options for lighting. More options for lighting has been turned in to the board

Fitness Center A/C - ABM is awaiting permitting and expects to be able to begin the A/C replacement in a couple of weeks. **Update 10/16/25** - This work is currently in progress. The A/C has been installed. However, the installation technician found an issue with the A/C's breaker and reached out to ABM's electrician to correct the issue. The A/C has been running on a 20amp breaker when it should have been running on a 50 amp breaker. We are awaiting scheduling from the ABM's electrician to correct this issue .

Amenity signage – The amenity signage installation is in process and will continue through next week. There is a typo on one of the 1-inch words on one of the amenity signs. This will be corrected by the vendor. **Update 10/10/25** - This work has been completed. New signage is now installed at the amenities (Photos are attached to email).

Backflow – A repair was made to the Guilford playground backflow. This backflow was leaking and causing issues for the irrigation department, but these issues have now been corrected. **This Work has been completed.**

Clock Tower – We are in the process of installing new street signage around the clock tower and are preparing to begin upgrades to the area. These upgrades will be completed well before the Christmas event that will take place at the clock tower.

Guilford Playground – Update 10/10/25 The Guilford playground upgrade is near completion. LMP will soon be trimming some tree branches that have overgrown onto the top portion of the playset which has been preventing maintenance from painting that portion. As soon as the tree is trimmed back, maintenance will paint that portion, and all painting will be completed. We have also ordered and received a new welcome sign to replace the old sign which was faded and in poor condition.

Outdoor Wall Light LED 26W, Modern Exterior Lighting Fixture with Resin Shade - 24.8in Rectangle Waterproof Porch Sconce IP65 for Garage,Front Door,Patio

cover has a unique shape that creates beautiful ripples in the light, bringing the lighting effect to a whole new level compared to ordinary glass. The shape of the outdoor WIHTU Wall Mount Lamp adopts a double frame design, which is more design-oriented than other wall lamps and is durable, creating a gorgeous lighting effect while illuminating your space.

- **【Multiple Occasions Indoor and Outdoor】** WIHTU Wall Mount Lamp unique design makes it not only suitable for outdoor occasions, but can also be installed indoors, giving you a beautiful experience of light in the dark. The Wall Lights Fixture can be used to illuminate your house, residence, patio, porch, front door, garage, carriage, coach, entrance, doorway, and any other outdoor area. You can choose WIHTU Porch Light Fixture with confidence.
- **【Outdoor Weather Resistance】** Wall Lights Fixture is made of waterproof material and high-strength glass lampshade. After rigorous waterproof testing, it can withstand any weather conditions such as cloudy days, heavy rain, snow, ice, and high temperatures. The WIHTU Porch Light Fixture can withstand any outdoor environment and is durable for many years. The WIHTU Wall Mount Lamp is very suitable for long-term use in any harsh outdoor environment. The quality is guaranteed.
- **【E26 Bulb Socket】** The bulb socket of WIHTU Porch Light Fixture is compatible with any standard E26 base bulb, and our lamps already come with an adapted T80 bulb. You can also choose the appropriate bulb according to your needs, which can meet a variety of different requirements. The bulb socket of the Wall Lights Fixture has been UL certified and can be used with confidence.
- **【Excellent After-Sales Service】** We provide professional after-sales service for troubleshooting and returns and exchanges. If you encounter any problems when you receive the WIHTU Porch Light Fixture, you can communicate with us and we will provide you with professional and effective solutions.

Is it easy to install?

Ask something else

vintage wall sconces appear longer, but the main part of the wall sconces bodies belong to the medium size, not to the large size wall sconces. If you are looking for extra large wall sconces, this may not be a good fit for you.

