## FIELD INSPECTION REPORT

October 7, 2021

Rizzetta & Company

John R Toborg – Manager, Field Services

# Summary, Clubhouse

## General Updates, Recent & Upcoming Maintenance Events

- ❑ During the month of October, all Bahia turf shall receive an application of 1250 lbs. (25 – 50 lb. bags) of 24-2-11 fertilizer with a Pre-Emergent Herbicide. Additionally, all St. Augustine turf shall receive an application of 1050 lbs. (21 – 50 lb. bags) of 24-2-11 fertilizer with a Pre-Emergent Herbicide. Ornamentals shall receive an application of 800 lbs. (16 – 50 lb. bags) of 8-0-10 fertilizer. And finally, all Palms shall receive an application of 750 lbs. (15 – 50 lb. bags) of 8-0-12+4Mg fertilizer.
- ❑ In November, all palms shall receive an application 750 lbs. (15-50 lb. bags) of 8-0-12+4Mg fertilizer.
- ❑ In December, all St. Augustine turf shall receive an application of 1050 lbs. (21 – 50 lb. bags) of 20-0-12 with a Pre-Emergent herbicide.
- ❑ I ask that Yellowstone notify the Field Services Manager & Staff at least 5 days ahead of installation and check in with Staff on day of application so Staff can verify quantity & type.

The following are action items for Yellowstone to complete. Please refer to the item # in your response listing action already taken or anticipated time of completion. **Red text** indicates deficient from previous report. **Bold Red text** indicates deficient for more than a month. **Green text** indicates a proposal has been requested. **Blue** indicates irrigation, **Orange** indicates FH Staff. **Bold underlined is information or questions for the BOS.**

1. Treat all active fire ant mounds in all beds. Several were noticed along the front walkways of the clubhouse. Once mounds are dead, return to mound and rake smooth to re-expose turf or mulch.
2. I believe several shrubs (Dw. Firebush) were affected by the recent power washing of the clubhouse roof. Hopefully, these will recover. (Pic 2)

3. Apply (and re-apply as necessary) an insecticide to the Petite Salmon Oleander on and around the pool deck. Trim these plants to encourage new growth to form a compact crown. (Pic 3)

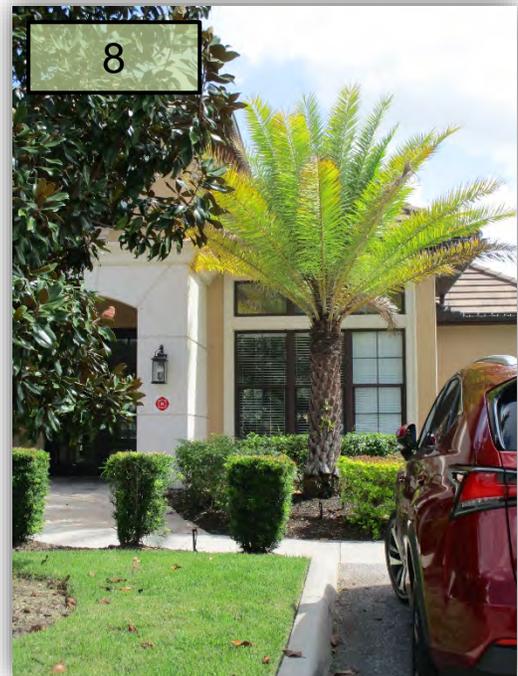

4. Crews to make sure all yard drains in the lawn surrounding the pool are kept edged and cleared at all times.

# Clubhouse, Main Entrance

5. In a street or open landscaped area, I would not ask for single fronds to be removed, however, on a pool deck or playground, park area, it is important to remove these (and seed pods) to prevent injury if they happen to fall. There are also many seeds that have fallen and are currently in the beds. These should be raked out as they will become saplings when they germinate. Flower stalks can remain as they are vital for pollinators. (Pic 5)

7. In my opinion, I would rather see no plants remaining (in a bed that used to be full) than one or two scraggly plants. Therefore, I would like singular scraggly plants to be removed from these beds. We can work on a landscape enhancement plan at a later date.
8. Make sure all palms (especially those on the pool deck surrounded by what I am sure is high alkaline soil) receive the required amount of fertilizer. The spec calls for 1 ½ pounds of 8-0-12+4Mg per 100 SF of Palm canopy. This fertilizer (also referred to as Palm Special) shall be sprinkled around the dripline of the palm canopy. (Pic 8)