- [Retro Wall Lights Dimmensions] - These retro outdoor wall lights measure 17 inches high and 7.8 inches wide, and the industrial wall light fixture mounting back plate is 6 inches long and 4.2 inches wide.
- [Automatic On/Off] - With the dusk to dawn sensor, our outdoor wall lights exterior can accurately sense the surrounding brightness, it will automatically turn on when the ambient brightness is low and turn off when the ambient brightness is high. Note: It is recommended to avoid shadows when installing.
- [Premium Aluminum Material & Weather Resistant] - This outdoor wall lights are made of heavy-duty die-cast aluminum alloy and solid tempered clear glasses, which can withstand various weather conditions, including rain, snow, and ultra-high or low temperatures. You can use the outdoor porch light for years and don't need to worry about it getting rusted out or corroded anymore.
- [The Installation Is A Breeze] - These glass of this outdoor lighting fixtures have been pre-assembled. Just connect the wires and use two screws to fix the wall sconce lights on the wall. It is very simple. These porch lights are suitable for standard E26 base bulbs(Bulb Not Included).

The high-quality metal used in the construction effectively prevents rust and corrosion, enabling it to retain its stylish appearance for years of use

- **Retro Design:** The outdoor light fixture has a sophisticated Victorian and farmhouse style thanks to the retro top cover finished in brown. The water ripple glass shade is unique and creates a stunning lighting effect, casting a fabulous pattern on the wall. Perfect for any exterior space of the house, including the porch, garage, yard, entryway, and front door, adding a touch of elegance and beauty
- **E26 Sockets:** Two E26 base bulbs are needed when using these 2-pack porch lights and any E26 medium base bulbs like CFL, LED, halogen, and incandescent bulbs are compatible. ST58/ST64 LED Edison bulbs or incandescent bulbs are highly recommended if you want to enhance the vintage flair. The maximum wattage for incandescent is 100W and 8W for LED(bulb not included)
- **Easy Installation:** The glass shades of the exterior wall lanterns are pre-assembled when you receive and the package comes with the detailed instructions and hardware accessories for fast and easy installation. We advise you contact professional electricians to install for safety purpose
- **Great Value:** The stunning optical design imbues your outdoor area with a renewed and inviting ambiance, even when the light is off. The light diffuses in all directions, illuminating the surroundings brightly. Each outdoor wall light is crafted from high-quality materials and undergoes thorough testing to ensure durability. These lights are not only decorative and functional but also long-lasting, making them the ideal lighting solution

 Ask Rufus

Can it be mounted horizontally?

What bulbs are recommended?

Is it easy to install?

Ask something else

- ✔ **【Design features】** Modern fashion retro style wall lamps, perfect smooth and clean matte black line appearance, embedded with 4 transparent glass light panels, will better show the light.
- ✔ **【High quality Material】** Durable outdoor wall light composed of metal rectangular frame shell and transparent glass plate. This outdoor wall lamp is waterproof and rust-resistant and durable. Under heavy rain, snow and other weather changes, it can still be used for a long time.
- ✔ **【Recommended Bulbs】** The 2-pack wall light fixtures require two E26 base bulbs (100W Max, bulb not included). Any light bulbs like CFL, incandescent, LED and halogen with medium base are compatible, though ST58/ST64 LED Edison bulbs and incandescent bulbs are definitely on top of our recommendation list if you want to top off the look.
- ✔ **【Indoor and outdoor applications】** IP65 waterproof level, good waterproof and airtightness; wall lamps are widely used in corridors, halls, exhibition halls, bars, coffee shops, front porches, doorways
- ✔ **【Easy To Install】** Wall/Surface mounted, Wired, install without complex installer. Can be mounted vertical or horizontal to suit the décor. Energy Saving Design, This will not only help you join in the environmental it also helps you save on electricity bills. Water resistant Led Driver: with short circuit protection design, over load protecting design to make sure it is completely safe to use

Mr. Matt O’Nolan, District Manager
Covington Park Community Development District
c/o Rizzetta & Company
2700 S. Falkenburg Road
Suite 2745
Riverview, Florida 33578

Subject: **Work Authorization Number 2026-1
Covington Park Community Development District
District Engineering Services – FY 2026**

Dear Mr. O’Nolan:

Dewberry Engineers Inc. is pleased to submit this Work Authorization to provide general engineering services for the Covington Park Community Development District (District). We will provide these services pursuant to our current agreement (“District Engineering Agreement”) as follows.

I. General Engineering Services

The District will engage the services of Dewberry Engineers Inc. (Engineer) as District Engineer to perform those services as necessary, pursuant to the District Engineering Agreement, including attendance at Board of Supervisors meetings, review and approval of requisitions, or other activities as directed by the District’s Board of Supervisors.

Our fee for this task will be based on time and materials, in accordance with the enclosed Schedule of Charges. The referenced Schedule of Charges is valid for fiscal year 2026 only. We estimate a budget of \$10,000, plus other direct costs.

II. Other Direct Costs

Other direct costs include items such as printing, drawings, travel, deliveries, et cetera. This does not include any of the application fees for the various agencies, which are the owner’s responsibility and have not been accounted for in this proposal. We estimate a budget of \$100.

This Work Authorization, together with the referenced District Engineering Agreement, represents the entire understanding between the Covington Park Community Development District and Dewberry Engineers Inc. with regard to the referenced project. If you wish to accept this Work Authorization, please sign where indicated and return one complete copy to Aimee Powell, Senior Office Administrator in our Orlando office at 800 N. Magnolia Avenue, Suite 1000, Orlando, Florida 32803 (or via email at apowell@dewberry.com). Upon receipt, we will promptly schedule our services.

Mr. Matt O'Nolan

Dear Will,

We appreciate the opportunity to provide you with a solution! Unparalleled quality and customer service is the foundation of our business and the focus of our teams.

MHD takes pride in our solution-oriented business by offering a total technology solution for your business. Our offerings extend to IT Managed Services, Network Security, Audio Visual, Access Control, Surveillance, Security, Phone Systems, Low Voltage Cabling and Fiber Services. Should you ever need a solution in one of these areas, please do not hesitate to reach out. We at MHD want to make your business just that much more successful and we are looking forward to assisting you in doing so very soon!

Thank you for taking the time to review my proposal. It has been my pleasure to provide you with a solution for your technology needs. If I can answer any additional questions or provide you with more details please give me a call.

Best Regards,

A handwritten signature in dark ink, appearing to be "Shawn Lincoln", written over a horizontal line.

Sales Engineer

HARDWARE

Product Details	Qty
AcuSense ColorVu 4K Bullet IP Camera Solar Kit with 80W Photovoltaic Panel and Lithium Battery, 2.8mm Fixed Lens, White	1
256GB High Endurance Video microSDXC Card	1
Extension Pipe, 250mm, White	2
Connectors, Mounting Hardware, Conduit etc.	1

Subtotal: **\$2,863.17**

SCOPE OF WORK

All work assumed performed during normal business hours Monday through Friday from 8:00am to 5:00pm.

We will provide and install (1) solar panel kit with built in battery and 4k camera at terrace.

We will provide and install (1) 256GB SD card within camera for video storage.

Please note that a Micro SIM card will need to be purchased and a cellular account will need to be provided and set up by owner.

P: 813-948-0202 E: shawn.lincoln@mhdit.com W: www.MHDcommunications.com

PAYMENT OPTIONS

Cash Contract

Deposit: A deposit is required within five business days of signing the proposal. Please note that parts will not be ordered, and the project will not be scheduled until the full deposit is received.

- **Parts:** 80%
- **Labor:** 50%

Remaining Balance: The remaining balance is due within five business days of project completion.

Progress Billing:

For projects extending beyond 30 days, MHD reserves the right to issue monthly progress invoices for the labor completed to date. Additionally, if the Customer causes delays in the performance of the Work—whether through failure to provide necessary information, access, approvals, or any other action or inaction that impedes the MHD's ability to proceed—MHD shall be entitled to issue progress invoices for the portion of the Work completed to date. Such invoices shall be due and payable by the Customer within 30 days of the invoice date, regardless of the delay. The MHD's right to issue progress invoices shall not be construed as a waiver of any other rights or remedies available under this Agreement or applicable law.