6. Right before the previous contractor left, many of the landscape beds were sprayed with an herbicide and left in this condition. Yellowstone needs to line trim and hand pull the dead material from these beds and maintain the edges. (Pic 6)

9. On the inbound side of the main entrance behind the sign monument, there is another palm with Ganoderma. This palm should be removed immediately and as much of the rootball dug out as possible. This area is pretty full of existing trees and since this palm is not part of a pattern, replacement with a hard wood is not necessary. All palms up front were recently pruned by the same company for holiday lighting. Thankfully, Ganoderma is usually confined to the lower 4'-5' of the palm trunk and is not transferred mechanically. (Pics 9a, b & c >)

# Main Entrance, Guardhouse, Rec Center

**10. Would the BOS like to have a dead Pine Tree removed approximately 20' into the wooded area on the inbound side of the main entrance? Or would the BOS prefer to leave in place. It runs the risk of falling into some of the District's landscape.**  
(Pic 10)

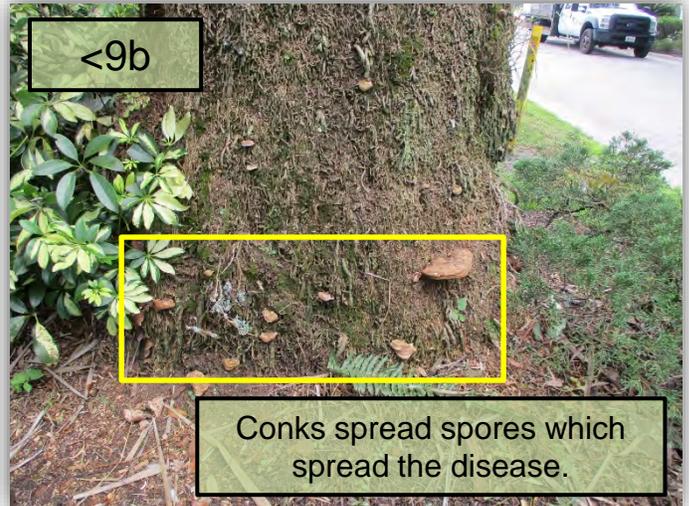

12. Yellowstone to chip away at the landscaping on the back side of the wall mentioned in Item 11 to get it into good shape. It has been allowed to become overgrown.

13. Inspect the browning Fakahatchee Grasses in front of the Guardhouse. Treat accordingly.

**14. Annual flowers are tentatively scheduled to be pulled the week of Oct. 18<sup>th</sup>.**

15. Remove seed pods in the triangular parking lot of the Rec Center.

11. Crews need to make sure to maintain the large hedges along the front wall along 64. Also make sure these plant species are terraced and delineated along this long buffer. Remove vines from plants and wall. Remove hanging Spanish Moss from trees. (see >)

# Rec Center, GreyHawk Blvd.

16. Crews to be very cautious of scalping the turf on the roundabout in the Rec Center entrance. A smaller mower should be used.

17. Clean out dead material from the Crinum Lilies in front of the Rec Center. Make sure all Tree Ligustrum are being trimmed away from all structures including the Rec Center roof line.

18. Another Palm (this time a Queen Palm) has died due to Ganoderma near the Rec Center totlot. This rootball should be removed as completely as possible. As long as the conks are being produced, spores are being produced. (Pic 18)

19. Trim the Star Jasmine behind the Rec Center between the Tennis and Basketball courts.

20. Clean up and delineate all individual landscape beds on the back side of the pool at the Rec Center. Hand pull the weeds in the open mulch beds.

21. Crews must be able to gain access to the pool equipment area at the Rec Center so they can remove volunteer Brazilian Peppers and other weeds.