Payment Methods: MHD accepts cash, check, and all major credit cards. A link to pay by credit card will be provided with the deposit invoice. If you prefer to pay via ACH, a form is included with this quote. Please complete and submit the form to finance@mhdit.com.

FINANCE CONTRACT

MHD provides financing plans with 36-month, 48-month, and 60-month terms. If you're interested in financing your project, please contact your sales engineer to discuss the available options.

ACCEPTANCE OF CONTRACT

The undersigned hereby agrees to purchase the above equipment in accordance with the terms and conditions stated on this agreement. Until accepted and signed by an officer of seller at its principal office, this agreement shall not become effective and shall not constitute a binding contract. Pricing included on this proposal is valid for fifteen days from initial presentation.

Phone: (813) 444-4355 Ext 203

- Your Technology Professionals -
Sales, Training, & Support

Hi Covington Park CDD,

Complete I.T. has worked with small businesses, CDD's & HOA's, all the way up to Fortune 500 companies. No job is too big or too small. Complete I.T. Specialty Electrical License ES12001800.

Complete I.T. uses high quality products for one reason—quality makes a happy customer. We understand how inferior products, that may cost less in the beginning, can cost you much more in the end. Products chosen by Complete I.T. are often of superior craftsmanship and practical pricing than competitors.

All products sold by Complete I.T. hold a minimum 1-year manufacturer warranty. You as the client never have to worry about the warranties. If a product fails within a specified warranty period,

Complete I.T. can take care of the exchange or replacement. By allowing Complete I.T. to take care of your technology solutions, you can tend to what you do best, your company.

Networks Infrastructure (Wi-Fi)

Security. Access. Backbone. Up-time.

Complete I.T. designs, installs, and manages efficient network backbones. Whether you are a one-man show, or an fortune 500 company, your employees and clients deserve easy accessibility and a impeccable up-time.

Camera Systems (CCTV)

Up To 4K Resolution. Night Vision. Digital. PTZ.

Our digital solutions will capture video at your office, allowing you to review footage from any computer or mobile device with an internet connection. Crisp clear video, with audio capture being optional. Large assortment of cameras for any project. Local and cloud recording available.

Access Control Systems (ACS)

Cloud Based. Secure. Affordable. Easy To Use.

Have you pondered what would happen if the computer or server running your access control system crashed? By going with our Cloud solution, you won't have too. No large up-front software licensing fees.

Worry-Free Cloud Video Surveillance for Your Business

Make your business more efficient and the world a safer place – all on the only video management platform robust and flexible enough to power the future of video surveillance.

Eagle Eye Cloud Video Management System

CAMERA COMPATIBILITY

Use existing cameras or purchase from hundreds of the world's leading camera manufacturers, as Eagle Eye allows for the greatest choice and flexibility of any system on the market.

TRUE CLOUD

Benefit from easily deployed cloud technology that provides you with infinite scalability, flexibility, accessibility, and reliability.

CYBER SECURE

Protect your data with a system built by experts in cybersecurity who know how to prevent, detect, and respond to attacks, so you don't have to.

OPEN PLATFORM

Integrate seamlessly with other mission-critical applications, such as access control, smart sensors, and point-of-sale.

AI & ANALYTICS

Move beyond monitoring by leveraging data to identify threats; inform responses; and improve business operations, efficiency, and service.

THE EAGLE EYE CLOUD VMS

Smart Video Surveillance

Smart, Simple, Secure Cloud Video Surveillance for Your Business

Your security system should not only protect your people and property, it should also provide insight to help your business grow and thrive. It's Eagle Eye Networks mission to help you do just that.

We're leaders in delivering the power, flexibility, and cost-savings of cloud technology to the video surveillance market, helping you improve operations and enhance customer service, all while keeping an eye on what truly matters.

Whether you run a small business, global enterprise, or something in-between, you need a video solution capable of adapting to your needs – today and tomorrow. The Eagle Eye Cloud Video Management System (VMS) simplifies video surveillance through the flexibility of cloud paired with the convenience of easy, affordable installation and remote management.

The Eagle Eye Cloud VMS Equips You With:

True Cloud Technology

With a true cloud video solution, the video is processed and managed in the cloud, which offers users countless benefits.

- Scalability, so the system easily grows with your business
- Flexibility, enabling you to use the cameras and cabling in which you've already invested
- Accessibility, meaning you can view video from anywhere, on any device
- Reliability, regardless of your bandwidth limitations

Ease of Use

Eagle Eye provides easy installation, simple setup, an attractive and intuitive interface, central management, multisite viewing, on-the-fly camera sharing, storage retention flexibility, and much more.

Cybersecurity

The Eagle Eye VMS is built and maintained by cybersecurity experts who are laser-focused on protecting the confidentiality, integrity, and availability of your systems and the valuable data they contain.

Among other leading cybersecurity best practices, the Eagle Eye VMS offers secure encryption to buffered and locally-recorded video, constant monitoring against potential cyber threats, no vulnerable open ports or onsite firewalls, no onsite software to patch, triple redundant video storage, and two-factor authentication.

Open Platform

Closed systems can be problematic and costly to upgrade or add new technologies. Eagle Eye's open architecture gives you the power to choose from unlimited integrations, giving you the freedom to add new applications as your business needs evolve, ultimately increasing the value of your system. Easily integrate access control, point-of-sale, and license plate recognition to name just a few, for a single view of your operations.

Our open API platform offers:

- Greater customization
- Lower total cost of ownership (with no vendor lock-in and no additional licensing fees)
- Stronger cybersecurity
- A future-proofed investment (allowing you to incorporate tools for future needs)
- Speed to market (applications can be built in hours, not months, and updated in minutes, not weeks)

Artificial Intelligence and Analytics

Create long-term strategies based on the insights gained from your video analytics. For example, easily determine the number of people entering and exiting your property at any given time. Monitoring customer traffic flow and patterns is crucial to operations and marketing, allowing for better planning around staffing, floor displays, and store layouts.

Video analytics also provide insight into employee behaviors, ensuring procedures are being properly followed, customer interactions are positive, and training is appropriate and effective.

Project Summary

In this proposal, Complete I.T. Corp has provided you with Eagle Eye camera system that has a minimum of 30-days of video retention. We always over engineer our systems to accomidate additional cameras later.

The pricing is with CDD owned CMVRs. The CMVR (recording unit) would be owned by the district and come with a 2-year manufacturer warranty. Cameras come with a manufacturer 3 year limited warranty as well.

We offer the ability for anyone with secured access to the system via the App to talk down (2-way communication). In the next few quarters, we will be able to add a additional Ai software feature upgrade to these non-ai cameras to notify anyone with the App for night time trespassers. This would also have the option to use our central station to monitor the location.

Complete I.T. Camera Solution:

- Installation of new cameras
- Install new managed POE port switch
- Installation of (1) new AXIS PA loudspeaker. This will allow district staff, district board, or patrol to:
 - Have 2-way communication through the Eagle Eye Network app. Great for at night or when allow from the phone (non-monitored)
 - Allow staff to talk through CIT phone system through the PA. Great for emergency messages during the day and to stop kids from running around the pool deck. This can also be done remotely from the phone at the main clubhouse. (non-monitored)
 - Allow for custom pool closure messages right before the pool is scheduled to close. This has been proven to help disburse residents instead of them staying well after the pool closes.
- Installation of new CAT6 wire for the AXIS PA
- Remove old equipment
- Installation of UPS
- **Minimum of 30-days video rentention. State requirement is 30-days.**

Clock Tower Proposal

Camera: Eagle Eye Camera System

Ability for camera system to be viewed from any computer onsite or offsite with an internet connection. Does not require any special PC software, completely browser based. Can also be viewed from smartphone app with internet connection. Customer is responsible for power and ISP.