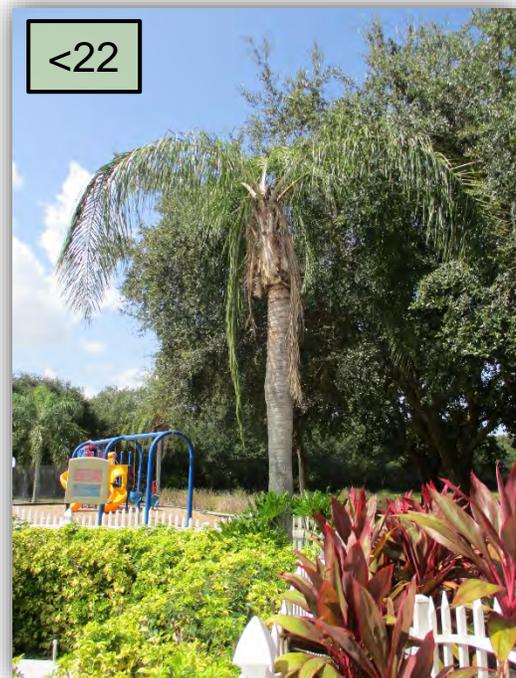

22. Yellowstone to flush cut and dispose of this Queen Palm near the Rec Center pool equipment that was struck by lightning. (Pic 22>)

23. Delineate the Dw. Firebush from the Gold Mound and Juniper on the SE side of the Rec Center. Do not allow these to become overgrown. (Pic 23)

24. Clean up the perimeter buffer of the Rec Center parking lot. I would start by raking out most of the old piled-high mulch.

25. We need to monitor this Oak on GreyHawk Blvd. (GHBlvd.) north of the Rec Center. It is consumed by about 50%-60% dieback. (Pic 25>)

# Greyhawk Blvd. & Daisy Place, Snapdragon, Fern Walk

- 26. Maintain the Dw. Firebush and Sweet Viburnum at different heights at the Lift Station at GHBlvd. and Daisy Place.
- 27. Eradicate weeds in the landscape beds at GHBlvd. and UMRR.
- 28. Hand pull weeds in the beds at the entrance to Hawk's Hammock.
- 29. Palms appear to be very hungry, so we need to ensure both fall applications of fertilizer are applied in required quantities. (Pic 29)

- 30. Several trees on Snapdragon need to be lifted up to the 14.5' requirement.
- 31. Ensure the entire Sandankwa Viburnum hedge outside Petunia along 117<sup>th</sup> is being maintained and weeded. (Pic 31>)

- 32. At the pocket park at Rosemary and Fern Walk, Brazilian Peppers have been allowed to encroach into the CDD-maintained turf. These need to be constantly cut back. (Pic 32)

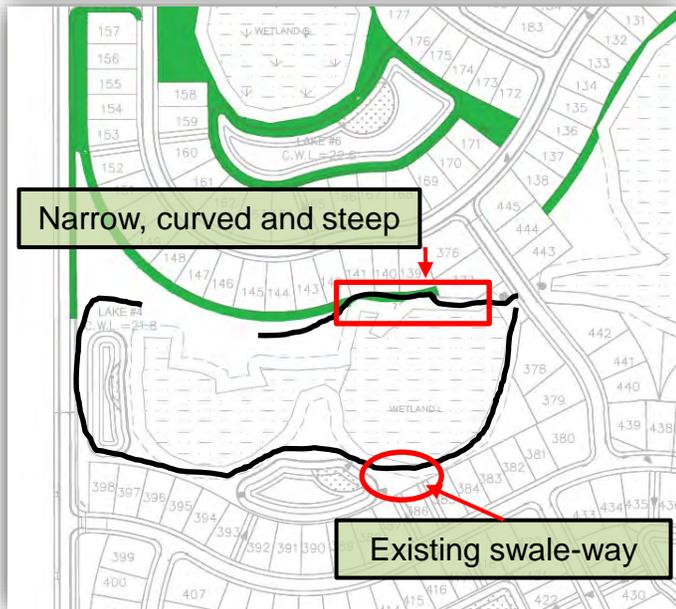

- 33. Remove a dead Wax Myrtle from the same park as above. Allow the Wax Myrtle to grow more naturally. Shearing these plants leads to an early death.
- 34. Hand pull a yellow flowering vine on the Ornamental Grasses and other hedges along 117<sup>th</sup> northward from Rosemary.
- 35. Clear overhead and along the sides of the trail off Goldenrod.

# Himalaya, Brambling, 133<sup>rd</sup>

**36. With the BOS's approval, I would like to engage the District Engineer in helping us to determine if we can perform any alteration to a drainage outfall swale-way to gain access to a large open field that we mow. Currently, Yellowstone is maneuvering a large mower between very narrow rear yards and wetlands on steep slopes on the north side of the wetland west of Himalaya Way to get to this area. It would be easier to access form the south side of this wetland. (see below)**

**37. Remove two dead Tree Ligustrum at Heron Pointe and Peregrin. This bed is full, and I do not feel replacement is necessary. Remove vines on these trees. (Pic 37)**

- 38. Hand pull Potato Vine from the plantings along the east side of Brambling.
- 39. Remove dead growth from the Pampas Grass around the pond on Brambling. These Washington Palms also need to be trimmed.
- 40. Yellowstone has some catch-up work on the east side of the wall along 133<sup>rd</sup> leftover from the previous contractor. I have asked them to bush hog and then begin regular maintenance here. (Pic 40)

**41. Flush cut and dispose of this dead plant on 133<sup>rd</sup> south of Brambling. (Pic 41)**

**42. We need to make sure we are keeping the CDD-planted trees between the rear lot lines and the walls on the property perimeters lifted.**

# Honey Flower, Mulberry, Goldenrod, Church Wall Buffer

43. Flush cut a palm trunk at Honey Flower & Mulberry and remove weeds from this bed. Actually, most these beds need to be weeded. (Pic 43)

44. I am not familiar with the history of these trees on the south side of Mulberry east of the clubhouse. One has died and I understand these are not irrigated. Both these species require water. (Pic 44)

45. Remove weeds from the Dw. Firebush in the Buttercup/Mulberry Pocket Park. Remove Virginia Creeper from the Wax Myrtle.

46. Remove dead growth and Bitter Melon vine from the Cedars at the church wall buffer. Maintain Viburnum at a 6'-7' height. Line trim this area better. Flush cut a dead Pine on the back side of the wall. (Pic 46>)

47. I am not familiar with warranty history of at least two Magnolias on either side of Dogwood at Mulberry. However, one is dead, and another is almost dead. Is the BOS interested in receiving a proposal for their replacement perhaps with a more suitable tree? (Pic 47)

48. Remove dead growth out of the Bird-of-Paradise at the 2<sup>nd</sup> Quail Grove entrance. Cut a broken limb off a street tree on GHBlvd. At Mulberry.

49. Trim Silverthorn around the Cedars at Goldenrod. Reduce height of Bougainvillea in front of all village entrance sign walls.

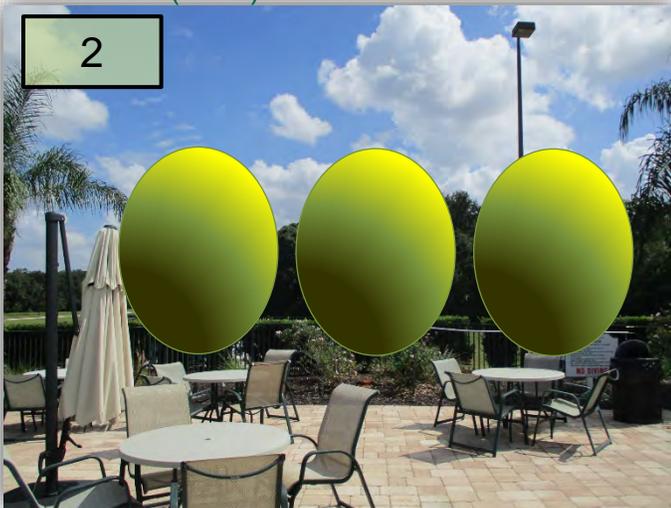

# Proposals

1. Yellowstone to Install & Invoice (with the Board's approval of this procedure) a replace Podocarpus to fill in where one has died along the fence line on the back side of the pool deck. Plant shall be a 3 Gal., FULL Podocarpus. (Pic 1)