Software Licenses: Eagle Eye

Description	Price	QTY
EEN 4MP 30-day Data Recording License	\$25.00	1

Monthly Camera License \$25.00
(save 3% paying annually)

Payment and Service Agreement Terms

1. Project-Based Services & Payment Terms

Before initiating any requested service on a project basis, Vendor shall provide a written proposal outlining the scope of work and associated fees. While an estimated completion timeframe may be included, it is not guaranteed and may be omitted depending on the nature of the project. The Customer agrees to remit a non-refundable deposit equal to 50% of the total proposed cost prior to the commencement of any work. Once the 50% deposit is received, the Vendor will order all required products and add the project to the schedule. The Vendor will then begin work on the requested service. The Customer acknowledges that some equipment may be subject to shipping delays, and the Vendor is not responsible for delays caused by product availability or delivery timelines. The remaining 50% balance is due within fourteen (14) calendar days of project completion.

2. Estimated Timeline for Completion

While most services are typically completed within thirty (30) calendar days from the time the Vendor begins the project, the Customer acknowledges that completion times may vary due to factors beyond the Vendor's control. The estimated timeline, if provided, is only a guideline and not a guaranteed deadline. If the Customer requests a postponement or causes a delay in the progress of the work, such request must be made in writing. In the event that the Customer delay exceeds fifteen (15) calendar days, the Vendor may invoice for all services rendered and materials purchased up to that date. The Customer agrees to pay the invoiced amount within fifteen (15) calendar days of receipt. Additional charges may apply for delays initiated by the Customer.

3. Price Adjustments

Vendor reserves the right to adjust project or service pricing in the event of changes in manufacturer licensing fees or other direct vendor-related costs. The Customer will be notified of any such adjustments prior to being invoiced for the remaining balance.

4. Non-Payment & Late Fees

Failure to make timely payments constitutes a material breach of this Agreement. A monthly service charge of 1.5%, or the highest amount allowed under Florida law, will be applied to any past due balances. Payments will be applied to the oldest outstanding invoices unless otherwise specified. The Customer is responsible for all costs associated with collection, including attorney's fees.

5. Service Contract Duration & Termination

This agreement is for a 12-month term, beginning on the 1st day of the month in which the equipment is installed. The contract automatically renews annually unless terminated with a 60-day written notice prior to the renewal date.

6. Supplemental & Emergency Services

Supplemental services include, but are not limited to, on-site visits, remote support (via phone, email, or screen sharing), travel time, and meetings (in-person or virtual). These services will be billed separately from standard project or service fees. Support requests submitted outside of standard business hours or on holidays will be billed at 1.5 times the normal technician labor rate with a 2-hour minimum, plus travel. Emergency service will be clearly labeled on both the support ticket and final invoice.

7. Technician Time Rates

- Standard Business Hours: \$165/hour (2-hour minimum, plus travel)
- Emergency Hours (After-Hours, Holidays, Urgent Support): \$247.50/hour (2-hour minimum, plus travel)

8. Support Request Methods

Customers may submit support requests by:

- Calling (813) 444-4355
- Emailing support@completeit.io

Support requests made outside of these methods (e.g., text, voicemail, social media) may result in delayed response times from the Complete I.T. support team.

9. Refund Policy

Vendor maintains a strict NO REFUNDS policy on deposits, project totals, or any monetary exchanges related to services rendered or contracted.

10. Manufacturer Warranties & Exclusions

Any manufacturer warranties associated with equipment or products provided by the Vendor are limited to the terms and conditions set forth by the respective manufacturer. The Vendor does not offer any separate or extended warranty beyond what is provided by the manufacturer. Manufacturer warranties do not cover damage resulting from misuse, abuse, negligence, vandalism, theft, power surges, acts of God (including but not limited to lightning, flood, fire, or storm), or improper installation or handling by parties other than the Vendor or its authorized agents. The Customer acknowledges that any such damages are not covered under warranty and may require additional service, replacement, and/or labor at the Customer's expense.