2. We lost a Queen Palm to Ganoderma on the back side of the pool deck. Since we should not re-plant another palm (all are susceptible and Ganoderma is incurable and remains in the soil indefinitely), I have asked for a proposal to install three (3) 45 Gal. Shady Lady Black Olive trees, 45 Gal. *Bucida buceras*. (Pic 2)

3. Yellowstone to provide a proposal to completely remove the dying Sylvester Palm at the main entrance (inbound side) including as much of the rootball as possible. (Item 9 in report)

## AGREEMENT

This License Agreement (this “**Agreement**”) is made as of the \_\_\_\_ day of \_\_\_\_\_, 2021, between GREYHAWK LANDING COMMUNITY DEVELOPMENT DISTRICT, a community development district organized under the laws of the State of Florida (“**Licensor**”), and PULTE HOME COMPANY, LLC, a Michigan limited liability company (“**Pulte**”) for the benefit of Pulte’s Permitted Agents (defined below) (Pulte and Permitted Agents are hereinafter collectively referred to as “**Licensee**”).

### Recitals

WHEREAS, Licensor is the owner of certain real property described on Exhibit A, attached hereto (the “**Greyhawk Property**”).

WHEREAS, Pulte is the owner and developer of a residential subdivision described on Exhibit B, located near the Greyhawk Property (“**Magnolia Ranch**”).

WHEREAS, Pulte intends to engage certain contractors and consultants (“**Permitted Agents**”) for the design, maintenance, and installation of landscaping and fence improvements within Magnolia Ranch.

WHEREAS, Licensee desire access over, on, and through the portion of the Greyhawk Property generally depicted on Exhibit C, attached hereto (the “**Landscape Maintenance Route**”) for the purpose of driving and parking commercial vehicles within the Landscape Maintenance Route in connection with the transportation, delivery, and maintenance of the landscaping and fence improvements and all related equipment and materials to and from Magnolia Ranch for the Licensor’s side of the fence improvements (the “**Approved Use**”).

WHEREAS, Licensor hereby grants Licensee a license over, on, and through the Landscape Maintenance Route for the Approved Use.

NOW, THEREFORE, for and in consideration of the foregoing recitals, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties have agreed as follows:

### Agreement

1. Recitals. The Recitals are true and correct and, by this reference, are incorporated into and made a part of this Agreement.
2. License. Licensor hereby grants to Licensee a non-exclusive license to use the Landscape Maintenance Route for the Approved Use (the “**License**”).

3. Term. Unless terminated sooner pursuant to the terms hereof, the term of this Agreement and the License granted herein (the “**Term**”) shall commence on **November 1, 2021** and shall terminate twenty (20) years after the date hereof, and be automatically extended for successive periods of twenty (20) years unless (a) any party is in default of this Agreement and the defaulting party has failed to cure such default during the fifteen (15) day cure period set forth in Section 6 herein, and the non-defaulting party has elected to terminate this Agreement upon written notice to the defaulting party, or (b) applicable laws or governmental regulations have changed such that one or more material provisions of this Agreement are no longer enforceable by Licensor, or (c) Pulte and Licensor have mutually agreed to terminate this Agreement. Upon expiration of the Term (unless extended), or upon early termination hereunder, Licensee shall immediately cease utilization of the Landscape Maintenance Route and the Approved Use.

4. Use and Maintenance. Licensee shall have the right to access and utilize the Landscape Maintenance Route for the Approved Use. Pulte, on behalf of itself and its Permitted Agents, shall comply with all applicable laws, ordinances, regulations, and codes related to the Approved Use of the Landscape Maintenance Route. Any damage or destruction to Licensor’s property in connection with this License shall be promptly repaired at sole cost to the Licensee to its pre-existing condition or better.

5. Indemnification. In exchange for the consideration previously referenced herein, the receipt and sufficiency of which are again acknowledged by Licensee, Licensee (“**Indemnitor**”) hereby agrees to defend with Licensee’s counsel approved by Licensor in Licensor’s reasonable discretion, to hold harmless and indemnify Licensor (“**Indemnitee**”) from any liability for injury, loss, accident or damage to any person or property, and from any claims, actions, proceedings and expenses and costs in connection therewith (including, without limitation, reasonable counsel fees), (i) arising from (a) the omission, fault, willful act, negligence or other misconduct of Licensee, or Licensee’s contractors, licensees, agents, or invitees, or (b) any use made, or matter done, or occurring on the Licensor’s property in connection with this License by Licensee, or Licensee’s contractors, licensees, agents, or invitees, or (ii) resulting from the failure of Licensee to perform or discharge its covenants and obligations under this Agreement.

6. Default. In the event Licensee or Licensor is in default in the performance of any of such parties’ respective obligations under this Agreement, and such default is not cured within fifteen (15) calendar days after written notice thereof, then the non-defaulting party (either Licensee or Licensor, as the case may be) shall have all rights available under the law including but not limited to the following remedies: injunctive relief, damages, and termination of this Agreement. As set forth in Section 3 above, upon the termination of this Agreement, all rights of Licensee hereunder shall terminate.

7. Gate Access. An entrance gate is located on the corner of Greyhawk Boulevard and Upper Manatee River Road (the “**Gate**”). Licensor shall provide a means of entry to Licensee and the homeowners’ association established for Magnolia Ranch (the “**HOA**”) for use of this Gate. The means of entry provided by Licensor (which may include a gate code, clicker, key fob, etc.) shall allow Licensee 24/7 access to the Landscape Maintenance Route. If Licensee’s means of entry through the Gate is changed during the Term of the License, Licensor shall immediately

provide the new code, clicker, key fob, etc. to Licensee and the HOA. Contact information for the HOA will be provided by Pulte to Licensor following the formation of the HOA.

8. Assignment. This Agreement is personal to Licensee and may not be assigned by Licensee without the express written consent of Licensor; provided, however, that Pulte shall be permitted to assign its right, benefits and obligations hereunder to the HOA without Licensor's consent. Subject to the aforementioned restriction on assignment, this Agreement shall be binding upon and inure to the benefit of Licensor, Licensee, and their respective successors and assigns.

9. Counterpart Execution. This Agreement may be executed in any number of counterparts, each of which shall be an original and all of which taken together shall constitute one and the same instrument. Electronic signatures on this Agreement or any amendment of this Agreement shall be valid and enforceable to the same extent as original signatures.

10. Recording. This Agreement shall be recorded in the Official Records of Manatee County, Florida and is intended to run with the land governed.

11. Attorney Fees, Governing Law and Venue. In connection with any litigation arising out of or in connection with this Agreement, the prevailing party shall be entitled to recover all of such party's expenses incurred in connection therewith, including reasonable attorney's fees and costs at the trial and appellate levels, at bankruptcy proceedings and proceedings to determine entitlement to and reasonableness of the amount of such fees and costs. The laws of the State of Florida shall govern this Agreement. Any legal action instituted hereunder shall be brought in Manatee County, Florida.

IN WITNESS WHEREOF, Licensor and Licensee have duly executed this Agreement as of the date first set forth above.

**Jim Hengel**

**GreyHawk Landing HOA**

**Seat3@GreyhawkCDD.org**

**PRICE**

47,044.80 per

acre

## Work Description

---

- Gulf Coast Grass will work with the customer to clearly define the areas to be removed and replaced with new sod.
- The existing turf and weeds to be renovated will be sprayed with glyphosate.
- 10-14 days later we will begin removal of the existing grass and weeds.
- The area to be removed will be cut with a sod cutter, removed and hauled to a dumpster. The dumpster will be provided by Gulf Coast Grass and will be stored as close as possible to the work site.
- After removal the area will be raked smooth and prepared for sod installation.
- The new sod will be Provista St. Augustine as specified by the customer.
- The new sod will be rolled after installation.
- The price to complete this work is \$47,044.80.

## Terms & Conditions

---

- Final price will be determined by square feet of sod delivered and used for the project.
- Greyhawk Landing is responsible for marking all sprinkler heads, valves and utility lines.
- Gulf Coast Grass is not responsible for damage made to irrigation lines that are buried less than 6 inches from the surface.
- Gulf Coast Grass is not responsible for asphalt repair at dumpster sites. However, we will take all reasonable steps to protect the asphalt from damage.
- The project should take approximately six days per acre once the sod removal begins.
- A 25% deposit will be required prior to the start of the work. The remainder will be due upon completion.
